As a 38-year-old Republican, I am disappointed his bipartisan effort has not reached this far across the aisle to include some of the rest of us. Especially people my age, we are not baby boomers. We are Generation X. We grew up through the malaise of the Carter years. We grew up watching America internationally impotent in the world. We watched friends, neighbors, family lose their jobs under stagflation.

And then we watched Ronald Reagan's administration come in. We watched America be truly respected throughout the world. We watched free market economies grow and expand to provide opportunities for us as we left our college years, and we were blessed enough to see the fall of Godless communism throughout Eastern Europe.

But then we are also very practical opinion people for another reason, because shortly after that, we got to see our generation quoting Thomas Jefferson and James Madison on the streets of Tiananmen Square being gunned down by yet another totalitarian government, and we realized early on in life that life is a struggle between good and evil and in many ways it is a perpetual one.

My generation also had some difficult lessons to learn too. We were the first ones to realize that a sexual infection which was once curable could be superseded by sexual infections that could kill people; that we would have to continue to work our lives longer and longer with even the remote chance that we would have Social Security because we were the first generation smaller than the one that went in front of us, which was never part of the plan. We have to watch our parents, who are living longer, come to us for help as we try to watch the soaring cost of tuition for our own children behind us.

And perhaps because of the realistic, practical nature of my generation and perhaps something we have gotten from our grandparents, the Greatest Generation, that I think it is time on Iraq to ask some fundamental questions, and I think they are exceedingly fair questions to ask because no one has answered them and no one has bothered to posit any answers to them.

I want to know what the plan is from the minority party. The multilateral mantra has been disproved by the U.N.'s Oil-for-Food scandal, their inability to stop genocide in the Sudan or in Rwanda prior to that, and their abject anti-Americanism in so many of their member states.

Would we like to see multilateralism work and the reconstruction of Iraq? Absolutely. But I do not think we the American taxpayers should hold our breath until the governmental entity where we pay 22 percent of their core funding decides that they do not dislike us as much as they do.

So multilateralism is also not going to work because the Democratic approach to that has been quite simple. The Democratic Presidential nominee has derided and criticized our allies whose soldiers are fighting and dying next to us in the fields of Iraq as the coalition of the bribed and the coerced, the bought, and the extorted. How do they build an international coalition attacking their allies? Whom are they trying to add? One cannot attack their allies and add their adversaries and call that a true coalition, especially if one is trying to be the Commander in Chief of the United States Armed Forces.

So then we have to ask, what is the plan? We have not heard a plan. We have to ask, on the question of weapons of mass destruction, what constitutes a significant tie with al Qaeda? If one does not believe there were significant enough ties, there were contacts, although the same intelligence which is being derided is also being used to disprove that they were collaborative, which is quite an interesting feat rhetorically. I want to know under what circumstances, what was the threshold the minority party would hold Saddam Hussein to before they would engage in defending the United States of America without a veto from the U.N. When could we unilaterally protect ourselves if necessary?

Ten tons of yellow cake from Niger, which the French Government, the Italian Government, and the British Government still stand by exclusive of the bogus material, the one bogus document. What is the threshold? What is a collaborative link? What is their standard for defending the United States against an external threat from a terrorist-sponsoring state and a terrorist-sheltering state? If they did not like President Bush's, if they do not believe he had enough, then I ask them to tell us what their standard is so as we head into this election we can have a debate on issues, not individuals, because the American people deserve to know what they are going to do to defend this country if they hold public office today and tomorrow and probably for our lifetime in this war on terror. I think those are fair questions to ask.

I think we should also ask the question about the moral equivalency that we used to see between the Soviet Union and the United States and the left in this country, I want to ask the question where did the moral equivalency go? There is more outrage over Abu Ghraib prison than there is the treatment of American soldiers that are shot and killed by the insurgents and terrorists in Iraq. The actions at Abu Ghraib were horrible, but the purpose behind them was to gather information from people who were shooting at and trying to kill our troops to protect our troops and protect the United States citizens, just as it was at Guantanamo Bay. The goal of the terrorists that are violating every civilized notion of captivity, their goal is to foist terrorism back upon Iraq and back upon the rest of the world.

It is so sad, I would not even settle for moral equivalency from the left these days that would wax nostalgic for it.

Finally, I just find it very difficult to see this debate continue and not to see a plan. I reiterate that. We are sentient human beings. We have the gift of reason if we so choose to use it. And as we head into this troubled time for our country, deeper and deeper we go, the longer and longer it takes us to come to each other with ideas to debate and discuss for the common good that can be objectively analyzed and assessed by the electorate and by each other, the worse off we are going to be.

So in the future I would just ask a simple question of anyone who has any opinion on this, on Iraqi reconstruction, on weapons of mass destruction, on the role of the United Nations in this world. It is nice to have their protestation and opinion, but show me their plan and perhaps we can proceed together.

Mr. PEARCE. Mr. Speaker, I thank the gentleman for his comments and appreciate his attention to the key questions in this conversation.

I traveled to Iraq at the end of October and the first part of November with the gentleman from Michigan, and we saw the same things each day at noon for 3 days. Each day at noon and in the evening meal we were in chow halls with 6 and 7 and 800 young men and women from America. I would wander throughout giving New Mexico flag lapel pens to young men and women. The constant question I heard from young men and women there was why do my parents not know the truth about this war and why do they not know the truth about what we are doing here, the good that we are doing in reconstruction? Those were random contacts throughout every chow hall from Kirkuk to Baghdad to Tikrit. There is no explanation why the press refuses to tell the accuracies and instead to tell just one side, often not even telling that side with truth.

To address the concepts of why the press might act in such ways, I yield to the gentleman from Utah (Mr. BISHOP).

Mr. BISHOP of Utah. Mr. Speaker, the State of Utah has the honor of having a higher percentage of our members in the Reserve and the National Guard involved in the Mid East conflict than any other State in the Nation, and we bear that statistic with a great deal of pride.

I have attempted to make sure I was there to visit with every group of returning Reservists and Guardsmen from the State of Utah. And almost inevitably, as those individuals were coming back and we had a chance to talk briefly with their families, the message they were telling us is that what they are seeing or their families are seeing about the situation in the Mid East is not the same thing that they experienced as soldiers serving there. One of the great Utahans, Bob Gross, who has just returned from a year as a special senior adviser to the Iraqi ministry of labor and social services, had the same message to say, that what he experienced in his time there in Baghdad was not the same thing as the message that has been given. The question has to be why is this message seeming to be so garbled. Those experiencing the situation in Iraq and those talking to us who have lived there have a different message than what we may be having over the media.

In my respected opinion, part of that problem rests in our understanding of the purpose that we have there in the media. If the Members would go back with me, when I was a legislator in the State of Utah, one year we came to the State with a total new restructuring of the State retirement system.

□ 2350

I was very excited about this system going in there, because we had come up with a program that would actually enhance the benefits of the individuals on the retirement system and cut the costs to the State at the same time, and I thought we have reached political nirvana. We will be hailed as the conquering heroes. This is going to be the greatest PR coup that could ever happen, because we have done the impossible.

As we started the discussion of that restructuring, I realized it was not being covered by any of the media. Finally, with some courage, I went to one of the senior reporters who covers the legislature and I said why are you not covering anything about our total restructuring of the State retirement system?

He said, "ROB, you know, you are right. It is probably one of the four major issues before this legislature. But let's face facts, it is retirement issues. They are boring. No one wants to read or talk about retirement."

I recognized then and there, he was right. Those issues were boring. They were dull. I also recognized that the purpose of the media is not merely to explain events, it is not to tell the truth solely, it is also to sell papers and to attract viewers. And to do so, the emphasis must be on that which is unusual, on that which is a conflict. No one is ever going to report that 100 people safely crossed the street yesterday. They will report the one person who got hit. That is the reality of the situation.

If we expect all the issues, the truth to come out from the media sources by themselves, in all respects we are asking them to do something with which they are not capable, because not necessarily of intent, but because of the situation in which they have to be in a competitive world market to sell papers and attract viewers at the same time.

We always talk about Jefferson who said, "Were it left to me to decide whether we should have government without newspapers or newspapers without government, I should not hesitate a moment to prefer the latter."

That statement was made before he was ever president, before he spent 12 years actually in Washington, eight as president.

After his experience as president, Jefferson said, "The outright suppression of the press would be no more injurious to the public good than the newspaper's abandoned prostitution to falsehood."

Later also he later said, "The man who never looks into the newspaper is better informed than he who reads them."

Now, I not going to go that far, but I am going to tell you that what I think would be wise to do is look at history as one of the guiding factors in how we view the future and where we are going.

We all know that after World War II, there were American deaths in the effort to stabilize Germany, post-World War II, after the fighting supposedly had ended.

To me the most analogous historical situation is still the Spanish-American War. Then activist Teddy Roosevelt said it was not much of a war, but it was the only one we had. Senator Chandler on the Senate floor said any war with Spain will last between 2 weeks and 90 days, and he was totally accurate, the war lasted 90 days.

As America became giddy with success in the Spanish-American War, with very little bloodshed, we realize then we had the responsibilities of stabilizing the new territory of the Philippines. That stabilization took 6 years. That is where the bitterness was, that is where the deaths took place, that is where the cost was, in an effort for that stabilization, and it did not take place until the capture of the Filipino rebel leader, Emilio Aguinaldo, at which time the now President Teddy Roosevelt declared the stabilization effort successful and the war in the Philippines was over. In fact, the fighting of the insurrection still lasted two more years. But with the capture, then the corner had been turned.

We have done the same thing in Iraq. With the capture of Saddam Hussein, the court hearing of Saddam Hussein, the turning of government control over to the Iraqis themselves, this stabilization effort in Iraq is going forward, and it will be successful.

There are some who say there is no chance whatsoever of actually turning Iraq into a democracy. They said that same thing after World War II about Japan, another area that had no democratic tradition, that had fought a bitter war. But we were successful in our efforts of reforming that area, changing the system and moving forward.

May I quote with just some words from Mr. Gross, who once again, whose returned and his experience first-hand in Iraq, by saying some people would say, "Rather than fight in Iraq, we should fight terrorism. Well, terrorism has moved to Iraq. It is the center of that war on terrorism. Iraq is the pivotal point. Terrorists had either tacit or direct support from Saddam, and the U.S. and coalition forces have created a tremendous problem for the terrorists. And now the Jordanians and the Syrians and the Saudis will have to rethink their relationship with terrorists. Iraq is the linchpin."

We are moving forward in Iraq. It is important as a key element in this fight against the war on terror. It is possible to create a democracy in Iraq, which will have immense effects on assisting the United States in our relationship in the entire Middle East, and it is one of those things that we are going to have to fight and work through looking at history, not necessarily referring only to the mass media, which has different kinds of agendas of their own.

Mr. MCCOTTER. Mr. Speaker, if the gentleman will yield further, I am most impressed by the gentleman from Utah's understanding of the Spanish-American War. In fact, I would only add that there were also front page stories about American troops and captured insurgents in that war as well.

The gentleman brings up a very good point that I would welcome the opportunity to address, as my district has many constituents who are Iraqi and Arab American and, more importantly, many of my friends are.

One of the things we have heard repeatedly throughout this debate is the Iraqi people will not take to democracy, that they have suffered too long under a totalitarian yoke.

Well, what country could you not say that about in this world? Half have suffered under totalitarianism with no history of democracy, including up until the fall of the Soviet Union, Russian people themselves? How many Eastern European countries never knew full freedom, only knew serfdom and feudalism?

So I would like to add to my list of requests for plans one final one: Those people who believe that there are some human beings that cannot take to democracy, I would like your test and your complete list of those who you deem unfit for freedom.

Mr. PEARCE. Mr. Speaker, I thank both the gentlemen from Utah and Michigan, and am always compelled to understand that this institution is inhabited by people with great insights and great skills in communicating them, and they are demonstrating that tonight.

Mr. Speaker, as we conclude our time, I would like to mention that not only do we have the 9/11 Commission that has contradicted both Richard Clarke and former Vice President Al Gore, but also the Butler Report and the Senate Intelligence report which just came out had several conclusions, and I will just briefly go through those, because we have so many things to cover in the last 5 minutes.

But Conclusion 1, Iraq was procuring dual use equipment that had potential nuclear applications, this from the U.S. Senate Permanent Select Committee on Intelligence reporting on the U.S. pre-war intelligence assessment on Iraq.

Also the intelligence reporting did support the conclusion that chemical and biological weapons were within Iraq's technological capability, that Iraq was trying to procure dual-use materials.

Conclusion 91, that the CIA assessment that Iraq had maintained ties with Palestinian terrorist groups was supported by intelligence. The CIA was also reasonable in judging that Iraq appeared to have been reaching out to more effective terrorist groups, such as Hizbollah and Hamas.

Conclusion 92, that the indicators of a possible Iraq-al Qaeda relationship was a reasonable and objective approach to the question.

Conclusion 93 was the CIA reasonably assessed that there were several likely instances of contacts between Iraq and al Qaeda throughout the 1990s.

Conclusion 94 supports it.

Conclusion 95 supports it.

But if we go back to the news media, again looking at the news media's flip-flop on this issue, back in 1999, many in the news media were publicly reporting the ties and contacts between Iraq and al Qaeda.

Newsweek Magazine, the January 11, 1999 issue entitled "Saddam plus bin Laden," which read in part, "Saddam Hussein, who has a long record of supporting terrorism, is trying to rebuild his intelligence network overseas, assets that would allow him to establish a terrorism network. U.S. sources say he is reaching out to Islamic terrorists, including some who may be linked to Osama bin Laden, the wealthy Saudi exile accused of masterminding the bombing of two U.S. embassies in Africa last summer."

That article from Newsweek, January 11, 1999.

ABC News, on January 15, 1999, reported that intelligence sources say bin Laden's long relationship with the Iraqis began as he helped Saddam's fundamentalist government in their efforts to acquire weapons of mass destruction. It continues that ABC News has learned in December an Iraqi intelligence chief named Faruq Hijazi, now Iraq's ambassador to Turkey, made a secret trip to Afghanistan to meet with bin Laden. Three intelligence agencies tell ABC News they cannot be certain what was discussed, but almost certainly they say bin Laden had been told they will be welcome in Baghdad.

NPR reporter Mike Shuster reported in an interview with Vincent Cannistraro, who was the former head of the CIA's counterterrorism center, he says that Iraq's contacts with bin Laden go back some years to at least 1994, according to one U.S. Government source. Hijaz met with him when bin Laden lived in Sudan.

Mr. Speaker, when the news agencies declare these contacts under one President and disaffirm them under another, it makes them appear to have no more credibility than the National Enquirer.

Mr. Speaker, we have got several quotes here from Senators, and I recognize that my time has drawn to a close. Liberating Iraq was the right thing to do. The war on terror, al Qaeda, have close relationships with Iraq.

We will continue the discussion next week, Mr. Speaker.

EXTENSIONS OF REMARKS

AMERICA, RAY CHARLES STYLE

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. RANGEL. Mr. Speaker, I commend Mr. William Raspberry on his column in the Washington Post on July 5, 2004. Mr. Raspberry described well the importance of the life and music of Mr. Ray Charles. The way Ray Charles embraced the wonderful qualities of the United States is extremely important for many African-Americans who grew up in segregated America. As Mr. Raspberry stated, many African-Americans feel like outsiders in this country, but Mr. Charles was able to embrace and celebrate the presence of brotherhood and justice as fundamental American values. The music of Ray Charles transcended barriers between black and white. His life and music will never be forgotten. I applaud Mr. Raspberry for reminding his readers of the impact this great man had on so many. I hope that my colleagues join me in honoring Ray Charles by supporting the bill I introduced, H.R. 4633, which authorizes the Secretary of the Treasury to create a gold medal honoring this great American performer.

[From the Washington Post, July 5, 2004]

AMERICA, RAY CHARLES STYLE

(By William Raspberry)

I'll know that today is the "Fourth of July" (no matter what the calendar insists) when I hear my friend's stereo pulsing out "America the Beautiful."

The Ray Charles version, of course.

Charles's recent death, at 73, brings it to mind, but I've been aware for some years now how his prayerful exaltation of America has become the virtual theme song of the Fourth of July. What did Americans have for a theme song before that? Was it all Sousa marches, with hot dogs and applause-line oratory?

Charles transformed the holiday for me—from the Norman Rockwell tableaux that never seemed to include anyone who looked like me—to a holiday for all Americans.

And how did he manage that?

Maybe I should start with what may be my one important insight: that in most controversies, thoughtful people secretly believe both sides, espousing the one and suppressing the other depending on the company it puts them in. That is why it is so hard to find white Southerners of my approximate age who will admit to having been racists back in the days of Jim Crow.

What they recall, I believe, is that they harbored misgivings about the way things were, and now they find it more comfortable to recall the misgivings than their toleration of the way things were. I always believed that segregation was wrong. . . . And they did.

I have harbored similar misgivings about the willingness of black Americans to think of this country as someone else's house—and to view it as complaining outsiders looking in. Of course there has always been ample basis for black people to feel like outsiders, at the very least to internalize W.E.B. DuBois's sense of the "twoness" of being black in America. But didn't we, perhaps, overdo the outsider-ness?

You see, I always cherished America—even if I acknowledged it only as the too-seldom played B-side of my consciousness. Charles's "America" invited me to turn the record over.

Charles could do that. He had a way of cutting through the confusions and mixed emotions and preconceptions, and reaching us at our core. The genius that made it possible for him to universalize the blues and spirituals and country—anything he touched—made it possible for him to universalize patriotism, too.

But if Ray Charles changed the Fourth of July with his "America the Beautiful," he also changed the song. "God done shed His grace on thee! He crowned thy good, yes he did, in a brotherhood."

The shift isn't merely from Katharine Lee Bates's elegant lyric to the black vernacular; it is a shift in meaning.

As Kenneth Moynihan noted in a recent commentary in the Worcester (Mass.) Telegram & Gazette, Bates penned a prayer: "[May] God shed his grace on thee and crown thy good with brotherhood." Ray made it a fait accompli.

As Moynihan put it, "A fervent hope for the future has been turned into a happy fact of the present."

It is not, Moynihan argues, an improvement.

"People much prefer to believe in their own righteousness and that of the nation than to think about their failings," he wrote. "No doubt the passionate affirmation of American brotherhood as a divine dispensation already granted accounts for a healthy share of the popularity of Mr. Charles's rather radical modification of the song."

He's right, of course. And maybe he'd be right to remind those white Southerners I talk to that they really did used to be racists. Sometimes, though, I think it's not a bad idea to let people believe that their nobler instinct represents their "true" self—that it is their greed, their envy and their bigotry that are the aberration. You know: "As a man believeth in his heart, so he is."

At least for this day, can't we imagine that we are brothers (and sisters) "from sea to shining sea"? And be grateful for that?

Ray Charles says it's all right.

PUNJAB GOVERNMENT CANCELS DEAL THAT ALLOWED DIVERSION OF WATER TO OTHER STATES

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. TOWNS. Mr. Speaker, the Legislative Assembly of Punjab recently annulled a long-standing agreement that allowed the diversion of water from Punjab to other states.

According to the Tribune of Chandigarh, whose article I will be inserting in the RECORD at the end of my remarks, the Legislative Assembly asserted the sovereignty of Punjab in doing so. The newspaper reports that the bill passed by the Legislative Assembly says that "as a sovereign authority [Punjab] considered it its duty to uphold the Constitution and the laws and to protect the interests of its inhabitants."

Apparently, all parties supported this measure. We congratulate them on taking this step forward to protect the interests of the people of Punjab. I urge them to continue claiming, promoting, and establishing the sovereignty of Punjab.

Mr. Speaker, we know that the people of Punjab have been severely oppressed by the tyrannical Indian government. Over a quarter of a million Sikhs have been killed since 1984, according to the Punjab State Magistracy. The Movement Against State Repression reports that 52,268 have been taken as political prisoners, held without charge or trial, some as long as 20 years. According to the Punjab Human Rights Commission, about 50,000 Sikhs have simply been made to disappear by being arrested, tortured, killed in police custody, declared "unidentified bodies," and secretly cremated, without their remains even being given back to their families.

Similar repression has been visited on Christians, Muslims, and other minorities. Yet India continues to say that it is the world's largest democracy.

If India is truly a democracy, it will allow the will of the people to be carried out in regards to the diversion of water. It will allow the people—Sikhs, Christians, Muslims, Assamese, Bodos, Dalits, Manipuris, Tamils, and everyone living under Indian rule—to enjoy the full range of human rights. And it will allow self-determination for these sovereign states.

Until that happens, Mr. Speaker, we should not provide any aid to India. And we should take a stand for self-determination, which is the cornerstone of democracy, by supporting a free and fair plebiscite on independence in Punjab, Khalistan, in Kashmir, in predominantly Christian Nagaland, and everywhere that people seek their freedom from Indian rule. The assertion of sovereignty by the Punjab Legislative Assembly is a good first step. They should act to claim their sovereignty by severing their ties to India. We should take a stand by letting them know that when they do, we will be there with them.

Mr. Speaker, as I mentioned before, I would like to insert the Tribune article into the RECORD at this time.

PUNJAB ANNULS ALL WATER PACTS, CONG, AKALIS JOIN HANDS ON ISSUE

Chandigarh, July 12—A special session of the Punjab Vidhan Sabha today unanimously passed the Punjab Termination of

Agreements Bill, 2004, thereby "knocking down" the very basis on which the Supreme Court had passed its order on construction of SYL—Sutlej-Yamuna Link canal on June 4, last.

This Bill annuls the December 31, 1981, agreement between Punjab, Haryana and Rajasthan signed by the three Chief Ministers in the presence of the late Ms. Indira Gandhi and also all other agreements relating to the water of the rivers, Ravi and Beas. This, the Bill says, was done in "public interest". The annulment has come after 23 long years with two staunch political rivals, the Congress and the Akalis, joining hands to protect the state's riparian rights. Immediately after the Bill was passed, the Chief Minister, Capt. Amarinder Singh, accompanied by the Leader of the Opposition, Mr. Parkash Singh Badal, PPCC president, Mr. H.S. Hanspal, Ms. Rajinder Kaur Bhattal, Mr. Partap Singh Bajwa and a team of legal experts went to Raj Bhavan to meet the Governor, Justice O.P. Verma (retd.), to request him to give his assent to the Bill, as the dead-line for compliance with the Supreme Court order was July 15. The combined delegation spent an hour with the Governor. The Raj Bhavan sources said, "The Bill is being examined."

Capt. Amarinder Singh told TNS that he had not discussed the Bill with Ms. Sonia Gandhi. "Why involve her? When I go to Delhi, I shall brief her".

Presenting the Bill to the House, Capt. Amarinder Singh made an emotive speech giving facts, figures and background to the entire issue of sharing of river waters and steps taken in the recent past to protect and safeguard the interests of Punjab, particularly the farmers and save nine lakh acres going dry and barren, which would affect the livelihood of 1.5 million families.

The Bill says that Punjab was proud of its position in the Indian union, felt equal concern for its neighbours and as a sovereign authority also considered it its duty to uphold the constitution and the laws and to protect the interests of its inhabitants.

Under the 1981 agreement, flow series were changed from 1921–45 to 1921–60, which had the result of increasing the availability of Ravi-Beas waters from 15.85 MAF to 17.17 MAF. The allocation of water made to the states concerned under that Agreement was as under:

Haryana (non-riparian) 3.50 MAF, Rajasthan (non-riparian) 8.60 MAF, Delhi (non-riparian) 0.20 MAF, Punjab (riparian) 4.22 MAF and Jammu and Kashmir (riparian) 0.65 MAF. Under clause IV of this agreement, Punjab and Haryana withdrew their respective suits from the Supreme Court. But the controversy rages on. The issue has become emotive.

Referring to the broad clauses of the proposed Bill, Capt. Amarinder Singh maintained that riparian and basin principles were ignored all along and allocation of the Ravi-Beas waters had always been affected by "ad hoc decisions and agreements, dictated by prevalent circumstances". Here was a typical case involving "emotive" issue of impending transfer of water from "deficit" Ravi-Beas basin to the "surplus" Yamuna basin.

Never any reliable and scientific study of hydrological, ecological and sociological impact of such large scale trans-basin diversion from Punjab to Haryana and Rajasthan had been undertaken. Besides this transfer, diversion was even contrary to the National Water Policy guidelines, he added.

Capt. Amarinder Singh pointed out, "Non-riparian and non-basin states of Haryana and Rajasthan are not only not entitled to any Ravi-Beas waters, even their current allocation and utilisation is totally disproportionate to the areas alleged to be falling in the Indus basin. Therefore, Punjab, as a good neighbour, has accepted such utilisations by Haryana and Rajasthan as 'usages by sufferance' but not as a matter of any recognition of their rights".

He supported this hypothesis, when he posed the question, "Does Punjab have surplus water and do the claimants of our water a legal right to it? Then, he paused for effect, "The answer to this question is a resounding "no", and went on to give the following picture:

All three rivers, the Ravi, the Beas and the Sutlej, flow through the present Punjab and none through either Haryana or Rajasthan. No part of territories of these states fall within the basin areas of the Ravi and the Beas, although, according to unsubstantiated report of the Irrigation Commission, only 9,939 sq. kms. within Haryana fall in Indus basin, against 50,305 sq. kms. of Punjab.

Again, the present utilisation by Haryana was about 5.95 MAF, about 4.33 MAF from Sutlej and about 1.62 MAF from the Ravi-Beas water, through the existing systems. Also out of 17.17 MAF of "surplus" Ravi-Beas water, only 4.22 MAF was allocated to Punjab, a riparian state, against higher quantities to Haryana and Rajasthan. From the total surplus availability of 11.98 MAF of the Beas water, Punjab has been allocated 2.64 MAF.

Therefore, justifying the annulling of the December 31, 1981, agreement and all other agreements relating to the Ravi and the Beas, the Bill seeks to present the fact that ground realities have since undergone a sea change from that date and Punjab settlement of July 24, 1985, under the Rajiv-Longowal Agreement. Therefore, this had made the implementation of that 1981 agreement "onerous and injurious" to the public interest.

The availability of the Ravi-Beas water, 1717 MAF, as on December 31, 1981, has been reduced to 14.37 MAF, as per the flow series of 1981–2002. Haryana has been given 4.65 MA under the Yamuna agreement of May 12, 1994, which will be further augmented by the Sarda-Yamuna link. In the meanwhile, irrigation requirements have increased in Punjab. "The Punjab settlement, except one para 9, relating to allocation of the Ravi-Seas water, has remained unimplemented in letter and spirit, to date.

"In these circumstances, the terms of 1981 agreement were 'onerous, unfair, un-reasonable and contrary to the interests of the inhabitants of the Ravi-Beas basin, who have law-full rights to utilise water of these rivers'. Is the Bill justified? Will it tantamount to contempt of the court? In his well prepared speech, Capt. Amarinder Singh has addressed such questions, as well.

Armed with the House resolution of June 15 that aims to protect the rights of Punjab, legal opinions and all-party resolution of June 12, the Chief Minister said.

"This mandate enables the government to find ways and means to protect the people from adverse consequences of the Supreme Court judgment of June 4. The state had been advised that the obligations arising from an agreement or the contract did not fetter the powers of the legislature to enact a law in public interest.

"We have been further advised that it is a well settled law that the legislature is competent to remove or take away the basis of judgment by law and thereby it does not encroach upon the exercise of the judicial power of the judiciary and the legislative action within its competence, do not commit a contempt of court. However, final decision in all these matters lies in the court, as any law enacted by this august House is subject to a judicial review".

When the Bill had been introduced, Mr. Parkash Singh Badal stood up to express the collective anguish of the opposition that on such an important item, involving the question of "life and death" had been treated lightly by the government and till noon today "we had no idea of what the agenda was all about nor we had received copy of the Bill or what it was all about".

Mr. Badal said the traditions and conventions of the House were being eroded, day-by-day. "It was also a disgrace that even the information inviting us to meet the Governor after the House had passed the resolution was sent by the Congress president, Mr. H.S. Hanspal, who was not involved in this in any which way. How can we discuss anything at such a short notice? We are against political confrontation and are available 24 hours for any thing related to the interests of the state and are willing to support the government".

Thereafter, the Speaker, Dr. Kewal Krishan said he had received a resolution sent by four Akali MLAs, Mr. Parkash Singh Badal, Capt. Kanwaljit Singh, Mr. Gurdev Singh Badal and Mr. Manpreet Singh Badal, for the consideration of the House.

Then, he ruled that since a comprehensive Bill was being presented, they could express their views while speaking on that. Mr. Manpreet Singh Badal and Capt. Kanwaljit Singh suggested that certain provisions, including Clause 78, in the Punjab Reorganisation Act, 1966, be also annulled. BJP's Tikshan Sud, said though a "belated step", the Bill was a welcome and offered full co-operation but rued that the Opposition be given due place and respect.

On this the Captain had stated in his reply that whatever steps were required to be taken to protect Punjab's interests would be taken in consultation with the legal experts. The speakers, including Mr. Bir Devinder Singh and Mr. Jeet Mohinder Singh spoke in the context of historical background, stressing time and again on the riparian principles. Mr. Bir Devinder Singh recalled how even the British Government had sought a certificate from Punjab that it will protect its own interests under the riparian rights while selling water to Rajasthan.

Mr. Bir Devinder Singh even cautioned to be prepared following the enactment of the Act, terminating 1981 and other agreements since new situation would develop. Mr. Jeet Mohinder Singh wondered if the Bill would stop the construction of SYL. He was for adding a new amendment in the form of a clause in the Eastern Punjab Canal and Drains Act, 1873 that permission of the state Assembly should be mandatory to dig or construct any canal that carries water beyond the boundaries of the state.

RARE BONHOMIE IN HOUSE

The discussion on the Bill was, however, not without the usual political punches and colour. There were moments when some ministers and opposition members took pot shots blaming either side for having failed Punjab and messed up the water issue. Some Opposition members said had such a Bill been brought forward 23 years ago, Punjab would have been spared the agony. Even the Bill says that in the wake of large-scale militancy, the Punjab settlement was reached, which however, had remained unimplemented in letter and spirit.

For once, the House was in a serious mood. There were no political skirmishes, though usual jibes were heard. The Governor's and Speaker's galleries were packed.

But it was the Captain's day all the way. Having worked overtime to get this Bill prepared, presented and passed by the House, he responded to the collective anguish of the opposition, expressed by Mr. Badal, with utmost humility and courtesy, acknowledging all what Mr. Badal had said. But then he point by point not only explained the unusual circumstances, including race against time, under which the Bill in as prepared and thus could not be circulated earlier, giving the members a chance to prepare themselves.

Capt. Amarinder Singh was apologetic and said so repeatedly taking the wind out of the sails of the Akalis. He showed faint starchiness in his voice, when he responded to some of the observations of Capt. Kanwaljit Singh, saying, "We are together here for an important task, not for rhetoric and emotive outbursts. We cannot allow Punjab to go back into the grip of violence".

Warming up, he concluded, "We will resort to all legal and constitutional means to seek justice. Already enough bloodshed has taken place. Even all the bodies have not been counted, so far. We shall fight to the end but within the parameters of laws, rules and the constitution. I will be willing to resign, if need be, for the sake of Punjab. The time is not for blame game. We have all made mistakes in the past. We are rectifying the same after 23 years. Come, lets join hands, close ranks. I appreciate the Opposition's cooperation".

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. SHAYS. Mr. Speaker, on July 12, I was returning to Washington from the NAACP Annual Convention in Philadelphia, Pennsylvania, and, therefore, missed four recorded votes.

I take my voting responsibility very seriously and would like the CONGRESSIONAL RECORD to reflect that, had I been present, I would have voted "no" on recorded vote number 359, "yes" on recorded vote number 360, "no" on recorded vote number 361, and "yes" on recorded vote number 362.

HELP THE CARIBBEAN FIGHT TERRORISM

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. RANGEL. Mr. Speaker, I would like to bring to the attention of my colleagues an editorial in the July 6, 2004 issue of the Carib News, which discusses the issue of improving the national security of Caribbean nations. Our own security depends on how well protected the borders of our closest neighbors are. However, the purchasing and installation of new technology is extremely costly for many of these small islands. Not only is it important that these nations are secure because of their proximity to us, but also because of the many Americans who visit these countries each year. I believe that by helping the Caribbean with appropriate funding we can help them guard against terrorism without worsening the economic conditions of these nations. I urge my colleagues to support funding for Caribbean countries to assist in protecting against the terrorist threat.

[From the Carib News, July 6, 2004]

THE PRICE OF 9/11—DEVELOPING NATIONS FORCED TO PAY UP

Who can blame Caribbean nations and their sea and airport executives if the last thing on their minds immediately after 9/11 was how much they would have to spend as a result of the tragedy, the abhorrent act by religious zealots turned terrorists.

When New York's twin towers of the World Trade Center were turned to rubble, crushing nearly 3,000 unsuspecting and innocent people, the immediate and appropriate concern was for the lost of life.

After all, with thousands taken to untimely deaths our first worry had to be about human pain and suffering.

From New York, Washington, Georgetown, Santo Domingo, Philadelphia and Chicago to Kingston. Port of Spain and Bridgetown, to mention a handful of cities, the reaction was the same as the dimensions of the nightmare sank in. Later it was determined, that the Caribbean had paid a heavy price in the form of more than 100 lives lost.

Now, there is another price, one the countries are being forced to meet and its traceable directly to those and subsequent events and to the decisions being taken in Washington, London, Geneva and elsewhere in the developed world.

How high is that price?

Prof. Ivelaw Griffith, one of the leading security scholars in the Caribbean and Latin America, put the figure at hundreds of millions of dollars, money the Caribbean can't afford.

In the end though, the region can't afford to spend the unbelievably hefty sum.

Everton Walters, President of the Caribbean Port Managers Association, didn't dispute that figure but said the total would very much depend on the level of sophistication each country may eventually decide it needs.

All of this is very important because on Thursday, the deadline set by the International Maritime Organization for countries around the world, Caribbean states included, would kick in. That's when the basic security and other requirements contained in the IMO's International Ship and Port Facility Security, ISPS, code, which was approved 18 months ago, must be met. Failure to meet the deadline may result in sanctions.

Walters told this paper that based on conversations, e-mails and other forms of communication from various port managers, most, if not all of the ports would meet the cut-off date.

Still, there is considerable anxiety throughout the Caribbean as port executives work right to the last minute to ensure that they are ship-shape.

That means we may have to wait until July 1 to know for sure which countries are in compliance and which have failed to meet their obligation.

The code is a comprehensive set of requirements which developing countries are finding to be onerous to say the least.

As a matter of fact, Erthimios Mitropolous, IMO Secretary-General, recently voiced the agency's concern about the pace of effort towards international readiness when he complained that the "status of compliance by port facilities has not yet reached satisfactory level despite repeated calls to governments to intensify their efforts."

Just the other day, Brazil made it clear that its major port, perhaps the largest in Latin America and the Caribbean, wouldn't be able to meet the deadline. To live up to the code, for instance, Trinidad and Tobago must acquire sophisticated and costly equipment, boost its security staff and incur considerable recurring expenditure that's running into millions of dollars. Trinidad and Tobago, Jamaica, Grenada, Barbados, the Dominican Republic, Haiti, the Bahamas, Guyana, Antigua, you name, are in the same boat, if you will, and must meet horrifying expenses.

But the maritime code isn't the only set of requirements Caribbean states must satisfy. Their airports must have extensive security fencing, computers, scanners and the like to pass international muster.

That's where the sum of hundreds of millions of dollars would come in. For by the time the process is completed, Caribbean, Latin American and African states would have spent at least $50–100 billion to upgrade security at its various ports of entry, both air and sea, and they must do so without much international help, Although necessary, the security measures imposed by the United Nations, the IMO, the U.S., Britain and various rich countries are major financial and technical burden which must be met if the world's poorer nations are to remain as part of the international trading community. They must have access to shipping lanes and air space if they are to feed their people, satisfy tourism and manufacturing industries and otherwise participate in the economic world.

What's troubling about all of this is that these mandates imposed on developing countries aren't being financed by any international development agency or by many donor nations. In other words these are "unfunded mandates," which were laid down by an uncaring developed world, regardless of a nation's ability to pay for them.

The international community, quite rightly, was worried about terrorism and its consequences but little attention was paid to how these mandates would be funded.

The upshot: if Antigua, Haiti, Suriname, Ghana, Costa Rica, Algeria, Jamaica or any of a host of nations in every corner of the world are to meet international security standards, then they must shift resources from education, health, services for the youth and the elderly in order to satisfy international regulations imposed elsewhere.

That, by any measure, is unfair and counter-productive. The U.S., Britain and the G–8 industrialized nations must put this matter on their agenda and agree to fund some of the equipment acquisition programs and the training necessary to keep Third World states in the international arena.

COUNCIL OF KHALISTAN WRITES TO UN HUMAN RIGHTS COMMISSION TO EXPOSE REPRESSION OF MINORITIES IN INDIA

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. TOWNS. Mr. Speaker, recently Dr. Gurmit Singh Aulakh, President of the Council of Khalistan wrote to the United Nations Commission on Human Rights in Geneva to ask them to help keep the world aware of the repression of minorities, including Sikhs, Christians, Muslims, and others, in India.

The letter pointed out that over 250,000 Sikhs have been murdered by the Indian government, along with more than 300,000 Christians in Nagaland, over 88,000 Muslims in Kashmir, Muslims and Christians throughout India, and other minorities such as Dalits, the dark skinned aboriginal people of the subcontinent, Assamese, Bodos, Manipuris, Tamils, and others. Over 52,000 Sikhs and tens of thousands of other minorities are being held as political prisoners. The letter pointed out that the government has been involved in atrocities such as the massacre of Muslims in Gujarat and the massacre of Sikhs in Delhi and that it has not punished those who have carried out atrocities against Christians nor the killer of Jathedar Gurdev Singh Kaunke.

Such atrocities are unacceptable in any country, but especially in one that claims to be democratic. We must take a stand for freedom. It is time to stop our aid to India and go on record in support of self-determination for all the people seeking their freedom there.

Mr. Speaker, I would like to place Dr. Aulakh's letter to the Human Rights Commission into the RECORD at this time.

COUNCIL OF KHALISTAN,
Washington, DC, July 13, 2004.

Madam Justice LOUISE ARBOUR,
High Commissioner, United Nations Commission on Human Rights, Plaise des Nations, Geneva, Switzerland.

DEAR JUSTICE ABROUR: As the Chief Prosecutor for the International Court of Justice, you helped to bring the persons who committed massacres, genocide, and pogroms on the innocent people of Bosnia to justice. Your work for human rights around the world is well known and we salute you for it. It is because of that record that I am writing to you today about the plight of the Sikhs and other minorities in India. The plight of the Sikhs and other minorities in India is deplorable. India claims to be "the world's largest democracy" and claims that it is a secular country, but in practice it is not. As Narinder Singh, a spokesman for the Golden Temple, told America's National Public Radio, "The Indian government, all the time they boast that they are democratic, that they are secular, but they have nothing to do with a democracy, nothing to do with a secularism. They just kill Sikhs just to please the majority." Unfortunately, Sikhs are not the only victims of this brutality. Other minorities such as Christians, Muslims, even the Dalits (called "Untouchables") are persecuted in India.

The Indian government has murdered over 250,000 Sikhs since 1984, more than 300,000 Christians in Nagaland since 1947, over 88,000 Kashmiri Muslims since 1988. Christians and Muslims have been murdered in other parts of the country as well, along with tens of thousands of Assamese, Bodos, Dalits, Manipuri's, Tamils, and other minorities. According to the Movement Against State Repression (MASR), 52,268 Sikhs are being held as political prisoners under the repressive TADA law, which expired in 1995. Amnesty International reports that tens of thousands of other minorities are also being held as political prisoners. These prisoners are held without charge or trial in "the world's largest democracy," some of them since 1984! That is 20 years in illegal detention. Their whereabouts are unknown. They might have been killed while in police custody.

Sardar Jaswant Singh Khalra looked at the records of the cremation grounds at Patti, Tam Taran, and Durgiana Mandar and documented at least 6,018 secret cremations of young Sikh men ages 20–30. These young Sikhs were arrested by the police, tortured, murdered, then declared unidentified and secretly cremated. Their bodies were not even returned to their families. They have never officially been accounted for. The Punjab Human Rights Commission estimates that about 50,000 such secret cremations have occurred.

For exposing this horrendous atrocity, Sardar Khalra was abducted by the police on September 6, 1995 while he was washing his car, then murdered in police custody. The only witness to his kidnapping, Rajiv Singh Randhawa, has been repeatedly harassed by the police. Once he was arrested for trying to hand a petition to the then-British Home Minister, Jack Straw, in front of the Golden Temple in Amritsar.

Police SSP Swaran Singh Ghotna tortured and murdered Akal Takht Jathedar Gurdev Singh Kaunke and has never been punished for doing so. K.P.S. Gill, who was responsible for the murders of over 150,000 Sikhs in his time as Director General of Police, is still walking around scot-free. He was even involved in leading the Indian Olympic field hockey team. His trip to the Atlanta Olympics in 1996 was protested by the Sikh community in the United States, which is over half a million strong, but he was allowed to come to the Olympics on an Olympic Committee visa. Immediately after the Olympic hockey game, he was shipped back to Punjab as a threat to peace and an affront to the Sikh community. 50 members of the U.S. Congress from both parties wrote to the President protesting his appearance in the United States.

In addition to this, the Indian government attacked the Golden Temple in Amritsar, the center and seat of the Sikh religion, in June 1984, as well as 224 other Gurdwaras (Sikh places of worship) throughout Punjab. Sikh leaders Sant Jarnail Singh Bhindranwale, General Shabeg Singh, and others, as well as over 20,000 Sikhs were killed in these attacks. The Sikh holy scripture, the Guru Granth Sahib, written in the time of the Sikh Gurus, was shot full of bullet holes by the Indian Army. Over 100 young Sikh boys ages 8 to 13 were taken out into the courtyard and asked if they supported Khalistan, the independent Sikh state. When they answered with the Sikh religious incantation "Bole So Nihal" they were summarily shot to death.

Unfortunately, other minorities have also suffered greatly under the boot of Indian repression. In March 2002, 5,000 Muslims were killed in Gujarat while police were ordered to stand by and let the carnage happen, in an eerie parallel to the Delhi massacre of Sikhs in November 1984 in which Sikh police officers were locked in their barracks while the state-run television and radio called for more Sikh blood.

Christians have suffered under a wave of repression since Christmas 1998. An Australian missionary, Graham Staines, and his two young sons, ages 8 and 10, were burned to death while they slept in their jeep by a mob of Hindu militants connected with the Rashtriya Swayamsewak Sangh (RSS), an organization formed in support of the Fascists. The mob surrounded the burning jeep and chanted "Victory to Hannuman," a Hindu god. None of the mob has ever been brought to justice; instead the crime has been blamed on one scapegoat. Mr. Staines's widow was thrown out of the country after the incident. An American missionary, Joseph Cooper of Pennsylvania, was expelled from India after being beaten so severely that he had to spend a week in the hospital. None of the persons responsible for beating Mr. Cooper has been prosecuted. Churches have been burned, Christian schools and prayer halls have been attacked and vandalized, priests have been murdered, nuns have been raped, all with impunity. Police broke up a Christian religious festival with gunfire.

Amnesty International has not been allowed into Punjab since 1978. Even Castro's Cuba has allowed Amnesty into the country more recently. What is India hiding?

My organization, the Council of Khalistan, is leading the Sikh struggle for freedom and sovereignty. Working with the Congress of the United States, we have internationalized the struggle for freedom for the Sikhs and all the people of South Asia since the Council of Khalistan's inception on October 7, 1987, the day that the Sikh Nation declared its independence from India. We have worked to preserve the accurate history of the Sikhs and the repression of minorities by India by preserving the information in the Congressional Record. We continue to work for freedom for the Sikh Nation. Self-determination is the essence of democracy.

On behalf of the Sikh Nation, I am asking the Human Rights Commission to expose India's reign of terror to the international community. It is time for India to be held to account for its tyrannical rule covered by a veneer of democracy. Please do not let India hide behind a false claim of democracy and secularism. By shining the light on India's terroristic rule, you can help bring freedom and basic human rights to all the people of the subcontinent.

Thank you in advance for your attention to this situation and for helping the people of South Asia.

Sincerely,

DR. GURMIT SINGH AULAKH,
President, Council of Khalistan.

150TH ANNIVERSARY OF PENN STATE

HON. TODD RUSSELL PLATTS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. PLATTS. Mr. Speaker, I would like to take this opportunity to recognize a great institution of higher learning, the Pennsylvania State University, as a leader in post-secondary education. On July 1, 2004, Penn State began a year-long celebration of its 150th Anniversary, marking the historic achievements it has made in Pennsylvania, the Nation, and around the world.

Penn State, known at its inception in 1855 as "the Farmers" High School," was born at the behest of the State's Agriculture Society. The Society members recognized the need to base the growing field of agriculture in sound sciences. College President Evan Pugh rose to the challenge, uniquely combining classical studies with practical application. Pugh's vision soon became the foundation of the institution's mission: to provide "instruction, research, outreach and extension".

As student and business interest grew over the following decades, Penn State grew along with it. Recognizing the limitations the Depression placed on households in the 1930's, Penn State began opening satellite campuses throughout the state. Penn State began renting classroom space in York, Pennsylvania, which is in my Congressional District, as early as 1926.

In 1955, the Penn State York campus officially opened and began offering courses to students at its current location. The campus was much-admired for having one of the highest concentrations of students enrolled in technical courses and studying the field of engineering on a satellite campus. As a student who studied engineering at the Penn State York Campus, I can attest to the high quality education provided to Penn State students. Continuing its mission for outreach and extension, Penn State merged with the Dickinson School of Law in 1997, also located in my Congressional District in Carlisle, Pennsylvania.

There can be no doubt that Penn State has played a strong and vitally important role in the education of students around the world. With three members of my staff, both past and present, as Penn State alumni, I can attest to the quality education Penn State provides. Even as the proud son of a University of Pittsburgh graduate, a known "rival" of Penn State, I wish to congratulate the Pennsylvania State University on its successful 150 years, and extend best wishes for continued successes in the years to come.

HON. ROBERT E. ANDREWS

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. ANDREWS. Mr. Speaker, I was not present on July 12, 2004, due to a train and bad weather. Had I been present, I would have voted "yes" on Holt Amendment to the Legislative Appropriations bill (rollcall 359), "no" on the Hefley Amendment to the Legislative Appropriations bill (rollcall 360), "yes" on the Motion to Recommit (rollcall 361), and "yes" on final passage of the Legislative Branch Appropriations Bill (rollcall 362).

IN RECOGNITION OF LAURA DOMINGUEZ

HON. CHARLES A. GONZALEZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. GONZALEZ. Mr. Speaker, I rise today in recognition of Laura Dominguez, a very special young woman whose life can teach us all about the power of perseverance and love. Laura is a bit quiet until you get to know her, but once you do, you find that she is smart, witty, and brave. You also learn of her loving family: her parents, Rosie and Abel, and her older brother Abel Aaron.

In July 2001, Laura and her brother were driving home from summer school. There was an oil slick in the road that made the car uncontrollable. Laura broke her neck at the C–6 level, qualifying her as a quadriplegic. At that time, doctors told her that she would never walk again. Laura was undaunted by this prognosis.

Ever since that day, Laura and her family have demonstrated an unbelievable amount of fortitude and perseverance. They have consulted with a number of spinal cord specialists with the hope of watching Laura walk again. Laura spent six months in St. Louis and one year in California so that she could receive the best treatment available. It was in California that the Dominguez family learned of a surgery being done in Portugal in which tissue from one's sinus area is transplanted into the spinal cord at the injury sight. In March 2003, Laura traveled to Portugal and became the tenth person in the world, and only the second American, to undergo this surgery.

By July 2003, 70% of the lesion in Laura's spinal cord looked like normal spinal cord tissue. Since that phenomenal surgery, Laura has also regained feeling down to her hip level and she has begun to regain some feeling and movement in her legs. Now Laura, once seen as a lost cause by some members of the medical community, has regained her ability to stand with the use of a walker.

Laura is in Washington, D.C., today to share her story, so that we may put a face to the abstract debates that occur in Congress regarding the benefits of stem cell research. Laura is also a living symbol of hope for the more than 200,000 people in the United States who are living with a spinal cord injury. Her story demonstrates the seemingly unattainable feats that can be accomplished when one has faith in oneself, and the unwavering love and support from family and friends.

I wish Laura and her family many blessings as she continues to push her body and her mind to overcome her physical challenges.

Mr. STARK. Mr. Speaker, I rise today to pay tribute to Jan Perkins, City Manager for the City of Fremont, California, a community of 208,000 people. Jan has provided exemplary service during her more than 26 years in city management. She will soon retire from her position as Fremont's City Manager and she will be sorely missed.

In addition to serving Fremont, Jan's city management included Morgan Hill as City Manager, Santa Ana as Assistant City Manager, and as Assistant City Manager in Grand Rapids and Adrian, Michigan.

Jan received her Bachelor of Arts in Sociology and a Masters in Public Administration from the University of Kansas. She also received a certification for the Program for Senior Executives in State & Local Government from the acclaimed John F. Kennedy School of Government at Harvard University.

A member of the International City Managers Association, Jan has chaired several committees within the Association, including the International Committee, the Awards Committee, Innovations Advisory Committee, and Conference Planning Committee. She is President of the California City Management Foundation, is a member of the Executive Board of the City Manager's Department of the League of California Cities, a Fellow with the national Academy for Public Administration and a member of the Niles Rotary Club in Fremont.

Jan's dedication, expertise in city management, and her proficient leadership abilities have greatly benefited the city of Fremont and beyond. I applaud Jan Perkins for her contributions and wish her well in her future endeavors.

IN HONOR OF COLENIA CANFIELD

HON. KEVIN BRADY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. BRADY of Texas. Mr. Speaker, I rise today to honor the hard work and dedication of Colenia Canfield who has spent the last four years hand crocheting lap robes for veterans at the Michael E. DeBakey VA Medical Center (MEDVAMC).

The Michael E. DeBakey VA Center is one of the best veteran health centers in the nation. Last year alone they logged over 650,000 outpatient visits. Most of these dedicated veterans are from Houston and south-east Texas.

As a member of the American Legion Auxiliary Unit 305 of American Legion Post 305 in The Woodlands, TX. Ms. Canfield wanted to express her appreciation for the service these veterans have rendered to this country. She wanted them to know that she and thousands of the others in our community are grateful for their sacrifice that has kept our country free.

A good friend suggested Colenia should use her talent to crochet as a way to bless area veterans. In October 2000, she started to crochet lap robes for the veterans receiving care at the DeBakey Medical Center. Colenia hasn't stopped crocheting since.

Colenia Canfield completed her first robe on October 14, 2000 and has recently completed her 200th robe. Each robe consists of 81 squares that are eight inches by eight inches and takes 80 hours of hand crochet labor each to complete. She intends to make the lap robes as long as we have veterans. Colenia Canfield's dedication and love of this country and the brave veterans who have dedicated their lives to defending it should be an inspiration to us all.

Mr. Speaker, please join me today in honoring Colenia Canfield. All of the residents of The Woodlands, Texas, and the 8th Congressional District are grateful for her dedication and service to our nation's veterans.

HONORING THE LEGACY OF CHIEF JUSTICE JOHN MARSHALL

HON. JOHN B. LARSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. LARSON of Connecticut. I rise today in strong support of the resolution to honor the United States' fourth Supreme Court Chief Justice John Marshall by issuing 400,000 commemorative coins for the 250th anniversary of his birth. Chief Justice Marshall served in each of the three branches of government and, as the fourth Supreme Court Justice, was one of the most influential forces in building the federal government as we know it today.

John Marshall began his service to our country as a member of the Continental Army under George Washington. He fought alongside Washington in battles in New Jersey, New York, and Pennsylvania and endured the harsh winter at Valley Forge. After the war Mr. Marshall became a lawyer and began his political career. He was elected to the Virginia House of Delegates and then to the U.S. Congress as the Representative from the Richmond District in Virginia. His superior understanding of the law earned him the position of Secretary of State under the Adams' Administration. It was from here where he rose to Chief Justice of the Supreme Court.

It was in the Supreme Court that John Marshall made the greatest contributions to American history. Having served for 34 years, Chief Justice Marshall remains the longest serving Chief Justice. He has offered over 500 opinions and presided over such landmark cases as McCulloch v. Maryland and Marbury v. Madison, which established the power of judicial review and was the first decision to declare an Act of Congress unconstitutional. The opinions delivered from the Marshall Court have shaped the basic fundamentals of the legislative, executive, and judicial branches of government.

I believe that Chief Justice John Marshall's life-long legacy should be recognized. Therefore, I urge my fellow Members to vote with me in support of H.R. 2768 and honor Justice Marshal as one of the most influential figures in American history.

A TRIBUTE TO THE LIFE OF JUDGE H. A. TAYLOR

HON. MIKE ROSS

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. ROSS. Mr. Speaker, I rise today to honor the life and legacy of Circuit Court Judge H. A. Taylor who died on May 21, 2004 at the age of 63 in Little Rock.

Judge Taylor was originally from Jefferson County and had an impressive career which spanned over the course of three decades. Graduating from Pine Bluff High in 1958, Judge Taylor went on to earn his bachelor of science and his law degree in 1965 from the University of Arkansas. Judge Taylor was elected to office in 1975 to the 2nd Division Circuit Court Judge for the 11th Judicial District West, serving Jefferson and Lincoln counties for 29 years.

Judge Taylor had a distinguished military career, serving in the Vietnam War and earning both the Bronze Star and Army Commendation Medals.

I am deeply saddened by Judge Taylor's death and offer my heartfelt condolences to his wife, Marcy Taylor. His legacy will live on through the lives he touched and by those who knew him and counted him as a friend.

AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2005

SPEECH OF

HON. RON KIND

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 13, 2004

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 4766) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies for the fiscal year ending September 30, 2005, and for other purposes:

Mr. KIND. Mr. Chairman, I rise in favor of H.R. 4766. While I intend to vote for this bill, I support my friend and colleague, JOHN PETERSON's request that conferees work to increase the producer value added grants program and the rural broadband loans program. These two programs are extremely important to the future of rural areas like those found in my district of western Wisconsin.

Furthermore, I strongly urge conferees to do more to meet the funding needs of voluntary conservation programs that serve farmers and ranchers while also helping to improve soil, water and air quality, and provide critical wildlife and fish habitat.

Farmers and ranchers, especially those from regions who may not benefit from the estimated $130 billion in crop subsidies, rely on U.S. Department of Agriculture conservation assistance to provide much-needed financial support as well as meet critical environmental challenges.

Unfortunately, this bill would set a $1.01 billion limit on the environmental quality incentives program—compared to a FY2005 level of $1.2 billion set in the farm bill. Likewise, the farmland protection program is set at $112 million, $13 million less than the budget request. Lastly, the wetlands reserve program will enroll 175,000 acres, which are 25,000 less than prescribed in the farm bill.

I am pleased, however, that this bill rejects the Bush administration's proposed sharp cuts in natural resources conservation service programs. It will provide $993 million for the five NRCS conservation programs, $176 million more than the administration's request.

Secondly, I appreciate that the Appropriations Committee acted on the request made by myself and other members of the Congressional Sportsmen's Caucus Chronic Wasting Disease taskforce in providing $18.589 million in aid to states' fight against CWD—a fatal neurological disease found amongst our Nation's populations of wild and captive cervids. I'm particularly pleased to note $1.75 million will go directly to Wisconsin, which has been especially hard hit by this devastating disease. These federal funds are crucial to help authorities continue to monitor this deadly disease in order to avoid future outbreaks.

RECOGNIZING RICK GONZALES, SR. FOR HIS OUTSTANDING SERVICE AND DEDICATION TO HIS COMMUNITY

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. THOMPSON of California. Mr. Speaker, I rise today to commend the service of Rick Gonzales, Sr., who has been a respected community leader in Yolo County for more than 50 years.

Rick Gonzales was born in Saguache, Colorado in 1919 and raised in Elko, Nevada. Drafted into World War II, he served in Okinawa during the Pacific campaign. After being discharged he settled in San Francisco where he attended barber school and met Angela Duran. In 1949 they married and moved to Woodland, California, where they operated several barbershops and raised four sons, La Verne, Garry, Rick Jr. and Jerry.

Rick Gonzales founded the Pan American Club, an organization that gave Latino youth an opportunity to play sports and attend social activities. Rick Gonzales has served on numerous boards and commissions that advocate for the youth and disenfranchised in the community. As a result of these efforts, he twice received the Yolo County Bar Association's Liberty Bell award. He is the only individual to be honored twice.

Rick is one of the founders of the Mexican American Concilio of Yolo County. In 1983 the Concilio started its annual dinner-dance to recognize individuals who have made a contribution to the Latino community. Now a signature community event, the Concilio's dinner-dance provides a growing number of scholarships and awards to students and adults throughout Yolo County.

Over the years Rick Gonzales endured insults and recriminations but his commitment to justice prevailed. His work helped to increase diversity in the local workforce. On June 22, 2004, in recognition of his service, the Yolo County Department of Employment and Social Services was named for Rick Gonzales. The dedication plaque reads, "Rick Gonzales has dedicated his life to giving a voice to the poor and disenfranchised of Yolo County and ensuring equal opportunities for all."

Mr. Speaker, Rick Gonzales Sr. has had a far-reaching and enduring impact on his community. His outstanding leadership and commitment to community service has significantly benefited the people of Woodland and has contributed to making Yolo County the vibrant and culturally rich community that is it today. It is appropriate that we acknowledge him today.

HONORING PFC WESLEY SWANSON

HON. MARILYN N. MUSGRAVE

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mrs. MUSGRAVE. Mr. Speaker, I rise today to honor a true American hero, Private First Class Wesley Swanson of Greeley, Colorado.

In 1999, Wesley graduated from Greeley West High School and soon after attended Aims Community College as well as the University of Northern Colorado. After the tragedy of September 11, 2001 Wesley signed up for the University of Northern Colorado Reserve Officer Training Corp.

Wesley joined the Army and was sent over to Iraq in October of 2003. While in Iraq, he served as a 21 Bravo Combat Engineer. His mission was to clear an area for vehicles and troops by using high explosives.

While Wesley was in Balad, which is about 30 miles north of Baghdad, a bomb exploded and a suicide bomber rammed into his HMMWV vehicle, knocking Wesley off of the gun position on top. He was taken to the hospital for treatment of torn muscles and ligaments in his neck and shoulder.

Since then, Wesley has spent the past several months at Fort Carson with his wife, Jennifer, who is pregnant with their first child. He is currently working as a recruiter, but wants to make the Army his career so he plans on re-enlisting.

Wesley comes from a military family. His grandfather served in World War II and his uncle died while serving in Vietnam.

I am proud to honor Wesley for his courage and sacrifice on behalf of all Americans. Wesley's courage has helped to protect our democracy and keep our homeland safe. I urge all of my fellow colleagues to applaud Wesley for his service to our great Nation.

MISSION FIRST, PEOPLE ALWAYS

HON. MARTIN T. MEEHAN

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. MEEHAN. Mr. Speaker, I rise today to honor the brave men and women in our armed forces who are serving courageously in Iraq, Afghanistan, and throughout the world. Our Nation owes these brave troops a debt of gratitude for the sacrifices they have endured to make this world a safer place.

I particularly want to salute our reservists, who have transformed from a supporting role to become a critical part of the backbone of our military. More than 40% of our troops now deployed to Iraq and Afghanistan draw from the Reserve Component. Many of them have served multiple tours, been called up with less than five days' notice, and had their deployments extended well beyond the promised "12 months boots on the ground."

Now the Defense Department has announced that it will activate 5,600 members of the Individual Ready Reserve, a pool of former soldiers that have completed their active or reserve duty but still have time left on their contracts. And the next troop rotation for Iraq and Afghanistan will only increase the burden on the Reserve Component, who will soon make up 43% of our deployed troops beginning in February of 2005.

Tonight, I would like to highlight the harrowing story of the 94th Military Police Company, the longest activated reserve unit to date. Roughly one-third of the 94th's members live in Massachusetts, and I have had the opportunity to speak with many of their family members in recent months.

The 94th Military Police Company first deployed to Iraq in April of 2003 after fulfilling a mission in Bosnia. The unit has seen its deployment extended twice—first by six months, then by four more. On Easter weekend of this year, members of the 94th loaded onto a bus in Kuwait to finally come home. Just as they were about to depart, they were turned back by their commanders and told they would have to serve another 120 days because there simply wasn't enough trained MPs to replace them. Now, just a few weeks before they are expected to return home for good, they have been sent out on another convoy mission.

While we are indebted to their service, the story of the 94th MP Company shows that this country can't continue to place the burden of war squarely on the back of our Reserve Component. If we ask these men and women to put themselves in harm's way in Iraq for extended periods of time, we must ensure that they are given the same fair treatment as their active duty counterparts. If we do not, we will face a serious recruitment and retention crisis.

What we need is a committed strategy to restructure our weary and overstretched Army.

First and foremost, we must expand the active duty endstrength of our military. I applaud my colleagues on the Armed Services Committee on both sides of the aisle for recognizing this need. We have authorized an increase of 30,000 soldiers and 9,000 marines over three years as part of this year's defense authorization bill. I am disappointed that the Pentagon has chosen to overstretch our current forces instead of expanding our pool of manpower.

Second, I am concerned that the occupational specialties most in demand—such as military police, intelligence analysts and engineers—are highly concentrated in the Reserve Component. Instead of calling up the Individual Ready Reserve, we need to ensure that we have an adequate pool of specialists within the active-duty force. This requires an aggressive recruitment and training program backed by incentives to attract people with the right skills.

Third, we need to lay out a transparent, equitable rotation schedule for our reservists that allows members and their families to predict when they will be activated. This administration has treated Guard and Reserve families with arrogance and a lack of respect. They have notified members of the Army Reserves and National Guard just days before deploying them to Iraq, broken promises that they would only serve for twelve months boots on the ground, and issued sweeping stop-loss orders to prevent members from retiring when they have fulfilled their service.

The Administration's policies aren't pro-family or pro-military. Our troops and their families deserve better. If we don't treat our Reserve Component with the respect they deserve, our military's readiness will suffer. That has consequences for all of us.

As our troops say, "Mission first, people always." Our reservists are fighting on the front lines of the battlefield to protect our security, freedom, and democracy. We need to stand up for them and provide them with the respect they deserve.

RECOGNIZING THE ACCOMPLISHMENTS OF THE BOARD OF DIRECTORS, MEMBERS AND STAFF OF INDOOR RECREATION OF ORLEANS COUNTY

HON. BERNARD SANDERS

OF VERMONT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. SANDERS. Mr. Speaker, I would like to recognize the accomplishments of a very special group of volunteers who hail from Vermont's Northeast Kingdom—the tri-county area of Caledonia, Essex, and Orleans Counties. I rise to honor the dedicated men and women who have formed and are building Indoor Recreation of Orleans County, more generally known as IROC.

Dr. Robert E. Smith, a resident of Newport, chairs the IROC Board of Directors. Dr. Smith and the IROC Board are supported by a 50-member President's Advisory Council, a group of community leaders whose guidance has been invaluable all along the way.

James G. Davis directs IROC's day-by-day operations for the Board of Directors. Mr. Davis is a native Vermonter whose vision for the organization has been inspirational.

IROC's three-fold mission addresses key regional issues: To improve the quality of life and develop healthy lifestyles for Northeast Kingdom area residents—especially youth—through educational and recreational activities; to develop community-centered facilities and programs that foster a safe environment and inclusive programs to all participants; and, to deliver its services and programs at the lowest cost possible.

IROC will have five distinct facility emphases: (1) an aquatic center; (2) a multi-purpose recreation arena; (3) a fitness center; (4) a community room, and (5) an educational/technology center. Within each of these areas, multiple activities have been identified for further development.

The Aquatic Center (Main Level) will focus not only on general swimming but also on competitive swimming, rehabilitation, and other types of water activities. North Country Hospital and Health Center, Inc. has committed to using the Aquatic Center on a regular basis for those patients whose rehabilitation program would benefit from hydrotherapy.

The Multi-purpose Recreation Arena (Main Level) has been designed specifically to allow for flexibility in activities. The floor plan for this area includes three regulation-size high school basketball courts that can be converted (almost instantaneously) to accommodate indoor soccer, in-line skating, lacrosse, volleyball, tennis and badminton. The multi-purpose area includes seating for 500 spectators and will serve the anticipated demand for general recreation as well as league and tournament play. A walking track will surround the multi-purpose floor area. The design of the multi-purpose area will allow for specialty shows (home, garden, auto, for example) and concerts.

A 2,100 sq. ft. Fitness Center will offer cardiovascular training and exercise, aerobics instruction, fitness training, muscle toning, and body building activities to interested individuals on a membership basis. North Country Hospital and Health Center, Inc. has also committed to using the Fitness Center on a regular basis for its rehabilitation and wellness programs.

IROC's Mezzanine Level will contain a 4,200 square foot multi-purpose Lloyd Selby Community Room designed to accommodate meetings, dances, special events, educational programs and seminars, and other community-based activities.

The Mezzanine Level will also house an Educational/Technology Center equipped with state-of-the-art computers and other multimedia materials. Designed for such educational purposes as after-school tutoring, computer training, employment and training seminars, and other related activities, the programs in the Technology Center will focus on youth.

In addition, the Mezzanine Level will contain a Meeting Room that will be made available, as needed and as a public service, to area non-profit organizations in need of meeting space.

To date, the IROC Board of Directors has been able to secure and purchase a ten-acre parcel of land in Derby, Vermont, erect a 54,000 square foot steel building on the site, and initiate the interior build-out of the facility. All of this has been made possible through the generosity of local northeastern Vermonters, whose cash and in-kind contributions to date total over $2.5 million, a remarkable achievement, given the region's poor economy.

As you all know, Vermont is a beautiful state, and the Northeast Kingdom represents one of its loveliest regions. All of the natural beauty in the area provides a wonderful place to live and a special place to spend a vacation. After our many summer visitors leave, however, and before the snow arrives, our year-round residents settle into their fall and winter routines. Off-season unemployment rebounds, and local residents look for activities to occupy the long cold nights and short days.

There is an international ice youth hockey program—Border Minor Hockey—and there is, of course, the usual array of school-based sports programs. But those programs reach only a small percentage of the population. Youth, working adults, and the community beyond school age are largely left out of the picture. The residents of the Northeast Kingdom have recognized this need; they have organized themselves; and they are supporting IROC to respond to the region's needs.

When the facility is opened later this year, IROC will deliver indoor recreation, educational opportunities, rehabilitation services, and many related community activities to the citizens of Vermont. When IROC is fully operational, over 30 full-time equivalent jobs will have been created in a region that is sorely in need of increased employment opportunities.

This has not happened overnight. In fact, it has taken nearly 16 years for IROC to get where it is today. I am pleased to report, however, that as we stand here today, the process that began in 1988 is nearly complete.

Funds are still being raised to finish the interior as originally designed, and program grant proposals are being written to fund the educational and community activities that will take place in the building. I am proud to say that my office has been able to secure almost $340,000 in federal funding to support IROC through the Economic Development Initiative at the Department of Housing & Urban Development and the Department of Justice's Office of Juvenile Justice

Mr. Speaker, IROC is an organization that is having an immensely positive effect on this area of Vermont. Once this community center is built, it should serve as a national model for building indoor community recreation centers throughout Vermont and the rest of the country. To accomplish that goal, I have introduced H.R. 1022, the Urban and Rural Disease Prevention and Health Promotion Act. H.R. 1022 would provide $100 million in federal funding for the construction of community centers in rural and urban areas to reduce obesity and prevent disease and currently has over 20 cosponsors.

The residents of this most rural area of the state have shown true Vermont spirit by supporting this project through their financial and in-kind investments and through their extraordinary volunteer activities. The Vermont National Guard contributed over a week of in-kind labor (valued at $200,000) to help with building construction. Local businesses have provided materials and labor as gifts. The community raised over $226,000 in a three-week period in response to a challenge grant made in 2003 by a former area resident. And these are only a few examples of how the community has participated in building IROC!

The final fund raising efforts for the Aquatic Center and rehabilitation area are going forward. The facility will open in the fall, and memberships will soon be available. Built on a sound business model, IROC will be self-supporting, and this exemplary organization represents just one more example of the "we can grow our own" spirit of the hardy residents of Caledonia, Essex, and Orleans counties.

Mr. Speaker, Esteemed Colleagues, please join me as I commend and recognize the members of the Board of Directors, staff, and other citizens of Vermont who have made this project possible.

IN MEMORY OF GARY SAGE

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. FARR. Mr. Speaker, I rise today to honor Gary Sage, who recently passed away. His contributions to both the City of Carmel as well as the international music community made him a truly commendable figure that will be greatly missed.

Born in Carmel, California, Gary was born into a musical family. His father, A. Lee Sage, and his mother, Emma Joanne Sage, played important roles in the founding of the Monterey Jazz Festival. The lineage of Gary's family can be traced back to Sir David of Wales, an ancient King who was purportedly the uncle of King Arthur. Gary is survived by his former wife Katherine Cameron Sage and his son Elijah Merlin David Sage who is continuing the musical legacy that his father left behind.

Gary proved his own musical genius as early as age fourteen, and is considered to be one of the best stride jazz pianists of the past few decades. He is also known as the preeminent piano restorer both in Carmel, and in the worldwide musical community.

Gary was approached throughout his life by such notable piano companies as Steinway and Sons for his expertise in piano restoration. He was of the few craftsmen who knew the intricacies of piano building and made the restoration and construction of pianos into an art form.

Mr. Speaker, I would like to recognize Gary Sage for the indelible impression he left in the music world. I join his community, friends and family in honoring Gary, and have no doubt that his contributions as a musician and as a craftsman will live on for future generations.

HONORING PETER J. HANLON

HON. CHARLES H. TAYLOR

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. TAYLOR of North Carolina. Mr. Speaker, on Saturday evening, July 3, 2004, Peter J. Hanlon died at the age of 98. A resident of Chambersburg, Pennsylvania, Hanlon was supervisor of North Carolina's national forests for 10 years before retiring from the U.S. Forest Service in 1970 after 36 years of distinguished service.

Hanlon's career with the Forest Service began in the 1930s on the Allegheny National Forest. His career was then briefly interrupted by service in the region's CCC camps. Prior to dissolution of these camps Hanlon was superintendent of CCC Camp Thornwood in Pocahontas County, WV. As World War II began, Hanlon rejoined the Forest Service in the capacity of forest ranger for the Greenbrier Ranger District on West Virginia's Monongahela National Forest, as well as staff officer for Virginia's George Washington National Forest and the regional forester in Upper Darby.

As Supervisor of North Carolina's national forests, Hanlon frequently advocated for sustainable land use practices that accommodated recreational activities, wildlife habitats, timber harvests and general preservation. His belief that the land could and should be used in a responsible manner, balancing these practices, allowed him to ensure that no single interest outweighed or endangered another. Even as he believed in preservation, he understood the benefits of well-managed clear cutting and neither interest was ever allowed to jeopardize equal land use. Throughout his 35 year retirement, Hanlon continued to echo these noble principles.

Not only did Hanlon manage land use with exceptional expertise, he also secured the expansion of North Carolina's national forests by acquiring new lands. The most notable acquisition was that of the Nantahala River Gorge. Hanlon's role in creating the Cradle of Forestry, a museum located off U.S. 276, just south of the Blue Ridge Parkway, was pivotal and earned him an honorary doctorate degree from the Biltmore School of Forestry. In 1970, then Governor Terry Sanford designated Hanlon as North Carolina's Conservationist of the Year. This recognition only enhances his legacy as a celebrated figure of North Carolina's rich history.

PAYING TRIBUTE TO CATHERINE ROBERTSON

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. McINNIS. Mr. Speaker, it is my privilege to pay tribute to Catherine Robertson and thank her for her work as the Grand Junction Field Office Manager with the Bureau of Land Management (BLM). Her years of commitment and dedication as a public servant are certainly commendable and worthy of recognition before this body of Congress and this Nation today. I, along with my fellow Americans am grateful for all that she has accomplished during her years of service.

Catherine began her distinguished career with the BLM as a Community Planner student intern for the Pacific Continental Shelf office in 1980. After a transfer to the Washington office as part of a management development program she moved again in 1984 to the Colorado State Office where she became the Oil and Gas Program Coordinator and later the Fluid Minerals Branch Chief. Her diligent work ethic enabled her to assume the post of Clear Lake Resource Area Manager in the Ukiah District, California. Catherine received her bachelor's degree in Political Science and Public Administration from California State University and her master's degree in Natural Resources Management from the University of California, Los Angeles.

During my tenure in the United States Congress, Catherine provided exceptional service to constituents of the 3rd Congressional District of Colorado. Catherine worked hard to ensure that inquiries on behalf of my constituents submitted to Bureau of Land Management were addressed in a timely manner and thorough in their content. Catherine routinely demonstrated a willingness to assist beyond the standard response, demonstrating a genuine concern for the constituent while upholding the policies of the Bureau of Land Management.

Mr. Speaker, it is clear that Catherine Robertson has been an invaluable resource to the organization and it is my honor to recognize her service and dedication before this body of Congress and this Nation. I am grateful for the opportunity to work with devoted public servants like Catherine Robertson. On behalf of the citizens that have benefited from the hard work and commitment she has given to the Bureau of Land Management and constituents it serves, I extend my appreciation for her years of enthusiastic service.

His years of commitment and dedication as a public servant are certainly commendable and worthy of recognition before this body of Congress and this nation today. COMMENDING THE SALEM ART ASSOCIATION

HON. DARLENE HOOLEY

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Ms. HOOLEY of Oregon. Mr. Speaker, I rise today to commend the Salem Art Association for its many years of success in promoting the arts in Oregon's mid-Willamette Valley.

This weekend, over 100,000 people from all over Oregon and around the country will congregate in Salem's historic Bush Pasture Park for the three days of art, food, and music that make up the Salem Art Fair.

For 85 years, the Salem Art Association has pursued its goal of strengthening and promoting art education, art enjoyment, and historic preservation in Oregon's capital city of Salem and surrounding communities. With a dedicated staff, hard-working volunteers, and a strong board providing leadership and support, the Salem Art Association has grown into one of the largest community arts organizations in the state, and the services they provide to the community are both impressive and important.

In addition to running an art gallery and museum, the organization operates the Visual ARTS Center, which offers arts education opportunities for all ages, including classes in ceramics, painting, drawing, mixed media, crafts and more. The Salem Art Association also provides an Arts in Education Program, giving hands-on art opportunities for children by bringing the arts to more than 10,000 students in local schools.

I have seen the fruits of arts education through my work with the Congressional Arts Competition, which I co-chaired last year. Just this week I had the pleasure of hosting Ashley Fanning of Dallas, Oregon at the Congressional Arts Competition at our nation's Capitol. Ashley, who benefitted from her high school's strong arts program, won the competition I held in my district earlier this year. Ashley's success reminds me that arts education is an integral part of celebrating the creative spirit of young adults and helping our children become productive citizens.

The Salem Art Association, its staff, volunteers, and board provides the public with an outstanding service. The collective talent, dedication, and hard work of this association has played a vital role in fostering vibrant, livable communities that celebrate art and creativity.

PAYING TRIBUTE TO VERONICA VASQUEZ

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. MCINNIS. Mr. Speaker, I rise today to pay tribute to Veronica Vasquez and thank her for her years of service she has given to the Colorado school system. At the end of this year she will retire after devoting thirty years of her life to educating students in Alamosa Colorado. As she celebrates her retirement, I would like to take this opportunity to recognize her distinguished career before this body of Congress and this nation today.

Veronica decided on a career in teaching after thinking about pursuing a career as a reporter or a social worker. She began as a substitute teacher in the Alamosa School District before taking her first full time teaching position as a bilingual kindergarten through fourth grade teacher. She was employed at several of the elementary schools in Alamosa until she was offered a five-year position as a parent community liaison, where she worked with at risk families and students coordinating crisis prevention and intervention teams. After her five-year position she went back to teaching for three years before becoming Principal of Polston Primary School.

Mr. Speaker, it is my honor to recognize Veronica Vasquez before this body of Congress and this nation. Veronica's willingness to provide her time and experience to Alamosa's children is something truly special and worthy of recognition before this body of Congress and this nation today. I wish you all the best in your future endeavors.

CONGRATULATING THE LAKE OSWEGO DYNAMO BLUE BOYS TEAM AS THEY ADVANCE TO NATIONALS

HON. DARLENE HOOLEY

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Ms. HOOLEY of Oregon. Mr. Speaker, I rise today to recognize and congratulate the Lake Oswego Soccer Club's Dynamo Blue boys' team who will be competing in the U–12 bracket of the U.S. Club Soccer Nationals tournament held in Cary, North Carolina July 22 through July 25, 2004.

These Lake Oswego Soccer Club members will represent the region of Oregon, Washington, Idaho and Northern California: Ryogo Asai, Cale Begelow, Brandon Blackmore, Jacob Campbell, Jack Cowan, Kyle DeVos, Ben Dugoni, Alex Haagenson, Ben Handy, Thomas Iwasaki, Erik McAdams, Nick Nelson, Bennett Savage, Luke Thompson, and Tyler Webster and are coached by Michael Harn.

As a former physical education teacher and coach, I know the positive benefits of giving students the opportunity to participate in team sports. Whether working together as a team, exercising good sportsmanship skills or developing pride in playing one's best, team sports teach our children valued lessons they will carry throughout life.

We also know that childhood activity improves child health which, in turn, is beneficial to adult health. When children have the opportunity to live an active life through programs such as soccer, children have a much higher propensity to live as active adults which reduces their health risks.

I would also like to commend U.S. Club Soccer, a non-profit organization, committed exclusively to the support and development of competitive soccer clubs. With close to 8 million youth soccer players in our country and growing, it is safe to say that U.S. soccer players pose a significant challenge on the world's playing field.

Again, good luck to the Dynamo Blue boys' team from Lake Oswego. I know that you will play your best and carry the pride of representing our community, our state and the region at Nationals.

PAYING TRIBUTE TO COLONEL MICHAEL V. PALATAS

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. MCINNIS. Mr. Speaker, it is with a heavy heart that I rise to pay tribute to the life and passing of Colonel Michael Palatas of Pueblo, Colorado. Michael was one of Colorado's most decorated veterans and as his family mourns his passing, I think it is appropriate to remember his life of dedicated service before this body of Congress and this nation.

Michael bravely answered his nation's call to service in 1941, when he enlisted in the

United States Marine Corps. As a Second Lieutenant, he fought battles in the Pacific theater during World War II. During the Korean War he served as a platoon leader in five major battles. A few years later, Michael served as a commanding officer for the 1st Battalion, 9th Marines and later an executive officer for the 9th Marine Regiment in the Vietnam War. In recognition of his valiant actions on the battlefield, Michael received several awards from the military, including: a Silver Star, a Legion of Merit, a Bronze Star, two Purple Hearts, six Presidential Unit Citations, a Combat Action Ribbon, a Good Conduct Medal, two Navy Unit Commendations and a Meritorious Unit Commendation. After thirty-four years of dedicated service, he and his family settled on his ranch in Lake George, Colorado. Later, they moved to Colorado Springs and eventually to Rye, Colorado. Outside his military life, he actively participated in his church.

Mr. Speaker, Michael Palatas was a pillar of his community and he will be sorely missed. His pride for his nation was demonstrated in the many years he spent in active duty for our nation's military. At this difficult time of bereavement, I express my deepest regrets and sympathies to the family and friends of Michael Palatas.

LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2005

SPEECH OF

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, July 12, 2004

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 4755) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2005, and for other purposes:

Mrs. MALONEY. Mr. Chairman, I rise in opposition to this rule.

Unlike most appropriations bills that this House debates, this bill will be considered by a structured rule that had blocked me from offering two amendments.

Two amendments that, according to the parliamentarian, were germane and not subject to a point of order. In other words, if this appropriations bill was any other appropriations bill, I would of had the opportunity to offer my amendments.

My first amendment would have prohibited the use of funds on any vote that last longer than 17 minutes.

It is not bad enough that they will hold the vote open long enough to have it their way. What is worst is that they would not even let us debate the amendment in the first place. What are they so afraid of?

The second Amendment would have required conference committees to meet before the House can vote on a conference report.

Since they did not allow me to offer my amendment, I plan to introduce a bill to restore democracy to the House of Representative. Some of the key sections of the bill deal with what my amendments would have also addressed.

In all, this legislation will offer ten specific changes to the way this House has been operating under the Republican Majority. Like my amendments, these changes will help restore democracy to the United States Congress.

PAYING TRIBUTE TO LOU ROLLENHAGEN

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. McINNIS. Mr. Speaker, I would like to pay tribute to Lou Rollenhagen, and thank him for his dedication toward educating our youth in the Palisade, Colorado community. As the principal of Palisade High School, he has guided thousands of students toward their future aspirations. It is with great satisfaction and pride that I pay tribute to Lou for his many contributions to his community and state.

Lou attended Michigan State University and then went on to Western State College, where he became certified as a teacher. He took his first job at Palisade High School teaching Life Science before going on to become the counselor, the assistant principal, and the head football, wrestling, and basketball coach.

He has served as the Principal for over fifteen years and has succeeded in making many improvements for the school including the addition of advanced placement classes and upgrading the music and athletics programs.

Mr. Speaker, Lou Rollenhagen maintains that the greatest reward in his job was knowing that his career has produced good teachers and students. He has demonstrated a love for public service that resonates in his compassionate and selfless service to the Palisade High School community. Lou's enthusiasm and commitment certainly deserve the recognition of this body of Congress and this nation. Thanks for all your hard work Lou, and I wish you all the best in your future endeavors.

I would like to thank the Texas YMCA Youth and Government State Director Suzanne Mabie, John Reyes of the Houston YMCA, and Sue Six of Lake Country Christian School.

PAYING TRIBUTE TO MARGIE WILBUR

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. McINNIS. Mr. Speaker, it is with a heavy heart that I rise to pay tribute to the life and memory of Margie Wilbur who recently passed away. Margie was a devoted mother, and a valuable citizen to her Meeker, Colorado community. As her family and community mourn her passing, I believe it is appropriate to recognize the life of this exceptional woman, and her many contributions to the community in which she lived.

After attending college Margie became a nurse and served during World War II. On a 1944 trip, stopping through Meeker, Colorado, she met George Robert Wilber and were married a year later. After moving to Meeker and giving birth to three daughters, Margie went to work for the Rio Blanco County Clerks Office. In her twenty-eight years working for the courthouse, she was both a deputy county clerk and county vital statistician.

Margie was a very active and devoted member of her community. During her life she was an active member of the St. James Church, and a past president of both the Meeker Woman's Club, and the Moffat District of the Federated Woman's Clubs. Margie served as president of the Rio Blanco County Historical Society. She worked tirelessly on the Meeker Community Concert Board, was a board chairman for the Last Frontier Group and a member the Meeker Library Board, as well as the Three Rivers Library System.

On Wednesday, July 14, 2004, the members of La Sociedad Hijos de Palmeira will celebrate the 75th anniversary by traveling to the City of Palmeira, Spain.

La Sociedad Hijos de Palmeira was founded to establish a support network for those who had made the journey from Palmeira, Spain to the United States, and also to preserve their culture and customs.

In its 75 years of existence, La Sociedad Hijos de Palmeira has been a pillar of community service throughout Newark. As the city continues to diversify, La Sociedad Hijos de Palmeira has served as a center for promoting Spanish culture, and has provided a place to keep Spanish cultural and traditions alive.

La Sociedad Hijos de Palmeira has not only been active in the United States, but also in Palmeira, Spain. Through the hard work and dedication of the past and present members, La Sociedad Hijos de Palmeira was able to establish a state of the art recreational center in their native city. This center has provided the City of Palmeira with resources that were previously not available to its residents.

Today, I ask my colleagues to join me in honoring La Sociedad Hijos de Palmeira for its distinguished public service, its dedication to promoting Spanish culture in the City of Newark, and its continued efforts to assist the people of Palmeira, Spain.

PAYING TRIBUTE TO RALPH WADLEIGH

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. McINNIS. Mr. Speaker, it is a privilege to rise and pay tribute today to Otero Judge Ralph Wadleigh of La Junta, Colorado. After sixteen years of dedicated service, Judge Wadleigh is retiring from the bench. I would like to join my colleagues in honoring Ralph's work before this body of Congress and this Nation.

Although he will be remembered for his time spent overseeing the law as a county judge, he spent many years prior to his tenure on the bench as a faithful civil servant. He previously worked as the deputy district attorney, the city attorney, and the attorney representing the local school board. Recently he announced he would step down from full time service as an Otero County Judge, but Ralph still desires to remain an active civil servant. He has accepted a part-time position to serve as a senior judge for parts of southeastern Colorado. This position will provide him an opportunity to serve sixty days per year, where he will work as a substitute presiding judge for several counties throughout his area.

Mr. Speaker, Ralph's dedication to justice and the people of Otero County certainly deserves recognition before this body of Congress and this nation. Over the years, he has shown he is a friend of justice, and I am grateful for his commitment to his fellow citizens. I wish him all the best in his future endeavors.

SUPPORT VOTER FREEDOM ACT

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. PAUL. Mr. Speaker, political operatives across the country are using state ballot access laws to deny voters the opportunity to support independent presidential candidate Ralph Nader. For example, one New York election lawyer has publicly stated that partisan election lawyers should take advantage of New York's complex and costly ballot access procedures to keep Mr. Nader off the New York ballot. Meanwhile, a state party chairman in Arizona has hired a team of lawyers for the sole purpose of keeping Mr. Nader off the Arizona ballot.

The effort to keep Mr. Nader off the ballot shows how ballot access laws preserve the two party monopoly over the political system by effectively disenfranchising supporters of third parties and independent candidates. While the campaign against Mr. Nader is an extreme case, supporters of the two party monopoly regularly use ballot access laws to keep third party and independent candidates off ballots. Even candidates able to comply with onerous ballot access rules must devote so many resources to simply getting on the ballot that their ability to communicate their ideas to the general public is severely limited. Perhaps the ballot access laws are one reason why voter turnout has been declining over the past few decades. After all, almost 42% of eligible voters have either not registered to vote or have registered as something other than Democrat or Republican.

The United States Constitution gives Congress the authority to regulate the time, place, and manner of federal elections. Thus, ballot access is one of the few areas where Congress has explicit Constitutional authority to establish national standards. In order to open up the political process, I have introduced the Voter Freedom Act (HR 1941). HR 1941 established uniform standards for ballot access so third party and independent candidates can at last compete on a level playing field.

The blatant attempt by a major party to keep Ralph Nader off state ballots demonstrates how restrictive ballot access laws are used to preserve a political monopoly, limit voters' choices, and deny the rights of millions of Americans who support third parties and independent candidates an opportunity to effectively participate in the political process. I call upon my colleagues to remedy this situation by supporting my Voter Freedom Act.

As the Executive Director of the Port of Oakland, Mr. Yoshitani directed a staff of over six hundred employees and oversaw the management of the Oakland International Airport, the Oakland Seaport, and the historic Jack London Square. He has done an outstanding job managing not only the functions of the Port itself, but has also consistently demonstrated his commitment to sustainable development as a business goal through his pursuit of social equity and environmental responsibility in addition to economic vitality. In keeping with these principles, he established a new division at the Port, the Social Responsibility Division, which ensures greater access to jobs and business opportunities for the local community. Furthermore, Mr. Yoshitani is responsible for the establishment of a variety of other ground-breaking initiatives, such as the Public Art Program and Policy, the Port's sustainability Task Force, and the Annual Good Neighbor Awards, which recognize individuals and organizations delivering outstanding community service.

During his tenure as Executive Director, Mr. Yoshitani has also presided over the completion of a number of infrastructural improvements to all three Port divisions. In addition to supporting the Estuary Plan by initiating real estate and waterfront development in underutilized areas, he also presided over the completion of enlarged marine terminals, as well as the initiation of the construction of the Oakland International Airport's Terminal Improvement Program, the largest aviation project in the airport's 77-year history. Furthermore, under Mr. Yoshitani's direction, the Port has received over one hundred million dollars in Federal funding for various infrastructural improvements.

On July 14, 2004, Mr. Yoshitani will be honored in Oakland, California on the occasion of his retirement. I would like to take this opportunity to commend his exceptional achievements not only in the areas of Port economic growth and development, but also for his role as a leader in the areas of social responsibility and sustainable business practices. Mr. Yoshitani has distinguished himself as an exceptional business and civic leader, whose contributions have greatly enriched our community.

IN MEMORY OF EDILITH ECKART

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. THOMPSON of California. Mr. Speaker, I rise today to recognize Edilith Eckart, who died June 16, 2004 in Humboldt County, California at the age of eighty-four.

Edilith Eckart was born in Brooklyn, the daughter of Norwegian immigrants. She was a teacher prior to World War II then served her country in the U.S. Navy as a WAVE Lieutenant Junior Grade during that war. After the war she moved to New Orleans with her family where she began her lifelong vocation as an activist for peace and civil rights. She was an ardent and effective environmentalist who was often called as an expert witness in court cases.

Her belief in the concept of a peaceful world was absolute. She was an activist extraordinaire, a Veteran for Peace, a columnist, a citizen diplomat, a member of Women in Black, a biologist, a devoted parent, grandparent and world traveler. She led fifteen trips to the Soviet Union, visited Israel and Palestine several times and in 1995 she went to Japan for ceremonies marking the 50th anniversary of the bombing of Hiroshima and Nagasaki.

Characteristically, she engaged in civil disobedience and joined international organizations to help deliver $4 million worth of medicines to Iraqi hospitals following the first Gulf War. She was the co-chair of the Veterans for Peace "Iraq Water Project," which resulted in the building of a number of water treatment plants in rural Iraq.

She believed in the power of individuals to forcefully speak out for peace and justice, connect with the people of other countries in the pursuit of those ideals and she worked valiantly to relieve suffering wherever she found it.

Referring to herself as a contemplative activist, her garden was listed with the Sanctuary Garden Project, a nation wide network of back yard sanctuaries.

Edilith Eckart received many national awards for her friendship building in the Soviet Union, Palestine, Iraq, as well as the Veterans for Peace Presidents Award. She was also awarded the Physician's for Social Responsibility "Broad Street Pump Award." The American Association of University Women honored her during Women's History Month in 1998.

She was an inspiration; a humanitarian and she left a distinguished legacy to us all.

Mr. Speaker, it is appropriate at this time that we recognize Edilith Eckart for her unwavering commitment to the ideals and values that sustain our great country.

IN HONOR OF THE BRAVERY OF THE NIAGARA FALLS FIRE DEPARTMENT AND THE NEW YORK STATE PARK POLICE

HON. LOUISE McINTOSH SLAUGHTER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Ms. SLAUGHTER. Mr. Speaker, I rise today to honor the heroes of the Niagara Falls Fire Department and the New York State Park Police. Last Sunday evening, these brave first responders rescued a woman on the verge of ending her own life at the edge of the vast Niagara Falls. Without hesitation, these men put their own lives in danger to save another.

Niagara Falls is one of the greatest natural treasures on earth. One of the largest waterfalls in the world, Niagara Falls plunges a dramatic 180 feet, or 16 stories. It is a wondrous site that attracts millions of tourists every year. But with its immense beauty comes immense dangers. Over the years, police and fire personnel in Niagara Falls have performed daring rescues to save people who have gotten too close to the edge.

On Sunday evening, a suicidal woman ventured out to a ledge just a few feet from the edge of the mighty falls. Responding first to the scene, New York State Park Police officers Scott Durham and Timothy Coulombe kept the woman calm until rescue personnel from the Niagara Falls Fire Department arrived.

State Park Police Lieutenant Patrick Moriarty, Niagara Falls Fire Battalion Chief John Jacoby, and Niagara Falls firefighters Gary Carella and David Beahen all made their way out onto the ledge, just feet from the edge. Mr. Carella spoke to the woman with Mr. Beahen securing him from behind. As the woman suddenly began to slide towards the falls, Mr. Carella lunged to seize her, while Mr. Beahen lunged to catch him. They safely brought the woman to shore amid the cheers of dozens of onlookers who had gathered to watch this dramatic rescue.

I want to thank these men, and the personnel from Engine 8, Engine 4, Truck 1 and Rescue 1 who assisted them, for their astounding courage. The rescue only reaffirms what we already know: that the first responders of Niagara County are some of the finest. We should all feel safer knowing that that these brave men and women do such a stellar job, around the clock. I applaud and admire their valor and altruism.

Mr. Speaker, Mr. SHERMAN, Mr. WU and I rise today to ask our colleagues to join in saluting Mr. Li-Pei Wu, Chairman Emeritus and Director of GBC Bancorp, and the new Presidential Policy Advisor to Taiwan's President Chen Shu-Bian. He is a remarkable man with a myriad of accomplishments.

After his brother was sent to prison by members of the Nationalist Party, Wu left Taiwan to earn his MBA at Fort Hays State University. He struggled with the English language, but his determination and business acumen soon landed him important positions in Alaska's largest financial institution, the National Bank of Alaska.

Li-Pei Wu's accomplishments go far beyond the business world. For more than 35 years he has dedicated his time and energy to advocate for democracy and human rights in Taiwan. He is the founder and chairman of the Formosa Foundation, a non-profit, non-partisan public interest group that seeks to foster an environment of peace and stability across the Taiwan Strait, while also promoting understanding and friendship between Taiwan and the United States. He was the founding president of the Taiwanese American Citizen League, which has grown from one to twelve chapters nationwide. He has worked tirelessly to help Taiwanese-Americans achieve success and leadership opportunities in American politics, culture, and society. In addition, he serves as an honorary member of the Pacific Council on International Policy and as a Board of Advisors member for the Asia Society of Los Angeles.

Mr. Wu's commitment to human rights, peace, and economic success has been widely recognized. He is the proud recipient of the 1998 Ernst & Young Greater Los Angeles Entrepreneur of the Year Award and has been asked to teach at the University of Cambridge as a Distinguished Guest Lecturer in the school's Department of Oriental Studies. He has served as a delegate to Taiwan's National Affairs Summit at the direct invitation of Taiwan's President Lee Tung-hui. In 1990, he was the recipient of the Outstanding Entrepreneur Award bestowed on him by the National Association of Investment Companies.

Mr. Speaker, we ask our colleagues to join us in honoring and thanking Mr. Li-Pei Wu for his outstanding contributions to our community and for his steadfast commitment to human rights and strong relations between the United States and Taiwan.

AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2005

SPEECH OF

HON. SANFORD D. BISHOP, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 13, 2004

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 4766) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies for the fiscal year ending September 30, 2005, and for other purposes:

Mr. BISHOP of Georgia. Mr. Chairman, today I rise on behalf of the hard-working farm families of Southwest Georgia who have more than earned the economic assistance that a tobacco buy-out would provide.

By introducing this amendment, my colleagues seek to make a statement about the tobacco industry as a whole. In reality they are punishing American farmers who have already suffered the loss of more than fifty percent of their income. A tobacco buyout does not provide an incentive to grow tobacco nor does it get the U.S. Government out of the tobacco growing industry, rather it provides our farmers with an honest chance to survive.

Those of us representing American tobacco growers are in the best position to understand the unique importance of tobacco reform. We have been working on a bipartisan basis for over two years to end the depression-era price support system that, despite severe cuts in quotas and the even greater economic losses of our farm families, has not been touched in nearly 18 years. This amendment obstructs our reform efforts and complicates the chances of any real solution. Our farmers deserve better.

I urge my colleagues not to support this amendment.

PERSONAL EXPLANATION

HON. RUBÉN HINOJOSA

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. HINOJOSA. Mr. Speaker, I regret that I was unavoidably detained in my district. Had I been present, I would have voted no on rollcalls 359 and 360. I would have voted yes on rollcalls 361 and 362.

TAX REFORM

HON. STEPHANIE TUBBS JONES

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mrs. JONES of Ohio. Mr. Speaker, public distrust. That is the main reason why we urgently need fundamental tax reform.

More and more Americans distrust the current tax system because they perceive it as unfair. Are they wrong? No. Lower and middle class Americans bear a disproportionate tax burden. Small businesses bear a great compliance burden. That is unfair.

Does fairness in our tax system matter? Yes, it matters because tax collection depends on voluntary compliance. And in a democracy like ours, people contribute private resources to provide the public goods and services we deem appropriate as a community, including helping those not able fend for themselves.

In America, paying taxes embodies a civic relationship of mutual responsibility, and people's obligation to pay them is as legitimate as any other public duty.

So, I am glad that we are beginning this discussion of comprehensive tax reform—an issue that will only become more important for us in Congress.

Let me offer the following five points to consider as we discuss this important issue:

First, fundamental tax reform is a necessity. The current tax system is complicated, inefficient, and unfair. Its unpopularity is warranted, and that is a problem because that breeds distrust.

The tax code must be simplified in order to eliminate wasted time and money spent on compliance. For example, the average taxpayer with a self-employed status has the greatest compliance burden in terms of tax preparation—59 hours.

Furthermore, the complexity of the tax code is evident by the fact that small businesses overpaid their taxes by $18 billion in 2000 and 2001 because of return errors, according to a GAO report. Small businesses unfairly bear the burden of the tax code's complexity simply because they do not have the financial resources to hire sophisticated tax advisors.

Second, simplification can occur only with fundamental tax reform. This is clear after decades of incrementalism. We know that tax reform cannot be done in a piecemeal fashion. The current tax system is flawed at its root. Hard-working, middle-income class people bear the largest burden in our current tax system.

Third, fundamental tax reform must focus on the tax base. Our tax base is derived from total income. However, this is complicated by the bewildering array of adjustments, deductions, credits, omissions, and mismeasurements. This undermines the fairness of our tax system. Therefore, fundamental tax reform must focus on the issue of the tax base in order to achieve equity, efficiency, simplicity, and accountability.

Fourth, the tax code must encourage entrepreneurship. Small businesses provide our economy's foundation. They need a tax system that frees resources for investment and ensures affordable capital. We must support small businesses, which make up the backbone of our economy.

Fifth, fundamental tax reform is possible. Tax reform is not an easy task. However, the American public demands it. They see our tax system as unfair, and they are right. As it was in the mid-1980s, the time is ripe to begin taking serious steps towards achieving fundamental tax reform. We must listen to our constituents and be up to task to implementing a fair tax system.

TAX REFORM

HON. JAMES R. LANGEVIN

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. LANGEVIN. Mr. Speaker, today I rise to highlight the increasing complexity in the tax code that bogs down small businesses in my district.

Shortly after President Bush took office in 2001, he declared, "Americans want our tax code to be reasonable and simple and fair. These are goals that unite our country, and these are goals that have shaped my plan." I could not agree more with the President's words, but unfortunately his actions have not matched his rhetoric.

Over the past three and a half years, the federal income tax code has grown by more than 10,000 pages due to 227 changes, not including the 109 proposed tax changes in the manufacturing tax bill that recently passed the House. Instead of helping small businesses create jobs in America, this legislation actually encourages companies to move workers abroad.

According to the IRS, small businesses and self-employed taxpayers now spend an average of nearly 60 hours on tax preparation. That means a business owner or employee uses more than a full work week compiling information and filling out tax forms rather than working to grow the business.

A recent GAO study concluded that small businesses overpay their taxes by billions of dollars per year because of tax return errors. Even tax preparation professionals make errors because the code is too complicated to know about every single available deduction.

Republicans have been so preoccupied with cutting taxes that they have not taken into account the burden this new complexity causes for taxpayers. We need a simpler tax code that allows companies to spend less time filling out forms and more time on business.

While Republicans continuously speak about making tax simplification a reality, they have done nothing but add to the misunderstanding and complexity. I urge the adoption of legislation to reduce the paperwork burden on our small businesses so that they can concentrate on their work, not deciphering the tax code.

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. FRIST. Mr. President, today, we will be in a period of morning business. Last night, we were able to complete our work on the Australia Free Trade Agreement. We also finished the process for sending the JOBS bill, FSC/ETI bill, to conference; therefore, we will have no rollcall votes today.

I do not anticipate a long session today, but several colleagues have asked that we be in morning business so that they have an opportunity to discuss certain issues.

We have one piece of business on the Executive Calendar. We have tried to reach a time agreement on the judicial nomination of William Myers to be a U.S. circuit judge for the Ninth Circuit. It appears unlikely that the other side will agree to a time limitation, and, therefore, I intend to file cloture on that nomination today. That vote will occur sometime early Tuesday afternoon at a time to be determined, which we will set certainly before the close of today's business.

AIDS IN AFRICA

Mr. FRIST. Mr. President, I want to briefly comment on a headline from an article from the U.K. Daily Independent. It could have been really from any periodical, but the headline says, "AIDS reduces African life expectancy to 33." That is 33 years of age. In my office this morning, I came across this, and it hits me that this little virus we have lived with since the early 1980s, when it was first described and detected in this country—in this country nobody had died of this little virus, but then 5 people died, 100 died, and now thousands of people in this country have died; and then it killed about 500,000 people, and then a million, and then 5 million, and then 23 million people have died. It is destroying the continent of Africa, where the life expectancy is 33 years of age.

I ask unanimous consent to have the article printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the UK Independent, July 16, 2004]

AIDS REDUCES AFRICAN LIFE EXPECTANCY TO 33

(By Elizabeth Davies)

The AIDS pandemic is ravaging countries in sub-Saharan Africa, drastically reducing life expectancy in some parts to less than 33 years, a new UN report said yesterday.

The devastating impact of the crisis can be seen most clearly in seven African countries, including Malawi and Mozambique, where babies born in 2002 are not expected to live past 40 years because of the prevalence of HIV. Children in Zambia, where 17 per cent of the population are infected with the virus, are predicted to live just 32 years. The seven countries have, between them, seen an average drop in life expectancy of 13.5 years since 1990, the UN human development report said.

"In all these countries, AIDS is reversing the hard-won development gains of recent decades," said Elizabeth Lwanga, the deputy director of the United Nations Development Programme (UNDP) for Africa. "We need an unprecedented response to this crisis, which is taking a devastating toll on our communities."

With almost a quarter of its population infected with the virus, Zimbabwe has been the country most dramatically affected. Life expectancy there has plummeted from 57 years in 1990 to 34 in 2002.

In Swaziland, where one in three people between the ages of 15 and 49 are AIDS sufferers, life expectancy has dropped by almost 20 years, and in Botswana, where the disease affects 37 per cent of the population, people can expect to live 16 years less now than in 1970.

Sub-Saharan Africa is home to just over 10 per cent of the world's population—and to almost two-thirds of all people living with HIV. In 2003, an estimated three million people in the area became infected for the first time, while 2.2 million died. As a result, many of the countries are considerably poorer than they were a decade ago; 13 of them are virtually the first countries in the UNDP report's history to have suffered a reversal in living standards.

The UNDP administrator, Mark Malloch Brown, said that the virus caused such destruction because it affected all aspects of life. Those who fell victim to the disease left behind them countries struggling to cope with the loss of such a large proportion of the workforce.

"The AIDS crisis cripples states at all levels, because the disease attacks people in their most productive years," said Mr. Malloch Brown. "It tears apart the foundation of everything, from public administration and health care to the family structures."

Mohga Kamal-Smith a health policy adviser for Oxfam, pointed to the failure of the international community as one of the main reasons for the devastation. "As the epidemic spread, the donor contributions from richer countries went down," she said. "Hardly any of the governments have achieved the 0.7 per cent GDP contribution that they committed to."

The UNDP's annual report shows the drop in contributions from the highest-ranked countries in the list, particularly from Norway and the United States.

The lead author of the report, Sakiko Fukada-Parr, acknowledged that the most afflicted countries face enormous problems but said she believed that solutions may be found.

"AIDS is currently presenting a very basic problem in human development," she said. "But other countries, like Senegal and Brazil, have achieved partial success in fighting the disease, due to easily accessible medicine and all elements of the countries getting involved."

Mr. FRIST. Madam President, in part, the second paragraph in the article says:

> The devastating impact of the crisis can be seen most clearly in seven African countries, including Malawi and Mozambique, where babies born in 2002 are not expected to live past 40 years because of the prevalence of HIV.

Without going into details of the causes, that dramatic impact demands, for a moral reason, a strong international response. I am proud that the United States is leading that moral response. This crisis is one of the great moral, humanitarian public health crises of our times. We need to address that.

Mr. REID. Madam President, will the Senator yield?

Mr. FRIST. Yes.

Mr. REID. Senator DASCHLE and I traveled to Africa a couple years ago this August. I was stunned then to go to Botswana where the average life expectancy is 39 years. Since then, it has dropped even lower. As we speak, people are dying. They are losing about 7,500 a day on the continent of Africa. So I am very glad that the majority leader, who is a physician, is following this. This is something that I don't know what we can do about. We are trying, and we have joined with the administration to try to do something about it.

Later in the day, would the leader be in a position to tell us more regarding what we are going to do next week?

Mr. FRIST. Madam President, yes, I certainly will. There are a number of issues, and we will talk about it later this morning. We will be in next week, including Monday. I would like to have the Myers vote early Tuesday afternoon. We have the Defense Appropriations bill which will be coming back from the House. As soon as it comes back, that very important bill we have acted on in the Senate will be addressed certainly next week. In addition, the Democratic leadership and the Republican leadership have begun discussions. There is likely to be another conference report coming back from the House with regard to a tax package. Nobody in the conference has to determine what the package actually is, but it will focus on issues like the 10-percent tax bracket, extension of the child tax credit, marriage penalty relief, those sorts of issues that I suspect will be addressed on the floor of the Senate next week. We can discuss other business. Next week will be a busy one. It will be our last week before going on a very long recess.

Finally, on Botswana, the Senator from Nevada mentioned two things. First of all, Senator DASCHLE and your delegation went about a year and a half ago. We followed that the next year with another bipartisan delegation to very similar countries. It takes that sort of direct participation on our part to go and see the travesty, the devastation, and to see that a large portion of these societies has been wiped out by this little virus which we can cure eventually. I am confident. It takes that participation on our part. I encourage our colleagues, even though people say Senators need to stay right here in the United States, to do traveling, interaction, dialog, observation. Since those two journeys, we have been able to come back and we can, with pride, say we are the world leader in addressing this moral public health challenge. That comes from action here, translated into action on the floor, which is what we have done.

In Botswana, if we compare 1970 to today—and this article points it out—someone born in 1970 would have lived 16 more years if this virus had not been around. So it has cut 16 years, comparing 1970 to today, off someone's life expectancy in Botswana, where the assistant Democratic leader and I visited. It is a tough problem, one we can address together.

Mr. REID. Madam President, Botswana is a model democracy, a great country, great leadership, no corruption. I will respond briefly to the distinguished majority leader.

My last trip to Africa was a life-changing experience. I had been to other places, but to see the spread of AIDS was a life-changing experience for me, to see the orphans. The orphans are an epidemic in Africa. All these little kids have no parents, both parents having died from AIDS. To see the personal devastation of communities being wiped out and people not being educated is a terrible situation.

Having come to this body from the House of Representatives, I served there on the Foreign Affairs Committee. I agree with the distinguished majority leader, part of our job is to find out what is going on in the rest of the world, and I think our taxpayers are well paid by what we do here by our going and seeing what is going on in other parts of the world. We have responsibilities being the only superpower in the world. I am glad to see the majority leader does not cringe from the fact he has traveled, and he is trying to find out what is going on in other parts of the world. I believe, without any reservation or question, that those Senators who choose not to travel—and it is a personal decision, but I think it is a bad decision.

Mr. FRIST. Madam President, we were talking about Africa, but this little virus right here in Washington, DC, is killing people every day. When we talk about Africa, we use that as a model, at least for me. It could equally be Russia where the rate is probably the fastest growing in the world, or Haiti. Senator DEWINE constantly reminds us how Haiti has been devastated.

When we talk Africa, HIV/AIDS, we are really talking about a virus that knows no boundaries—Washington, DC, Nashville, TN, across the world—and that is important to research and development. If we kill the little virus, it helps people here in the District, it helps people across this country, Haiti, India, Russia, and that is why it is so important; that is why we are pulling together the great science we have today. Once we get rid of the virus, it goes away across the world.

I did not intend to talk about this little virus except that it is so devastating.

Madam President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DASCHLE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will be a period for the transaction of morning business, for statements only, with Senators permitted to speak for up to 10 minutes each.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Democratic leader is recognized.

Mr. DASCHLE. I thank the Presiding Officer.

MIDDLE-CLASS SQUEEZE

Mr. DASCHLE. Madam President, over the course of the last several weeks, many of us have come to the floor to talk about the question raised by our former President, Ronald Reagan, back in the 1980 Presidential campaign. His question at that time, which we are told was paraphrased from a question posed by Franklin Roosevelt in 1934, was: "Are you better off than you were four years ago?"

Unfortunately, in 2004, the answer to that question is all too clear for most middle-class Americans. Four years ago, our economy was booming. The stock market had reached record heights. Twenty-two million jobs had been created in 8 years. We built a record Federal surplus. And millions of American families enjoyed newfound prosperity and felt the optimism of even better times ahead.

Four years later, we have lost nearly 2 million private sector jobs, the stock market has dropped, record surpluses have turned to record deficits, and middle-class families are truly being squeezed.

This chart tells the story. Since President Bush came to office, wages have been stagnant. Average weekly earnings have not increased in the last 4 years, but the costs facing Americans have skyrocketed. Gas prices have increased 23 percent; college tuition has gone up 28 percent; and family health care premiums, as we can see from the chart, have actually increased 36 percent.

All that has come out of average weekly earnings, which have been stagnant.

This is not what was predicted. This certainly is not what the White House said would happen under its economic policies.

In his annual economic report released in February, the President predicted the economy would create 3.8 million jobs in 2004.

As of today, we are still 2.5 million jobs short of that goal. Even more troubling, the jobs being created today pay less than the jobs we have lost. And even Americans who have been fortunate enough to keep their jobs have failed to see the pay raises they need and they deserve.

Just this morning we received confirmation from the Department of Labor that working Americans are still being squeezed by this economy. In fact, the new numbers indicate the squeeze is actually getting worse. According to the Labor Department, real earnings in June fell $2.16, the second largest monthly drop in 14 years.

The Labor Department report also reveals what has happened over the past year. As this chart shows, the real earnings of our working people over this last year have actually decreased by 1.4 percent. They have less purchasing power today than they did in June 2003. But a typical commodity, a grocery that most families buy every week, milk, has gone up 30 percent. All this money is coming out of weekly earnings.

As people across the country know, gas prices have also risen dramatically. There was an article on the front page of the Wall Street Journal about this development. It concluded that at current prices, the average driver will pay nearly $300 more for gasoline this year than last year. And the story only gets worse when it comes to prescription drugs.

According to a recent report by the AARP, drug companies raised their prices for the top 200 brand-name drugs at nearly three times the rate of inflation in the first 3 months of 2004. Some of my colleagues on the other side of the aisle think these increases are less important to American families than the rise of gross domestic product, GDP. But Americans don't live on GDP, they live on earnings. That is what they use to pay for milk, gas, medicine, health insurance, and tuition. They live on earnings, and those earnings clearly are not keeping up with the costs they are facing today.

Remarkably, the administration's response to this problem has been to further undermine wages by limiting overtime rights. This week, an independent study showed that the White House's new overtime regulation, which goes into effect next month, will strip 6 million workers of their right to overtime. That is unacceptable. Democrats continue to fight at every opportunity to reverse the administration's misguided policy. Middle-class Americans are being squeezed, and the last thing they need is for their Government to make it worse.

What Congress should do is raise the minimum wage. It has been 8 years since we last voted to raise it. In that time it has become nearly impossible for minimum wage workers to make ends meet, especially when they are trying to raise a family. In my home State of South Dakota, a worker earning the minimum wage has to work 82 hours a week to afford rent for a two-bedroom apartment. And that is without taking into account other family costs, such as clothing, groceries, and health care.

Of course, not everyone in America is feeling the pinch. As this chart shows, while workers continue to struggle, our big corporations are thriving. In just the past year, corporate profits have risen 30 percent. The White House likes to talk about how we are now in an economic recovery. That is true for corporate America. But American workers are being left behind. As the New York Times recently reported, take-home pay, as a share of the economy, is at its lowest level since the Government started keeping track in 1929.

Economic policies that lead to these kinds of results don't do right by middle-class families, and they don't do right by America.

The good news is, we can do right by America. We proved during the Clinton administration that we can create millions of jobs, raise wages, and increase the quality of life for families all through the country. We did right by America then, and we can do it again.

With the help of the American people, and with some resolve by this body, we will do it again.

I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HARKIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

LEAK INVESTIGATION

Mr. HARKIN. Madam President, I have taken the last several days on a daily basis to come to the Senate floor to talk about the treacherous and damaging leak of the identity of a covert CIA operative by the name of Valerie Plame, leaked to a columnist by the name of Robert Novak, reportedly by high-ranking White House officials. I spoke a number of times last year when the events occurred. I spoke about it before a special prosecutor was assigned to investigate. After that special prosecutor was assigned, I did not say much more because I believed things would take their course, the special prosecutor would do his job, and we would get to the bottom of this.

July 14 marked 1 year, and this being July 16, it is now 1 year and 2 days since we first learned of the exposing or the outing of Valerie Plame as a covert CIA operative.

That was the date 1 year ago when this columnist, Robert Novak, publicly exposed Ms. Plame. This was done in an act of political retribution because her husband, former Ambassador Joseph Wilson, published a column in the New York Times that questioned one of the key administration justifications for the war in Iraq; namely, that Iraq sought to buy yellow cake uranium ore from Niger.

Sadly, Republicans are still at it. They are fixated on Mr. Wilson. They are intent upon destroying his credibility. In columns and editorials and floor statements, the smear campaign continues. Their reason is they want to deflect and distract from the fact someone in the White House—high ranking—appears to have committed a crime, a treacherous crime.

I am not here to defend or criticize Joe Wilson. I have tried to follow the debate over his findings and statements and all that. Obviously, we are all concerned about finding out the facts about whether Saddam Hussein's government did try to obtain yellow cake uranium ore from Africa, the country of Niger, in the 1990s. That is a question of importance. But none of that has anything to do with the way we judge an illegal White House action that was used to undermine and endanger human intelligence resources, and was done only to disparage Mr. Wilson.

Here is the statute, and it is clear, 50 U.S.C., section 421. It says:

> Any person who has access to classified information that identifies a covert agent and intentionally discloses that information to an unauthorized person, knowing that the Government is seeking to keep the agent's identity concealed, shall be fined under Title 18 or imprisoned not more than 10 years, or both.

Robert Novak said it in his column. He said it was high-ranking White

House officials who gave him the information. We know that one or two high-ranking White House officials called, I think, up to six reporters to give them that information. Interestingly enough, it was only Mr. Novak who published this in a column.

Mr. Novak has been around this town a long time. He also had to know this was a violation of law to come out with the name of a covert CIA agent. Yet Mr. Novak put that name in his column. Shame on Mr. Novak. I am not certain that it is totally unclear as to whether he could also be prosecuted under the same provisions of law, 50 U.S.C., section 421. He also identified a covert agent.

Now, under the law, there is no exception for cases where a spouse of the agent has questioned administration policy. It doesn't say in the law that a person could be fined under title 18 or imprisoned for not more than 10 years, or both, unless the spouse of the agent questioned the administration policy. It doesn't say that in the law.

I understand the ongoing investigation by prosecutor Fitzgerald has been somewhat thorough. However, I have repeatedly criticized the President and Vice President for refusing to settle the matter quickly, which they could have done a year ago. Again, I am calling for the special prosecutor to put the President and the Vice President under oath—put them under oath and film it.

This is what they did to President Clinton. The special prosecutor put him under oath and filmed it. We sat here in the Senate and watched it. That had to do with actually something, I guess, that wasn't even a crime. It may have been immoral, but it wasn't a crime—certain indiscretions committed by the President in the White House.

What are we talking about here? We are talking about the exposure of the identity of a covert CIA agent, destroying her credibility, putting at risk all of her contacts and people she had worked with around the world. And, as we have learned from other retired CIA agents, this also puts a cloud over all other covert CIA operatives who may think that sometime in the future they too could be outed. What about all of their contacts who may think that, well, gee, I know someone who was giving information to Ms. Plame. Now, they may know that person was giving information, and I may have another contact. Well, I guess I better not get involved in that because they may out my source or my contact, also.

I cannot emphasize enough the seriousness of this crime. Yet the President treated it rather cavalierly when he was asked about it. He said: You know, there are leaks all over the White House. It is a big administration. We may never find out who did it. And he smiled, as if this was not a big deal. It is a very big deal. Someone in the White House—to this Senator's thinking—committed treason. The number of people in the White House with access to this kind of information can be counted on one hand—OK, maybe two hands. Maybe there are 10 people. But what the President should have done was call them into his office, have them sign a piece of paper that they did not do this, put them under oath.

The President could have solved this in 24 hours. Yet he sort of dismissed it out of hand, as though it was not a big deal.

Well, that is why I think the President and the Vice President must be put under oath and asked about this. Perhaps they do know. Perhaps the President does know who leaked this information and is just covering it up. Perhaps the Vice President also knows and he is just covering it up.

You have to look at what happened and how this whole thing progressed, and why the administration obviously is trying to deflect this onto Mr. Wilson and others, because the chronology of events shows that the administration clearly knew these claims were not real. So you have to look at the chronology.

Let me summarize it and then I will go through it. Even after CIA Director Tenet told the White House not to use this information in a speech, and even after the State Department later came out and said that some of these documents were forgeries, even after the same individual who had talked to Director Tenet in October and had taken the words out of the speech—that same individual put those words back in the President's State of the Union Message 3 months later. Curious, very curious.

By the fall of 2002—let me put it more succinctly. In October of 2002, the White House sought to include the claim that Iraq had tried to buy uranium from Africa in a policy speech by the President in Cincinnati.

What did the CIA do? Here is the chronology. In February 2002, Joseph Wilson travels to Niger to find out whether Iraq had attempted to buy uranium ore. On October 5, 2002, after the President indicated he was going to give a speech in Cincinnati and these claims were in the speech, the CIA sends a memo to the National Security Council concerned about these uranium claims in the Cincinnati speech. That is October 5.

They must have clearly felt they were not being taken seriously, because the following day a second memo was sent that urged that the information be deleted because the evidence was weak and the CIA had told Congress that "the Africa story was overblown, and this is one of the two issues where we differed with the British."

They must have been still pretty seriously concerned because CIA Director Tenet personally calls Deputy National Security Adviser Stephen Hadley. He personally called him.

Get this, they send a memo on the 5th, they send a memo on the 6th, and the Director himself calls on the 6th. So obviously they were very concerned about it. Guess what. Mr. Stephen Hadley—keep that name in mind—Deputy National Security Adviser Stephen Hadley takes the claims out of the speech the President gives in Cincinnati.

Then on October 16, the State Department gets copies of uranium purchase documents and forwards them to the CIA. I am told this came from the Italians. I don't know if that is right or not, but that is what I was told. This is what they claim were forgeries. This is what our State Department analyst tells the CIA later on, that the documents are likely forgeries.

On January 13, 2 weeks before the State of the Union, a State Department analyst sent an e-mail to the CIA about the documents, outlining his reasons why the uranium purchase agreement is probably a hoax. This is a State Department analyst who sends an e-mail to the CIA saying these are probably a hoax, forgeries.

So between the Cincinnati speech in October and the State of the Union speech in January, there is even more reason to doubt the credibility of these uranium purchase claims. Nonetheless, these mysterious 16 words—"The British Government has learned that Saddam Hussein recently sought significant quantities of uranium from Africa"—were left in the State of the Union speech.

Here is where we come full circle. Who is the individual responsible for vetting national security issues before the State of the Union speech? Mr. Stephen Hadley oversees the State of the Union speech. Mr. Hadley was vetting national security concerns.

Let's loop back. It was Mr. Hadley who talked to Director Tenet in October and who got these memos saying these claims were not real. Stephen Hadley in October took them out of the Cincinnati speech. Mr. Hadley in January leaves them in the State of the Union speech. It is the same individual. He could not have forgotten this. He had to have known this.

Why, I ask, was this left in the State of the Union Message? Was it left in to help the President make his case for an invasion of Iraq? After being told it was dubious by the CIA Director himself, after the State Department said these were probably forgeries, the issue is, Why the White House still has not been held accountable for breaking the law and betraying the intelligence community by exposing Valerie Plame, all done in an attempt to discredit her husband Joseph Wilson and his criticism of the uranium claim.

The President says he did not know anything about it. Ken Lay of Enron last week claimed he did not know anything about what was going on in his company, either. He is the CEO, and what is his defense? "I didn't know it was going on." Either the CEO of a corporation knows what is going on and he is not being truthful or he did not know anything about it. Either way, it is inexcusable. If the President of the United States says he did not know anything about it, that is inexcusable. If the President did know about it and left that claim in his State of the Union Message, that is inexcusable. Either way, the buck stops on President Bush's desk. It is time to quit passing the buck. It is time for the American people to learn who committed these crimes and to have these people prosecuted.

What is going to happen in the future if this is swept under the rug? Does that mean some other administration, the next one, whatever it may be, Democratic or Republican, that a President or his people under him in the White House can break the law and not be held accountable?

Again, I take you back several years to when President Clinton was put under oath and filmed. We watched it right here on the Senate floor during the impeachment proceedings. Regardless of how one may have felt about that, it sent a very powerful message to the American people: No President is above the law; no President is above the law, neither Mr. Clinton nor Mr. Bush.

So I ask, Why hasn't President Bush, why hasn't Vice President CHENEY been put under oath and asked these questions under oath? Again we will let the American people know that no President is above the law and no one who works for a President is above the law.

This is serious business. I see that in a column by Mr. Novak of July 15—Mr. Novak's whole column is about Joe Wilson—he said:

> It's as though the Niger question and Joe Wilson have vanished from the Earth.

No, they have not, Mr. Novak; no, they have not. But Mr. Novak is all on whether Mr. Wilson was telling the truth, whether he was misinterpreted, whether his wife recommended that he be sent to Niger. Nowhere is it claimed Ms. Plame was in a position of authority to actually send him to Niger, but Mr. Novak goes on about how a State Department analyst told the committee about an interagency meeting in 2002 by Wilson's wife who had recommended that he go there because he had contacts there.

What does all this mean? It means what Mr. Novak is trying to do is to take the focus off of a clear violation of the law by individuals in the White House in exposing a covert agent's identity; take it off that and focus it on all this stuff about whether she recommended her husband, or whether her husband gave an honest analysis. I am sorry, Mr. Novak, that is not the issue. The issue is, someone in the White House broke the law, clearly, unequivocally. The point is, the President of the United States has expressed not one iota of outrage. The point is, the President and the Vice President, neither one, have sought to get to the bottom of this. Neither the President nor the Vice President have been put under oath to be questioned about this.

The point is, Mr. Novak, a year and 2 days have passed, and this lawbreaking activity in the White House has not been dealt with. No one is saying Ms. Plame broke any law, violated any ethics. No one is claiming Mr. Wilson broke any law or violated any ethics. You can say they may have made a mistake, he may have been wrong, he may have been wrong in his analysis—fine. I am not saying he was right or wrong. I don't know. What I do know is, two individuals in the White House broke the law—to my way of thinking, basically committed treason—and no one is getting to the bottom of it. And Mr. Novak continues to try to deflect the attention from that, to try to talk about whether Mr. Wilson was right in his analysis.

That is not the point. You can debate that issue if you want. What is not debatable is that someone in the White House broke the law, and they should be held accountable.

As I took the floor yesterday and the day before and the day before, I take the floor today, and I will every day that we are in session, to ask that simple question: Why isn't the President coming clean? Why isn't he getting to the bottom of this? Why, 1 year and 2 days later, has nothing happened in the White House to find the identity of these lawbreakers? The sooner we get to the bottom of it, the sooner we can allow the criminal justice system to do its job.

I call upon the President and the Vice President to get to the bottom of this. I call upon the special prosecutor to put them under oath and to ask them these questions. That may be the only way we get to the bottom of it.

I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. FRIST. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. CORNYN). Without objection, it is so ordered.

OBESITY IN AMERICA

Mr. FRIST. Mr. President, in a few minutes we will be closing out for the weekend. I will briefly comment on a couple of current issues before addressing some of the business before the Senate.

The first issue is a brief comment on President Bush's decision or his administration's decision yesterday to have the Federal Medicare Program recognize obesity as a disease.

Earlier today, we were talking about public health issues, and I mentioned in some African countries, because of an HIV/AIDS virus, the total length of life will be 33 years of age. In Botswana, if you were born in 1970, you would live 17 years longer than if you are born today because of that little virus. I mentioned that. That has gotten worse over the last 30 years, which we probably did not know anything about in this country until about 20 years ago. And it is getting much worse.

Another problem, very similar to that, is one that is apparent to anybody who has kids today and picks them up from school. If you just watch, you see the kids are much heavier than 20 years ago, 30 years ago. And that has lifelong consequences. It comes down to obesity.

There are many reasons for obesity, and I am not going to address all the reasons now. But there are things we can do, and we have a real obligation to do.

It is a brand-new problem—or new in the last 20 years. It is getting worse and worse, and it condemns these kids to a life of poorer quality and shorter length. It is something we absolutely must address.

I applaud the administration's decision yesterday. What they did is said obesity—which before was this kind of vague syndrome or observation—is a disease, and when you call it a disease, people recognize it as a disease, and then you start looking at prevention, care, and treatment to reverse it. That is the significance.

Two things: First, for the first time, a major Federal health program recognizes obesity as a disease. It is a treatable disease—preventable but also treatable. The second is that it demonstrates, once again, that Secretary Thompson and the administration are taking extremely seriously the obesity epidemic which is occurring in this country.

The administration is attacking obesity on a multitude of fronts. It is needed. In my mind, it is long overdue that this Nation address this new but rapidly growing epidemic.

The Centers for Disease Control and Prevention—or the CDC, as we all know it—reports that because of poor nutrition and lack of physical activity, obesity is on its way of surpassing smoking as the leading killer in the United States of America. Obesity is on its way of surpassing smoking as the leading killer in the United States of America.

Obesity contributes to other diseases, the diseases in which I specialize; that is, heart conditions, heart disease. It also affects a whole range of issues: orthopedic, pulmonary injuries as well.

The immediate impact will be twofold. First of all, it will be easier for Medicare beneficiaries and individuals with disabilities who are Medicare beneficiaries to get treatment. The barrier to treatment will be lowered.

When Medicare makes a decision, it has a spillover impact to the private sector. I think the spillover impact will be substantial, although the private sector has already moved ahead. They have already increased reimbursement for appropriate treatment for obesity in many areas. But the fact that the Federal Government speaks with a loud voice will have an impact on the private sector.

The public and private sector have to be very cautious. We talk about this on the floor of the Senate every time there is a new definition of something that needs to be treated. We have to be very cautious in deciding which specific treatments to cover. We need to make sure the interventions are effective, but we need to also make sure they are cost effective.

There are several treatments now for obesity that are available. Science will allow us to determine which of these treatment modalities are most effective and which are most cost effective.

Also—this applies to the HIV/AIDS virus, which I mentioned earlier today, and to obesity, which I mention now—prevention is a critically important aspect of the equation. Early intervention, especially among children, is the key to preventing lifelong obesity and obesity-related illnesses.

Nonetheless, I want to applaud the administration for this bold step. It will help prevent obesity and greatly improve strategies for helping not only seniors and individuals with disabilities but all Americans.

SUDAN

Mr. FRIST. Mr. President, there is a second issue I want to mention that I addressed 2 weeks ago on the floor of the Senate and want to follow up on. It has to do with a tragic situation in Sudan, in the western part of Sudan in the three states of Darfur, Sudan.

The situation there, even over the last 3 weeks, has steadily deteriorated. We have hundreds of thousands of refugees that are currently at risk. We are entering the rainy season there, and that makes the delivery of relief supplies very difficult.

Since my comments on the floor of the Senate, Secretary of State Powell, in the first week of this month, went to the Darfur region and made observations and certain requests. At about the same time, Secretary General Kofi Annan also visited the region and made certain requests. Senator BROWNBACK, our distinguished colleague from Kansas, subsequent to their visit, also visited the region and made observations and with a video camera took some traumatic footage of the devastation going on there. Another delegation from the House will be going shortly.

We have to take action to address this humanitarian problem. The administration is working hard to get relief to these people who are suffering, but there is systematic violence that is going on against the civilian populations in Darfur by the government and by the militias that are supported by the government. That violence must come to an end.

I spend a lot of time in the Sudan and each year go to southern Sudan as part of medical mission work that I do. In the coming weeks or months, I will be returning to Sudan as part of this medical mission work. I look forward at that point in time to seeing if we are having an impact in both the southern part of the Sudan but also in the Darfur region and will report back to this body. Hopefully we will be able to report that we are making progress. Two million people are being affected by this crisis, so it is a large crisis. I do ask the Government of Sudan to take immediate steps to end the violence in that part of the world.

RETIREMENT OF POLICE CHIEF JERRY HOOVER

Mr. REID. Mr. President, I rise today to express my congratulations to Reno Police Chief Jerry Hoover on his retirement. The City of Reno and the State of Nevada owe this public servant a tremendous debt of gratitude for his hard work and strong dedication to law enforcement and the public safety.

Although Mr. Hoover spent 36 years in law enforcement, his service to our Nation in fact began with his combat service in Vietnam with the 101st Airborne Division. Since then he has dedicated his life to making our Nation's communities safer and has served admirably the people of San Diego, CA; Boulder, CO; St. Joseph, MO; and Reno, NV.

Chief Hoover provided strong and innovative leadership during a very challenging time for the Reno Police Department. Like police agencies throughout the country, the department under Chief Hoover's leadership has significantly expanded its responsibilities in recent years to meet our Nation's homeland security needs.

Reno's police officers have met this new challenge while also policing one of our Nation's fastest-growing metropolitan areas.

During his tenure, Chief Hoover helped create the Reno Model PTO training program that provides post-Academy police training with an emphasis on critical thinking and problem-solving. He also effectively drew on the resources of the entire Reno community to meet the city's law enforcement and public safety needs by initiating the Senior Auxiliary Volunteer Effort program, which trains volunteers 50 and older to assist with park and school patrols and special community projects.

Despite the demands of his position, Chief Hoover still found time to help train the next generation of law enforcement professionals through classes at the University of Nevada, Reno, and Nevada State College in Henderson. Even after his retirement from the Reno department, Chief Hoover will continue his lifelong commitment to effective law enforcement as a consultant to police agencies throughout the country.

Chief Hoover has led a distinguished career marked by generous service. Please join me in congratulating him on his retirement from the Reno Police Department and in wishing him luck in all his future endeavors.

HUMAN TRAFFICKING

Mrs. CLINTON. Mr. President, I rise today to highlight the scourge of human trafficking. Every day, in countries around the world and right here in the United States, people desperate for economic opportunity and seeking to follow their dreams of a better life are lured from home by the promises of jobs and security. Sadly, though, all too often they find themselves trapped in a nightmare, imprisoned by violent criminals, abused, violated, deceived, bought, and sold as chattel. Some of these victims of trafficking disappear, never seen nor heard from again.

Every year, traffickers strip thousands of people of their freedom and imprison them in the dark underworld of prostitution, domestic servitude, sweat shops, and agricultural labor.

Trapped in debt bondage and faced with threats of physical harm to themselves or their families, trafficked persons have little choice but to try to work off their ballooning debts. Women forced into domestic servitude or sweatshop labor toil each day in abysmal, even dangerous conditions, earning no money and suffering physical and psychological abuse. And women and children trafficked into the sex industry constantly risk exposure to deadly diseases such as HIV and AIDS. Their only "escape" from the traffickers coming, if at all, is when the criminals discard them in the streets to die. This human trafficking is nothing short of modern day slavery.

Each year the United States publishes a report ranking countries for their failure to combat trafficking. Improvements have been made, but still the 2004 Trafficking In Persons Report estimates that 600,000–800,000 men, women, and children are trafficked worldwide across international borders; 14,500–17,500 are trafficked annually into the United States. This is even more chilling when one understands that these are new victims added each year to those whom traffickers have already ensnared. We must do better.

Last week, the Senate Judiciary Subcommittee on the Constitution, Civil Rights, and Property Rights focused on the most fundamental of all civil rights in their July 7 hearing "Examining U.S. Efforts to Combat Human Trafficking and Slavery." And this week, representatives from NGOs and the Bush administration, including the Departments of Justice, State, and Homeland Security, are convening in Florida for the "National Conference on Human Trafficking." It is heartening to see the work begun by the Clinton Administration continues to grow and strengthen.

The scourge of trafficking in women and children was a priority for me as First Lady and continues to be a priority for me as a U.S. Senator. I will do everything in my power to shine a light on this dark world that is so contrary to human dignity. Since the United Nations Fourth World Conference on Women in 1995, I have been working to raise awareness of the heinous practice of buying and selling women and children like commodities. I have seen the devastation it causes, and the lives and families it ruins. I remember very well crouching down by the chair of a 12-year-old girl who had been sold into prostitution by her own parents desperate for the income from that sale, only to have the child return home within a year, dying of AIDS. I have met other families who spend their nights at home worrying about what has happened to the daughter they haven't heard from since she went to the discotheque, or answered the ad to be a nanny or a clerk.

In the summer of 1997, I met with women leaders from Eastern and Central Europe, as well as victims' family members who, with tears in their eyes, pleaded with me for help in dealing with this growing problem. Later that year, in Lviv, Ukraine, I launched a new information campaign designed to warn young women about the dangers posed by traffickers. And in the fall of 1999, at the meeting of the Organization for Security and Cooperation in Europe held in Istanbul, Turkey, I announced a $1 million U.S. commitment to combat trafficking, and I called for greater economic opportunities to prevent young women from being driven into the hands of traffickers.

In recent years, beginning with the leadership of the Clinton administration, the U.S. has made great strides in understanding the horrors of trafficking. We have worked with other nations to combat those who try to reap profits from this horrible practice. In 1997, the United States, along with the European Union, formally launched a campaign to combat trafficking of women and girls and to warn potential victims of the risks. In March of 1998, President Clinton condemned human trafficking as a fundamental human rights violation and a growing organized crime problem. I joined the President, Secretary of State Albright, Attorney General Reno, U.N. Secretary General Kofi Annan, and a high-ranking member of the Thai government for a White House announcement of the first presidential directive to prevent and deter trafficking and to protect victims. At that time, the President directed his interagency Council on Women to coordinate the development and implementation of a three-part strategy that would: first, prevent trafficking; second, provide protection and assistance for trafficking victims; and third, prosecute traffickers. This comprehensive strategic framework later guided the development of the anti-trafficking legislation passed by Congress.

The Clinton administration's State Department began raising the issue with foreign governments at the highest levels. Formal and informal working partnerships were forged with several foreign governments to address this international crisis, including the Ukraine and Finland. At the G–8 meeting in 1997, Secretary of State Madeleine Albright initiated discussions that resulted in 1998 with President Clinton and Italian Prime Minister Prodi formally signing the first bilateral agreement to cooperate on such anti-trafficking efforts as data collection and information sharing, prevention, assistance and law enforcement. We began the first U.S. funding of anti-trafficking programs in countries such as the Philippines and Bangladesh. Back then, no anti-trafficking legislation had passed so these were necessarily modest amounts by comparison to U.S. funding now, but it was a needed start.

There was more. Embassies were tasked with reporting on human trafficking for the first time. And these assessments were included in the Department's annual Country Reports on Human Rights Practices. Prevention efforts included publishing awareness pamphlets that were translated into multiple languages and distributed in many consular offices around the world. At the same time, the U.S. undertook the first official estimates of the magnitude of human trafficking world-wide and domestically, and funded the creation of a database on U.S. and international legislation on trafficking. Law enforcement training was initiated at the International Law Enforcement Academy in Bangkok and Budapest and in countries such as Thailand, Bulgaria, Romania and Bosnia.

The Attorney General and the Secretary of Labor established an interagency Task Force to coordinate investigations and prosecutions of trafficking cases. Even prior to the passage of the 2000 anti-trafficking law, the Department of Justice used the legal tools available to successfully prosecute human traffickers. In 1995, the Department brought the seminal case of United States v. Manasurangkun against traffickers who enticed seventy-one women from Thailand to travel to the United States by promising them good wages, good working hours, and a better life. Upon their arrival in El Monte, CA, they were held in slavery behind barbed wire and forced to work up to twenty hour days and under the watch of guards. Women were imprisoned for up to 7 years before being rescued. This case was followed by other landmark cases such as United States v. Paoletti, United States v. Flores, United States v. Cadena and United States v. Mishulovich. These and other cases successfully prosecuted by the Justice Department ranging from sexual slavery to forced labor demonstrated the many manifestations of human trafficking, all of which must be addressed. Investigations resulting from the Justice Department's creation of the first national telephone line to receive calls to assist trafficking victims anywhere in the United States led to growing prosecutions. I am pleased that since the anti-trafficking legislation was passed and signed into law in 2000, prosecutions have continued to increase. Again, though, we need to do more to support increasing the capacity to undertake the investigations and prosecutions of these cases.

Just as the Clinton administration and international organizations were beginning to highlight trafficking in persons as an international crisis, Senator Paul Wellstone—one of the greatest champions of civil rights to sit in this chamber—also recognized this growing abuse of human rights. He introduced, with Senator DIANNE FEINSTEIN, a resolution in 1998 that called trafficking a global human rights problem and directed the State Department to review it and report its findings to Congress. Congresswoman LOUISE SLAUGHTER introduced a companion resolution and the led the charge in the House to bring attention to this issue.

The Clinton administration worked with Senator Wellstone, his Republican co-sponsor, Senator BROWNBACK, and Congressman CHRIS SMITH and former Congressman Sam Gejdenson in the House, to introduce the first comprehensive anti-trafficking bill in Congress. This culminated in the passage of the Victims of Trafficking and Violence Protection Act of 2000.

I supported adoption of the strongest possible legislation to eradicate trafficking in persons, and I was personally invested in the effort. The Clinton administration worked continuously with Congress on a bi-partisan basis to craft a bill to achieve this objective. We sought to institutionalize the comprehensive strategic framework—the "3 Ps"—that the Administration had been implementing as the core of the legislation. The resulting legislation incorporated prevention mechanisms and better and stronger prosecution, protection, and victim assistance tools. Upon its passage, President Clinton congratulated Congress and noted that this new law would lay the groundwork for future administrations to carry this important work forward, and would ensure that trafficking of persons assumes the prominent place on the world's agenda that it deserves until we put an end to this horrible practice. I believed then, and I believe now, that this is one of the Clinton administrations greatest achievements and one of the most important parts of Senator Wellstone's legacy. That law means the difference between freedom and enslavement for unknown numbers of potential trafficking victims for years to come.

I was also proud to support and work with Senator BROWNBACK on the passage of the Trafficking Victims Protection Reauthorization Act of 2003. I know that Senator Wellstone would welcome our work in the Senate, and CHRIS SMITH's continuing leadership in the House, as we fight one of the most egregious human rights violations, which Paul so passionately sought to bring to an end.

Looking forward, we must pursue concrete and pragmatic approaches to combating this evil. Our rhetoric must be matched by our actions so that the United States government's seven year record of progress and success can continue and intensify. The fight against trafficking, like the fight against all forms of violence, must be supported with comprehensive strategies effectively implemented and appropriately funded here and abroad. There is still much to be done.

The United States must do more to combat trafficking within our own shores. Trafficking victims exist in our midst, in towns large and small. We must target resources on training and equipping law enforcement authorities to identify trafficking victims, victims too often mischaracterized as "illegal migrants" and deported. And we must provide funds for NGOs working on the front lines in the United States to provide care and legal assistance to victims of all forms of trafficking.

I applaud and support State initiatives to combat trafficking. However, we must ensure that State and Federal authorities work cooperatively to combat this scourge. These welcome state efforts must augment the ongoing Federal fight against human trafficking. The Federal Government cannot retreat, but must do more to focus on victims nationwide. We must ensure that our Federal law enforcement authorities continue to have the financial and human resources necessary to investigate these crimes. We must further support our Federal, State, and local law enforcement, investigators, and prosecutors in efforts to mobilize in an integrated and coherent way to respond appropriately to the organized criminal enterprises of human trafficking who still operate with relative impunity here and around the world. We must ensure that we adopt a consistent and coordinated national response to these human rights violations.

Without witness protection and an appreciation of the risks that trafficking victims face in testifying against the perpetrators of these horrible crimes, the prosecution record will not improve. Conferences are a beginning, but not an end in themselves.

We must do more to tailor specific responses to the special needs of the children who are trafficked, especially in terms of care and protection. Root causes such as economic deprivation demand and warrant growing attention. There are no short-term fixes. The incidence of retrafficking among children, many who have attempted to flee homes of violence and abuse or have been sold by their families, must be addressed.

Finally, the Senate must ratify the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, supplementing the U.N. Convention against Transnational Organized Crime. The United States played a major role in developing this new international law on trafficking. Through the annual TIP reports we have communicated our expectation to the world that all countries will join in our fight against human trafficking. Now, for the sake of our own credibility abroad, we must show our own commitment to abide by international norms on trafficking.

The TIP report is a powerful tool for combating trafficking around the world. The threat of economic sanctions has inspired many countries to ramp up their efforts to combat trafficking within and across their borders. We must work closely in partnership with countries who are striving to do better and maintain the pressure on countries who are not. Meeting minimum standards is not enough. We must not shy away from ranking as Tier 3 those countries that fail to do their part in the global fight against trafficking.

The simple fact is that we must do better in terms of demanding effectiveness of our programs and the significant funds that are spent by our government in the U.S. and around the world. There is no question that we are making progress, but we must do better for the sake of the victims of trafficking who try to endure, waiting and praying for our intervention in their nightmare. Every day, more women and girls are being sold into the sex industry, domestic servitude, sweatshop labor, debt bondage, and other forms of modern-day slavery. And more and more men, women, and children are being forced into various forms of manual labor, without any pay or any protection. These crimes are violations of human rights and human dignity, and the United States will not rest until they are stopped.

I am pleased that President Bush has carried on our country's commitment to combat human trafficking. The progress we have made to date has been the result of strong bipartisan efforts that brought the horrors of trafficking to light. I hope we will continue to address this challenge in a bipartisan way.

With the passage of important legislation and Congress's appropriation of much-needed funds to address this problem we have the opportunity to accomplish many things around the world and here at home to reduce human trafficking that we could only dream of before. The administration has declared its intention to spend $150 million over the next two years to reduce human trafficking. Support for these efforts is needed now more than ever because of the stark reality that in the four years since the legislation was signed into law there nevertheless remains no evidence that human trafficking is diminishing.

It was Senator Wellstone who observed that despite some progress on human trafficking we must be impatient for better results. I believe that the need to be impatient is now more urgent than ever. In the fight against trafficking in persons, patience simply is not an option. We are making progress, but there is still so much more that needs to be done.

No country has done more than the United States to bring worldwide trafficking out of the shadows and into the glare of public attention, and I am committed to doing whatever I can to help continue that leadership. I look forward to working with the administration and both sides of the aisle on additional improvements to the current legislation and effective strategies for implementing it internationally and domestically.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. SANTORUM (for himself and Mr. CORNYN):

S. 2681. A bill to establish a program to support a transition to democracy in Iran; to the Committee on Foreign Relations.

Mr. SANTORUM. Mr. President, I rise today to offer remarks about a bill that Senator CORNYN of Texas and I have introduced, the Iran Freedom and Support Act of 2004. This legislation seeks to promote the transformation of the Islamic Republic of Iran to a democratic form of government.

Our bill expresses the sense of the Congress that it should be the policy of the United States to support regime change in Iran and that the U.S. government should promote the transition to a new democratic Iranian government. In addition, so as to help make this transition possible, our bill authorizes the President to provide up to $10 million in assistance to qualified foreign and domestic pro-democracy groups opposed to the non-democratic government of Iran. To maximize the efforts of these pro-democracy groups, our bill authorizes activities such as aid to pro-democracy radio and television broadcasting organizations as a way of directly reaching the people of Iran.

For many years now, the people of Iran have dramatically demonstrated their desire for greater social and political freedoms. Literally millions of Iranians have massed in the streets of the major cities, demanding the right to choose their form of government and their own leaders. Even public opinion polls conducted by the dictatorial regime show upwards of seventy percent of Iranians want democratic change. But Iran remains in the grip of a brutal tyranny that has silenced dissident voices by arbitrary arrests, closure of newspapers and magazines, destruction of satellite television dishes, widespread torture and the second-highest execution rate in the world.

Our bill seeks to help the Iranian people achieve freedom by supporting pro-democracy groups and enabling freedom-supporting Farsi language radio and television broadcasting stations to broadcast information directly to Iran.

The current leaders of the Islamic Republic of Iran are not only brutal tyrants. Their support of anti-American elements and terrorist organizations poses a direct threat to the interests of the United States and our allies. For two decades, the Department of State has identified Iran as THE leading sponsor of international terrorism. Iran has been linked to the deaths of United States military personnel in Beirut, Lebanon, and Saudi Arabia. Iran has long provided financial and operational assistance to Hezbollah and is presently the leading state sponsor of Hamas and Islamic Jihad, who conduct lethal attacks against the citizens of Israel.

Finally, Iran may be engaged in a crash program to develop nuclear weapons. In October 2003, after strong and concerted pressure by the international community, Iran agreed to sign an agreement to suspend uranium enrichment and open its nuclear facilities to more intrusive international inspections. Despite this pledge, Iran has repeatedly withheld key information and documentation about its clandestine nuclear efforts. In February 2004, blueprints containing instructions for building a type of gas centrifuge known as the P2, a super-efficient machine used in producing enriched uranium, were discovered. The Iranians had not revealed these plans.

Additionally, the International Atomic Energy Agency (IAEA) has found multiple traces of highly-enriched uranium, with no civilian use, at a Kalaye Electric Company workshop in Tehran and at the Natanz pilot fuel enrichment plant 150 miles south of the Iranian capital. To the best of my knowledge, Iran has not offered a satisfactory explanation as to the IAEA's discovery of this materiel.

Reports are that Iran has sought magnets for thousands of such gas centrifuges. Also, Iran has not been able to explain experiments with polonium-210, a radioactive element primarily useful as a bomb trigger. Finally, Iranian government officials have barred access to selected sites for a period of time while—as recent satellite imagery shows—they almost certainly sanitized them of incriminating evidence.

I believe it urgent for the United States to support regime change in Iran. Without regime change, Iran will soon constitute the world's leading supporter of terrorism armed with nuclear weapons. That would be a great catastrophe for the Middle East, and for the United States and our democratic allies everywhere.

The bill I have introduced with Senator CORNYN will facilitate this change by reaching out to the people of Iran and supporting what President Bush and Secretary of State Powell have called the legitimate desire of the Iranian people to be free.

By Mr. ALLARD:

S. 2682. A bill to designate the facility of the United States Postal Service located at 222 West 8th Street, Durango, Colorado, as the "Ben Nighthorse Campbell Post Office Building"; to the Committee on Governmental Affairs.

Mr. ALLARD. Mr. President, I send to the desk legislation designate the U.S. Post Office located at 222 West 8th Street in Durango, CO, as the Ben Nighthorse Campbell Post Office Building.

My dear friend and colleague, BEN NIGHTHORSE CAMPBELL was born in Auburn, CA on April 13, 1933. His mother, Mary Vierra, was a Portuguese immigrant, and his father, Albert Campbell, was a Northern Cheyenne Indian.

At a young age, BEN developed a passion for the then newly budding sport of judo. Overcoming numerous, seemingly insurmountable obstacles as a youngster, in college he became the youngest person in the United States to hold the fourth degree black belt. He went on to study in Japan with the most respected judo masters. BEN was never short on determination. One student in particular, was a menacing opponent. He kept his photo on the wall of his room, and shouted to it often, "I will beat you!"—and he finally did.

BEN was named to the U.S. Olympic Judo team in 1964, but an injury caused him to collapse on the floor during the match, which yielded his opponent the bronze medal by default. BEN went on to bring the sport of judo into a specialized system for kids, teaching them self discipline, self control and self respect, as he established one of the first successful clubs for kids.

With CAMPBELL's determination and magnanimous spirit, it was only natural that he enter the political arena where his perseverance has in fact left its mark on American history. CAMPBELL likes to view himself as a person of passion and this passion has rattled more than a few formidable foes. As the only American Indian in Congress he found himself, de facto, the representative of all Indians throughout the United States. In his time on the Indian Affairs Committee, he got more legislation passed for Indians than anyone in the Nation's history.

BEN is also a renowned jewelry designer, athlete, former truck driver, and trainer of champion quarter horses. He has been married to his wife, Linda, for more than 35 years. He is the father of two grown children, Colin Campbell and Shanan Longfellow. He is a proud grandfather to Luke and Saylor Longfellow and Lauren Campbell.

BEN has been one of the most fascinating figures on the political scene, and will be deeply missed when he retires. I am proud to call him friend. It is only fitting that we can honor his legacy by naming this post office after him.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

By Mr. FITZGERALD (for himself and Mr. AKAKA):

S. 2680. A bill to provide for certain financial reporting requirements to apply to certain small executive branch agencies, and for other purposes; to the Committee on Governmental Affairs.

Mr. FITZGERALD. Mr. President, I am joined today by Senator DANIEL K. AKAKA in introducing the Financial Accountability Expansion Act of 2004, which would ensure the fiscal accountability of Federal entities. This bill would strengthen Federal financial management by subjecting all Federal entities in the Executive Branch to the stringent financial audit requirements that currently apply to most cabinet level departments and major agencies.

Congressional efforts to improve financial management and to reduce the waste, fraud, and abuse of taxpayer dollars began almost 25 years ago with the enactment of the Federal Managers Financial Integrity Act of 1982, which intended to strengthen internal controls and accounting systems. Another important financial management reform initiative was the Chief Financial Officers Act (CFO) of 1990. Among other things, the CFO Act created 24 CFO and deputy CFO positions in cabinet departments and major Executive Branch agencies, and required the annual preparation and audit of financial statements.

I would briefly like to mention that the Department of Homeland Security, which is now the third largest Federal department, is the only cabinet level department that is not subject to the CFO Act. Therefore, on August 1, 2003, Senator AKAKA and I introduced S. 1567, the Department of Homeland Security Financial Accountability Act, that would subject the Department to the same financial management practices currently required of all other major Federal agencies. We are pleased that the Senate passed this bill, as amended, and the House of Representatives is expected to pass its version of the bill in the near future.

The CFO Act improved the financial management of cabinet departments and major Federal agencies; however, it did not address the fiscal policies and practices of the rest of the Executive Branch. Therefore, in 2002, I was the Senate sponsor of the Accountability of Tax Dollars Act (ATDA). This Act, which became law on November 7, 2002, amended the CFO Act to require agencies with budget authority of over $25 million to prepare annual financial statements and have them independently audited. Due to the enactment of the ATDA, an additional 76 agencies are now subject to requirements for annually audited financial statements.

The ATDA also provided authority to the Director of the Office of Management and Budget (OMB) to waive or exempt certain agencies from the Act's requirements. The OMB Director may waive these requirements during the first two years of implementation if an agency lacks the budgeted resources or requires additional time to develop financial management practices and systems. The OMB Director may exempt agencies with budget authority under $25 million if it is determined that there is an absence of risk associated with the agency's operations.

To improve upon the legislative changes Congress passed in 2002, the Financial Accountability Expansion Act of 2004 would further expand the audit requirements of the CFO Act to every remaining Federal entity in the Executive Branch. Each Executive Branch agency or entity, regardless of its size or budget authority, would be subject to the financial oversight and accountability that annual audits of financial statements provide. In order to assist small agencies that may not have adequate financial resources or personnel to comply with these requirements, this bill would authorize the Secretary of the Treasury to enter into one or more contracts on behalf of the agency, or multiple agencies through "bundling," for the preparation and independent audit of the financial statement.

The bill also would require OMB to conduct a thorough assessment and submit a report to Congress regarding those Federal entities not currently required to prepare financial statements and have them independently audited. This study is necessary to ensure that OMB and Congress have an accurate and complete picture of the breadth and depth of the gaps in the financial accountability of the Executive Branch.

Senator AKAKA and I have long had an interest in ensuring that the Federal Government operates effectively and efficiently, and does not waste taxpayer dollars through poor fiscal management. The independent audits of financial statements that this bill would require of the entire Executive Branch would strengthen the fiscal accountability of the entire Federal Government and reduce the opportunities for waste, fraud, and abuse.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

"(1) GENERAL RULES.—

"(A) IN GENERAL.—In any case in which a court determines that the economic substance doctrine is relevant for purposes of this title to a transaction (or series of transactions), such transaction (or series of transactions) shall have economic substance only if the requirements of this paragraph are met.

"(B) DEFINITION OF ECONOMIC SUBSTANCE.—For purposes of subparagraph (A)—

"(i) IN GENERAL.—A transaction has economic substance only if—

"(I) the transaction changes in a meaningful way (apart from Federal tax effects) the taxpayer's economic position, and

"(II) the taxpayer has a substantial nontax purpose for entering into such transaction and the transaction is a reasonable means of accomplishing such purpose.

In applying subclause (II), a purpose of achieving a financial accounting benefit shall not be taken into account in determining whether a transaction has a substantial nontax purpose if the origin of such financial accounting benefit is a reduction of income tax.

"(ii) SPECIAL RULE WHERE TAXPAYER RELIES ON PROFIT POTENTIAL.—A transaction shall not be treated as having economic substance by reason of having a potential for profit unless—

"(I) the present value of the reasonably expected pre-tax profit from the transaction is substantial in relation to the present value of the expected net tax benefits that would be allowed if the transaction were respected, and

"(II) the reasonably expected pre-tax profit from the transaction exceeds a risk-free rate of return.

"(C) TREATMENT OF FEES AND FOREIGN TAXES.—Fees and other transaction expenses and foreign taxes shall be taken into account as expenses in determining pre-tax profit under subparagraph (B)(ii).

A public offering shall be treated as a borrowing, or an acquisition of financial capital, from a tax-indifferent party if it is reasonably expected that at least 50 percent of the offering will be placed with tax-indifferent parties.

"(B) ARTIFICIAL INCOME SHIFTING AND BASIS ADJUSTMENTS.—The form of a transaction with a tax-indifferent party shall not be respected if—

"(i) it results in an allocation of income or gain to the tax-indifferent party in excess of such party's economic income or gain, or

"(ii) it results in a basis adjustment or shifting of basis on account of overstating the income or gain of the tax-indifferent party.

"(3) DEFINITIONS AND SPECIAL RULES.—For purposes of this subsection—

"(A) ECONOMIC SUBSTANCE DOCTRINE.—The term 'economic substance doctrine' means the common law doctrine under which tax benefits under subtitle A with respect to a transaction are not allowable if the transaction does not have economic substance or lacks a business purpose.

A person shall be treated as a tax-indifferent party with respect to a transaction if the items taken into account with respect to the transaction have no substantial impact on such person's liability under subtitle A.

"(a) GENERAL RULES.—For purposes of this subtitle—

"(1) MARK TO MARKET.—Except as provided in subsections (d) and (f), all property of a covered expatriate to whom this section applies shall be treated as sold on the day before the expatriation date for its fair market value.

"(2) RECOGNITION OF GAIN OR LOSS.—In the case of any sale under paragraph (1)—

"(A) notwithstanding any other provision of this title, any gain arising from such sale shall be taken into account for the taxable year of the sale, and

"(B) any loss arising from such sale shall be taken into account for the taxable year of the sale to the extent otherwise provided by this title, except that section 1091 shall not apply to any such loss.

Proper adjustment shall be made in the amount of any gain or loss subsequently realized for gain or loss taken into account under the preceding sentence.

"(3) EXCLUSION FOR CERTAIN GAIN.—

"(A) IN GENERAL.—The amount which, but for this paragraph, would be includible in the gross income of any individual by reason of this section shall be reduced (but not below zero) by $600,000. For purposes of this paragraph, allocable expatriation gain taken into account under subsection (f)(2) shall be treated in the same manner as an amount required to be includible in gross income.

"(B) COST-OF-LIVING ADJUSTMENT.—

"(i) IN GENERAL.—In the case of an expatriation date occurring in any calendar year after 2004, the $600,000 amount under subparagraph (A) shall be increased by an amount equal to—

"(ii) in the case of property to which this section would apply but for such election, the expatriate shall be subject to tax under this title in the same manner as if the individual were a United States citizen.

"(B) REQUIREMENTS.—Subparagraph (A) shall not apply to an individual unless the individual—

"(i) provides security for payment of tax in such form and manner, and in such amount, as the Secretary may require,

"(ii) consents to the waiver of any right of the individual under any treaty of the United States which would preclude assessment or collection of any tax which may be imposed by reason of this paragraph, and

"(2) DETERMINATION OF TAX WITH RESPECT TO PROPERTY.—For purposes of paragraph (1), the additional tax attributable to any property is an amount which bears the same ratio to the additional tax imposed by this chapter for the taxable year solely by reason of subsection (a) as the gain taken into account under subsection (a) with respect to such property bears to the total gain taken into account under subsection (a) with respect to all property to which subsection (a) applies.

"(3) TERMINATION OF POSTPONEMENT.—No tax may be postponed under this subsection later than the due date for the return of tax imposed by this chapter for the taxable year which includes the date of death of the expatriate (or, if earlier, the time that the security provided with respect to the property fails to meet the requirements of paragraph (4), unless the taxpayer corrects such failure within the time specified by the Secretary).

"(4) SECURITY.—

"(A) IN GENERAL.—No election may be made under paragraph (1) with respect to any property unless adequate security is provided to the Secretary with respect to such property.

"(B) ADEQUATE SECURITY.—For purposes of subparagraph (A), security with respect to any property shall be treated as adequate security if—

"(i) it is a bond in an amount equal to the deferred tax amount under paragraph (2) for the property, or

"(ii) the taxpayer otherwise establishes to the satisfaction of the Secretary that the security is adequate.

"(5) WAIVER OF CERTAIN RIGHTS.—No election may be made under paragraph (1) unless the taxpayer consents to the waiver of any right under any treaty of the United States which would preclude assessment or collection of any tax imposed by reason of this section.

"(6) ELECTIONS.—An election under paragraph (1) shall only apply to property described in the election and, once made, is irrevocable. An election may be made under paragraph (1) with respect to an interest in a trust with respect to which gain is required to be recognized under subsection (f)(1).

"(7) INTEREST.—For purposes of section 6601—

"(A) the last date for the payment of tax shall be determined without regard to the election under this subsection, and

"(2) SPECIAL RULES FOR CERTAIN RETIREMENT PLANS.—

"(A) IN GENERAL.—If a covered expatriate holds on the day before the expatriation date any interest in a retirement plan to which this paragraph applies—

"(i) such interest shall not be treated as sold for purposes of subsection (a)(1), but

"(ii) an amount equal to the present value of the expatriate's nonforfeitable accrued benefit shall be treated as having been received by such individual on such date as a distribution under the plan.

"(B) TREATMENT OF SUBSEQUENT DISTRIBUTIONS.—In the case of any distribution on or after the expatriation date to or on behalf of the covered expatriate from a plan from which the expatriate was treated as receiving a distribution under subparagraph (A), the amount otherwise includible in gross income by reason of the subsequent distribution shall be reduced by the excess of the amount includible in gross income under subparagraph (A) over any portion of such amount to which this subparagraph previously applied.

"(C) TREATMENT OF SUBSEQUENT DISTRIBUTIONS BY PLAN.—For purposes of this title, a retirement plan to which this paragraph applies, and any person acting on the plan's behalf, shall treat any subsequent distribution described in subparagraph (B) in the same manner as such distribution would be treated without regard to this paragraph.

"(C)(i) such separate share shall be treated as a separate trust consisting of the assets allocable to such share,

"(ii) the separate trust shall be treated as having sold its assets on the day before the expatriation date for their fair market value and as having distributed all of its assets to the individual as of such time, and

"(iii) the individual shall be treated as having recontributed the assets to the separate trust.

Subsection (a)(2) shall apply to any income, gain, or loss of the individual arising from a distribution described in subparagraph (C)(ii). In determining the amount of such distribution, proper adjustments shall be made for liabilities of the trust allocable to an individual's share in the trust.

"(2) SPECIAL RULES FOR INTERESTS IN QUALIFIED TRUSTS.—

"(A) IN GENERAL.—If the trust interest described in paragraph (1) is an interest in a qualified trust—

"(C) DEFERRED TAX ACCOUNT.—For purposes of subparagraph (B)(ii)—

"(ii) INCREASE FOR INTEREST.—The balance in the deferred tax account shall be increased by the amount of interest determined (on the balance in the account at the time the interest accrues), for periods after the 90th day after the expatriation date, by using the rates and method applicable under section 6621 for underpayments of tax for such periods, except that section 6621(a)(2) shall be applied by substituting '5 percentage points' for '3 percentage points' in subparagraph (B) thereof.

"(D) ALLOCABLE EXPATRIATION GAIN.—For purposes of this paragraph, the allocable expatriation gain with respect to any beneficiary's interest in a trust is the amount of gain which would be allocable to such beneficiary's vested and nonvested interests in the trust if the beneficiary held directly all assets allocable to such interests.

"(i) the tax determined under paragraph (1) as if the day before the expatriation date were the date of such cessation, disposition, or death, whichever is applicable, or

"(ii) the balance in the tax deferred account immediately before such date.

Such tax shall be imposed on the trust and each trustee shall be personally liable for the amount of such tax and any other beneficiary of the trust shall be entitled to recover from the covered expatriate or the estate the amount of such tax imposed on the other beneficiary.

"(B) DEFERRED AMOUNT.—For purposes of this subsection, the deferred amount is the amount of the increase in the covered expatriate's income tax which, but for the election under subsection (a)(4) or (b), would have occurred by reason of this section for the taxable year including the expatriation date.

"(B) ELIGIBLE TAXPAYER.—For purposes of this paragraph—

"(i) IN GENERAL.—The term 'eligible taxpayer' means, with respect to a property, any organization exempt from tax under section 501(a) which—

"(I) acquires from an unrelated person a qualifying brownfield property, and

"(II) pays or incurs eligible remediation expenditures with respect to such property in an amount which exceeds the greater of $550,000 or 12 percent of the fair market value of the property at the time such property was acquired by the eligible taxpayer, determined as if there was not a presence of a hazardous substance, pollutant, or contaminant on the property which is complicating the expansion, redevelopment, or reuse of the property.

“(ii) EXCEPTION.—Such term shall not include any organization which is—

“(I) potentially liable under section 107 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 with respect to the qualifying brownfield property,

“(II) affiliated with any other person which is so potentially liable through any direct or indirect familial relationship or any contractual, corporate, or financial relationship (other than a contractual, corporate, or financial relationship which is created by the instruments by which title to any qualifying brownfield property is conveyed or financed or by a contract of sale of goods or services), or

“(III) the result of a reorganization of a business entity which was so potentially liable.

“(C) QUALIFYING BROWNFIELD PROPERTY.—For purposes of this paragraph—

“(i) IN GENERAL.—The term ‘qualifying brownfield property’ means any real property which is certified, before the taxpayer incurs any eligible remediation expenditures (other than to obtain a Phase I environmental site assessment), by an appropriate State agency (within the meaning of section 198(c)(4)) in the State in which such property is located as a brownfield site within the meaning of section 101(39) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (as in effect on the date of the enactment of this paragraph).

“(ii) REQUEST FOR CERTIFICATION.—Any request by an eligible taxpayer for a certification described in clause (i) shall include a sworn statement by the eligible taxpayer and supporting documentation of the presence of a hazardous substance, pollutant, or contaminant on the property which is complicating the expansion, redevelopment, or reuse of the property given the property's reasonably anticipated future land uses or capacity for uses of the property (including a Phase I environmental site assessment and, if applicable, evidence of the property's presence on a local, State, or Federal list of brownfields or contaminated property) and other environmental assessments prepared or obtained by the taxpayer.

“(D) QUALIFIED SALE, EXCHANGE, OR OTHER DISPOSITION.—For purposes of this paragraph—

“(i) IN GENERAL.—A sale, exchange, or other disposition of property shall be considered as qualified if—

“(II) The reasonably anticipated future land uses or capacity for uses of the property are more economically productive or environmentally beneficial than the uses of the property in existence on the date of the certification described in subparagraph (C)(i). For purposes of the preceding sentence, use of property as a landfill or other hazardous waste facility shall not be considered more economically productive or environmentally beneficial.

“(III) A remediation plan has been implemented to bring the property into compliance with all applicable local, State, and Federal environmental laws, regulations, and standards and to ensure that the remediation protects human health and the environment.

“(IV) The remediation plan described in subclause (III), including any physical improvements required to remediate the property, is either complete or substantially complete, and, if substantially complete, sufficient monitoring, funding, institutional controls, and financial assurances have been put in place to ensure the complete remediation of the property in accordance with the remediation plan as soon as is reasonably practicable after the sale, exchange, or other disposition of such property.

“(IV) any expenditure paid or incurred before the date of the enactment of this paragraph.

For purposes of subclause (III), the Secretary may issue guidance regarding the treatment of government-provided funds for purposes of determining eligible remediation expenditures.

"(H) SPECIAL RULES FOR MULTIPLE PROPERTIES.—

"(i) IN GENERAL.—An eligible taxpayer or a qualifying partnership of which the eligible taxpayer is a partner may make a 1-time election to apply this paragraph to more than 1 qualifying brownfield property by averaging the eligible remediation expenditures for all such properties acquired during the election period. A revocation is effective as of the first day of the taxable year of the return in which the revocation is included or a later day in such taxable year selected by the eligible taxpayer or qualifying partnership. Once an eligible taxpayer or qualifying partnership revokes the election, the eligible taxpayer or qualifying partnership is ineligible to make another election under clause (i) with respect to any qualifying brownfield property subject to the revoked election.

"(I) RECAPTURE.—If an eligible taxpayer excludes gain or loss from a sale, exchange, or other disposition of property to which an election under subparagraph (H) applies, and such property fails to satisfy the requirements of this paragraph, the unrelated business taxable income of the eligible taxpayer for the taxable year in which such failure occurs shall be determined by including any previously excluded gain or loss from such sale, exchange, or other disposition allocable to such taxpayer, and interest shall be determined at the overpayment rate established under section 6621 on any resulting tax for the period beginning with the due date of the return for the taxable year during which such sale, exchange, or other disposition occurred, and ending on the date of payment of the tax.

TITLE XI—PROVISIONS RELATING TO TOBACCO

Subtitle A—Family Smoking Prevention and Tobacco Control

SEC. 1101. SHORT TITLE.

This subtitle may be cited as the "Family Smoking Prevention and Tobacco Control Act".

SEC. 1102. FINDINGS.

The Congress finds the following:

(1) The use of tobacco products by the Nation's children is a pediatric disease of considerable proportions that results in new generations of tobacco-dependent children and adults.

(2) A consensus exists within the scientific and medical communities that tobacco products are inherently dangerous and cause cancer, heart disease, and other serious adverse health effects.

(3) Nicotine is an addictive drug.

(4) Virtually all new users of tobacco products are under the minimum legal age to purchase such products.

(5) Tobacco advertising and marketing contribute significantly to the use of nicotine-containing tobacco products by adolescents.

(6) Because past efforts to restrict advertising and marketing of tobacco products have failed adequately to curb tobacco use by adolescents, comprehensive restrictions on the sale, promotion, and distribution of such products are needed.

(7) Federal and State governments have lacked the legal and regulatory authority and resources they need to address comprehensively the public health and societal problems caused by the use of tobacco products.

(8) Federal and State public health officials, the public health community, and the public at large recognize that the tobacco industry should be subject to ongoing oversight.

(9) Under article I, section 8 of the Constitution, the Congress is vested with the responsibility for regulating interstate commerce and commerce with Indian tribes.

(10) The sale, distribution, marketing, advertising, and use of tobacco products are activities in and substantially affecting interstate commerce because they are sold, marketed, advertised, and distributed in interstate commerce on a nationwide basis, and have a substantial effect on the Nation's economy.

(11) The sale, distribution, marketing, advertising, and use of such products substantially affect interstate commerce through the health care and other costs attributable to the use of tobacco products.

(12) It is in the public interest for Congress to enact legislation that provides the Food and Drug Administration with the authority to regulate tobacco products and the advertising and promotion of such products. The benefits to the American people from enacting such legislation would be significant in human and economic terms.

(13) Tobacco use is the foremost preventable cause of premature death in America. It causes over 400,000 deaths in the United States each year and approximately 8,600,000 Americans have chronic illnesses related to smoking.

(14) Reducing the use of tobacco by minors by 50 percent would prevent well over 6,500,000 of today's children from becoming regular, daily smokers, saving over 2,000,000 of them from premature death due to tobacco induced disease. Such a reduction in youth smoking would also result in approximately $75,000,000,000 in savings attributable to reduced health care costs.

(15) Advertising, marketing, and promotion of tobacco products have been especially directed to attract young persons to use tobacco products and these efforts have resulted in increased use of such products by youth. Past efforts to oversee these activities have not been successful in adequately preventing such increased use.

(16) In 2001, the tobacco industry spent more than $11,000,000,000 to attract new users, retain current users, increase current consumption, and generate favorable long-term attitudes toward smoking and tobacco use.

(17) Tobacco product advertising often misleadingly portrays the use of tobacco as socially acceptable and healthful to minors.

(18) Tobacco product advertising is regularly seen by persons under the age of 18, and persons under the age of 18 are regularly exposed to tobacco product promotional efforts.

(19) Through advertisements during and sponsorship of sporting events, tobacco has become strongly associated with sports and has become portrayed as an integral part of sports and the healthy lifestyle associated with rigorous sporting activity.

(20) Children are exposed to substantial and unavoidable tobacco advertising that leads to favorable beliefs about tobacco use, plays a role in leading young people to overestimate the prevalence of tobacco use, and increases the number of young people who begin to use tobacco.

(21) The use of tobacco products in motion pictures and other mass media glamorizes its use for young people and encourages them to use tobacco products.

(22) Tobacco advertising expands the size of the tobacco market by increasing consumption of tobacco products including tobacco use by young people.

(23) Children are more influenced by tobacco advertising than adults, they smoke the most advertised brands.

(24) Tobacco company documents indicate that young people are an important and often crucial segment of the tobacco market. Children, who tend to be more price-sensitive than adults, are influenced by advertising and promotion practices that result in drastically reduced cigarette prices.

(25) Comprehensive advertising restrictions will have a positive effect on the smoking rates of young people.

(26) Restrictions on advertising are necessary to prevent unrestricted tobacco advertising from undermining legislation prohibiting access to young people and providing for education about tobacco use.

(27) International experience shows that advertising regulations that are stringent and comprehensive have a greater impact on overall tobacco use and young people's use than weaker or less comprehensive ones.

(28) Text only requirements, although not as stringent as a ban, will help reduce underage use of tobacco products while preserving the informational function of advertising.

(29) It is in the public interest for Congress to adopt legislation to address the public health crisis created by actions of the tobacco industry.

(30) The final regulations promulgated by the Secretary of Health and Human Services in the August 28, 1996, issue of the Federal Register (61 Fed. Reg. 44615–44618) for inclusion as part 897 of title 21, Code of Federal Regulations, are consistent with the First Amendment to the United

States Constitution and with the standards set forth in the amendments made by this subtitle for the regulation of tobacco products by the Food and Drug Administration and the restriction on the sale and distribution, including access to and the advertising and promotion of, tobacco products contained in such regulations are substantially related to accomplishing the public health goals of this subtitle.

(31) The regulations described in paragraph (30) will directly and materially advance the Federal Government's substantial interest in reducing the number of children and adolescents who use cigarettes and smokeless tobacco and in preventing the life-threatening health consequences associated with tobacco use. An overwhelming majority of Americans who use tobacco products begin using such products while they are minors and become addicted to the nicotine in those products before reaching the age of 18. Tobacco advertising and promotion plays a crucial role in the decision of these minors to begin using tobacco products. Less restrictive and less comprehensive approaches have not and will not be effective in reducing the problems addressed by such regulations. The reasonable restrictions on the advertising and promotion of tobacco products contained in such regulations will lead to a significant decrease in the number of minors using and becoming addicted to those products.

(32) The regulations described in paragraph (30) impose no more extensive restrictions on communication by tobacco manufacturers and sellers than are necessary to reduce the number of children and adolescents who use cigarettes and smokeless tobacco and to prevent the life-threatening health consequences associated with tobacco use. Such regulations are narrowly tailored to restrict those advertising and promotional practices which are most likely to be seen or heard by youth and most likely to entice them into tobacco use, while affording tobacco manufacturers and sellers ample opportunity to convey information about their products to adult consumers.

(33) Tobacco dependence is a chronic disease, one that typically requires repeated interventions to achieve long-term or permanent abstinence.

(34) Because the only known safe alternative to smoking is cessation, interventions should target all smokers to help them quit completely.

(35) Tobacco products have been used to facilitate and finance criminal activities both domestically and internationally. Illicit trade of tobacco products has been linked to organized crime and terrorist groups.

(36) It is essential that the Food and Drug Administration review products sold or distributed for use to reduce risks or exposures associated with tobacco products and that it be empowered to review any advertising and labeling for such products. It is also essential that manufacturers, prior to marketing such products, be required to demonstrate that such products will meet a series of rigorous criteria, and will benefit the health of the population as a whole, taking into account both users of tobacco products and persons who do not currently use tobacco products.

(37) Unless tobacco products that purport to reduce the risks to the public of tobacco use actually reduce such risks, those products can cause substantial harm to the public health to the extent that the individuals, who would otherwise not consume tobacco products or would consume such products less, use tobacco products purporting to reduce risk. Those who use products sold or distributed as modified risk products that do not in fact reduce risk, rather than quitting or reducing their use of tobacco products, have a substantially increased likelihood of suffering disability and premature death. The costs to society of the widespread use of products sold or distributed as modified risk products that do not in fact reduce risk or that increase risk include thousands of unnecessary deaths and injuries and huge costs to our health care system.

(38) As the National Cancer Institute has found, many smokers mistakenly believe that "low tar" and "light" cigarettes cause fewer health problems than other cigarettes. As the National Cancer Institute has also found, mistaken beliefs about the health consequences of smoking "low tar" and "light" cigarettes can reduce the motivation to quit smoking entirely and thereby lead to disease and death.

(39) Recent studies have demonstrated that there has been no reduction in risk on a population-wide basis from "low tar" and "light" cigarettes and such products may actually increase the risk of tobacco use.

(40) The dangers of products sold or distributed as modified risk tobacco products that do not in fact reduce risk are so high that there is a compelling governmental interest in insuring that statements about modified risk tobacco products are complete, accurate, and relate to the overall disease risk of the product.

(41) As the Federal Trade Commission has found, consumers have misinterpreted advertisements in which one product is claimed to be less harmful than a comparable product, even in the presence of disclosures and advisories intended to provide clarification.

(42) Permitting manufacturers to make unsubstantiated statements concerning modified risk tobacco products, whether express or implied, even if accompanied by disclaimers would be detrimental to the public health.

(43) The only way to effectively protect the public health from the dangers of unsubstantiated modified risk tobacco products is to empower the Food and Drug Administration to require that products that tobacco manufacturers sold or distributed for risk reduction be approved in advance of marketing, and to require that the evidence relied on to support approval of these products is rigorous.

SEC. 1103. PURPOSE.

The purposes of this subtitle are—

(1) to provide authority to the Food and Drug Administration to regulate tobacco products under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), by recognizing it as the primary Federal regulatory authority with respect to the manufacture, marketing, and distribution of tobacco products;

(2) to ensure that the Food and Drug Administration has the authority to address issues of particular concern to public health officials, especially the use of tobacco by young people and dependence on tobacco;

"(9) if it is a tobacco product subject to a tobacco product standard established under section 907, unless it bears such labeling as may be prescribed in such tobacco product standard; or

A list under this subparagraph shall list a tobacco product by its established name and shall be accompanied by the other information required by paragraph (1).

‘‘(B) If since the date the registrant last made a report under this paragraph that person has discontinued the manufacture, preparation, compounding, or processing for commercial distribution of a tobacco product included in a list filed under subparagraph (A) or paragraph (1), notice of such discontinuance, the date of such discontinuance, and the identity of its established name.

‘‘(C) If since the date the registrant reported under subparagraph (B) a notice of discontinuance that person has resumed the manufacture, preparation, compounding, or processing for commercial distribution of the tobacco product with respect to which such notice of discontinuance was reported, notice of such resumption, the date of such resumption, the identity of such tobacco product by established name, and other information required by paragraph (1), unless the registrant has previously reported such resumption to the Secretary under this subparagraph.

‘‘(A) the basis for such person's determination that the tobacco product is substantially equivalent, within the meaning of section 910, to a tobacco product commercially marketed (other than for test marketing) in the United States as of June 1, 2003, that is in compliance with the requirements of this Act; and

‘‘(B) action taken by such person to comply with the requirements under section 907 that are applicable to the tobacco product.

‘‘(3) Exemptions.—

‘‘(A) In general.—The Secretary may by regulation, exempt from the requirements of this subsection tobacco products that are modified by adding or deleting a tobacco additive, or increasing or decreasing the quantity of an existing tobacco additive, if the Secretary determines that—

‘‘(i) such modification would be a minor modification of a tobacco product authorized for sale under this Act;

‘‘(ii) a report under this subsection is not necessary to ensure that permitting the tobacco product to be marketed would be appropriate for protection of the public health; and

‘‘(iii) an exemption is otherwise appropriate.

‘‘(B) Regulations.—Not later than 9 months after the date of enactment of the Family Smoking Prevention and Tobacco Control Act, the Secretary shall issue regulations to implement this paragraph.

“SEC. 906. GENERAL PROVISIONS RESPECTING CONTROL OF TOBACCO PRODUCTS.

‘‘(a) In General.—Any requirement established by or under section 902, 903, 905, or 909 applicable to a tobacco product shall apply to such tobacco product until the applicability of the requirement to the tobacco product has been changed by action taken under section 907, section 910, section 911, or subsection (d) of this section, and any requirement established by or under section 902, 903, 905, or 909 which is inconsistent with a requirement imposed on such tobacco product under section 907, section 910, section 911, or subsection (d) of this section shall not apply to such tobacco product.

‘‘(b) Information on Public Access and Comment.—Each notice of proposed rulemaking under section 907, 908, 909, 910, or 911 or under this section, any other notice which is published in the Federal Register with respect to any other action taken under any such section and which states the reasons for such action, and each publication of findings required to be made in connection with rulemaking under any such section shall set forth—

‘‘(1) the manner in which interested persons may examine data and other information on which the notice or findings is based; and

‘‘(2) the period within which interested persons may present their comments on the notice or findings (including the need therefore) orally or in writing, which period shall be at least 60 days but may not exceed 90 days unless the time is extended by the Secretary by a notice published in the Federal Register stating good cause therefore.

‘‘(c) Limited Confidentiality of Information.—Any information reported to or otherwise obtained by the Secretary or the Secretary's representative under section 903, 904, 907, 908, 909, 910, 911, or 704, or under subsection (e) or (f) of this section, which is exempt from disclosure under subsection (a) of section 552 of title 5, United States Code, by reason of subsection (b)(4) of that section shall be considered confidential and shall not be disclosed, except that the information may be disclosed to other officers or employees concerned with carrying out this chapter, or when relevant in any proceeding under this chapter.

‘‘(d) Restrictions.—

‘‘(1) In general.—The Secretary may by regulation require restrictions on the sale and distribution of a tobacco product, including restrictions on the access to, and the advertising and promotion of, the tobacco product, if the Secretary determines that such regulation would be appropriate for the protection of the public health. The Secretary may by regulation impose restrictions on the advertising and promotion of a tobacco product consistent with and to full extent permitted by the first amendment to the Constitution. The finding as to whether such regulation would be appropriate for the protection of the public health shall be determined with respect to the risks and benefits to the population as a whole, including users and nonusers of the tobacco product, and taking into account—

‘‘(A) the increased or decreased likelihood that existing users of tobacco products will stop using such products; and

‘‘(B) the increased or decreased likelihood that those who do not use tobacco products will start using such products.

No such regulation may require that the sale or distribution of a tobacco product be limited to the written or oral authorization of a practitioner licensed by law to prescribe medical products.

‘‘(2) Label statements.—The label of a tobacco product shall bear such appropriate statements of the restrictions required by a regulation under subsection (a) as the Secretary may in such regulation prescribe.

"(3) LIMITATIONS.—

"(A) IN GENERAL.—No restrictions under paragraph (1) may—

"(i) prohibit the sale of any tobacco product in face-to-face transactions by a specific category of retail outlets; or

"(ii) establish a minimum age of sale of tobacco products to any person older than 18 years of age.

"(B) MATCHBOOKS.—For purposes of any regulations issued by the Secretary, matchbooks of conventional size containing not more than 20 paper matches, and which are customarily given away for free with the purchase of tobacco products shall be considered as adult written publications which shall be permitted to contain advertising. Notwithstanding the preceding sentence, if the Secretary finds that such treatment of matchbooks is not appropriate for the protection of the public health, the Secretary may determine by regulation that matchbooks shall not be considered adult written publications.

"(e) GOOD MANUFACTURING PRACTICE REQUIREMENTS.—

"(1) METHODS, FACILITIES, AND CONTROLS TO CONFORM.—

"(A) IN GENERAL.—The Secretary may, in accordance with subparagraph (B), prescribe regulations (which may differ based on the type of tobacco product involved) requiring that the methods used in, and the facilities and controls used for, the manufacture, pre-production design validation (including a process to assess the performance of a tobacco product), packing and storage of a tobacco product, conform to current good manufacturing practice, as prescribed in such regulations, to assure that the public health is protected and that the tobacco product is in compliance with this chapter. Good manufacturing practices may include the testing of raw tobacco for pesticide chemical residues regardless of whether a tolerance for such chemical residues has been established.

"(B) REQUIREMENTS.—The Secretary shall—

"(i) before promulgating any regulation under subparagraph (A), afford the Tobacco Products Scientific Advisory Committee an opportunity to submit recommendations with respect to the regulation proposed to be promulgated;

"(ii) before promulgating any regulation under subparagraph (A), afford opportunity for an oral hearing;

"(iii) provide the advisory committee a reasonable time to make its recommendation with respect to proposed regulations under subparagraph (A); and

"(iv) in establishing the effective date of a regulation promulgated under this subsection, take into account the differences in the manner in which the different types of tobacco products have historically been produced, the financial resources of the different tobacco product manufacturers, and the state of their existing manufacturing facilities, and shall provide for a reasonable period of time for such manufacturers to conform to good manufacturing practices.

"(2) EXEMPTIONS; VARIANCES.—

"(A) PETITION.—Any person subject to any requirement prescribed under paragraph (1) may petition the Secretary for a permanent or temporary exemption or variance from such requirement. Such a petition shall be submitted to the Secretary in such form and manner as the Secretary shall prescribe and shall—

"(i) in the case of a petition for an exemption from a requirement, set forth the basis for the petitioner's determination that compliance with the requirement is not required to assure that the tobacco product will be in compliance with this chapter;

"(ii) in the case of a petition for a variance from a requirement, set forth the methods proposed to be used in, and the facilities and controls proposed to be used for, the manufacture, packing, and storage of the tobacco product in lieu of the methods, facilities, and controls prescribed by the requirement; and

"(iii) contain such other information as the Secretary shall prescribe.

"(B) REFERRAL TO THE TOBACCO PRODUCTS SCIENTIFIC ADVISORY COMMITTEE.—The Secretary may refer to the Tobacco Products Scientific Advisory Committee any petition submitted under subparagraph (A). The Tobacco Products Scientific Advisory Committee shall report its recommendations to the Secretary with respect to a petition referred to it within 60 days after the date of the petition's referral. Within 60 days after—

"(i) the date the petition was submitted to the Secretary under subparagraph (A); or

"(ii) the day after the petition was referred to the Tobacco Products Scientific Advisory Committee,

whichever occurs later, the Secretary shall by order either deny the petition or approve it.

"(C) APPROVAL.—The Secretary may approve—

"(i) a petition for an exemption for a tobacco product from a requirement if the Secretary determines that compliance with such requirement is not required to assure that the tobacco product will be in compliance with this chapter; and

"(ii) a petition for a variance for a tobacco product from a requirement if the Secretary determines that the methods to be used in, and the facilities and controls to be used for, the manufacture, packing, and storage of the tobacco product in lieu of the methods, controls, and facilities prescribed by the requirement are sufficient to assure that the tobacco product will be in compliance with this chapter.

"(D) CONDITIONS.—An order of the Secretary approving a petition for a variance shall prescribe such conditions respecting the methods used in, and the facilities and controls used for, the manufacture, packing, and storage of the tobacco product to be granted the variance under the petition as may be necessary to assure that the tobacco product will be in compliance with this chapter.

"(E) HEARING.—After the issuance of an order under subparagraph (B) respecting a petition, the petitioner shall have an opportunity for an informal hearing on such order.

"(3) COMPLIANCE.—Compliance with requirements under this subsection shall not be required before the period ending 3 years after the date of enactment of the Family Smoking Prevention and Tobacco Control Act.

"(f) RESEARCH AND DEVELOPMENT.—The Secretary may enter into contracts for research, testing, and demonstrations respecting tobacco products and may obtain tobacco products for research, testing, and demonstration purposes without regard to section 3324(a) and (b) of title 31, United States Code, and section 5 of title 41, United States Code.

"SEC. 907. TOBACCO PRODUCT STANDARDS.

"(a) IN GENERAL.—

"(1) SPECIAL RULE FOR CIGARETTES.—A cigarette or any of its component parts (including the tobacco, filter, or paper) shall not contain, as a constituent (including a smoke constituent) or additive, an artificial or natural flavor (other than tobacco or menthol) or an herb or spice, including strawberry, grape, orange, clove, cinnamon, pineapple, vanilla, coconut, licorice, cocoa, chocolate, cherry, or coffee, that is a characterizing flavor of the tobacco product or tobacco smoke. Nothing in this subparagraph shall be construed to limit the Secretary's authority to take action under this section or other sections of this Act applicable to menthol or any artificial or natural flavor, herb, or spice not specified in this paragraph.

"(2) REVISION OF TOBACCO PRODUCT STANDARDS.—The Secretary may revise the tobacco product standards in paragraph (1) in accordance with subsection (b).

"(3) TOBACCO PRODUCT STANDARDS.—The Secretary may adopt tobacco product standards in addition to those in paragraph (1) if the Secretary finds that a tobacco product standard is appropriate for the protection of the public health. This finding shall be determined with respect to the risks and benefits to the population as a whole, including users and non-users of the tobacco product, and taking into account—

"(A) the increased or decreased likelihood that existing users of tobacco products will stop using such products; and

"(B) the increased or decreased likelihood that those who do not use tobacco products will start using such products.

"(4) CONTENT OF TOBACCO PRODUCT STANDARDS.—A tobacco product standard established under this section for a tobacco product—

"(A) shall include provisions that are appropriate for the protection of the public health, including provisions, where appropriate—

"(i) for the reduction of nicotine yields of the product;

"(ii) for the reduction or elimination of other constituents, including smoke constituents, or harmful components of the product; or

"(iii) relating to any other requirement under (B);

"(B) shall, where appropriate for the protection of the public health, include—

"(i) provisions respecting the construction, components, ingredients, additives, constituents, including smoke constituents, and properties of the tobacco product;

"(ii) provisions for the testing (on a sample basis or, if necessary, on an individual basis) of the tobacco product;

"(iii) provisions for the measurement of the tobacco product characteristics of the tobacco product;

"(iv) provisions requiring that the results of each or of certain of the tests of the tobacco product required to be made under clause (ii) show that the tobacco product is in conformity with the portions of the standard for which the test or tests were required; and

"(v) a provision requiring that the sale and distribution of the tobacco product be restricted but only to the extent that the sale and distribution of a tobacco product may be restricted under a regulation under section 906(d); and

"(C) shall, where appropriate, require the use and prescribe the form and content of labeling for the proper use of the tobacco product.

"(5) PERIODIC RE-EVALUATION OF TOBACCO PRODUCT STANDARDS.—The Secretary shall provide for periodic evaluation of tobacco product standards established under this section to determine whether such standards should be changed to reflect new medical, scientific, or other technological data. The Secretary may provide for testing under paragraph (4)(B) by any person.

"(6) INVOLVEMENT OF OTHER AGENCIES; INFORMED PERSONS.—In carrying out duties under this section, the Secretary shall endeavor to—

"(A) use personnel, facilities, and other technical support available in other Federal agencies;

"(B) consult with other Federal agencies concerned with standard-setting and other nationally or internationally recognized standard-setting entities; and

"(C) invite appropriate participation, through joint or other conferences, workshops, or other means, by informed persons representative of scientific, professional, industry, agricultural, or consumer organizations who in the Secretary's judgment can make a significant contribution.

"(b) ESTABLISHMENT OF STANDARDS.—

"(1) NOTICE.—

"(A) IN GENERAL.—The Secretary shall publish in the Federal Register a notice of proposed rulemaking for the establishment, amendment, or revocation of any tobacco product standard.

"(B) REQUIREMENTS OF NOTICE.—A notice of proposed rulemaking for the establishment or amendment of a tobacco product standard for a tobacco product shall—

"(i) set forth a finding with supporting justification that the tobacco product standard is appropriate for the protection of the public health;

"(ii) set forth proposed findings with respect to the risk of illness or injury that the tobacco product standard is intended to reduce or eliminate; and

"(iii) invite interested persons to submit an existing tobacco product standard for the tobacco product, including a draft or proposed tobacco product standard, for consideration by the Secretary.

"(C) STANDARD.—Upon a determination by the Secretary that an additive, constituent (including smoke constituent), or other component of the product that is the subject of the proposed tobacco product standard is harmful, it shall be the burden of any party challenging the proposed standard to prove that the proposed standard will not reduce or eliminate the risk of illness or injury.

"(D) FINDING.—A notice of proposed rulemaking for the revocation of a tobacco product standard shall set forth a finding with supporting justification that the tobacco product standard is no longer appropriate for the protection of the public health.

"(E) CONSIDERATION BY SECRETARY.—The Secretary shall consider all information submitted in connection with a proposed standard, including information concerning the countervailing effects of the tobacco product standard on the health of adolescent tobacco users, adult tobacco users, or non-tobacco users, such as the creation of a significant demand for contraband or other tobacco products that do not meet the requirements of this chapter and the significance of such demand, and shall issue the standard if the Secretary determines that the standard would be appropriate for the protection of the public health.

"(F) COMMENT.—The Secretary shall provide for a comment period of not less than 60 days.

"(2) PROMULGATION.—

"(A) IN GENERAL.—After the expiration of the period for comment on a notice of proposed rulemaking published under paragraph (1) respecting a tobacco product standard and after consideration of such comments and any report from the Tobacco Products Scientific Advisory Committee, the Secretary shall—

"(i) promulgate a regulation establishing a tobacco product standard and publish in the Federal Register findings on the matters referred to in paragraph (1); or

"(ii) publish a notice terminating the proceeding for the development of the standard together with the reasons for such termination.

"(B) EFFECTIVE DATE.—A regulation establishing a tobacco product standard shall set forth the date or dates upon which the standard shall take effect, but no such regulation may take effect before 1 year after the date of its publication unless the Secretary determines that an earlier effective date is necessary for the protection of the public health. Such date or dates shall be established so as to minimize, consistent with the public health, economic loss to, and disruption or dislocation of, domestic and international trade.

"(3) POWER RESERVED TO CONGRESS.—Because of the importance of a decision of the Secretary to issue a regulation establishing a tobacco product standard—

"(A) banning all cigarettes, all smokeless tobacco products, all little cigars, all cigars other than little cigars, all pipe tobacco, or all roll your own tobacco products; or

"(B) requiring the reduction of nicotine yields of a tobacco product to zero,

Congress expressly reserves to itself such power.

"(4) AMENDMENT; REVOCATION.—

"(A) AUTHORITY.—The Secretary, upon the Secretary's own initiative or upon petition of an interested person may by a regulation, promulgated in accordance with the requirements of paragraphs (1) and (2)(B), amend or revoke a tobacco product standard.

"(B) EFFECTIVE DATE.—The Secretary may declare a proposed amendment of a tobacco product standard to be effective on and after its publication in the Federal Register and until the effective date of any final action taken on such amendment if the Secretary determines that making it so effective is in the public interest.

"(5) REFERENCE TO ADVISORY COMMITTEE.—The Secretary may—

"(A) on the Secretary's own initiative, refer a proposed regulation for the establishment, amendment, or revocation of a tobacco product standard; or

"(B) upon the request of an interested person which demonstrates good cause for referral and which is made before the expiration of the period for submission of comments on such proposed regulation,

refer such proposed regulation to the Tobacco Products Scientific Advisory Committee, for a report and recommendation with respect to any matter involved in the proposed regulation which requires the exercise of scientific judgment. If a proposed regulation is referred under this paragraph to the Tobacco Products Scientific Advisory Committee, the Secretary shall provide the advisory committee with the data and information on which such proposed regulation is based. The Tobacco Products Scientific Advisory Committee shall, within 60 days after the referral of a proposed regulation and after independent study of the data and information furnished to it by the Secretary and other data and information before it, submit to the Secretary a report and recommendation respecting such regulation, together with all underlying data and information and a statement of the reason or basis for the recommendation. A copy of such report and recommendation shall be made public by the Secretary.

"SEC. 908. NOTIFICATION AND OTHER REMEDIES.

"(a) NOTIFICATION.—If the Secretary determines that—

"(1) a tobacco product which is introduced or delivered for introduction into interstate commerce for commercial distribution presents an unreasonable risk of substantial harm to the public health; and

"(2) notification under this subsection is necessary to eliminate the unreasonable risk of such harm and no more practicable means is available under the provisions of this chapter (other than this section) to eliminate such risk,

the Secretary may issue such order as may be necessary to assure that adequate notification is provided in an appropriate form, by the persons and means best suited under the circumstances involved, to all persons who should properly receive such notification in order to eliminate such risk. The Secretary may order notification by any appropriate means, including public service announcements. Before issuing an order under this subsection, the Secretary shall consult with the persons who are to give notice under the order.

"(b) NO EXEMPTION FROM OTHER LIABILITY.—Compliance with an order issued under this section shall not relieve any person from liability under Federal or State law. In awarding damages for economic loss in an action brought for the enforcement of any such liability, the value to the plaintiff in such action of any remedy provided under such order shall be taken into account.

"(c) RECALL AUTHORITY.—

"(1) IN GENERAL.—If the Secretary finds that there is a reasonable probability that a tobacco product contains a manufacturing or other defect not ordinarily contained in tobacco products on the market that would cause serious, adverse health consequences or death, the Secretary shall issue an order requiring the appropriate person (including the manufacturers, importers, distributors, or retailers of the tobacco product) to immediately cease distribution of such tobacco product. The order shall provide the person subject to the order with an opportunity for an informal hearing, to be held not later than 10 days after the date of the issuance of the order, on the actions required by the order and on whether the order should be amended to require a recall of such tobacco product. If, after providing an opportunity for such a hearing, the Secretary determines that inadequate grounds exist to support the actions required by the order, the Secretary shall vacate the order.

"(2) AMENDMENT OF ORDER TO REQUIRE RECALL.—

"(A) IN GENERAL.—If, after providing an opportunity for an informal hearing under paragraph (1), the Secretary determines that the order should be amended to include a recall of the tobacco product with respect to which the order was issued, the Secretary shall, except as provided in subparagraph (B), amend the order to require a recall. The Secretary shall specify a timetable in which the tobacco product recall will occur and shall require periodic reports to the Secretary describing the progress of the recall.

"(B) NOTICE.—An amended order under subparagraph (A)—

"(i) shall not include recall of a tobacco product from individuals; and

"(ii) shall provide for notice to persons subject to the risks associated with the use of such tobacco product.

In providing the notice required by clause (ii), the Secretary may use the assistance of retailers and other persons who distributed such tobacco product. If a significant number of such persons cannot be identified, the Secretary shall notify such persons under section 705(b).

"(3) REMEDY NOT EXCLUSIVE.—The remedy provided by this subsection shall be in addition to remedies provided by subsection (a) of this section.

"SEC. 909. RECORDS AND REPORTS ON TOBACCO PRODUCTS.

"(a) IN GENERAL.—Every person who is a tobacco product manufacturer or importer of a tobacco product shall establish and maintain such records, make such reports, and provide such information, as the Secretary may by regulation reasonably require to assure that such tobacco product is not adulterated or misbranded and to otherwise protect public health. Regulations prescribed under the preceding sentence—

"(1) may require a tobacco product manufacturer or importer to report to the Secretary whenever the manufacturer or importer receives or otherwise becomes aware of information that reasonably suggests that one of its marketed tobacco products may have caused or contributed to a serious unexpected adverse experience associated with the use of the product or any significant increase in the frequency of a serious, expected adverse product experience;

"(2) shall require reporting of other significant adverse tobacco product experiences as determined by the Secretary to be necessary to be reported;

"(3) shall not impose requirements unduly burdensome to a tobacco product manufacturer or importer, taking into account the cost of complying with such requirements and the need for

the protection of the public health and the implementation of this chapter;

"(4) when prescribing the procedure for making requests for reports or information, shall require that each request made under such regulations for submission of a report or information to the Secretary state the reason or purpose for such request and identify to the fullest extent practicable such report or information;

"(5) when requiring submission of a report or information to the Secretary, shall state the reason or purpose for the submission of such report or information and identify to the fullest extent practicable such report or information; and

"(6) may not require that the identity of any patient or user be disclosed in records, reports, or information required under this subsection unless required for the medical welfare of an individual, to determine risks to public health of a tobacco product, or to verify a record, report, or information submitted under this chapter.

In prescribing regulations under this subsection, the Secretary shall have due regard for the professional ethics of the medical profession and the interests of patients. The prohibitions of paragraph (6) continue to apply to records, reports, and information concerning any individual who has been a patient, irrespective of whether or when he ceases to be a patient.

"(b) REPORTS OF REMOVALS AND CORRECTIONS.—

"(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary shall by regulation require a tobacco product manufacturer or importer of a tobacco product to report promptly to the Secretary any corrective action taken or removal from the market of a tobacco product undertaken by such manufacturer or importer if the removal or correction was undertaken—

"(A) to reduce a risk to health posed by the tobacco product; or

"(B) to remedy a violation of this chapter caused by the tobacco product which may present a risk to health.

A tobacco product manufacturer or importer of a tobacco product who undertakes a corrective action or removal from the market of a tobacco product which is not required to be reported under this subsection shall keep a record of such correction or removal.

"(2) EXCEPTION.—No report of the corrective action or removal of a tobacco product may be required under paragraph (1) if a report of the corrective action or removal is required and has been submitted under subsection (a).

"SEC. 910. APPLICATION FOR REVIEW OF CERTAIN TOBACCO PRODUCTS.

"(a) IN GENERAL.—

"(1) NEW TOBACCO PRODUCT DEFINED.—For purposes of this section the term 'new tobacco product' means—

"(A) any tobacco product (including those products in test markets) that was not commercially marketed in the United States as of June 1, 2003; or

"(B) any modification (including a change in design, any component, any part, or any constituent, including a smoke constituent, or in the content, delivery or form of nicotine, or any other additive or ingredient) of a tobacco product where the modified product was commercially marketed in the United States after June 1, 2003.

"(2) PREMARKET APPROVAL REQUIRED.—

"(A) NEW PRODUCTS.—Approval under this section of an application for premarket approval for any new tobacco product is required unless—

"(i) the manufacturer has submitted a report under section 905(j); and

"(ii) the Secretary has issued an order that the tobacco product—

"(I) is substantially equivalent to a tobacco product commercially marketed (other than for test marketing) in the United States as of June 1, 2003; and

"(II)(aa) is in compliance with the requirements of this Act; or

"(bb) is exempt from the requirements of section 905(j) pursuant to a regulation issued under section 905(j)(3).

"(B) APPLICATION TO CERTAIN POST JUNE 1, 2003 PRODUCTS.—Subparagraph (A) shall not apply to a tobacco product—

"(i) that was first introduced or delivered for introduction into interstate commerce for commercial distribution in the United States after June 1, 2003, and prior to the date that is 15 months after the date of enactment of the Family Smoking Prevention and Tobacco Control Act; and

"(ii) for which a report was submitted under section 905(j) within such 15-month period, until the Secretary issues an order that the tobacco product is not substantially equivalent.

"(3) SUBSTANTIALLY EQUIVALENT DEFINED.—

"(A) IN GENERAL.—In this section and section 905(j), the terms 'substantially equivalent' or 'substantial equivalence' mean, with respect to the tobacco product being compared to the predicate tobacco product, that the Secretary by order has found that the tobacco product—

"(i) has the same characteristics as the predicate tobacco product; or

"(ii) has different characteristics and the information submitted contains information, including clinical data if deemed necessary by the Secretary, that demonstrates that it is not appropriate to regulate the product under this section because the product does not raise different questions of public health.

"(B) CHARACTERISTICS.—In subparagraph (A), the term 'characteristics' means the materials, ingredients, design, composition, heating source, or other features of a tobacco product.

"(C) LIMITATION.—A tobacco product may not be found to be substantially equivalent to a predicate tobacco product that has been removed from the market at the initiative of the Secretary or that has been determined by a judicial order to be misbranded or adulterated.

"(4) HEALTH INFORMATION.—

"(A) SUMMARY.—As part of a submission under section 905(j) respecting a tobacco product, the person required to file a premarket notification under such section shall provide an adequate summary of any health information related to the tobacco product or state that such information will be made available upon request by any person.

"(B) REQUIRED INFORMATION.—Any summary under subparagraph (A) respecting a tobacco product shall contain detailed information regarding data concerning adverse health effects and shall be made available to the public by the Secretary within 30 days of the issuance of a determination that such tobacco product is substantially equivalent to another tobacco product.

"(b) APPLICATION.—

"(1) CONTENTS.—An application for premarket approval shall contain—

"(A) full reports of all information, published or known to, or which should reasonably be known to, the applicant, concerning investigations which have been made to show the health risks of such tobacco product and whether such tobacco product presents less risk than other tobacco products;

"(B) a full statement of the components, ingredients, additives, and properties, and of the principle or principles of operation, of such tobacco product;

"(C) a full description of the methods used in, and the facilities and controls used for, the manufacture, processing, and, when relevant, packing and installation of, such tobacco product;

"(D) an identifying reference to any tobacco product standard under section 907 which would be applicable to any aspect of such tobacco product, and either adequate information to show that such aspect of such tobacco product fully meets such tobacco product standard or adequate information to justify any deviation from such standard;

"(E) such samples of such tobacco product and of components thereof as the Secretary may reasonably require;

"(F) specimens of the labeling proposed to be used for such tobacco product; and

"(G) such other information relevant to the subject matter of the application as the Secretary may require.

"(2) REFERENCE TO TOBACCO PRODUCTS SCIENTIFIC ADVISORY COMMITTEE.—Upon receipt of an application meeting the requirements set forth in paragraph (1), the Secretary—

"(A) may, on the Secretary's own initiative; or

"(B) may, upon the request of an applicant,

refer such application to the Tobacco Products Scientific Advisory Committee for reference and for submission (within such period as the Secretary may establish) of a report and recommendation respecting approval of the application, together with all underlying data and the reasons or basis for the recommendation.

"(c) ACTION ON APPLICATION.—

"(1) DEADLINE.—

"(A) IN GENERAL.—As promptly as possible, but in no event later than 180 days after the receipt of an application under subsection (b), the Secretary, after considering the report and recommendation submitted under paragraph (2) of such subsection, shall—

"(i) issue an order approving the application if the Secretary finds that none of the grounds for denying approval specified in paragraph (2) of this subsection applies; or

"(ii) deny approval of the application if the Secretary finds (and sets forth the basis for such finding as part of or accompanying such denial) that 1 or more grounds for denial specified in paragraph (2) of this subsection apply.

"(B) RESTRICTIONS ON SALE AND DISTRIBUTION.—An order approving an application for a tobacco product may require as a condition to such approval that the sale and distribution of the tobacco product be restricted but only to the extent that the sale and distribution of a tobacco product may be restricted under a regulation under section 906(d).

"(2) DENIAL OF APPROVAL.—The Secretary shall deny approval of an application for a tobacco product if, upon the basis of the information submitted to the Secretary as part of the application and any other information before the Secretary with respect to such tobacco product, the Secretary finds that—

"(A) there is a lack of a showing that permitting such tobacco product to be marketed would be appropriate for the protection of the public health;

"(B) the methods used in, or the facilities or controls used for, the manufacture, processing, or packing of such tobacco product do not conform to the requirements of section 906(e);

"(C) based on a fair evaluation of all material facts, the proposed labeling is false or misleading in any particular; or

"(D) such tobacco product is not shown to conform in all respects to a tobacco product standard in effect under section 907, compliance with which is a condition to approval of the application, and there is a lack of adequate information to justify the deviation from such standard.

"(3) DENIAL INFORMATION.—Any denial of an application shall, insofar as the Secretary determines to be practicable, be accompanied by a

statement informing the applicant of the measures required to place such application in approvable form (which measures may include further research by the applicant in accordance with 1 or more protocols prescribed by the Secretary).

"(4) BASIS FOR FINDING.—For purposes of this section, the finding as to whether approval of a tobacco product is appropriate for the protection of the public health shall be determined with respect to the risks and benefits to the population as a whole, including users and nonusers of the tobacco product, and taking into account—

"(A) the increased or decreased likelihood that existing users of tobacco products will stop using such products; and

"(B) the increased or decreased likelihood that those who do not use tobacco products will start using such products.

"(5) BASIS FOR ACTION.—

"(A) INVESTIGATIONS.—For purposes of paragraph (2)(A), whether permitting a tobacco product to be marketed would be appropriate for the protection of the public health shall, when appropriate, be determined on the basis of well-controlled investigations, which may include 1 or more clinical investigations by experts qualified by training and experience to evaluate the tobacco product.

"(B) OTHER EVIDENCE.—If the Secretary determines that there exists valid scientific evidence (other than evidence derived from investigations described in subparagraph (A)) which is sufficient to evaluate the tobacco product the Secretary may authorize that the determination for purposes of paragraph (2)(A) be made on the basis of such evidence.

"(d) WITHDRAWAL AND TEMPORARY SUSPENSION.—

"(1) IN GENERAL.—The Secretary shall, upon obtaining, where appropriate, advice on scientific matters from an advisory committee, and after due notice and opportunity for informal hearing to the holder of an approved application for a tobacco product, issue an order withdrawing approval of the application if the Secretary finds—

"(A) that the continued marketing of such tobacco product no longer is appropriate for the protection of the public health;

"(B) that the application contained or was accompanied by an untrue statement of a material fact;

"(C) that the applicant—

"(i) has failed to establish a system for maintaining records, or has repeatedly or deliberately failed to maintain records or to make reports, required by an applicable regulation under section 909;

"(ii) has refused to permit access to, or copying or verification of, such records as required by section 704; or

"(iii) has not complied with the requirements of section 905;

"(D) on the basis of new information before the Secretary with respect to such tobacco product, evaluated together with the evidence before the Secretary when the application was approved, that the methods used in, or the facilities and controls used for, the manufacture, processing, packing, or installation of such tobacco product do not conform with the requirements of section 906(e) and were not brought into conformity with such requirements within a reasonable time after receipt of written notice from the Secretary of nonconformity;

"(E) on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the application was approved, that the labeling of such tobacco product, based on a fair evaluation of all material facts, is false or misleading in any particular and was not corrected within a reasonable time after receipt of written notice from the Secretary of such fact; or

"(F) on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the application was approved, that such tobacco product is not shown to conform in all respects to a tobacco product standard which is in effect under section 907, compliance with which was a condition to approval of the application, and that there is a lack of adequate information to justify the deviation from such standard.

"(2) APPEAL.—The holder of an application subject to an order issued under paragraph (1) withdrawing approval of the application may, by petition filed on or before the 30th day after the date upon which such holder receives notice of such withdrawal, obtain review thereof in accordance with subsection (e).

"(3) TEMPORARY SUSPENSION.—If, after providing an opportunity for an informal hearing, the Secretary determines there is reasonable probability that the continuation of distribution of a tobacco product under an approved application would cause serious, adverse health consequences or death, that is greater than ordinarily caused by tobacco products on the market, the Secretary shall by order temporarily suspend the approval of the application approved under this section. If the Secretary issues such an order, the Secretary shall proceed expeditiously under paragraph (1) to withdraw such application.

"(e) SERVICE OF ORDER.—An order issued by the Secretary under this section shall be served—

"(1) in person by any officer or employee of the department designated by the Secretary; or

"(2) by mailing the order by registered mail or certified mail addressed to the applicant at the applicant's last known address in the records of the Secretary.

"(f) RECORDS.—

"(1) ADDITIONAL INFORMATION.—In the case of any tobacco product for which an appraval of an application filed under subsection (b) is in effect, the applicant shall establish and maintain such records, and make such reports to the Secretary, as the Secretary may by regulation, or by order with respect to such application, prescribe on the basis of a finding that such records and reports are necessary in order to enable the Secretary to determine, or facilitate a determination of, whether there is or may be grounds for withdrawing or temporarily suspending such approval.

"(2) ACCESS TO RECORDS.—Each person required under this section to maintain records, and each person in charge or custody thereof, shall, upon request of an officer or employee designated by the Secretary, permit such officer or employee at all reasonable times to have access to and copy and verify such records.

"(g) INVESTIGATIONAL TOBACCO PRODUCT EXEMPTION FOR INVESTIGATIONAL USE.—The Secretary may exempt tobacco products intended for investigational use from the provisions of this chapter under such conditions as the Secretary may by regulation prescribe.

"SEC. 911. MODIFIED RISK TOBACCO PRODUCTS.

"(a) IN GENERAL.—No person may introduce or deliver for introduction into interstate commerce any modified risk tobacco product unless approval of an application filed pursuant to subsection (d) is effective with respect to such product.

"(b) DEFINITIONS.—In this section:

"(1) MODIFIED RISK TOBACCO PRODUCT.—The term 'modified risk tobacco product' means any tobacco product that is sold or distributed for use to reduce harm or the risk of tobacco-related disease associated with commercially marketed tobacco products.

"(2) SOLD OR DISTRIBUTED.—

"(A) IN GENERAL.—With respect to a tobacco product, the term 'sold or distributed for use to reduce harm or the risk of tobacco-related disease associated with commercially marketed tobacco products' means a tobacco product—

"(A) the label, labeling, or advertising of which represents explicitly or implicitly that—

"(I) the tobacco product presents a lower risk of tobacco-related disease or is less harmful than one or more other commercially marketed tobacco products;

"(II) the tobacco product or its smoke contains a reduced level of a substance or presents a reduced exposure to a substance; or

"(III) the tobacco product or its smoke does not contain or is free of a substance;

"(ii) the label, labeling, or advertising of which uses the descriptors 'light', 'mild', or 'low' or similar descriptors; or

"(iii) the tobacco product manufacturer of which has taken any action directed to consumers through the media or otherwise, other than by means of the tobacco product's label, labeling or advertising, after the date of enactment of the Family Smoking Prevention and Tobacco Control Act, respecting the product that would be reasonably expected to result in consumers believing that the tobacco product or its smoke may present a lower risk of disease or is less harmful than one or more commercially marketed tobacco products, or presents a reduced exposure to, or does not contain or is free of, a substance or substances.

"(B) LIMITATION.—No tobacco product shall be considered to be 'sold or distributed for use to reduce harm or the risk of tobacco-related disease associated with commercially marketed tobacco products', except as described in subparagraph (A).

"(c) TOBACCO DEPENDENCE PRODUCTS.—A product that is intended to be used for the treatment of tobacco dependence, including smoking cessation, is not a modified risk tobacco product under this section and is subject to the requirements of chapter V.

"(d) FILING.—Any person may file with the Secretary an application for a modified risk tobacco product. Such application shall include—

"(1) a description of the proposed product and any proposed advertising and labeling;

"(2) the conditions for using the product;

"(3) the formulation of the product;

"(4) sample product labels and labeling;

"(5) all documents (including underlying scientific information) relating to research findings conducted, supported, or possessed by the tobacco product manufacturer relating to the effect of the product on tobacco related diseases and health-related conditions, including information both favorable and unfavorable to the ability of the product to reduce risk or exposure and relating to human health;

"(6) data and information on how consumers actually use the tobacco product; and

"(7) such other information as the Secretary may require.

"(e) PUBLIC AVAILABILITY.—The Secretary shall make the application described in subsection (d) publicly available (except matters in the application which are trade secrets or otherwise confidential, commercial information) and shall request comments by interested persons on the information contained in the application and on the label, labeling, and advertising accompanying such application.

"(f) ADVISORY COMMITTEE.—

"(1) IN GENERAL.—The Secretary shall refer to an advisory committee any application submitted under this subsection.

"(2) RECOMMENDATIONS.—Not later than 60 days after the date an application is referred to an advisory committee under paragraph (1), the advisory committee shall report its recommendations on the application to the Secretary.

"(g) APPROVAL.—

"(1) MODIFIED RISK PRODUCTS.—Except as provided in paragraph (2), the Secretary shall *approve an application for a modified risk tobacco product filed under this section only if the Secretary determines that the applicant has demonstrated that such product, as it is actually used by consumers, will—*

"(A) significantly reduce harm and the risk of tobacco-related disease to individual tobacco users; and

"(B) benefit the health of the population as a whole taking into account both users of tobacco products and persons who do not currently use tobacco products.

"(2) SPECIAL RULE FOR CERTAIN PRODUCTS.—

"(A) IN GENERAL.—The Secretary may approve an application for a tobacco product that has not been approved as a modified risk tobacco product pursuant to paragraph (1) if the Secretary makes the findings required under this paragraph and determines that the applicant has demonstrated that—

"(i) the approval of the application would be appropriate to promote the public health;

"(ii) any aspect of the label, labeling, and advertising for such product that would cause the tobacco product to be a modified risk tobacco product under subsection (b)(2) is limited to an explicit or implicit representation that such tobacco product or its smoke contains or is free of a substance or contains a reduced level of a substance, or presents a reduced exposure to a substance in tobacco smoke.

"(iii) scientific evidence is not available and, using the best available scientific methods, cannot be made available without conducting long-term epidemiological studies for an application to meet the standards set forth in paragraph (1); and

"(iv) the scientific evidence that is available without conducting long-term epidemiological studies demonstrates that a measurable and substantial reduction in morbidity or mortality among individual tobacco users is anticipated in subsequent studies.

"(B) ADDITIONAL FINDINGS REQUIRED.—In order to approve an application under subparagraph (A) the Secretary must also find that the applicant has demonstrated that—

"(i) the magnitude of the overall reductions in exposure to the substance or substances which are the subject of the application is substantial, such substance or substances are harmful, and the product as actually used exposes consumers to the specified reduced level of the substance or substances;

"(ii) the product as actually used by consumers will not expose them to higher levels of other harmful substances compared to the similar types of tobacco products then on the market unless such increases are minimal and the anticipated overall impact of use of the product remains a substantial and measurable reduction in overall morbidity and mortality among individual tobacco users;

"(iii) testing of actual consumer perception shows that, as the applicant proposes to label and market the product, consumers will not be misled into believing that the product—

"(I) is or has been demonstrated to be less harmful; or

"(II) presents or has been demonstrated to present less of a risk of disease than 1 or more other commercially marketed tobacco products; and

"(iv) approval of the application is expected to benefit the health of the population as a whole taking into account both users of tobacco products and persons who do not currently use tobacco products.

"(C) CONDITIONS OF APPROVAL.—

"(i) IN GENERAL.—Applications approved under this paragraph shall be limited to a term of not more than 5 years, but may be renewed upon a finding by the Secretary that the requirements of this paragraph continue to be satisfied based on the filing of a new application.

"(ii) AGREEMENTS BY APPLICANT.—Applications approved under this paragraph shall be conditioned on the applicant's agreement to conduct post-market surveillance and studies and to submit to the Secretary the results of such surveillance and studies to determine the impact of the application approval on consumer perception, behavior, and health and to enable the Secretary to review the accuracy of the determinations upon which the approval was based in accordance with a protocol approved by the Secretary.

"(iii) ANNUAL SUBMISSION.—The results of such post-market surveillance and studies described in clause (ii) shall be submitted annually.

"(3) BASIS.—The determinations under paragraphs (1) and (2) shall be based on—

"(A) the scientific evidence submitted by the applicant; and

"(B) scientific evidence and other information that is available to the Secretary.

"(4) BENEFIT TO HEALTH OF INDIVIDUALS AND OF POPULATION AS A WHOLE.—In making the determinations under paragraphs (1) and (2), the Secretary shall take into account—

"(A) the relative health risks to individuals of the tobacco product that is the subject of the application;

"(B) the increased or decreased likelihood that existing users of tobacco products who would otherwise stop using such products will switch to the tobacco product that is the subject of the application;

"(C) the increased or decreased likelihood that persons who do not use tobacco products will start using the tobacco product that is the subject of the application;

"(D) the risks and benefits to persons from the use of the tobacco product that is the subject of the application as compared to the use of products for smoking cessation approved under chapter V to treat nicotine dependence; and

"(E) comments, data, and information submitted by interested persons.

"(h) ADDITIONAL CONDITIONS FOR APPROVAL.—

"(1) MODIFIED RISK PRODUCTS.—The Secretary shall require for the approval of an application under this section that any advertising or labeling concerning modified risk products enable the public to comprehend the information concerning modified risk and to understand the relative significance of such information in the context of total health and in relation to all of the diseases and health-related conditions associated with the use of tobacco products.

"(2) COMPARATIVE CLAIMS.—

"(A) IN GENERAL.—The Secretary may require for the approval of an application under this subsection that a claim comparing a tobacco product to 1 or more other commercially marketed tobacco products shall compare the tobacco product to a commercially marketed tobacco product that is representative of that type of tobacco product on the market (for example the average value of the top 3 brands of an established regular tobacco product).

"(B) QUANTITATIVE COMPARISONS.—The Secretary may also require, for purposes of subparagraph (A), that the percent (or fraction) of change and identity of the reference tobacco product and a quantitative comparison of the amount of the substance claimed to be reduced shall be stated in immediate proximity to the most prominent claim.

"(3) LABEL DISCLOSURE.—

"(A) IN GENERAL.—The Secretary may require the disclosure on the label of other substances in the tobacco product, or substances that may be produced by the consumption of that tobacco product, that may affect a disease or health-related condition or may increase the risk of other diseases or health-related conditions associated with the use of tobacco products.

"(B) CONDITIONS OF USE.—If the conditions of use of the tobacco product may affect the risk of the product to human health, the Secretary may require the labeling of conditions of use.

"(4) TIME.—The Secretary shall limit an approval under subsection (g)(1) for a specified period of time.

"(5) ADVERTISING.— The Secretary may require that an applicant, whose application has been approved under this subsection, comply with requirements relating to advertising and promotion of the tobacco product.

"(i) POSTMARKET SURVEILLANCE AND STUDIES.—

"(1) IN GENERAL.—The Secretary shall require that an applicant under subsection (g)(1) conduct post market surveillance and studies for a tobacco product for which an application has been approved to determine the impact of the application approval on consumer perception, behavior, and health, to enable the Secretary to review the accuracy of the determinations upon which the approval was based, and to provide information that the Secretary determines is otherwise necessary regarding the use or health risks involving the tobacco product. The results of post-market surveillance and studies shall be submitted to the Secretary on an annual basis.

"(2) SURVEILLANCE PROTOCOL.—Each applicant required to conduct a surveillance of a tobacco product under paragraph (1) shall, within 30 days after receiving notice that the applicant is required to conduct such surveillance, submit, for the approval of the Secretary, a protocol for the required surveillance. The Secretary, within 60 days of the receipt of such protocol, shall determine if the principal investigator proposed to be used in the surveillance has sufficient qualifications and experience to conduct such surveillance and if such protocol will result in collection of the data or other information designated by the Secretary as necessary to protect the public health.

"(j) WITHDRAWAL OF APPROVAL.—The Secretary, after an opportunity for an informal hearing, shall withdraw the approval of an application under this section if the Secretary determines that—

"(1) the applicant, based on new information, can no longer make the demonstrations required under subsection (g), or the Secretary can no longer make the determinations required under subsection (g);

"(2) the application failed to include material information or included any untrue statement of material fact;

"(3) any explicit or implicit representation that the product reduces risk or exposure is no longer valid, including if—

"(A) a tobacco product standard is established pursuant to section 907;

"(B) an action is taken that affects the risks presented by other commercially marketed tobacco products that were compared to the product that is the subject of the application; or

"(C) any postmarket surveillance or studies reveal that the approval of the application is no longer consistent with the protection of the public health;

"(4) the applicant failed to conduct or submit the postmarket surveillance and studies required under subsection (g)(2)(C)(ii) or (i); or

"(5) the applicant failed to meet a condition imposed under subsection (h).

"(k) CHAPTER IV OR V.—A product approved in accordance with this section shall not be subject to chapter IV or V.

"(l) IMPLEMENTING REGULATIONS OR GUIDANCE.—

"(1) SCIENTIFIC EVIDENCE.—Not later than 2 years after the date of enactment of the Family Smoking Prevention and Tobacco Control Act, the Secretary shall issue regulations or guidance (or any combination thereof) on the scientific

evidence required for assessment and ongoing review of modified risk tobacco products. Such regulations or guidance shall—

"(A) establish minimum standards for scientific studies needed prior to approval to show that a substantial reduction in morbidity or mortality among individual tobacco users is likely;

"(B) include validated biomarkers, intermediate clinical endpoints, and other feasible outcome measures, as appropriate;

"(C) establish minimum standards for post market studies, that shall include regular and long-term assessments of health outcomes and mortality, intermediate clinical endpoints, consumer perception of harm reduction, and the impact on quitting behavior and new use of tobacco products, as appropriate;

"(D) establish minimum standards for required postmarket surveillance, including ongoing assessments of consumer perception; and

"(E) require that data from the required studies and surveillance be made available to the Secretary prior to the decision on renewal of a modified risk tobacco product.

"(2) CONSULTATION.—The regulations or guidance issued under paragraph (1) shall be developed in consultation with the Institute of Medicine, and with the input of other appropriate scientific and medical experts, on the design and conduct of such studies and surveillance.

"(3) REVISION.—The regulations or guidance under paragraph (1) shall be revised on a regular basis as new scientific information becomes available.

"(4) NEW TOBACCO PRODUCTS.—Not later than 2 years after the date of enactment of the Family Smoking Prevention and Tobacco Control Act, the Secretary shall issue a regulation or guidance that permits the filing of a single application for any tobacco product that is a new tobacco product under section 910 and for which the applicant seeks approval as a modified risk tobacco product under this section.

"(m) DISTRIBUTORS.—No distributor may take any action, after the date of enactment of the Family Smoking Prevention and Tobacco Control Act, with respect to a tobacco product that would reasonably be expected to result in consumers believing that the tobacco product or its smoke may present a lower risk of disease or is less harmful than one or more commercially marketed tobacco products, or presents a reduced exposure to, or does not contain or is free of, a substance or substances.

"SEC. 912. JUDICIAL REVIEW.

"(a) RIGHT TO REVIEW.—

"(1) IN GENERAL.—Not later than 30 days after—

"(A) the promulgation of a regulation under section 907 establishing, amending, or revoking a tobacco product standard; or

"(B) a denial of an application for approval under section 910(c),

any person adversely affected by such regulation or denial may file a petition for judicial review of such regulation or denial with the United States Court of Appeals for the District of Columbia or for the circuit in which such person resides or has their principal place of business.

"(2) REQUIREMENTS.—

"(A) COPY OF PETITION.—A copy of the petition filed under paragraph (1) shall be transmitted by the clerk of the court involved to the Secretary.

"(B) RECORD OF PROCEEDINGS.—On receipt of a petition under subparagraph (A), the Secretary shall file in the court in which such petition was filed—

"(i) the record of the proceedings on which the regulation or order was based; and

"(ii) a statement of the reasons for the issuance of such a regulation or order.

"(C) DEFINITION OF RECORD.—In this section, the term 'record' means—

"(i) all notices and other matter published in the Federal Register with respect to the regulation or order reviewed;

"(ii) all information submitted to the Secretary with respect to such regulation or order;

"(iii) proceedings of any panel or advisory committee with respect to such regulation or order;

"(iv) any hearing held with respect to such regulation or order; and

"(v) any other information identified by the Secretary, in the administrative proceeding held with respect to such regulation or order, as being relevant to such regulation or order.

The PRESIDING OFFICER. Objection is heard. The bills will receive their second reading on the next legislative day.

REMOVAL OF INJUNCTION OF SECRECY—TREATY DOCUMENT NO. 108–25

Mr. FRIST. Mr. President, as in executive session, I ask unanimous consent that the injunction of secrecy be removed from the following treaty transmitted to the Senate on July 16, 2004, by the President of the United States:

Protocol Amending Tax Convention with the Netherlands (Treaty Document 108–25.)

I further ask that the treaty be considered as having been read the first time; that it be referred, with accompanying papers, to the Committee on Foreign Relations and ordered to be printed, and that the President's message be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The President's message is as follows:

To the Senate of the United States:

I transmit herewith for Senate advice and consent to ratification, the Protocol Amending the Convention Between the United States of America and the Kingdom of the Netherlands for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income, signed at Washington, D.C., on March 8, 2004. Transmitted for the Senate's information is an exchange of notes with an attached Understanding, which provides clarification with respect to the application of the Convention, as amended, in specific cases. Also transmitted for the information of the Senate is the report of the Department of State with respect to the Protocol.

The Protocol would bring the existing Convention into closer conformity with current U.S. tax treaty policy. As modified by the Protocol, the Convention would be similar to tax treaties between the United States and other developed nations. The Protocol was concluded in recognition of the importance of the United States' economic relations with the Netherlands.

The Protocol would modify the treatment of certain cross-border dividend payments and would modernize the Convention's anti-treaty-shopping provisions. The Protocol also would liberalize provisions in the existing Convention regarding the mutual recognition of each country's pension plans. Other provisions in the Protocol update the Convention to take account of changes in law in the two countries over the last 10 years. The exchange of notes with an attached Understanding provides guidance to taxpayers and each government regarding the intended interpretation of certain provisions of the existing Convention, as amended.

I recommend that the Senate give early and favorable consideration to this Protocol, and that the Senate give its advice and consent to ratification.

GEORGE W. BUSH.

HAITI ECONOMIC RECOVERY OPPORTUNITY ACT OF 2004

Mr. FRIST. Mr. President, I ask unanimous consent that the Finance Committee be discharged from further consideration of S. 2261 and that the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 2261) to expand certain preferential trade treatment for Haiti.

There being no objection, the Senate proceeded to consider the bill.

Mr. DEWINE. Mr. President, I am very pleased we are moving forward today with passage of the Haiti Economic Recovery Opportunity Act. Congressman CLAY SHAW in the House and I have been working on Haiti trade legislation for some time. I thank Congressman SHAW for his support. I also want to give my sincere thanks to Senators LINDSEY GRAHAM and ERNEST HOLLINGS. Without their help and support we would not have been successful in our efforts today. Let me take a moment to mention all of our cosponsors as well: Senators BIDEN, BREAUX, CHAFEE, COLEMAN, DASCHLE, DODD, DURBIN, BOB GRAHAM, HAGEL, JEFFORDS, LAUTENBERG, LIEBERMAN, LUGAR, BILL NELSON, GORDON SMITH, SUNUNU, and VOINOVICH. I thank them for their support and their efforts in getting this bill passed.

This bill can really change things for Haiti. Once it is signed into law, it will make a very real, very lasting difference in a country that is the poorest in our hemisphere—and one that has an 80-plus percent unemployment rate and a less than $400 per capita income for individuals.

This bill is going to use trade incentives to encourage the post-Aristide government to make much needed reforms, while encouraging foreign direct investment—the most powerful, and yet underutilized, tool of development. This bill, quite simply, will create thousands of jobs—one of the most important things for the Haitian people right now.

The people of Haiti want to work. They are good workers—they are hard workers. They are industrious. This bill is going to give them the chance to have jobs. It is going to give them a chance at economic recovery through economic opportunity. In the last decade, Haiti has gone from over 100,000 assembly jobs to less than 30,000 today. Our bill helps create jobs by providing duty-free entry to apparel articles assembled in Haiti contingent upon Presidential certification that the new government is making significant political, economic, and social reforms.

The bill also caps the amount of duty-free articles at 1.5 percent of the total amount of U.S. apparel imports, growing to 3.5 percent over 7 years. Currently, Haiti accounts for less than .5 percent of all U.S. apparel imports, and although these provisions seem modest by U.S. standards, in Haiti they are substantial.

This bill is not the "silver bullet" for Haiti, because there is no silver bullet for Haiti. Rebuilding Haiti is going to require time, attention, and determination on the part of the people of Haiti, the countries in the region, and ultimately the entire international community. But, passage of the Haiti Economic Recovery Opportunity Act is a powerful indicator that Haiti has the support necessary to move forward.

I yield the floor.

Mr. DODD. Mr. President, I rise today to speak about an initiative that is long overdue. Thanks to the efforts of Senator DEWINE, Senator BOB GRAHAM, and to the other cosponsors of the pending measure, the Haiti Economic Recovery Opportunity, or HERO Act, of 2004 is finally getting the attention it deserves.

Haiti has endured intense strife over the course of the last 3 years. Most recently, floods have devastated much of the country, and armed gangs have destabilized cities and terrorized rural areas, ultimately forcing the elected president from office.

Although much more support will be necessary in the near future, the HERO Act is an excellent first step in the process of establishing stability and security in Haiti.

Unemployment is a major factor in the instability of the country. More than two-thirds of eligible workers cannot find jobs in the formal economy. The HERO Act begins to address that need by providing living-wage jobs in the apparel industry for thousands of Haitians.

Again, I want to stress how important it is to view this as only the first part of a large program to address the abject poverty and political chaos that has beleaguered Haiti. With this kind of forward-looking initiative, we can help our neighbors to overcome these difficult times. Only through concrete and meaningful U.S. assistance on a scale commensurate with Haiti's needs can be ever hope to reverse the misery, suffering, and hopelessness that have become commonplace in the lives of close neighbors—8 million of them.

I strongly support this legislation and was pleased to be a cosponsor. The people of Haiti have waited too long for the HERO Act to become law. It is time for the United States to demonstrate its concern for its suffering Haitian neighbors. Now that the Senate has acted, I hope that the Bush administration will finally make this a priority and urge the House leadership to act on this measure before the August recess.

Mr. FRIST. Mr. President, I ask unanimous consent that the DeWine substitute amendment be agreed to, the bill, as amended, be read a third time and passed, the motion to reconsider be laid upon the table, en bloc, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 3565) was agreed to, as follows:

(Purpose: To provide a substitute amendment to ensure violations of laws relating to circumvention are enforced)

Strike all after the enacting clause and insert the following:

(b) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendment made by subsection (a) applies with respect to goods entered, or withdrawn from warehouse for consumption, on or after October 1, 2003.

(2) RETROACTIVE APPLICATION TO CERTAIN ENTRIES.—Notwithstanding section 514 of the Tariff Act of 1930 (19 U.S.C. 1514) or any other provision of law, upon proper request filed with the United States Customs Service before the 90th day after the date of the enactment of this Act, any entry or withdrawal from warehouse for consumption, of any goods described in the amendment made by subsection (a)—

(A) that was made on or after October 1, 2003, and before the date of the enactment of this Act, and

(B) with respect to which there would have been no duty if the amendment made by subsection (a) applied to such entry or withdrawal,

shall be liquidated or reliquidated as though such amendment applied to such entry or withdrawal.

The bill (S. 2261), as amended, was read the third time and passed.

ORDERS FOR MONDAY, JULY 19, 2004

Mr. FRIST. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 1 p.m. on Monday, July 19. I further ask that following the prayer and pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and the Senate then proceed to executive session to consider Executive Calendar No. 603, the nomination of William Myers III; provided further, that the time until 5 p.m. be equally divided for debate only between the chairman and ranking member or their designees.

The PRESIDING OFFICER. Without objection, it is so ordered.

THIS WEEK IN THE SENATE

Mr. FRIST. Mr. President, this week we began with the consideration of a constitutional amendment on the institution of marriage, an important dialog, I felt, for this body. We had a good debate on both sides of the aisle on the definition of marriage. I thank my colleagues for keeping the debate on the subject, very civil, and handled in a very respectable way.

I personally was disappointed we did not succeed in getting to the consideration of the text of the amendment. As to the timing of the amendment, people kept questioning again and again, Why did you bring it up now? It was clearly determined by the fact that we had activist judges, beginning in the middle of May, in Massachusetts who radically redefined what marriage over the thousands of years has been interpreted to be.

Right now there are lawsuits pending in 11 other States, and it is just a matter of time before the definition of marriage between a man and a woman will be destroyed in all 50 States. Amending the Constitution to protect marriage is the only viable option left to Congress. It is a debate we did not seek, but it was one that was brought to us by another branch of Government by activist judges who determined what that definition is.

It is important for the legislative branch, directly elected by the American people, to express itself on this issue. We simply are not going to shirk from our responsibility to protect marriage, and we deserve to have a say in the matter. Although we were blocked from bringing it to the floor, I can assure everyone it will be back. The issue is not simply going away.

In addition, we completed last night the Australia free-trade bill, a very important bill managed by Chairman GRASSLEY. The outcome of the vote was 80 to 16 last night on final passage.

The significance of this bill was stated on the floor last night and it centers on the fact that two-way trade between the United States and Australia is at a level of about $28 billion each year. We have a little over $89 billion surplus with Australia, which is the greatest with any nation. More than 99 percent of our exports from Australia will enter duty-free once this agreement goes into effect.

The agreement we approved yesterday in this body is expected to produce an increase of about $2 billion annually in trade for both nations. That means the bill we passed last night will result in the creation of about 40,000 new jobs in my own State of Tennessee.

Australia is a very important market. Tennesseans exported more to Australia than to France last year. Tennessean companies exported $225 million to Australia, which is approximately a 10-percent increase from 1999.

The bill itself is even more than increasing business opportunities. Australia indeed is one of our most steadfast allies and a key partner in the war on terror. I had the opportunity to talk to the Prime Minister of Australia last night after completion of the bill and thanked him for that support of the broad coalition that has been assembled across the world to fight this war on terror.

Australians have fought beside Americans in every major conflict in the last 100 years, and this agreement strengthens that already close bond forged between two old friends.

Thirdly, this week the Senate took an important step with respect to the FSC/ETI, the JOBS bill, by sending it to conference. The Senate had passed a bill. The House had passed a bill. There had been obstruction to going to conference, but we came to an agreement yesterday and the bill has been sent to conference. It is timely legislation. Every month we do not pass the legislation there is a 1-percent Euro tax or a tariff increase each and every month. It is now at 9 percent. That is unfair. It is unfair to consumers and it is unfair to manufacturers.

Once we work this bill through conference and the President signs it and it becomes law, it will create jobs. So there has been real progress in that regard.

Fourthly, this week we passed H.R. 4363, the Helping Hands for Homeownership Act. This bill came out of the Banking Committee, which is chaired by Senator SHELBY, and it will go to the President's desk.

PROGRAM

Mr. FRIST. As we look ahead to Monday, we will consider the nomination of William Myers to be a U.S. circuit judge for the Ninth Circuit. A few moments ago, I filed a cloture petition on the judicial nomination because of the objection to a time agreement that was expressed from the other side of the aisle. That vote will occur at 2:15 on Tuesday. Therefore, there will be no rollcall votes on Monday. Senators should come to the floor during Monday's session to debate this nomination.

As we all know, next week will be the final week prior to the recess. It will be a very busy week. It should be a very productive week. I ask in advance for everyone's patience and cooperation as we wrap up our work for this legislative period.

ADJOURNMENT UNTIL 1 P.M. MONDAY, JULY 19, 2004

Mr. FRIST. If there is no further business to come before the Senate, I ask unanimous consent that the Senate stand in adjournment under the previous order.

There being no objection, the Senate, at 12:45 p.m., adjourned until Monday, July 19, 2004, at 1 p.m.

EXTENSIONS OF REMARKS

HONORING REMARKABLE AND COMMENDABLE COMMUNITY ACTIVIST ROBERTO MENDEZ

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. LANTOS. Mr. Speaker, I rise today to pay tribute to Roberto Mendez, a longtime resident of South San Francisco, which is in my congressional district, for being honored with the 25th annual COPE Unity Award by the San Mateo County Central Labor Council. The COPE award is presented annually by the Labor Council's Committee on Political Education (COPE) to honor an individual for his or her outstanding service.

A native of Guatemala City, Guatemala, Roberto moved to the United States in 1968, after graduating from military school. From the moment of his arrival to America, Roberto exhibited a dedicated work ethic as he spent his days learning English while working in a New Jersey textile factory at night. After working long hours with no benefits, no overtime pay and minimal safety protection, Roberto eventually left the textile industry to work in the restaurant business where he worked his way up from busboy to assistant manager.

Looking for more challenging work, Roberto joined United Air Lines in 1984 working in the flight kitchen, where he was responsible for the upkeep and stocking of the plane's kitchen. He joined the Machinists Local 1781 and immediately became an active member. Within ten years, Roberto was elected Shop Steward. His rise at United was as equally meteoric as it was within the union, and Roberto quickly advanced from working in the flight kitchen to performing critical maintenance and mechanical work. Additionally, Roberto was recently selected to be the West Coast Employee Assistance Program Coordinator, where he is responsible for assisting the more than 3,500 United Airlines local employees deal with a wide variety of problems including substance abuse treatment, stress, harassment, and other personnel matters.

Mr. Speaker, as you are aware, in the wake of the tragic events of September 11, 2001, countless Bay Area workers were displaced from their jobs. Roberto's enthusiasm and devotion to his union colleagues lead him to be an instrumental component in the efforts to assist the airline, hospitality, construction and other workers whose jobs were lost in the post 9–11 economic downturn. He coordinated with the San Mateo County PennisulaWorks program to make available re-employment and retraining services.

Roberto Mendez's compassion for his fellow workers led him to organize monthly food distribution and coordinate re-employment and re-training services for displaced workers and their families. Serving over 350,000 pounds of food to hundreds of families, these monthly distributions continue to serve over 175 families per month. In addition, Roberto assisted in more than 80 Rapid Response sessions, which informed displaced workers about services and resources available to assist them during those difficult times.

Mr. Speaker, along with his wife Maria, and their two children, Roberto's family has made its mark in South San Francisco and the Bay Area with their strong will and dedicated sense of justice. I urge all of my colleagues to please join me in recognizing an extraordinarily devoted community activist on his 20 years of outstanding service and his recognition by the San Mateo Central Labor Committee with the 25th Annual COPE Unity Award.

TRIBUTE TO CAROLYN DONNELLY

HON. JOHN CONYERS, JR.

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. CONYERS. Mr. Speaker, I rise today in tribute to a longtime public servant, Carolyn Crawford Donnelly, who is retiring from government service after 25 years.

She began her career in government service with Representative (now Senator) BARBARA BOXER in January 1983 as a Computer Operator. In 1991, she joined the Committee on Government Operations as a Clerk for the Subcommittee on Government Activities and Transportation. In 1993, she moved to the Full Committee as a Clerk for the Management Team. In 1995, she provided investigative support to staff and served as backup to the division secretary of the Department of Defense, Office of the Inspector General Office of Departmental Inquiries. In 1999, she joined the Committee on the Judiciary as a staff assistant. In 2002, her title changed to professional staff.

Carolyn has served under one Democratic Chairman, two Republican Chairmen and one Democratic Ranking Member. She has always handled all aspects of her job in an exemplary fashion. No matter what her title has been, Carolyn's role has remained constant. She has been one of the pillars of the Committee, ensuring that the office runs smoothly. She has always been calm and professional in the eye of the storm. No matter how frenetic, no matter how pressured, no matter how stressful the situation, Carolyn has maintained a sense of humor and cheer that has proved contagious and helped to get the job done. Moreover, there have been many occasions on which she brought a needed human touch to the sometimes intense work of the Congress and its committees.

Throughout her tenure, Carolyn has exhibited an extraordinary personal commitment to the Committee. Carolyn has always been there for the Members and staff, whether it's problems with supplies or guidance on where to turn for special requests. Whenever a major project needed additional volunteers, Carolyn was always the first to sign up and work long hours whenever needed. She has always been willing to listen, to share her professional and personal opinions, and to lift spirits during an especially long or difficult day.

In addition to her work on the Hill, Carolyn has been active in the community, volunteering for numerous organizations over the years. She currently feeds the homeless with SOME (So Others Might Eat) on Sunday mornings, several times each month, and works with the Washington Animal Rescue league. She is also a member of the altar guild at St. Patrick's Episcopal Church. Our loss is the gain of these organizations, as I am confident that Carolyn will lend her talents to the pursuit of their important missions.

Mr. Speaker, Members and staff, please join me in thanking Carolyn for her service and wishing her all the best as she leaves the Hill. The Committee on the Judiciary was indeed fortunate to have her on board for these years.

THE JOHN N. HARDEE AIRPORT EXPRESSWAY

HON. JOE WILSON

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. WILSON of South Carolina. Mr. Speaker, I along with my colleague, Mr. BARRETT of South Carolina, would like to take this opportunity to commemorate the completion of Phase One of the John N. Hardee Airport Expressway. This will be announced to the people of South Carolina at a ribbon cutting ceremony on Monday, July 12. The completion of this 2.8 mile expressway will provide easy and direct access to the Columbia Metropolitan Airport.

This expressway, which widened Airport Road from Airport Boulevard to Platt Springs Road, will make a vast difference in the way South Carolinians and visitors commute to the airport. We are looking forward to the next and final phase of the project, which is currently under design and should begin construction in 2006. This will provide for a new four-lane road extending Airport Road to Interstate 26. Coupled with the success of the John N. Hardee Expressway, these two new roadways will reduce traffic and provide direct access to the growing Columbia Metropolitan Airport by passenger and cargo vehicles, removing some 25,000 vehicles each year from the local network surrounding the airport.

We would like to thank the people at the South Carolina Department of Transportation (SCDOT) for all of their hard work in completing this important project. Mrs. Elizabeth Mabry, Executive Director of SCDOT, and Mr. John Hardee, SCDOT Second District Commissioner for whom the expressway is named, thank you for your tireless dedication in getting this phase of the project completed. This expressway will be helpful to the people of the entire state of South Carolina, and for this you are appreciated.

PERSONAL EXPLANATION

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. BLUMENAUER. Mr. Speaker, had I been present for the following votes on Wednesday July 7, 2004, I would have voted as follows:

Rollcall vote No. 329, I would have voted "yea" on the Flake Amendment, to prohibit the use of funds in the appropriations bill to implement the Commerce Department's new restrictions on gift parcels to Cuba and the amount of personal baggage allowed for travelers to Cuba.

Rollcall vote No. 330, I would have voted "yea" on the Weiner Amendment which would have increased COPS funding but at the expense of the U.S. Census Bureau.

Rollcall vote No. 331, I would have voted "nay" on the Hefley Amendment, an amendment to eliminate funding for the re-engineered design process for the 2010 Short-Form Only census.

Rollcall vote No. 332, I would have voted "yea" on the Kucinich amendment, to expand the membership of the President's "Manufacturing Council" to include representatives from unions and the steel industry.

Rollcall vote No. 333, I would have voted "nay" on the Paul amendment, an amendment to prohibit the use of funds in the bill to pay expenses for any U.S. contribution to the United National Educational, Scientific, and Cultural Organization (UNESCO).

Rollcall vote No. 334, I would have voted "yea" on the Farr amendment, directing that none of the funds in the appropriations bill may be used to prevent the states of Alaska, California, Colorado, Hawaii, Maine, Maryland, Nevada, Oregon, Vermont or Washington from implementing state laws authorizing the use of medical marijuana.

Rollcall vote No. 335, I would have voted "nay" on the Paul amendment, which would have prohibited the use of funds to pay any United States contribution to the United Nations or any affiliated agency of the United Nations.

Had I been present for the following votes on Thursday July 8, 2004, I would have voted as follows:

Rollcall vote No. 336, I would have voted "nay" on the rules of debate for H.R. 4755.

Rollcall vote No. 337, I would have voted "nay" on the rules of debate for H.R. 3598.

Rollcall vote No. 338, I would have voted "yea" on H.R. 3980 to establish a National Windstorm Impact Reduction Program.

Rollcall vote No. 339, I would have voted "yea" on the Sanders amendment, which would have restricted the investigative powers of the FBI and homeland security, and restored some of the basic civil liberties revoked by the PATRIOT Act.

The Sanders amendment would have repealed some of the most dangerous provisions of the PATRIOT Act, which allow the government to monitor the reading and research habits of citizens in libraries and bookstores. It is clear that there is potential for abuse of individual rights in every community across the nation, and there has been mistreatment in my own. I am appalled by the behavior of the House leadership in administering this vote. It was made clear that even if I had been present to cast my vote of support, the vote would have been held open for as long as it would have taken to strong arm enough members into defeating the legislation.

Rollcall vote No. 340, I would have voted "nay" on the Akin amendment, which prohibits funds in the appropriations bill for HIV/AIDS programs that do not explicitly oppose legalizing sex trafficking and prostitution.

Rollcall vote No. 341, I would have voted "nay" on the King (IA) amendment, providing $1 million for the enforcement of provisions of the Illegal Immigration Reform and Immigrant Responsibility Act regarding receiving and providing information to the federal government on the citizenship or immigration status of an individual.

Rollcall vote No. 342, I would have voted "nay" on the Smith (MI) amendment, which increases funding for scientific and technical research and services of the National Institute of Standards and Technology by $20 million. The amendment offsets the increase by reducing funding for U.S. contributions to international organizations by $20 million.

Rollcall vote No. 343, I would have voted "nay" on the Hefley amendment, an amendment to reduce funding for the U.S. Court of Federal Claims by 50 percent.

Rollcall vote No. 344, I would have voted "nay" on the Hefley amendment, an amendment to cut total appropriations in the bill by 1 percent.

Rollcall vote No. 345, 1 would have voted "yea" on the motion to recommit with instructions H.R. 4754.

Rollcall vote No. 346, I would have voted "yea" on the passage of H.R. 4754, to make appropriations to the Departments of Commerce, Justice, State, the Judiciary, and other related agencies for the fiscal year 2005.

Rollcall vote No. 347, I would have voted "nay" on the motion to adjourn.

Had I been present for the following votes on Friday July 9, 2004, I would have voted as follows:

Rollcall vote No. 348, I would have voted "nay" on the motion to table the appeal of the ruling of the Chair.

Rollcall vote No. 349, I would have voted "nay" on the motion to adjourn.

Rollcall vote No. 350, I would have voted "nay" on ordering the previous question.

Rollcall vote No. 351, I would have voted "nay" on the resolution providing for consideration of H.R. 2828.

Rollcall vote No. 352, I would have voted "nay" on the motion to reconsider.

Rollcall vote No. 353, I would have voted "nay" on the motion to adjourn.

Rollcall vote No. 354, I would have voted "yea" on the motion to recommit with instructions H.R. 2828.

Rollcall vote No. 355, I would have voted "yea" on the amendment to authorize $120.6 million for the Manufacturing Extension Partnership program and 10 percent yearly increases for FY06–08 and to allow the Federal cost-share for MEP Centers in the FY05–08 to increase up to one-half on a case-by-case basis as determined by the Administration.

Rollcall vote No. 356, I would have voted "yea" on the amendment to prohibit funds authorized from being used to require centers participating in the Manufacturing Extension Partnership program to re-compete for funds that already have been approved.

Rollcall vote No. 357, I would have voted "yea" on the amendment to establish a Manufacturing and Technology Administration within the Commerce Department and to direct the President to appoint, with the consent of the Senate, an Under Secretary of Commerce for Manufacturing and Technology, an Assistant Secretary for Manufacturing and an Assistant Secretary for Technology.

Rollcall vote No. 358, I would have voted "yea" on the motion to recommit with instructions H.R. 3598.

AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2005

SPEECH OF

HON. RICHARD BURR

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 13, 2004

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 4766) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies for the fiscal year ending September 30, 2005, and for other purposes:

Mr. BURR. Mr. Chairman, I rise in opposition to this misguided amendment that threatens not only the delicate balance achieved in passage of the international tax bill, H.R. 4520, but also the future of every farm program administered by USDA.

Tobacco simply happens to be first. More crops will most certainly follow. To my colleagues who produce feed grains, wheat, rice, cotton, tobacco, dairy, soybeans, oilseeds, peanuts, sugar, honey, wool, and certain other crops: Your crops are next.

It is also somewhat disingenuous for proponents of this amendment to claim that they are protecting the American taxpayer. If indeed "taxpayers" are impacted by the tobacco reform provisions included in H.R. 4520, the burden falls only on those who pay excise taxes on tobacco products. Any approach other than the one proposed in H.R. 4520 will actually result in a tax increase on those who choose to use tobacco products. If that is what colleagues really are seeking, they should say so.

The facts, Mr. Chairman, are that tobacco and tobacco taxes raise more than $30 billion every year for states and the Federal government. We are only asking for a portion of this money over five years to provide relief to our struggling farmers and their communities.

DEPLORING MISUSE OF INTERNATIONAL COURT OF JUSTICE BY UNITED NATIONS GENERAL ASSEMBLY FOR POLITICAL PURPOSE

SPEECH OF

HON. DAVID E. PRICE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. PRICE of North Carolina. Mr. Speaker, I rise to express my serious reservations about House Resolution 713.

Israel's construction of a security barrier has been a source of great controversy within Israel and in the international community.

The debate has less to do with the actual construction of a barrier than with the route of the barrier.

The government of Israel regards the barrier as a form of self-defense—a legitimate means for preventing further terrorist infiltration. Israel has a right to self-defense, and if the Israeli government believes that the security barrier is the best means for protecting their citizens, then I support their right to construct a barrier.

But as it now stands, the barrier has gone deeply into territory beyond the 1967 borders. That is the fact the authors of this resolution choose to ignore: There would be no International Court of Justice decision to condemn if Israel were building the fence along the Green Line.

The Supreme Court of Israel recently ordered portions of the fence rerouted. The Court held that the barrier's current route "injures the local inhabitants in a severe and acute way while violating their rights under humanitarian and international law."

American diplomats also have worked diligently to modify the barrier's route in their dealings with the Israeli government.

This resolution threatens to damage these efforts, implying an unqualified endorsement of the barrier and warning the international community against efforts to influence the situation.

Roughly one-quarter of the 420-mile barrier has been completed—clearly there is still much at stake for both the Israelis and the Palestinians. Our efforts should be directed at negotiating borders that will advance peace. Resolutions such as the one before us today do nothing to advance the peace process.

There are legitimate questions as to the propriety and wisdom of the action taken by the International Court of Justice in this matter. But this resolution goes too far. It condemns the ICJ and "Palestinian Leadership" indiscriminately, and it undermines worthy efforts underway in Israel, the U.S., and internationally to promote Israel's security in ways that enhance the prospects for a just and lasting peace in the region.

If we were truly serious about promoting peace in the Middle East, we would focus on efforts like the Roadmap rather than pass resolutions such as H. Res. 713.

INTRODUCTION OF A BILL TO RENAME THE DEPARTMENT OF VETERANS AFFAIRS MEDICAL CENTER IN AMARILLO, TEXAS, THE "THOMAS E. CREEK DEPARTMENT OF VETERANS AFFAIRS MEDICAL CENTER"

HON. MAC THORNBERRY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. THORNBERRY. Mr. Speaker, today, I have the privilege, along with the entire Texas delegation in the House and Mr. MORAN from Kansas, to introduce a bill to rename the Department of Veterans Affairs Medical Center in Amarillo, Texas, the "Thomas E. Creek Department of Veterans Affairs Medical Center."

Lance Corporal Thomas E. Creek, USMC, of Amarillo, Texas, was awarded the Congressional Medal of Honor posthumously by President Nixon. He was a true American hero, deserving of this recognition and honor.

On February 13, 1969, Lance Corporal Creek was an 18-year-old Marine with Company I, 3rd Battalion, 9th Marines, 3rd Marine Division in Vietnam. He was part of a resupply convoy that was ambushed by enemy forces using mortars, mines, fragmentation grenades, and small arms. According to the documents recommending him for the Medal of Honor, "[t]he fierce combat found the men firing at point blank range." Lance Corporal Creek was wounded by a bullet in the neck, but then saw a fragmentation grenade land between him and the rest of the squad. He then, though wounded, deliberately rolled on top of the grenade, taking the full impact of the explosion, and saving the lives of 5 Marines nearby. His act inspired the rest of the squad to defeat the enemy and complete its mission to resupply the forward combat base.

Mr. Speaker, we cannot help but be moved by such acts of self-sacrifice and bravery. They exemplify the highest standards of the Marine Corps, our military, and our Nation. The veterans community in the Amarillo area suggested this way of honoring Corporal Creek. It is supported by the American Legion, Disabled American Veterans, Vietnam Veterans of America, Veterans of Foreign Wars, Paralyzed Veterans of America, and AMVETS.

I also want to acknowledge and to thank all those who have helped in this effort to recognize Lance Corporal Creek, especially Corporal Creek's family, Selden Hale, and Larry Milam, who were instrumental in this endeavor.

In some ways, 1969 seems like a long time ago, yet acts of bravery like Corporal Creek's are timeless. They provide an example for us all. Corporal Creek's name will further magnify the honor attached to those who have served our nation and receive health care at this veterans' facility. I urge my colleagues to support the measure.

WELCOMING THE OPENING OF THE ROBERT BROADBENT LAS VEGAS MONORAIL

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. PORTER. Mr. Speaker, I rise today to welcome the opening of the Robert Broadbent Las Vegas Monorail today in Las Vegas, Nevada. This momentous achievement will expand transit opportunities for residents and visitors in Southern Nevada while enhancing the environment, reducing congestion, and improving safety.

The Robert Broadbent Monorail is the most technically advanced transit system in the world. The first leg will run 4 miles along the world famous Las Vegas Strip. The Broadbent Monorail is built entirely with private money, and shows the commitment to build for our future that southern Nevada is famous for. The monorail is named after Robert Broadbent, a long-time community leader who sadly passed away last year. Robert Broadbent was the chairman of the Monorail and served as Mayor of Boulder City, County Commissioner, McCarran Airport Director and Director of the Bureau of Reclamation.

I invite all the members of the House to visit Las Vegas and see firsthand the Broadbent

Monorail. I urge the House to join me in congratulating Chairman Jim Gibson, President Cam Walker, and all of the men and women who have contributed over the years to the success of this project. I look forward to extending the monorail in the near future to serve McCarran Airport, downtown Las Vegas, and other points in southern Nevada.

A TRIBUTE TO JACK VALENTI

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. TOWNS. Mr. Speaker, I rise today to recognize a man who has touched the lives of countless Americans and helped to put smiles on the faces of kids young and old.

Jack Valenti has served as the Chairman and Chief Executive Officer of the Motion Picture Association for almost 40 years. Texas born and Harvard educated, Jack has led several lives: a wartime bomber pilot, advertising agency founder, political consultant, White House Special Assistant, and movie industry leader. He earned a B.A. from the University of Houston and a M.B.A. from Harvard.

In his current role as Chairman and Chief Executive Officer of the Motion Picture Association, Jack has presided over and led the American film and television industry as it has confronted a sea change in the landscape of the industry, both in the United States and abroad.

Born in Houston, Texas, Jack was the youngest (age 15) high school graduate in the city. As a young pilot in the Army Air Corps in World War II, Lieutenant Valenti flew 51 combat missions as the pilot-commander of a B–25 attack bomber with the 12th Air Force in Italy. He was awarded the Distinguished Flying Cross, the Air Medal with four clusters, the Distinguished Unit Citation with one cluster and the European Theater Ribbon with four battle stars.

In 1952, he co-founded the advertising/political consulting agency of Weekley & Valenti. In 1955 he met the man who would have the largest impact on his life, Senate Majority Leader Lyndon B. Johnson. Jack's agency was in charge of the press during the visit of President Kennedy and Vice President Johnson to Texas. Jack was in the motorcade (six cars back of the President) in Dallas on November 22, 1963. Within an hour of the assassination of John F. Kennedy, Jack was aboard Air Force One flying back to Washington with the new President as the first newly hired Special Assistant to the President. On June 1, 1966, Jack resigned his White House post to become the third man in MPAA's history (founded in 1922) to become its leader.

Jack has written four books (three non-fiction): The Bitter Taste of Glory (World Publishing); A Very Human President (W.W. Norton Co.); Speak Up With Confidence (Wm. Morrow Co.), and the political novel, Protect and Defend (Doubleday). His most recent book is an updated revision of Speak Up With Confidence (2002, Hyperion). Jack has written extensively for America's preeminent newspapers and magazines. He is one of the few public figures who actually writes his own speeches.

France has conferred upon him its highly prized Legion d'Honneur, the French Legion of Honor. Jack has been awarded his own star on Hollywood's Walk of Fame. He has also been named a Life Member of the Directors Guild of America.

Mr. Speaker, America and the rest of the world will greatly miss Jack Valenti. His watchful and caring eye has helped bring joy to countless children and adults alike, and I wish him a very happy and healthy retirement.

WELCOMING REMARKS FOR REVEREND JEAN BURCH

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. SCHIFF. Mr Speaker, I join you this morning in welcoming today's distinguished guest chaplain: Reverend Jean Burch of Pasadena, a resident of my Congressional district in California.

Reverend Burch represents the best of what we hope all citizens should be—always striving to improve the lives of others and always enthusiastic about our prospects for tomorrow.

After a long career in the legal profession, she followed her heart into the faith community, becoming Senior Pastor at Community Baptist Church. In addition to her pastoral duties, she works tirelessly with other religious leaders to lift the scourge of violence in our schools.

Each day she inspires those among her to better themselves and help people in need. I am pleased that all in the House of Representatives today have been able to benefit from her inspirational wisdom. I hope that many here today will get a chance to meet this remarkable woman.

IN MEMORY OF HELEN GULBRANSON

HON. ELTON GALLEGLY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. GALLEGLY. Mr. Speaker, I rise to pay tribute to the memory of Helen Gulbranson, a longtime close friend and patriot, who died Tuesday at 96 years young.

I met Helen and her late husband, Dick, in 1986 when I first ran for Congress. At the time they were supporting my primary opponent, the late Tony Hope, who was the son of their neighbors in Toluca Lake, Bob and Dolores Hope. After I won the primary, Helen and Dick supported my candidacy, as they have ever since.

While I valued their support, I treasured the personal relationship we developed over the past 18 years even more.

Helen Gulbranson was born in 1908 in Hammond, Wisconsin, and moved to California in 1936. It was there that she met Dick. They married in 1940 and opened up the North Hollywood Glass and Paint Company. The two were married for 54 years when Dick died in 1994.

Helen's daughter-in-law, Colleen, remembers weekly parties at Helen's and Dick's Toluca Lake home. If they weren't throwing a political bash for such candidates as Ronald Reagan, there was always a wedding or other social event to celebrate.

Later, they moved to Camarillo, in my congressional district, where they continued to enjoy life to its fullest.

Helen was an avid golfer and golfed up until a few months ago. Just last Saturday, she took her great-grandson to the golf course so he could play. She also loved to play table games: Scrabble, bridge and the like.

If it weren't for the calendar, you would never guess Helen's age. She remained independent in her own home and was alert and fit right up to the end.

Helen is survived by her son and daughter-in-law, Richard and Colleen, two grandchildren and two great-grandchildren.

Mr. Speaker, I know my colleagues will join me in sending condolences to the Gulbranson family and by remembering a life well-lived.

Thursday, July 15, 2004

Ms. GINNY BROWN-WAITE of Florida. Mr. Speaker, I rise today to recognize and praise a decorated veteran who has bravely served his country and community. I am fortunate that the community he supports is Citrus County in my 5th Congressional District.

While doing his duty on the prestigious USS *Shuffley*, Mr. Byrnes' brave actions earned him the Congressional Medal of Honor, a Philippine Liberation Medal, a Bronze Star and many others.

Moe is retiring from his post as Commander of VFW Post 6146 in Citrus County, where he served for 13 years. He has been a member of the American Legion for a remarkable 52 years. Moe continues to lend his strength by helping veterans throughout Citrus County. For this, we honor him.

Mr. Speaker, it is my privilege to represent Moe Byrnes, and I am proud to praise him on the floor of this House.

REMEMBERING THE COLUMBIA-WRIGHTSVILLE BRIDGE BURNING

HON. JOSEPH R. PITTS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. PITTS. Mr. Speaker, over a century ago, on a hot summer day, an event occurred of national significance that by some eyewitness accounts, altered history, as we know it today. This act of war produced an obligation on the part of the Federal Government that to this day remains unpaid and largely forgotten.

The event I am referring to is known as the "Burning of the Columbia-Wrightsville Bridge." Occurring on June 28, 1863, just 72 hours before the Battle of Gettysburg, this catastrophic event did not just destroy an ordinary bridge—it destroyed an extraordinary bridge. Completed in 1834 at a cost of $128,726.50, it was the longest covered wooden bridge in the world, 40 feet wide with 27 piers, it spanned 5,620 feet across the Susquehanna River.

Ironically, this event and its impact on the region have lived in the shadow of the Battle of Gettysburg. Historians may debate whether or not this event had any impact on the Battle of Gettysburg. There is however, no denying the significant impact it had on preserving the loss of personal property throughout the region as evidenced by the following statement made by Colonel Jacob G. Frick, the man who gave the order to destroy the bridge. "The object to be kept in view, and which was paramount, was the prevention of the enemy from capturing the bridge, and thus frustrate them in their evident purpose to cross the Susquehanna at that point, get in the rear of Harrisburg, and between that place and Philadelphia destroy railroads and ravage the rich counties of Dauphin and Lancaster."

In order to fully understand the importance of this bridge and the town of Columbia, one must first examine conditions as they were in 1863 not as they may be today. First, how many of you are aware that the first place to be considered as the nation's capital was Columbia, Pennsylvania? It was an important travel artery for westward expansion, at times Conestoga Wagons would have to wait several days for their turn to cross the bridge. Railroads including the Philadelphia and Columbia, the Pennsylvania, and the Reading and Columbia all converged along the banks of the Susquehanna at Columbia.

These trains would either cross over the bridge to connect with the Susquehanna & Baltimore Railroad or transfer their cargo to packet boats that then traveled Westward via the Union Canal through the interior of Pennsylvania to Pittsburgh or where pulled by mules across the river via a towpath constructed on the side of the bridge to the Susquehanna and Tidewater Canal that connected Columbia with the Chesapeake Bay and beyond. Columbia being at the epicenter of this vital transportation network made it a logical destination for industries consisting of iron furnaces, rolling mills, saw mills, flour mills, and railroad machine shops that were supplying goods to a growing nation. Columbia's strategic position would have made it a fine prize indeed for any invading Southern army bent on disrupting vital communications and supply lines in the North.

Colonel Frick made this statement in a letter from 1892: "I was fully impressed with the belief at the time that this bridge was General Lee's objective point, and that it was to become the highway of the Confederate army to reach the centers which enabled the Northern army to maintain its position in the field by cutting off the supplies by capturing the eastern ports and plant the seat of war in Pennsylvania instead of Virginia."

In a letter received by Colonel Frick from Major Granville O. Haller, dated Seattle, April 28, 1892, says that he and Col. Thomas M. Anderson, commanding Fourteenth United States Infantry, had been discussing the burning of the bridge, Colonel Anderson wrote to Major Haller March 30, 1892, as follows:

> All theories apart, I should say that it would have been better to have burned twenty bridges than to have taken any chances. If the burning of the bridge stopped Gordon, it was as important as a battle.

On the 10th of April Major Haller sent a letter that was submitted to Colonel Frick in February 1892 from General John B. Gordon, admitting to Colonel Frick that without question his order to destroy the bridge stopped him and his troops from crossing, to Colonel Anderson. Colonel Anderson accepted it as conclusive evidence of Lee's intention, and thus confirmed in his opinion as to the importance of burning the bridge.

> Who other than God of battles would know until the afternoon of July 3, whether Meade or Lee would be victor?
>
> If Meade, then the enemy would be driven from our border. If Lee then the seat of war would have located itself between the Susquehanna and the Delaware and the Hudson. The Columbia Bridge would have become the Confederate highway to Lancaster, Philadelphia, and New York. In their onward march an army of veterans would have met with no fortified towns or cities; a practically unarmed and undisciplined militia, and a panic-stricken community in its front and a broken army sullenly following far in its rear; who can tell what awful results would have been had Lee been victorious at Gettysburg, yet who knew that he would not be until July 3, 1863?

Now for some particulars on the chain of events that led up to the burning and what transpired after that event.

On June 10, 1863 the Department of the Susquehanna was created under the control of General Coach to protect the area. Notices were put out for volunteers to serve. By June 24, 1863 it became apparent to General Coach a unit of approximately 2,500 veteran soldiers continued Eastbound to gain control of a bridge across the Susquehanna River between the towns of Columbia and Wrightsville.

On June 24, 1863, General Couch under special order #14, ordered Colonel Frick to proceed to Columbia and take charge of all bridges and fords on the line of the Susquehanna River in Lancaster County, and will make such dispositions as will effectively secure these crossings.

Colonel Frick: "My duty in the premises was plain. Gen. Couch plainly indicated my duty in his orders, wherein he said: 'When you find it necessary to withdraw your command from Wrightsville leave a proper number on the other side to destroy the bridge; keep it open as long as possible with prudence and exercise your own discretion in doing so.'"

It must be remembered as we look at this dramatic and critical event in retrospect, that as a result of this most necessary and important cutting of the available crossing of the river at the time of the invasion, a private corporation suffered a loss of property of the first magnitude. So evident was the effect of its destruction in the public mind, that we find the following statement in the Lancaster Examiner and Herald of July 8, 1863, but ten days following the event:

> The burning of the bridge which spanned the Susquehanna River at Columbia, has given rise to a rumor that its loss would have the effect of impairing the credit of the Columbia Bank. This now seems will not be the case, as the structure was destroyed by order of the military authorities, thus making the Government responsible for all loss. The following note from the Cashier of the Columbia Bank fully explains the circumstances.
>
> June 29, 1863. Dear Sir, The bridge at this place, owned by the Columbia Bank, was burned by the United States Military authorities to prevent the Rebels from crossing the Susquehanna River.—Signed Samuel Schock, Cashier.

It was not until 1868 that construction of a new bridge was started.

Today the only remnants of this piece of history are the stone piers still standing in the River and the story of the bridge and its destruction being told by Michael and Nora Stark, owners of the little known, but highly significant First National Bank Museum. If it were not for this museum, this important piece of American history would certainly be lost forever.

HONORING THE WILMA RUDOLPH STAMP

HON. MARSHA BLACKBURN

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mrs. BLACKBURN. Mr. Speaker, today I rise to honor the new Wilma Rudolph stamp that is now being issued by the U.S. Postal Service.

Wilma Rudolph was a native of Clarksville, Tennessee and an Olympic gold medallist. As a child, she battled polio; and she won. This was just one of her many "wins." At the 1960 Olympic games, she won three gold medals in track and field, a truly amazing feat—especially for one who'd been afflicted by polio. In

1983, she was inducted into the U.S. Olympic Hall of Fame.

I thank Mayor Don Trotter and Clarksville Postmaster Wayne Scott for submitting Wilma's name for consideration for this honor.

This stamp is a fitting reminder of her accomplishments, and I know that many Tennesseans will be purchasing her stamp when it is released in her old neighborhood of St. Bethlehem.

IN HONOR OF THE 100 MONTHS OF OUTSTANDING VOLUNTEER SERVICE FROM "FOR THE LOVE OF THE LAKE"

HON. PETE SESSIONS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. SESSIONS. Mr. Speaker, I rise to pay tribute to the "For the Love of the Lake" organization that has played a crucial role in the preservation of White Rock Lake in Dallas. "For the Love of the Lake" is a volunteer organization that leads the conservation efforts at White Rock Lake. I am proud to be associated with this organization for more than 8 years as an Adopt a Shore Leader, as it brings together many people from the community to come together for a common cause in keeping our "White Rock Lake as the crown jewel of Dallas."

I joined with the outpouring of community support this past Saturday, July 10, 2004, as we celebrated the last 100 months before starting our normal routine of cleaning up the lake. Thousands of concerned citizens have given up countless amounts of time in maintaining White Rock Lake as a sanctuary for a wide variety of wildlife and as an enjoyable place to take the family for a nice day in the outdoors.

I honor the noble efforts of the volunteers of "For the Love of the Lake," as it is a model example of what private citizens can do to achieve a greater public good in the preservation of one of our great resources in Dallas. Without "For the Love of the Lake," White Rock Lake would not be the enjoyable place for the community that it is today, and I honor the efforts of all of the volunteers who ensure the quality of the lake and shoreline.

I wish "For the Love of the Lake" continued success in maintaining our lake so that future residents of Dallas may enjoy the same beautiful preserve of White Rock Lake that we enjoy today.

IN HONOR AND REMEMBRANCE OF SERGEANT JOSEPH MARTIN GARMBACK, JR.

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. KUCINICH. Mr. Speaker, I rise today in honor and remembrance of United States Army Sergeant Joseph Martin Garmback, Jr., who courageously and selflessly answered the call to duty and made the ultimate sacrifice on behalf of our country.

Family, friends and service to others defined Sergeant Garmback's life. A gentle and kind soul, Sergeant Garmback lived his life with great joy, energy and compassion. He easily forged lasting friendships and was quick with a smile, kind word, or helping hand. He held a special place in his heart for our elderly—especially his grandmothers.

Aside from his tireless focus on work and service to country, Sergeant Garmback's family and friends were central to his life. He was a wonderful and cherished son, brother, brother-in-law, uncle, and grandson. He gained personal strength and faith from those who knew him best and loved him most—his mother, Marylon Garmback; father, Joseph Garmback, Sr.; his sisters, Susan, Arlene and Christine; his grandparents, Orville and Myrtle Guinn and the late Dorothy Videc and Frank Garmback; his brothers-in-law, Luke and Robert; his nieces Gabrielle, Jacqueline, Denise, and Madeline; his nephews Shane and Ethan; and his cherished friend, Christiane Blass.

Mr. Speaker and Colleagues, please join me in honor and remembrance of Sergeant Joseph Martin Garmback, Jr., whose honor, commitment and compassion for others will be remembered always. I offer my deepest condolences to the family and friends of Sergeant Garmback. The significant sacrifice, service, and bravery that characterized the life of Sergeant Joseph Martin Garmback, Jr. will forever be honored and remembered by our Cleveland community and our entire Nation.

The bonds of love created in life by Sergeant Garmback will live forever within the hearts of his family and friends, and he will never be forgotten.

CONGRATULATIONS TO COLONEL ROBERT B. KEYSER, ON THE OCCASION OF HIS RETIREMENT

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. BONNER. Mr. Speaker, it is with great pride and pleasure that I rise to pay tribute to Colonel Robert B. Keyser on the occasion of his retirement as Commander and District Engineer of the Army Corps of Engineers in Mobile, Alabama.

For the past three years, Colonel Keyser has served the Mobile District—comprised of an area ranging from Alabama, Mississippi, Florida, Tennessee, and Georgia to all of Central and South America—with an incomparable level of leadership and professionalism.

A native of Cornwall, New York, Colonel Keyser received his Bachelor of Science degree from the United States Military Academy at West Point, New York. He also received a Master's Degree in Engineering from the University of Florida and a Master's Degree in National Resource Strategy from the Industrial College of the Armed Forces. Colonel Keyser is registered with the State of Alabama as a professional engineer and was inducted into Tau Beta Pi, the national engineering honor society.

Following his commissioning as a second lieutenant in the United States Army in 1978, Colonel Keyser went on to graduate from the Air Command and Staff College, the Industrial College of the Armed Forces, and from Engineer Officer Basic and Advanced Courses. During his military career he served with the 588th Engineer Battalion at Fort Polk, Louisiana, the 2nd Engineer Battalion in Korea, the 94th Engineer Battalion in Germany and Southwest Asia, and the United States Army Total Personnel Command in Alexandria, Virginia. Prior to his assignment as Commander of the Mobile Engineer District, he served as Commander of the Corps of Engineers Philadelphia District.

Colonel Keyser has consistently drawn the recognition and praise of his colleagues and superior officers, and his outstanding performance as a member of the Army has resulted in his being awarded the Legion of Merit, the Meritorious Service Medal with five oak leaf clusters, the Army Commendation Medal, and the Army Achievement Medal.

From his first day as Commander of the Mobile District, Colonel Keyser has taken a strong interest in the concerns of the many thousands of men and women living in areas under his jurisdiction. Time and again, he has risen above the challenges presented to his office, whether they are as routine as a permit application for the construction of a seawall to something as difficult as the numerous natural disasters which have hit the Mobile District in recent years. He has instilled a tremendous work ethic in his subordinates and has gone out of his way to foster a strong working relationship with agencies and officials at local, state, and federal levels.

Along with his tremendous involvement in the activities and mission of the Mobile Engineer District of the Army Corps of Engineers, Colonel Keyser is also actively involved in his community. A resident of Fairhope, Alabama, he has played a lead role in the development and growth of a community youth soccer league, in which his children participate and he serves as a team coach.

Mr. Speaker, I ask my colleagues to join me today in recognizing Colonel Robert B. Keyser for his tremendous contributions to the citizens of the First Congressional District of Alabama, the Mobile Engineer District, and the entire Army Corps of Engineers. The experience and enthusiasm he has brought to his job and the professionalism he has displayed throughout his career are unquestioned and unparalleled.

He has indeed been a genuine asset both to his office and to the United States military, and I am proud and honored to call him my friend. I wish him and his family—his wife, Cathy, his sons, Daniel, Brian, and Michael, and his daughter, Amy—much happiness and success as they enter this new phase of their lives.

RECOGNIZING THE EFFORTS OF THE FBI AND TASK FORCE PERSONNEL AND RELATED AGENCIES IN THE BUFFALO INVESTIGATION OF THE LACKAWANNA SIX

HON. JACK QUINN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. QUINN. Mr. Speaker, I rise today to honor and recognize the outstanding efforts that a group of local heroes played in keeping America safe from the type of terrorist threats that are occurring here in the United States as well as overseas. While the public may not always hear about the close calls or the work done behind the scenes by our federal agents, it is with great pride that we publicly recognize the FBI agents and Task Force Personnel in Buffalo, New York for their work investigating and bringing to successful prosecution the terrorist cell known as the Lackawanna Six.

In the spring of 2001, six men from Lackawanna, NY were recruited to a terrorist training camp in Afghanistan. The camp was directed by al-Qaida and included speeches given personally by Osama bin Laden. The Six admitted to attending the al-Qaida training camp to learn terrorists' tactics.

With the work of the Buffalo FBI and Task Force Personnel, the Lackawanna Six were successfully prosecuted and sentenced, with each member receiving prison terms of between seven and ten years. While we will thankfully never know what harm they intended to bring to American innocents, we all feel safer knowing that they are behind bars. The contributions of these Buffalo agents were crucial in protecting Americans from the terrors like the ones experienced on September 11th.

As we have seen with the recent attacks in Bali and Madrid, terrorism is a new type of threat that makes securing the homeland a constant struggle. Our enemies in the war on terror are not always clear, and we rely on the men and women in the FBI and other Federal agencies as vital parts in the internal battle against future terror attacks. And while their specific contributions cannot always be officially recognized, I would also like to express my thanks for the professional contributions to the Lackawanna investigation of our intelligence agencies. I thank them all for their work protecting America.

Mr. Speaker, in closing I would like to say that these individuals, and many others throughout the world, are doing the hard and often unrecognized work that is required to keep our homeland safe. I also know that these fine agents and specialists serve as role models for others throughout the United States. Protecting our citizens and our freedoms is vitally important to our future security, and these men and women have proven with their actions that they are up to the task.

For their outstanding work throughout the investigation, I would like to individually recognize the following people:

Charlene M. Abbatoy, Gary Adams, Jackie Adams, Kevin R. Adams, Peter J. Ahearn, Timothy A. Aldrich, Glenn D. Barnes, Donald M. Becker, Jr., Paul Bellitto, Stanley J. Borgia, Jeanne Brennan, David M. HONORING BRUCE RODEWALD

HON. MARK STEVEN KIRK

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. KIRK. Mr. Speaker, over 33 years ago, Bruce Rodewald joined the Arlington Heights Fire Department located in my Congressional District. Thirteen years later he accepted the title of Fire Chief and for the last 20 years he has led the department with the highest distinction and honor.

Chief Rodewald comes from a long lineage of firefighters and community leaders. Both his father and grandfather served in the Arlington Heights Fire Department. His son also serves as a firefighter and paramedic in a neighboring town.

During his tenure as Fire Chief, the village of Arlington Heights' Class III Insurance Services Office (ISO) rating was upgraded to an ISO I rating. This is the highest ranking given for a municipality's fire protection services. Arlington Heights is one of only about 40 fire departments in the county to have received this outstanding distinction.

Mr. Rodewald's dedication to his department and the village of Arlington Heights is unequaled. He had originally planned on retiring from the department in 2001. However, after the September 11th attacks, Chief Rodewald decided to forgo his retirement and continue his service. For the last 3 years he has dedicated himself to the reorganization of the Arlington Heights Fire Department to reflect the heightened levels of awareness and preparedness necessary in the post 9/11 world.

In his years of service, Fire Chief Bruce Rodewald has led the Arlington Heights Fire Department with the professionalism and dedication required of a community leader. The Department he leaves behind is one of the most well-prepared and trained in the Nation. Chief Rodewald's tenure in the Arlington Heights Fire Department is worthy of the highest commendation. I wish him much happiness in retirement and offer him and his family my sincerest thanks and appreciation. Mr. Speaker, I hope my colleagues will join me in recognizing this extraordinary individual.

RECOGNIZING MICHAEL BARKEY

HON. RALPH REGULA

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. REGULA. Mr. Speaker, with great sorrow I rise today to recognize Michael Barkey, a constituent from the 16th District of Ohio, who gave his life fighting for our country. National Guard Sergeant Barkey died in an accident while serving with the 1484th Transportation Company in Iraq.

A football standout at Northwest High School in Canal Fulton Ohio, Barkey was known as a leader on and off the field. Family, friends, and coaches all recognized this young man's strong values and commitment to honor and integrity. He began his career with the National Guard to help pay his way through the University of Akron and was carrying on a long family tradition of military service.

This outstanding young man showed courage and a commitment to protect those who could not protect themselves. Without people of his moral fortitude, our Nation would not stand. Sgt. Barkey carried a medallion with the inscription "With God all things are possible." We must trust that the dedication of men and women like Sergeant Barkey will create a safer America.

Sergeant Barkey and his family will be forever in our hearts and prayers. May we keep them in mind as they struggle through this difficult period of mourning.

U.S.-AUSTRALIA FREE TRADE AGREEMENT

SPEECH OF

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. WAXMAN. Mr. Speaker, domestic healthcare policy should not be decided in trade agreements. That is why I rise in opposition to the U.S.-Australia Free Trade Agreement.

I strongly support the opportunity for increased trade with Australia, our closest ally and strongest economic partner in the Pacific rim. I support the agreement's strong protections for digital copyright, the elimination of tariffs on entertainment and media products, and improved market access for U.S. films and television via cable, satellite, and the Internet. I am deeply concerned, however, that this agreement also involves a deliberate effort to drive up drug prices in Australia and set precedents that could be used to undermine efforts to lower drugs prices here in the United States.

It is wrong for us to interfere with another country's domestic health policy, particularly when it comes to the affordability of medicine which is an equally sensitive issue here in the United States. I staunchly oppose provisions in this agreement that make it easier for pharmaceutical companies to challenge decisions made by the Australian Pharmaceutical Benefits Scheme, or PBS, a formulary system used by the Australian government to negotiate prices on behalf of its citizens and keep down drug costs. I am also concerned that the Bush Administration has set an irresponsible precedent that could bring scrutiny upon our own federally sponsored health programs like Medicare and the VA formulary system, which we rely upon to reduce drug prices for seniors, veterans, and the military.

This is special interest policymaking at its worst. The Bush Administration is letting the pharmaceutical industry use trade agreements to manipulate the drug laws of the United States and other countries in ways that the industry could not otherwise achieve.

For example, the Australia agreement codifies provisions of U.S. law that prohibit reimportation of medicines that are produced in the United States and sold at a discount in other countries. I strongly oppose the inclusion of this controversial issue in a trade agreement when it is the subject of ongoing Congressional debate. Bills currently under consideration in the Senate and already passed by the House of Representatives will now be in technical violation of our trade obligations. Since the provision will have no actual impact because Australian law already prohibits wholesalers and pharmacists from exporting low-cost drugs procured through the PBS system, it appears that its sole purpose is to serve as a basis for the inclusion of similar provisions in future agreements.

Unfortunately, it is not just the Australia free trade agreement where these back door assaults on domestic healthcare programs are taking place. The U.S. has also negotiated trade agreements with Central America, Morocco, and Thailand that would significantly impede and delay access to cheaper generic drugs in these developing countries where the availability of quality healthcare is already limited and few can afford medicine. All of these efforts fit into the pharmaceutical industry's agenda to raise drug prices and profits around the world, even at the expense of saving lives.

Because of unique dynamics between the United States and Australia the net effects of this agreement on health programs may be negligible. But that doesn't mean they aren't bad policy and bad precedents. I am voting no on this agreement, which I would have liked to support, in order to register my strong protest against the Bush Administration's work with the pharmaceutical industry on provisions that sour an otherwise promising trade opportunity.

International trade has the potential to raise the standard of living and quality of life for millions of people around the world. To uphold that vision, we must work for future trade negotiations that ensure that our citizens and our trading partners have the opportunity to experience the full benefits of free and fair trade.

DEPLORING MISUSE OF INTERNATIONAL COURT OF JUSTICE BY UNITED NATIONS GENERAL ASSEMBLY FOR POLITICAL PURPOSE

SPEECH OF

HON. CAROLYN McCARTHY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 13, 2004

Mrs. MCCARTHY of New York. Mr. Speaker, I rise today on behalf of the men and women of the 4th Congressional District of New York in support of this Resolution condemning the July 9th advisory opinion from the International Court of Justice (ICJ), which denounces Israel's security fence.

I have long been an ardent and proud supporter of Israel. In recent years, the volatile and unstable history that has underscored Israel's history has become even more bloody and pronounced. We can understand as Americans that Israel has a responsibility to protect its citizens from the grave threat posed against the country from those terrorists that seek to harm it.

The security fence has drastically enhanced Israel's ability to protect itself from terrorists by significantly limiting the ability of terrorists to access Israeli cities. For example, since its construction, suicide bombings along the northern West Bank have decreased by 90 percent. Contention and criticism to the wall lies with the proposed plans to have the wall run through the area of northern Jerusalem. Prior to the ICJ's opinion, efforts were made to change certain aspects of the designated route to limit the impact it could have on localities near and around the wall's course.

Local Palestinian communities, those most directly affected by the wall's construction, have worked with Israel to redirect the wall in certain areas to lessen the impact. The wall's construction is condemned by the Court of Justice because of claims that it violates certain boundary laws. However, the wall is a protection for both Israelis and Palestinians. Their joint effort has not only lessened any undesirable impact for both parties, but proven the possibility for compromise between both areas.

I have long felt that America should not attempt to dictate decisions for Israel. With this resolution, we are simply showing that we are supporting Israel's step toward safeguarding its people. We as Americans must sympathize with the fact that the Israelis are attempting to confront terrorism by erecting a wall to stand as its physical and metaphorical barrier. In condemning the opinion of the International Court of Justice and supporting this resolution, we as a body align ourselves with the best interests of the Israeli people, progress and peace in the Middle East, and in the best interests of all Americans who wish to one day see calm in a section of the world so long divided.

Thank you.

AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2005

SPEECH OF

HON. MICHAEL N. CASTLE

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

Monday, July 12, 2004

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 4766) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies for the fiscal year ending September 30, 2005, and for other purposes:

Mr. CASTLE. Mr. Chairman, I rise today to commend Chairman BONILLA and Ranking Member KAPTUR for including a strong commitment of funding in this bill for the implementation of the Low Path Avian Influenza program at the Animal and Plant Health Inspection Service (APHIS). This $23 million in funding will allow APHIS to promptly address the repeated and diverse outbreaks of avian influenza that have occurred in several states including my state of Delaware.

This additional funding is necessary to respond to the many needs confronting this vital industry including: Expanded monitoring of avian influenza, increased surveillance of the live-bird markets and distributors, advanced research on and implementation of fast and economical tests, and confirmed identification and tracking of avian influenza sources.

The presence of avian influenza presents an immediate threat to the U.S. poultry industry. It constitutes a significant danger to the national economy and potential serious burden on interstate and foreign commerce.

As you know, in early February, two flocks of chickens in Delaware were confirmed as having H7N2 low pathogenic avian influenza, and roughly 83,000 birds were promptly depopulated. Isolated avian influenza infections were then identified among chickens in both New Jersey and Pennsylvania. Later in the month, officials determined that a flock of 7,000 broilers in Southeast portion of Chairman BONILLA's home state of Texas tested positive for a highly pathogenic H5N2 avian influenza. The most recent case came when a flock of chickens in Pocomoke City, Maryland, tested positive for the H7 avian flu, which led to more than 300,000 birds and chicks being depopulated on three farms. The infections discovered this year follow past outbreaks of low pathogen flu in Virginia, Rhode Island and Connecticut.

The USDA response to the outbreaks occurring this year has been prompt and the assistance provided to the state Departments of Agriculture and the poultry industry has been instrumental in helping to identify, contain and eradicate the avian influenza outbreak—but there is still much that needs to be done. Even before the recent infections, the Administration recognized the expanding need to implement a comprehensive strategy to battle avian influenza by including $12.7 million in funding in the APHIS FY'05 budget request for the Low Pathogen Avian Influenza (LPAI) program and recently transferring $13.7 million in FY'04 funds into the program.

This builds on the close to $1 million provided in FY'04 that is scheduled for implementation at the end of this month. I believe it is critical that APHIS receives the proper amount of funding to maximize the resources at its disposal to strongly address this serious problem. Low Path AI is capable of mutating into highly pathogenic forms. The occurrence of HPAI in Texas led Secretary Veneman to declare an Extraordinary Emergency earlier this month. A healthy and vital poultry industry is a major contributor to the recovering economy of this country, and the finding of AI, particularly the highly destructive High Path AI, represents a major threat in this regard.

Moreover, the multi-billion dollar poultry export industry is put at risk by the avian flu discoveries. Many of our trading partners continue to impose import bans on U.S. poultry products. While some of these importers have set restrictions on products from specified states, others have taken the more drastic step of banning importation of poultry products from our entire country. We need to give our trade negotiators the necessary support in the form of these AI surveillance and control efforts, to allow them to negotiate with our foreign trading partners and convince them to reopen these markets.

Again, I commend Chairman BONILLA and Ranking Member KAPTUR for providing APHIS with the critical resources it needs to address this threat to our poultry industry.

PROJECT BIOSHIELD ACT OF 2004

SPEECH OF

HON. JEFF FLAKE

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. FLAKE. Mr. Speaker, today I voted against S. 15, legislation to authorize permanent, indefinite funding authority intended to aid the procurement of certain biomedical countermeasures (drugs, devices, and biological products to treat, identify, and prevent the public health consequences of terrorism).

This legislation is another example of the federal government attempting to throw money at a project that is already underway. The Departments of Health and Human Services already administer the Strategic National Stockpile, which contains drugs, diagnostic devices, vaccines, and other biological products to combat the public health consequences of a terrorist attack or other public health emergencies. The Department of Homeland Security currently provides the financing for those efforts, which include the procurement of a new smallpox vaccine and stockpiling of that vaccine and older versions of the vaccine. About $400 million was appropriated in 2003 for stockpiling activities.

S. 15 takes the unprecedented step of writing a blank check to the Administration (both this Administration and future ones) to augment the Strategic National Stockpile. While the Congressional Budget Office estimates that S. 15 will cost the taxpayers about $5.6 billion over the 2004–2013 period, that is only an estimate and the cost could be significantly higher.

Experts have expressed concerns with the structure of Project BioShield, saying that it may be focusing on the wrong drugs, with much of the spending going to vaccines and drugs that are already fairly close to production. Project BioShield is designed to provide incentives to pharmaceutical companies to develop new drugs and vaccines, but will it actually achieve its intended results? BioShield would allow a company to spend several million dollars of its own money on developing a new drug or vaccine, only to see the government possibly award the contract for producing it to another company. It also excludes products that might have a commercial market outside the government bioterror stockpile. Concerns have also been raised that BioShield does not deal with some important issues like protecting companies from liability if products developed under government contract have side effects. This bill does not appear to recognize the way the free market functions.

On a larger scale, public-health experts also contend that the focus on bioterrorism's threat to the public health is misguided, especially when considering the lessons of history. The number of deaths attributable to willfully produced epidemics, ever, pales by comparison with the toll taken by natural ones. In 1918–19, an influenza pandemic killed more people in just 16 months than World War I had killed in six years. Smallpox killed 10 times as many people in the first half of the 20th century, as did both world wars combined. Even today, malaria kills 2 million people each year; so does tuberculosis. By contrast, deliberate epidemics in the past 100 years, mostly through the actions of armies at war, have been responsible for a few thousand deaths.

In short, Mr. Speaker, this legislation signifies an expenditure of extraordinary proportions that may be little more than a public relations campaign designed to reassure U.S. citizens that the government cares about bioterrorism. I worry about the program's effectiveness when it so blatantly ignores the way the market works, and I am not comfortable supporting such an expensive bill when too many questions about it have gone unanswered.

She dedicates herself to improving the lives of others and I thank her for this on behalf of the people of not only the 4th Congressional District but the people of Long Island who benefit from her hard work and dedication.

U.S.-AUSTRALIA FREE TRADE AGREEMENT

SPEECH OF

HON. MARK UDALL

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. UDALL of Colorado. Mr. Speaker, I rise in qualified support of the U.S.-Australia Free Trade agreement.

I support the trade agreement because it will open up markets for American goods and services. Our two countries already have a strong trade relationship—Australia is the ninth largest goods export market for the United States, with total trade close to $28 billion last year. The agreement will only strengthen this relationship further.

Colorado, in particular, stands to gain from the agreement. Australia imported $113 million of goods and services from Colorado last year and is the 12th largest foreign market for Colorado. This agreement will only increase opportunities for Colorado businesses to find new markets for their goods and services.

I support the bill because under the trade agreement, nearly all U.S. exports of manufactured goods will immediately become duty-free. Since manufactured goods currently account for 93% of total U.S. goods exports to Australia, this is significant. In fact, estimates are that the elimination of these tariffs could result in $2 billion per year in increased exports for our U.S. manufacturers.

I am disappointed in provisions in the agreement on beef, but am encouraged that duties are gradually phased out. I am also disappointed in the agreement's provisions on wheat. I know that wheat growers are concerned about potential trade distortions and had urged negotiators to seek reform of the state trading enterprise, the Australian Wheat Board (AWB). Though the agreement doesn't reform the AWB, Australia did agree to work with the U.S. in the WTO to eliminate restrictions on the right of private entities to export agricultural products. This is a step in the right direction.

I am concerned about potential precedents that this trade agreement could create. For instance, the trade agreement requires both countries to enforce their domestic laws on labor and environment. This is acceptable in this treaty, since Australia boasts strong labor and environment laws and good enforcement mechanisms. But this approach isn't acceptable in all agreements. I am disappointed that the Administration didn't apply the U.S.-Jordan agreement model to this agreement by including labor and environment standards within the text of the treaty itself.

I am concerned about the potential precedent of the Administration meddling excessively in the internal affairs of a trading partner. With regard to this treaty, the USTR initially sought substantial changes in Australia's drug-pricing program. Though USTR was not completely successful, the agreement does give U.S. drug companies more say in what drugs are included under Australia's universal drug coverage program. While market access for U.S. goods is important, we shouldn't be in the business of bullying the world and potentially undermining a country's ability to provide prescription drugs to its citizens.

Precedent is also a concern with regard to the agreement's incorporation of the U.S. law that protects the right of drug companies to prevent importation of products on which they own patents. Although this is of no practical concern in this agreement given Australia's own laws prohibiting the export of its subsidized drugs, I hope the Administration doesn't plan to use this trade agreement to reinforce its opposition to imported drugs. I don't understand why the Administration included the patent law provision, and I hope we won't see this in future agreements.

I don't believe that the concerns I have listed outweigh the potential good of the bill, so I will vote in support of it today. It is not perfect, but I believe it represents an agreement that is essentially free and fair. Expanded trade is important to this country and the world, but it will only be beneficial to a broad range of people in our nation and in other nations if it is carefully shaped to include basic standards and protect workers' rights and the environment.

CELEBRATING THE COMPLETED RENOVATION OF THE MONROE EVENING NEWS BUILDING

HON. JOHN D. DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. DINGELL. Mr. Speaker, I rise today to acknowledge and celebrate The Monroe Evening News and its approximately 150 employees, who also own the newspaper, on the successful completion of a year-long renovation of their building.

Serving the people of the Monroe County region for 179 years, this newspaper has advanced its values of integrity, community, and growth while remaining one of the few employee-owned newspapers in the country. The Evening News has been recognized for more than its longevity, winning several prestigious awards including the Annual Award for Communications Excellence in 1996.

The Monroe Evening News has been published from its current location since 1910. Demonstrating an ongoing need to best serve their readers, this renovation, costing $3,000,000, will be the third renovation to this building. The renovation has reconfigured the entire interior of the building; creating an enhanced main entrance and expanding the customer-service area. While the interior has an updated, contemporary look, the exterior and additions will maintain the historic appearance of the long-standing building.

As The Monroe Evening News opens its newly overhauled offices, I would ask that my colleagues rise and join with me in congratulating a thriving, employee-owned daily newspaper on a successful, fruitful renovation. As The Evening News approaches one hundred years in the same building, let us wish them the best of luck for the next hundred years and beyond.

I ask for unanimous consent to include in the RECORD these remarks from celebrated political columnist Jack Germond, who started his legendary career at The Monroe Evening News:

> I am privileged to join John Dingell in congratulating The Evening News, a newspaper that taught me many of the most valuable lessons of journalism when I worked there as a young reporter from 1951 through 1953. The newspaper had standards that were a model, and the publisher, JS Gray, was impervious to pressure. When you wrote a story that was accurate and fair it went into the paper no matter who complained how loudly. There were no sacred cows, not always the case everywhere. Looking back on more than 50 years in the business, I cherish the memories of my time in Monroe.

IN MEMORY OF VICTOR G. REUTHER, JANUARY 1, 1912–JUNE 3, 2004

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. KUCINICH. Mr. Speaker, Victor G. Reuther was born January 1, 1912, in Wheeling, West Virginia, where his father, Valentine, was well known as President of the Ohio Valley Trades and Labor Assembly and as an active churchman. Victor was educated in the secondary schools of that state, and along with his brothers, by their father as well. The strong religious influence of Victor's early family life is revealed throughout his life in his continuing interest and activity in relating core ethical values to the broad field of social and economic life. Victor studied economics and sociology at the West Virginia University and at Wayne State University. Years later he was awarded the degree of Honorary Doctor of Laws by both of those universities.

In 1932 Victor joined his brothers Walter and Roy in Detroit for work in the auto industry. Between 1932 and 1935, Victor and his brother Walter, both unemployed, used their meager savings to travel and work their way around the world. They traveled by bicycle through Europe and Asia, lodging with farm families and at hostels, and visited relatives in Germany. They witnessed the beginning of the Nazi government in Germany and the growth of Stalin's despotism in Soviet Russia, where they worked at the Gorky auto factory. Those observations and firsthand experience led them to become strong, pro-democratic leaders for freedom and social justice. On return to the United States, Victor went to work on the assembly line of the Kelsey-Hayes Wheel Company in Detroit where he plunged into the struggle to organize the automobile workers in Michigan and Indiana.

In a break from organizational drives, Victor Reuther and Sophie Goodlavich were married on July 17, 1936, on the campus of the Brookwood Labor College—a rich marriage of shared labor, love, family, friends, and a common commitment to social justice of 60 years.

A member of UAW Local 174, Victor was a strike leader during UAW campaigns in Flint and Detroit. He first came to public attention through his role in the sit-down strike in the winter of 1936–1937 against General Motors in Flint where his voice from the sound truck rallied the strikers and the women who supported them. UAW success in that strike played a key role in establishing the right of workers to bargain with auto industry employers. From that time forward he was closely identified with the dynamic growth of industrial unionism, not only in the automobile industry, but throughout America's basic industries organized by the CIO.

With the onset of World War II, Victor served as Assistant Director of the UAW–CIO War Policy Division, a department created by the UAW–CIO to facilitate speedy and orderly conversion and mobilization of the nation's urgent defense production. In the spring of 1946, Victor Reuther was appointed Director of Education for the UAW. In this role he led a fundamental approach in the development and consolidation of pro-democratic forces in the UAW. In the years following World War II, Victor assisted in the location of trade unionists and social democrats throughout Europe who had escaped Nazi persecution, bringing them to the attention of Allied occupation forces in the search for leadership in the reestablishment of civil democratic government. He also represented the CIO on the Trade Union Advisory Committee in the conduct of the European Recovery Program—the Marshall Plan.

On May 24, 1949, in an attack identical to that against his brother Walter, Victor was shot by an unknown assailant while reading the evening paper in his living room. He suffered very serious injuries including the loss of his right eye.

Victor Reuther served as European Representative of the CIO, with headquarters in Paris, France, from January 1951 through 1953. His work led to a greatly expanded program of assistance to the free European labor movement. Representing the CIO, he implemented the program of trade union aid for the democratic European unions. Awards bestowed by the governments of Germany and Sweden, noted below, reflect the multiple contributions of Victor Reuther in international leadership and accomplishments in freedom, democracy, and social justice.

With their return to the United States in 1954, the Victor Reuther family made their home in Washington, DC—the family home for the next 50 years. That home not only served the family, but it served as a most hospitable refuge for friends, the extended family, trade union colleagues, social activists and international visitors for all those years.

On his return from Europe, Victor served as Assistant to the President of the National CIO and Director of the CIO's Department for International Affairs. Following the AFL–CIO merger, he served as Administrative Assistant to the President of the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America (UAW), and as Director, UAW Department of International Affairs. His contributions to international social development programs extended to Asia, Africa, and Latin America as well as in the United States. He worked intensively in India, South Vietnam, Israel and the Mediterranean countries for the purpose of initiating programs designed to deal with food deficits, the need for democratic leadership and skilled manpower requirements. One of these undertakings was the joint effort of the UAW with the Peace Corps under which the union participated in a mechanical training program in the African Republics of Guinea and Gambia and in Bolivia.

Victor Reuther retired from his formal responsibilities in the UAW in 1972, but he always remained a committed member of that union he loved. Throughout the following 28 years he continued to direct his heart, his mind and his voice in advocacy of democratic trade unionism, social justice, and understanding among all people. In his initial years of retirement he researched and wrote The Brothers Reuther, and the Story of the UAW, A Memoir, a history of family and of the UAW.

In the early 1980s, with the strong encouragement of his wife, Sophie, Victor returned attention to ongoing trade union issues. Joining with other activists he gave active support to the Association for Union Democracy and to Teamsters for a Democratic Union, which won major changes in unions. He maintained close fraternal contact with the Canadian Auto Workers after they separated from the UAW, and he supported and became an active leader of the New Directions Movement within the UAW. In those endeavors, Victor Reuther drew on his passionate advocacy for the role of rank and file membership in democratic trade unionism. He understood well the pressures on trade union leadership and the critical role of the rank and file throughout organized labor.

Victor Reuther was active in the political life of the United States in many ways complementary to his goals in labor. He served in presidential appointments, in leadership in a wide array of political and social justice organizations, including support of the full scope of civil rights as we have come to understand those goals in social justice.

In the mid-1990s Victor again undertook a task in personal and historical research to write a second book, Commitment and Betrayal, Foreigners at the Gorky Auto Works, the story of the tragedy that befell foreign workers of Gorky under the Stalinist Soviet Union, English language publication pending.

In his 90th year, Victor chose to move to a retirement residence in Georgetown, a move that launched a reawakening of his well honed leadership skills. Responding to fellow residents, Victor agreed to lead a weekly discussion of current international affairs, and for nearly 2 years, that discussion group of 20 to 30 octogenarians deliberated every Thursday afternoon on the core international issues of the day.

In his 92nd year, on March 30, 2004, Victor Reuther accepted the "Lifetime Achievement Award" of Progressive Maryland before a cheering audience of 600 political activists. In his acceptance remarks—which became his last public remarks—Victor complimented the gathered members of Progressive Maryland on their commitment to the same goals in support of working people he advocated throughout his life. He then concluded with a charge to that audience of 600 political activists: "Don't forget your love of and commitment to family." That perspective brings Victor and the Reuther family full circle to the nurturing environment of their parents, Valentine and Anna Reuther, a blessing for which we are eternally grateful.

Victor G. Reuther died on June 3, 2004. He was pre-deceased by his wife, Sophie, and his daughter Carole L. Hill. He is survived by his sister, Christine Richey, his sons Eric V. Reuther and John S. Reuther, and seven grandchildren and two great-grandchildren.

DEPARTMENTS OF COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES APPROPRIATIONS ACT, 2005

SPEECH OF

HON. KENNY C. HULSHOF

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 7, 2004

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 4754) making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 2005, and for other purposes:

Mr. HULSHOF. Mr. Chairman, This great country of ours was built on the, backs of willing and abled entrepreneurs who, with a little faith and help, started their own businesses in hopes of achieving the American dream of prosperity and success. It is this desire to own a business that is the backbone of our economy. With small businesses representing more than 99 percent of all employers and creating roughly 75 percent of the net new jobs, it is quite clear to see their importance in the economy.

As such, I rise today in support of the amendment offered by the gentleman from Illinois to maintain level funding for the 7(a) loan program. One of the most successful tools in the Small Business Administration's arsenal, the 7(a) loan program helps qualified businesses acquire financing when they may otherwise be prevented from obtaining a loan through the normal financial channels.

During the 2002–2003 fiscal years, the 9th district of Missouri, which I have the distinct honor of representing, received $37 million in 7(a) loans. This translates into the creation and/or retention of more than 1,100 jobs in the small business community. For rural districts, like mine, this incentive is essential.

One example of this is Moresource, Inc. located in Columbia, MO, which is in my district and where I currently live with my family. In 1994, Kat Cunningham had an idea to create a business that would focus solely on the management of employee administrative matters, such as payroll, tax compliance, health benefits and other human resources issues. Her thought was that by handling these cumbersome and time consuming tasks, small businesses can focus on increasing productivity and their core business objective.

With the aid of a sizeable Small Business Administration 7(a) loan, Kat turned this concept into a reality and created Moresource, Inc. 10 years later, the company has grown from 5 internal employees and 200 leased employees to 7 internal and more than 1,500 leased employees. Kat will tell you that without the assistance of a 7(a) loan, it is questionable whether Moresource would have had the opportunity to get off the ground.

Stephanie Perkins also credits the 7(a) loan program with making her dreams come true. Because of challenges Stephanie faced in obtaining a loan through traditional lenders, the 7(a) loan program provided her with the capital she needed to start up her own business. Stephanie opened the doors to Brown Station Early Learning Center in the fall of 2000 with help from the 7(a) loan program. Since that time, she has almost doubled the employees in her daycare center, which provides Columbia working parents with the peace of mind of knowing that their children are in safe and caring hands.

These are just two examples of how critical the 7(a) loan program is to Missouri businesses. It also illustrates the hand-up it can provide to support and encourage women who are willing to take risks and start a business venture. In the state of Missouri, we have an estimated, according to the Center for Women's Business Research, 129,865 privately held companies in which women hold the majority of ownership, accounting for 30.8 percent of all privately held firms in the state. The success of these outstanding women has contributed to the employment of 241,992 Missourians and generated $26 billion in sales.

The 7(a) loan program is crucial to developing and sustaining small businesses in America. It is also small business entrepreneurs that we have to thank for the 1.5 million jobs that have been created in the past 10 months. Furthermore, these enterprising and hard-working individuals have brought us an unemployment rate that is lower than the decade averages of the 1970s, 1980s and 1990s. For these and many other reasons, I urge all my colleagues to support small business and economic growth with a vote for the Manzullo amendment.

HONORING EUGENE DIBBLE'S 75TH BIRTHDAY

HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. DAVIS of Illinois. Mr. Speaker I rise today to pay tribute to Mr. Eugene Dibble as he prepares to celebrate his 75th birthday on July 22, 2004. Mr. Dibble also known as "Big Gene" has been a leader and a pioneer in many areas since moving to the City of Chicago. He was one of the first African American stockbrokers in Chicago. In addition, Mr. Dibble demonstrated his business and family acumen by owning five businesses at one time and having five children who worked in those businesses.

In addition, to being a businessman Mr. Dibble was elected and served as a Trustee for the Chicago Sanitary District. Among Mr. Dibble's many talents has been his keen focus and vision on homeland security. Seven years ago, Mr. Dibble came to my office with a proposal for an Emergency Response Center that would be available in the event of a terrorist attack in downtown Chicago. Perhaps Mr. Dibble's volunteerism for the Red Cross, Salvation Army and emergency response teams in Chicago and Markham, Illinois prepared him for his leading role in being prepared for disasters.

Among Mr. Dibble's greatest accomplishments is that of a family man. Mr. Dibble has been married to his wife Jeanette for 48 years. Also, they are the proud grandparents of six grandkids and counting.

I ask that my colleagues join with me in commending and congratulating Gene and his family as they celebrate 75 years of his life. Gene may God keep you and bless you with many happy healthy years to come.

Thank you.

FREEDOM FOR JULIO CÉSAR GÁLVEZ RODRIGUEZ

HON. LINCOLN DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I rise today to speak about Julio César Gálvez Rodriguez, a prisoner of conscience in totalitarian Cuba.

Mr. Gálvez Rodriguez is an independent journalist in a country oppressed by a regime that mandates official propaganda. According to Reporters Without Borders, Mr. Gálvez Rodriguez was fired from his job in the "official media" because of his ties with the United Cuba Workers Council, an organization that advocates for workers rights in totalitarian Cuba. Because of his first hand experience with the tyrant's propaganda, he has worked to reveal the truth about the nightmare that is the Castro regime. Mr. Gálvez Rodriguez has contributed to numerous publications including, El Nuevo Herald, Carta de Cuba and Cuba Nuestra.

Unfortunately, being an independent journalist in a totalitarian society is a hazardous profession. Because the stark, poverty stricken, reality of Cuba does not agree with the dictator's propaganda, independent journalists are regularly harassed, threatened, and imprisoned. On March 19, 2003, as part of the tyrant's condemnable crackdown on peaceful pro-democracy activists, Mr. Gálvez Rodriguez was arrested by the dictator's thugs.

In a sham trial, Mr. Gálvez Rodriguez was accused of "subversive" articles intended to "undermine and internally destroy the Revolution." He was subsequently "sentenced" to 15 years in the inhuman gulag for his "crime" of truth. It is repugnant to the values of the civilized world that truth tellers are locked in heinous gulags on the whim of totalitarian tyrants.

Amnesty International reports that Mr. Gálvez Rodriguez is suffering from high blood pressure, renal and intestinal colic and cervical arthritis. Let us be very clear, he is deteriorating under abhorrent conditions because he believes in freedom for the Cuban people.

Mr. Speaker, it is repulsive to the ideal of freedom that independent journalists are locked in totalitarian gulags 90 miles from our shore. My Colleagues, we must demand the immediate and unconditional freedom of Julio César Gálvez Rodriguez and every prisoner of conscience in totalitarian Cuba.

PROJECT BIOSHIELD ACT OF 2004

SPEECH OF

HON. MIKE ROGERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. ROGERS of Michigan. Mr. Speaker, I rise in strong support of the House-Senate negotiated substitute amendment and final passage of the Project BioShield Act of 2004. This legislation will greatly strengthen our nation's capabilities to protect our military, first responders and U.S. citizens from the threat of biological, chemical, radiological and nuclear weapons of mass destruction.

I am extremely pleased that the final language that recently passed the Senate incorporates the expanded definition of eligible countermeasures for which BioShield funds can be designated. This expanded definition would permit BioShield funding and procurement for certain FDA-licensed vaccines and other medical countermeasures in addition to experimental products for inclusion in the Strategic National Stockpile.

It is important to note that while BioShield was intended to stimulate and accelerate the development of new countermeasures, existing safe and effective FDA-licensed vaccines and medicines may have new unlicensed applications that may also contribute to our nation's preparedness. These new product applications must be tested and licensed by the FDA and made available for the stockpile. For example, the only FDA-licensed anthrax vaccine is manufactured in my home state by BioPort Corporation. BioThrax™ vaccine is licensed for pre-exposure vaccination of the military and other civilians at risk of exposure to anthrax. Though it is recommended by the CDC for post-exposure use in conjunction with antibiotics for protecting those who may have been exposed to this deadly biological agent, it is not yet licensed for this use.

These existing products, like BioThrax™ vaccine, will provide our nation with an insurance policy to strengthen its immediate bioterrorism preparedness capability, while supplementing other experimental vaccines and medicines currently in development, though many years away from FDA-approval.

I am especially pleased that during the Senate debate, the Senate managers of the BioShield legislation also clarified their understanding of discussions with the Administration regarding the use of BioShield funds under new section 319F–2(c)(9) of the Public Health Service Act. The bill's managers agreed that BioShield allows for the future procurement of vaccines already being purchased under government contract at the time of enactment of BioShield. Further, clarification in the Senate allows for their procurement under new or existing contracts. Under this interpretation, the

President and BioShield procuring agencies will have the flexibility to use BioShield funds for the purchase of additional doses of FDA-licensed anthrax vaccine for inclusion in the stockpile for post-exposure use with antibiotics. This would be in addition to those previously contracted doses currently funded from discretionary appropriations and available to the Departments of Defense, Homeland Security and Health and Human Services.

The consensus panel published in the Journal of the American Medical Association and the CDC Advisory Committee on Immunization Practices have already recommended the FDA-licensed anthrax vaccine for post-exposure use in combination with antibiotics. The Institute of Medicine of the National Academy of Sciences agreed with the FDA that the FDA-licensed anthrax vaccine is safe and effective for the prevention of anthrax in those at-risk of exposure to anthrax, including against inhalation anthrax. Since 1998, more than 1.1 million military and civilian personnel have been safely vaccinated with more than 4 million doses of the vaccine. Indeed, these statistics also include both the pre- and post-exposure vaccinations of many of our own Congressional colleagues, staff members and decontamination workers before and following the October 2001 anthrax attacks.

Mr. Speaker, I urge the Departments of Homeland Security and Health and Human Services to consider the immediate procurement of millions of additional doses of the FDA-licensed anthrax vaccine, as well as additional doses of antibiotics for the Strategic National Stockpile. These doses are essential to improving our capability to respond to another potential anthrax attack. This is the same method used by these agencies for the stockpiling of both licensed and experimental smallpox vaccines.

Mr. Speaker, I also urge my colleagues to follow the lead of the Senate by unanimously clearing this legislation for signature by the President. This will send a strong message to the world that our nation is serious about protecting our citizens and first responders from deadly terrorist threats with tested and proven medical countermeasures.

Mr. NORWOOD. Mr. Speaker, Martha Phillips is well respected in Georgia and throughout the country as an unflagging supporter of organized dentistry. Her constant goal during her distinguished career as executive director of the Georgia Dental Association is ensuring dentistry receives all the respect and consideration it is due.

Ms. Phillips received the 1996 Award of Merit by fellows of the American College of Dentistry because of her commitment to the profession, her invaluable contribution to the growth and activity of the GDA, her esteem and reputation as a state association executive, her influence and success as dentistry's lobbyist and representative in state legislative activities and the admiration and respect she has enjoyed in her work in the American Dental Association. HON. HILDA L. SOLIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Ms. SOLIS. Mr. Speaker, I rise today to honor Ms. Lillian Keil, for her service to the Army Air Corps and to our country. Ms. Keil is the most decorated U.S. military woman of World War II and the Korean war.

During her service, Ms. Keil flew 250 air evacuation missions and 25 transatlantic flights. She was involved in many missions including those in Normandy during the D-day invasions, where she helped evacuate wounded soldiers from the front lines. Ms. Keil was also part of a team that followed General Patton's army across France with a cargo of critical supplies. After World War II, Ms. Keil returned to her previous job as a flight attendant for United Airlines.

Ms. Keil returned to active duty in 1950 to serve in the Korean war as one of only 30 flight nurses, and was involved in 175 missions. Flying with First Marine Air Wing and the Kyushi Gypsies to the Chosin Reservoir, she tended to marines who had been severely wounded.

Ms. Keil is an active member of the West Covina Veterans of Foreign Wars Post 8620 and the American Legion Post 790. She has been honored numerous times in her hometown of Covina Hills, California.

I am honored to recognize such a shining example of valor and strength.

HONORING CHARLES F. MONEYPENNY

HON. ROBERT A. BRADY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. BRADY of Pennsylvania. Mr. Speaker, I rise to honor a lion in the fight for workers rights, my brother, Charles Moneypenny. With over two decades of service, Charlie is well known to our colleagues as the go-to guy when it comes to issues of our nation's rails.

Charlie is retiring as the Railroad Director and Legislative Representative of the 135,000 member Transport Workers Union of America. During his tenure at TWU, Charlie had primary responsibility in the union's collective bargaining and government affairs operations.

Mr. Speaker, Charlie Moneypenny is a passionate advocate on behalf of the people who keep America moving. He has visited many of our offices, working tirelessly to provide us with the facts we need to legislate on behalf of those workers. He is well known for his knowledge of rail safety, worker's rights, funding for passenger service and winning fair pay for a full day's work.

Before he came to Washington in 1995, Moneypenny was president of TWU Local 2054 in Boston, where he served with distinction on behalf of the members who elected him. As a 27-year railroad veteran, Charlie knows how to roll his sleeves up when there's work to be done. And you can bet that Digna, Che' and their expected new addition will put that work ethic to work full time now that he's going to be around a lot more.

Mr. Speaker, we will all miss Charlie. But, our loss is his family's gain. I know that all my colleagues join me in wishing him and his entire family well.

DEPLORING MISUSE OF INTERNATIONAL COURT OF JUSTICE BY UNITED NATIONS GENERAL ASSEMBLY FOR POLITICAL PURPOSE

SPEECH OF

HON. ROBERT T. MATSUI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. MATSUI. Mr. Speaker, I rise today in support of the resolution deploring the misuse of the International Court of Justice for its advisory opinion on Israel's security fence. I also stand in strong support of Israel's right to defend itself against the ongoing threat of terrorism.

There has been considerable debate about the line the security fence follows, but there can be no doubt about the effectiveness of the fence in protecting against suicide attacks. The fence simply works. There has been a dramatic drop in the number of attacks on Israelis where the fence is in place and operational. And according to Israel Defense Minister Shaul Mofaz, security officials have been able to prevent an estimated 95 percent of overall Palestinian attacks.

The reason there is need for a fence speaks directly to the heart of the Israeli-Palestinian conflict—there are no borders, but there is terrorism. There must be direct negotiations between the Israelis and Palestinians to reach an agreed upon solution that not only provides Israel with secure and defensible borders, but ultimately establishes a state for the Palestinians. But when this political debate will be resolved is unknown and until Israel has a legitimate partner to negotiate with, Israel must protect her people.

In endorsing the roadmap, even the United Nations acknowledged that this is a political debate that can only be resolved through direct negotiations. Yet, even though the U.N. Charter states that the General Assembly can only refer cases concerning legal issues to the International Court of Justice, ICJ, this political matter was taken under consideration. In their ruling, the ICJ did not take into account the context of the terrorist threat that led Israel to construct the fence. Nor did it consider the steps Israel has taken throughout construction of the fence. Numerous modifications and changes have been made to ease the hardship on Palestinians.

Most recently—even before the ICJ's ruling—the Israeli Supreme Court addressed the position of the fence and its effects on Palestinians' access to their homes and jobs. The Israeli government is moving quickly to change the route of the security fence. By doing this, Israel is responsibly balancing its security needs and the humanitarian needs of the Palestinians not involved in terrorists acts. Clearly there is no need for an outside organization to pass judgment.

Ultimately, the ICJ overstepped its jurisdiction by hearing the case in the first place, which could have negative consequences for the peace process. Over 40 countries, including the United States, Canada, and most European Union countries, opposed the ICJ's consideration of the case because of their concerns about jurisdiction and politicization of the court.

Israel has said the security fence is a temporary self-defense measure. It is not meant to replace the peace process and does not preclude final status negotiations. The construction of the fence is reversible, but the taking of Israeli lives is not. The ICJ's ruling was inappropriate and harmful. The United States needs to stand firm with Israel, and as the United Nations continues to consider this issue, I call on the international community to recognize Israel's absolute right to defend itself.

DEPLORING MISUSE OF INTERNATIONAL COURT OF JUSTICE BY UNITED NATIONS GENERAL ASSEMBLY FOR POLITICAL PURPOSES

SPEECH OF

HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I intend to vote "yes" on H. Res. 713.

I am voting for the resolution in part to dispel any notion that I am anti-Israel or that I am not sensitive to Israel's right to self-defense.

The United States cannot ignore the horror of terror against Israeli civilians and we should not ignore equally outrageous terror against Palestinian civilians. I also believe the President should express support of the United States toward an initiative that strives for peace for both sides instead of one side. The Congress should demand Israel as well as Palestine to live up to their commitment to peace.

I strongly support Israel, but I also strongly support efforts to bring about peace in the region, which will allow the Israeli and Palestinian people to live together side by side, peaceful and secure.

I am hopeful that soon this Congress will take up a balanced resolution that will address the needs of Israelis and Palestinians. When we do that, we will be taking one of the first steps to truly pursuing peace and advancing democracy.

DEPLORING MISUSE OF INTERNATIONAL COURT OF JUSTICE BY UNITED NATIONS GENERAL ASSEMBLY FOR POLITICAL PURPOSE

SPEECH OF

HON. RUSH D. HOLT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. HOLT. Mr. Speaker, I rise to express my concerns regarding H. Res. 713.

I strongly believe that Israel has the right to defend itself against terrorism. I certainly share the conviction of many of my colleagues who supported this resolution that Israel has the right to construct a security barrier. That right of protection should be unquestioned. In fact, I suggested the construction of a security barrier between Israel and the Palestinians in the West Bank years ago, long before the Israeli government proposed erecting such a security fence.

While I support Israel's decision to build a security barrier, I recognize that the current path of the separation barrier has been questioned, notably by the Supreme Court of Israel, in large part because of the displacement of Palestinians. Fortunately, the orderly governmental process in Israel has resulted in a compromise that balances the security interests of Israel with rights of minorities. On June 30, the Supreme Court ordered the re-routing of a 20-mile section of the barrier inside the West Bank northwest of Jerusalem that was in the initial stages of construction because it was too burdensome on Palestinians. I applaud Israel's government for agreeing to comply with the Court's ruling.

Despite these positive developments in the region, today we are considering in the House a resolution that is divisive and not constructive. Over the decades, the United States has been essential in facilitating negotiations along the road to peace. The U.S. should be first in support of Israel's right to build a fence if she believes it will protect her citizens. However, Congress should not formally endorse the wall in its existing form, nor should we oppose it. To do either compromises the U.S. and any peace process. The U.S. should not get involved in that issue except as a facilitator of negotiations between the parties to advance the cause of peace.

I rarely vote present. However, the false choice presented by this resolution could justify neither a yea or nay vote. While the resolution expresses support for Israel's right to construct a security barrier, it is clear to me that this measure was a cynical attempt to divide people for political gain here in the United States.

It is the responsibility of the pro-Israel community—of which I am a member—to support measures that advance the security of Israel. This legislation does not do that. This measure is a cynical attempt that purports to support Israel but uses inflammatory language directed at members of the international community. This resolution undermines the steps we have taken to resolve the Israeli-Palestinian conflict, compromises our ability to assist in the future, and makes Israel and the entire region less secure.

The future security of the Middle East depends on negotiating a just, permanent, and peaceful settlement between Israelis and Palestinians that both guarantees Israel's security and establishes a Palestinian state. I cannot support resolutions, such as H. Res. 713, that are detrimental to this process.

CENTENNIAL OF THE NATIONAL ASSOCIATION OF SECRETARIES OF STATE (NASS)

HON. ROY BLUNT

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. BLUNT. Mr. Speaker, as a former Secretary of State of Missouri, I am pleased to be able to speak today on behalf of the National Association of Secretaries of State.

The National Association of Secretaries of State is the oldest association of public officials in the United States, created and established in September 1904 at the World's Fair in St. Louis, Missouri. This year marks the Centennial year of NASS and the Association is meeting in celebration of this very special milestone.

In 1904, NASS was organized and approved for assembly at the World's Fair in the administration building of the Fair—Brookings Hall—which still stands today and is in constant use by Washington University. The year 2004 also marks the 150th anniversary of Washington University. I am pleased to honor this fine institution and recognize its importance in the history of NASS.

Having left the organization as its president-elect, I continue to remember NASS as the most helpful and personally fulfilling professional organization I have been a member of.

On behalf of myself and my colleagues in the United States Congress who also served as Secretaries of State—Sherrod Brown of Ohio, Tom Cole of Oklahoma, Katherine Harris of Florida, Jim Langevin of Rhode Island and Candice Miller of Michigan—I gratefully acknowledge the value of NASS to us personally and to the nation.

RECOGNIZING THE CAREER AND RETIREMENT OF CAROL MADISON—EXECUTIVE DIRECTOR OF THE ILLINOIS CENTER FOR AUTISM

HON. JERRY F. COSTELLO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. COSTELLO. Mr. Speaker, I rise today to ask my colleagues to join me in recognizing the career and retirement of Carol Madison, Executive Director of the Illinois Center for Autism for 27 years.

The Illinois Center for Autism, ICA, is a non-profit, community-based mental health treatment, special education center, and vocational training site, dedicated to prevent the unnecessary institutionalization of people with autism and help them achieve the highest level of independence possible in their home, school, and community. Students/Clients must be diagnosed as autistic and/or exhibit characteristics, such as severe communication disorders, severe behavioral disorders, uneven intellectual skills, and socially inappropriate behaviors.

Under Carol's direction and service as the ICA's first Executive Director, the Illinois Center for Autism was established in the fall of 1977 to provide a Special Day School Program. At that time, it was serving only eight children with autism.

In January 1978, the Illinois Center for Autism was incorporated as a 501c (3) not-for-profit corporation. The ICA's mission then was to prevent the unnecessary institutionalization of children with autism. ICA received accreditation in 1992 from the North Central Association (NCA). To this day, ICA has maintained its accreditation and serves both adults and children throughout Southern Illinois.

In 1992, under Carol's leadership, the ICA began an innovative initiative. With Carol's careful hand guiding the program, the ICA opened a gourmet Italian take-out eatery called Pasta Fare. Pasta Fare provides an ideal site for food service training for the ICA's clients. They assist in all aspects of the business, learning to apply their functional academic, social and communications skills in a work setting. All clients at Pasta Fare are employees of the Illinois Center for Autism. Clients are transitioned into the community for further competitive employment opportunities and many are placed into food service and related occupations.

Not only has Carol and the ICA been able to prevent the unnecessary institutionalization of hundreds of people with autism, she and the Center have also helped them to become productive members of society.

Carol has devoted her life to serving the needs of the disabled community. She has served as a Site Visitor for the US Department of Education's Blue Ribbon Schools program and as a Hearing Officer with the Illinois State Board of Education from 1977–1987. She has consulted with the Madison County Association for Retarded Citizens and served on the Illinois State Board of Education Advisory Council on the Education of Children with Disabilities from 1992–1999. She has served as the Director of the National Association of Private Education Centers and was the Chairman of the Illinois Guardianship and Advocacy Commission.

The future holds great promise for the Illinois Center for Autism and the people it serves and we owe a great debt of gratitude to Carol for the work she has done on behalf of hundreds of young people in our area.

Mr. Speaker, I ask my colleagues to join me in recognizing the contributions of Carol Madison and wish her and her family the very best in the future.

AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2005

SPEECH OF

HON. BOB FILNER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 13, 2004

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 4766) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies for the fiscal year ending September 30, 2005, and for other purposes:

Mr. FILNER. Mr. Chairman, I rise in support of the Fiscal Year 2005 Agriculture Appropriations bill. The bill includes several projects that will benefit my district.

Imperial County in my Southern California district is a desert farming community located on the California-Mexico border. The county is one of the top agricultural counties in California. It produced over $1.2 billion of agricultural products in 2002. The county is a leading producer of agronomic and winter vegetable crops, as well as livestock.

This bill contains language that directs the Under Secretary for Rural Development to give consideration to projects that would directly benefit my constituents:

The Imperial Valley Sugarcane/Renewable Energy/Ethanol Project—Environmental and water conservation issues are of grave concern to the agricultural producers in my district. Alternative, higher-value commodities must become available to ensure the best economic and environmental use of the land and water. This rural development project could provide such an alternative to many of our farmers while producing sugar, ethanol, and renewable energy. My constituents are pursuing an economic development project to develop sugarcane production and processing capabilities, along with ethanol and renewable energy production, in the Imperial Valley. The number one crop in the Imperial Valley is alfalfa, which has a much lower dollar value than sugarcane. Due to a rural-to-urban water transfer that has reduced the number of acres that may be planted in the Valley, my rural constituents searched for an alternative to alfalfa—and found it in sugarcane. The economic conversion project includes development of sugarcane acreage in the Valley, as well as construction of a new sugarcane processing facility on the site of an existing sugar beet processing facility in the Valley. The current sugar beet facility, which currently only operates four months of the year, employs approximately 300 people (100 full-time and 200 seasonal employees). Opening the new sugarcane processing facility would allow year-round processing at the site, dramatically increasing the number of full-time job opportunities at the facility. The project would also allow the creation of a power plant reliant on renewable fuels, principally from residue from the production and processing of sugarcane. Further, the project includes plans for ethanol production from the sugarcane. Due to California's phase-out of MTBE as a gasoline oxygenate, the state requires a stable supply of ethanol, and a local supply will dramatically reduce transportation costs for ethanol purchasers. Sugarcane-to-ethanol production in the Imperial Valley will greatly benefit the economic well-being of my constituents—as well as reduce renewable and clean fuel costs for the nation while protecting environmental quality.

Environmental Technology Business Park—The County of Imperial is working to catalyze development of an EcoPark for location of renewable energy and "green technology" industrial projects. An investment in this project would leverage funding already allocated for development of biomass-to-ethanol projects in Imperial County over the past three years by local, state and federal agencies. The EcoPark is expected to attract more than $400 million in private investment and sustain more than 4,000 jobs in the related industry and agricultural sectors. Further, a variety of new and established firms are interested in bringing additional technologies to the EcoPark, such as methane digesters, minibiorefineries for biodiesel, nutraceutical manufacture, liquid natural gas production, and solar power generation. The EcoPark will be a beacon of economic and environmental development for renewable fuels projects.

Desert Farming Institute and The National Center for the Study of International Trade in Agriculture—My constituents are interested in establishing a "California Desert Farming Institute" at the San Diego State University's Imperial Valley campus. The Imperial Valley of California is one of the most successful examples of desert farming in the world. San Diego State University-Imperial Valley campus, a Hispanic-Serving Institution, is located on the border with Mexico and thus a logical site for a Center charged with studying the international aspects of agriculture. The U.S. Department of Agriculture has designated the campus as a "National Center of Excellence." The Institute's primary mission would be to compile, analyze, and disseminate information on desert farming and its commercial viability; to study the environmental and health issues related to desert farming; to compile, analyze, and disseminate information on international trade in agriculture, including trends in agricultural production around the world; and to form collaborative research partnerships with other institutions around the world to encourage research in the development of desert farming. A significant part of the world, including major parts of the United States, is desert land with little productivity. However, the application of state-of-the-art technology to farming and the development of modern agriculture have made desert farming a viable and, in some cases, a necessary activity. Any major expansion of desert farming could have a significant and positive effect on the global competitiveness of the American farmer, as well as positive impacts throughout arid regions of the world.

Neighborhood House of Calexico Youth Center—Throughout the past 66 years of its service, Neighborhood House of Calexico has targeted low-income families in the community, serving an average of 7,000 low-income persons per year. The Neighborhood House provides services such as day care, youth violence prevention, micro-business development, and shelter for homeless and abused women and children. The Neighborhood House Youth Center has been successful in interacting with at-risk youth, in diverting gang activities and helping youth obtain job skills, conflict resolution skills, increased level of interaction between adult role models and youth, and recreational activities. The City of Calexico is experiencing a significant increase in gang activity and potential for intensification with the downturn of availability of jobs, a 22 percent unemployment rate, and reduced level of training opportunity for youth and adults. Funding for this project would provide youth mentoring, assist youth in obtaining job training, and creating youth employment opportunities.

Calexico Telemedicine Center—Calexico, California is a very poor community located in rural Imperial County along the U.S.-Mexico border. Unfortunately, this community does not have a hospital. Pioneers Memorial Hospital and the Heffernan Memorial Hospital District, the two major healthcare providers located in other cities in the county, have partnered to open an urgent-care center in the vacant Calexico Hospital building, which could be wired for telemedicine. Locally, this project has the support of all the stakeholders, government leaders, health boards, and businesses. Funding for this project would provide for the equipment needed to start a telemedicine center. Imperial County has a low number of medical professionals, and the residents of the city of Calexico are especially medically underserved. Telemedicine will allow patients to have appropriate medical treatment without having to travel across the county, or to other counties, states, or even countries, for service.

This bill also contains language to uphold funding for the Agricultural Research Station in my district. The Brawley Research Station performs crucial research work under the arid saline conditions of the Imperial Valley in support of U.S. agriculture in desert and arid environments. For example, crop salinity trials are conducted in conjunction with the U.S. Salinity Lab based in Riverside, California. The salinity work done at Brawley could not effectively be performed at Riverside because smog negates the scientific validity of the findings. Such research has worldwide application as saline soils are a constant challenge to farming practices in many regions. Further, the station is strategically located to provide quick response support to biosecurity and agroterrorism detection work. It is situated less than 90 miles from six border crossings, one of which is the busiest passenger crossing in the world. The constant supply of host crops and high international traffic puts Imperial County on the front line of protection of the American food supply from foreign introduction of diseases, insects, and many invasive species. The Brawley Field Station currently headquarters research facilities and personnel from USDA and the California Department of Food & Agriculture, which can quickly implement control and eradication programs in coordination with local authorities—thereby making use of the best capabilities of local, state, and federal agencies.

I urge my colleagues to support this bill, and these important agricultural and rural development projects.

DEPLORING MISUSE OF INTERNATIONAL COURT OF JUSTICE BY UNITED NATIONS GENERAL ASSEMBLY FOR POLITICAL PURPOSE

SPEECH OF

HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Ms. WOOLSEY. Mr. Speaker, today the House passed H. Res. 713, a resolution to condemn the recent decision by the International Court of Justice in opposition to Israel's security barrier. I voted for this resolution, not out of support for Israel's security barrier, but because the International Court of Justice overstepped its bounds in issuing this decision.

Make no mistake, I strongly oppose the route of Israel's security barrier, because it deviates significantly from Israel's internationally recognized eastern border. In so doing, the fence encroaches on Palestinian lands and fully encloses some villages, overtly harming many Palestinians by turning these areas into isolated enclaves. I fully support Israel's right to defend itself. But this resolution is not one of support for the fence, it's one of opposition to the politicized ruling by the International Court of Justice. If we're going to achieve peace in the Middle East, we've got to get rid of the politics that have tainted this issue for so long on both sides.

Prior to the International Court of Justice ruling, Israel's High Court issued a ruling calling for Israel to take into account the humanitarian needs of the Palestinian people. The High Court stated that the path of the fence must be adjusted—even if this change results in less security for Israel—and the Israeli government stated its willingness to comply with this decision. Given the High Court's ruling, the decision rendered by the International Court of Justice was both irrelevant and moot, and demonstrated political partisanship rather than a desire to truly affect change in the Middle East.

In the end, Congress must do much more than pass resolutions that carry no real weight. Instead, the U.S. should be the lead negotiator to achieve peace in the Middle East. When we take sides on this issue, we diminish our ability to play the role of impartial negotiator. The Bush Administration should be providing leadership in the Middle East by ensuring that both the Israelis and the Palestinians live up to their commitments as stipulated by the Road Map, and by bringing both parties to the negotiating table. Only by re-establishing trust, respect, and cooperation between Israelis and Palestinians will we be able to achieve a lasting resolution to this devastating conflict.

IN MEMORY OF SSGT DUSTIN "BOB" PETERS

HON. MIKE ROSS

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 15, 2004

Mr. ROSS. Mr. Speaker, I rise today to recognize the life and courageous spirit of SSgt. Dustin "Bob" Peters of Shirley, AR. Staff Sergeant Peters, just 25, was killed in the line of duty on Saturday, July 11, 2004 near Bayji, Iraq.

After graduating from Shirley High School in 1996, Staff Sergeant Peters entered the Air Force where he attended technical training at Fort Leonard Wood, MO, and graduated as a vehicle operator journeyman. He completed assignments at Whiteman Air Force Base in Missouri and Anderson Air Force Base in Guam.

Staff Sergeant Peters arrived to Little Rock Air Force Base in 2000. After returning from Iraq in July of 2003, he volunteered to return to Iraq for a second tour of duty to serve with a young group of soldiers, most of whom had never been to combat. His sole purpose in returning to Iraq was to protect this group of soldiers. One friend of Staff Sergeant Peters remembers fondly, "Peters was respected and loved by fellow airmen. They admired this young staff sergeant. He knew his job very, very well."

Staff Sergeant Peter's exemplary service did not go unnoticed; his military decorations include the Air Force Commendation Medal with one Oak Leaf Cluster and with Valor, and an Air Force Achievement Medal with one Oak Leaf Cluster.

Staff Sergeant Peters gave his life to serve our country and will forever be remembered as a husband, father, son, and hero. My deepest condolences go out to his wife, Heather, their son, Dalton, his mother, Linda Bennings, and his father, Dennis Peters. I know Staff Sergeant Peters was proud of his service to the U.S. Air Force and to our country. He will be missed by his family, fellow soldiers, and all those who knew him well.

CONCERNING THE IMPORTANCE OF THE DISTRIBUTION OF FOOD IN SCHOOLS TO HUNGRY OR MALNOURISHED CHILDREN AROUND THE WORLD

SPEECH OF

HON. JERRY MORAN

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 14, 2004

Mr. MORAN of Kansas. Mr. Speaker, I rise today in support of S. Con. Res. 114, a resolution that recognizes the importance of food distribution in schools and expresses gratitude to former Senators George McGovern of South Dakota and Robert Dole of Kansas for their efforts to eliminate hunger and poverty.

The McGovern-Dole International Food for Education program began in 2001 as an initiative called the Global Food for Education program. This program provided food to improve nutrition for mothers, infants, preschoolers and schoolchildren in developing countries.

During the pilot program, the U.S. Department of Agriculture donated about 800,000 metric tons of commodities, providing school meals for nearly 7 million children in 38 countries.

Because of the Global Food for Education program's success, this initiative was expanded, renamed the McGovern-Dole International Food for Education Program, and authorized by the Farm Security and Rural Investment Act of 2002. As a conferee on the Farm Bill, I am proud to have played a part in enacting the McGovern-Dole program.

Through the McGovern-Dole program, the USDA is able to distribute foods such as wheat, flour, rice, corn and other basic items. Being from Kansas, I am glad that one of my State's main crops—wheat—goes to such a noble cause.

This noble cause includes three main goals: to reduce hunger, to improve literacy and to improve primary education. Private, voluntary organizations, cooperatives, intergovernmental organizations and governments of developing countries all contribute to achieving these goals.

McGovern-Dole was launched on March 10, 2003, on the 50th anniversary of the creation of the Foreign Agricultural Service. This timing is appropriate since McGovern-Dole combines two of the USDA's broad goals: to provide food in schools and to provide foreign food assistance.

About 120 million school-aged children around the world are not enrolled in school, in part because of hunger or malnutrition. A disproportionate number of these children are girls. By supporting this resolution, we in Congress can help reaffirm the U.S. commitment to education and child development.

Supporting this resolution demonstrates support for a better future for our global society. By providing food for schoolchildren in developing countries, we can help to reduce poverty and malnourishment. We can increase the number of children attending schools. By feeding and educating children around the world, we are able to open doors for these children and give them a real chance to someday achieve their dreams.

I want to thank Senator ELIZABETH DOLE for introducing this resolution in the Senate and my colleague, Congressman JAMES MCGOVERN, for introducing it in the House. I thank these Members for recognizing the efforts of my fellow Kansan and predecessor, Bob Dole. I also thank the House International Relations Committee for their consideration of this resolution.

SENATE—*Monday, July 19, 2004*

The Senate met at 1 p.m. and was called to order by the Honorable SAXBY CHAMBLISS, a Senator from the State of Georgia.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray:

Almighty and Everlasting God, with Your words You divide night from day. Thank You for Your glory that brightens our path to the future and for the brilliance of Your hope that beckons us to new beginnings. Forgive us when we are unfaithful, when we desire to sing solo and disrupt the harmony of Your will.

Bless the Members of this body. Guard them from the evil one. Give them hearts large enough to take the honesty of their skepticism and transform it with the confidence of faith. Imbue them with reverence for life and guide them toward unity.

As they find peace with You, give them peace with each other. Give each of us gentleness fashioned after the pattern of Your mercy.

We pray in Your compassionate name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable SAXBY CHAMBLISS led the Pledge of Allegiance, as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. STEVENS).

The assistant legislative clerk read the following letter:

> U.S. SENATE,
> PRESIDENT PRO TEMPORE,
> *Washington, DC, July 19, 2004.*
>

>
> Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable SAXBY CHAMBLISS, a Senator from the State of Georgia, to perform the duties of the Chair.

Mr. CHAMBLISS thereupon assumed the Chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. FRIST. Today the Senate will consider the nomination of Williams Myers III to be a U.S. circuit judge for the Ninth Circuit. Last week we attempted to reach a time agreement on the Myers nomination; however, there was an objection from the Democratic side of the aisle. I filed a cloture motion on the nomination and that vote will occur at 2:15 on Tuesday. We will debate that nomination throughout today's session, and I expect a number of Members will come to the floor and speak on this nomination.

As I announced on Friday, there will be no rollcall votes during today's session.

This week we also expect the Appropriations Subcommittee on Defense conference report. This is a very important piece of legislation that we will need to address before we adjourn for the scheduled recess. In addition, there is a conference report regarding some expiring tax provisions. We will consider that measure if and when it becomes available.

This is the final legislative week prior to the August recess. With the cooperation of all Senators, we should be able to complete our work and begin the recess on time.

RECOGNITION OF THE ACTING MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Senator from Nevada is recognized.

THANKING THE SENATE CHAPLAIN

Mr. REID. Mr. President, I have a couple of questions I would like to ask through the Chair to the majority leader.

First, we tend to dwell on the negative around here quite a bit. But one of the good things that happens to me every day that I come is to hear the prayer. Today, for example, I wish I were good enough to live up to the expectations of the prayer offered by Admiral Black. Really, he does a wonderful job, setting the tone for how we should work in the Senate. A lot of times I think we don't listen very closely to him. But, even though he is not in the Chamber now, I want to have the RECORD spread with my appreciation of the thoughtfulness he goes through every day in preparing his very meaningful prayers.

CONSIDERATION OF CERTAIN MEASURES

Mr. REID. Mr. President, I am wondering if the majority leader could give us an idea of whether we might get to the Morocco Free Trade Agreement this week, and also do we have any word on the childcare conference report? It is my understanding that the Appropriations Committee is going to report out of the committee the military construction and legislative branch bills this week. I would ask about Moroccan free trade, the childcare conference, and those two appropriations bills, military and legislative branch, if we are going to be able to get to those this week?

Mr. FRIST. Mr. President, all four issues are issues important to the Senate. Progress is being made on all of them. With regard to Morocco, we will need to check with the chairman and the ranking member to see what their intentions are, which I will do and get back with the assistant Democratic leader.

The conference report on the child credit, again I very much would like to see action on it over the course of the week. I know there was discussion over the last several days and over the weekend itself. I will be able to update him once people return to town in the course of the day.

On the appropriations bills, we will see what progress can be made before we leave. It would be nice to be able to make progress on those appropriations bills. We will need to aggressively consider all of these appropriations bills, either now or in September, and finish before we complete the session.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, leadership time is reserved.

EXECUTIVE SESSION

NOMINATION OF WILLIAM GERRY MYERS III TO BE A UNITED STATES CIRCUIT JUDGE FOR THE NINTH CIRCUIT

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to executive session to consider the nomination of William Gerry Myers III to be a circuit judge.

The assistant legislative clerk read the nomination of William Gerry Myers III, of Idaho, to be U.S. Circuit Judge for the Ninth Circuit.

The ACTING PRESIDENT pro tempore. Under the previous order, the time until 5 p.m. shall be equally divided for debate only between the chairman and ranking member or their designees.

The Senator from Utah.

Mr. HATCH. Mr. President, I yield such time as he needs to the distinguished Senator from Idaho, and I will defer my remarks until after he finishes because he has a hearing scheduled in just a number of minutes, so we will turn to him first.

The ACTING PRESIDENT pro tempore. The Senator from Idaho is recognized.

Mr. CRAIG. Mr. President, I thank the chairman of the Judiciary Committee for yielding me time at this moment. At 2 I have a special Committee On Aging hearing to chair, so I do appreciate the accommodation.

Mr. President, today we are here to visit about, and I hope confirm, a good friend of mine, William G. Myers III, whom the President nominated for a judgeship to the Ninth Circuit Court of Appeals. I commend President Bush for nominating Bill Myers.

I would like to spend a few moments today talking about the reasons my colleagues should vote for Bill Myers and set aside the larger political issues surrounding judicial nominations. Bill Myers was nominated by the President on May 15 of 2003 not May 15 of 2004 so it has been well over a year since the President sent up the nomination of Bill Myers.

Bill is an extraordinary person, and I believe his nomination deserves our full and focused consideration.

He was reported out of the Judiciary Committee on April 1, 2004. Once confirmed, Bill will fill the vacancy of Judge Thomas Nelson, who became the senior judge of the Ninth Circuit.

At this juncture, I would like to remind my colleagues that this is a vacant seat on the Ninth Circuit, a vacant Idaho seat we are proposing to be filled. The caseload of the Ninth Circuit judges at this moment is one of the largest in the country—as some would suggest, even overpowering and not allowing reasonable and appropriate justice to go forward simply because this seat and others are not filled and the caseload is so substantial.

As my colleagues know, Federal law requires that every State within a circuit be represented by at least one judge. I believe the Senate is in danger of failing to fulfill this requirement if it prevents an up-or-down vote on Bill Myers because he will be the Idaho judge of the Ninth Circuit.

A few critics of this administration's natural resource policy would have you believe Bill should not be confirmed. They have bandied about previous wrongs, if you will, but all they have demonstrated is the certainty of what?

First, these critics desire to capture the judiciary by opposing nominees who do not display activist tendencies that might work to their own political advantage. In other words, if you aren't our politics and we can make an example of your politics, you are not fit to serve. We all know that judges shouldn't be involved in politics.

Second, these critics have done nothing more than confirm that Solicitor Myers is the chief legal officer at the Department of the Interior, which is controversial in every administration by the very nature of the mission and the responsibility of the Solicitor at the Department of Interior.

By enforcing political litmus tests against judicial nominees, some are suggesting that in order to be a nominee, you should have no experience in the law. Let me repeat that. Some are suggesting, some of my colleagues on the Judiciary Committee—and you will probably hear it on the Senate floor—that it is the experience of the nominee that is giving him the problem. So are we to assume, then, that nominees should have no experience? How can they be a wise and thoughtful judge within the law if they have not had that kind of experience both in the public and private sector?

Make no mistake, Bill Myers' opponents are for enforcing just this test. The substance of their test is this: If you have represented farmers, ranchers, miners, and, frankly, anyone else who advocates a balanced multiple-use policy on public and private lands in the West, the radical left environmental groups have decreed that you do not even merit a vote in the U.S. Senate. And the Democrats at this moment are playing that game: Sorry, Mr. Myers. You did your job down at Interior; you don't deserve to get a vote on the floor of the U.S. Senate in an up-or-down fashion. Senators should be ashamed to enforce such an edict from those liberal interest groups. The interest groups in this instance have grabbed the power of those on the other side. That is a tragedy.

Among their many factual misstatements, critics of this nomination confuse the appropriate roles of the lawyer or the judge by suggesting that because Bill Myers has been a strong advocate for his clients, he will continue to advocate for them from the bench. Of course, they offer nothing but bland or bald assertions in support of their logic.

Of course, we know that as men and women come to the bench, quite the opposite happens. They have a role in the private sector to represent their clients—that is their job—or in the public sector, in the case of Bill Myers, the Solicitor to represent his client, the Secretary of Interior. Is it to suggest that he will continue to do that as a judge? Quite the opposite. Let me tell you, that is the argument we will hear today on the floor of the Senate, and that is the argument being placed.

If their theory is correct, no practitioner who has ever represented committed clients in adversarial proceedings or political policy battles would be qualified to serve in the judiciary. Even so, any fears are allayed by a fair review of Bill's public service. His record as Solicitor shows balance and mainstream decisionmaking.

Let me give you a few examples: opposition to trespass by inholders in national parks of Alaska, impoundment of trespass livestock on Federal lands in Nevada, expansion of a national monument in New York, support for reinterment of Native-American remains, recognition of tribal boundary rights in New Mexico, record penalties for failure of a company to pay gas royalties, and support for settlement of tribal water rights claims.

I remind my colleagues that as Solicitor, Bill Myers was not a decisionmaker. He was the legal advisor to the Secretary of the Interior. In this role, as with all other roles in his life, Bill Myers has been an advocate for his clients.

I see no reason to believe Bill Myers would not continue to do this as a judge. But in this situation, his client will be the law, and he will be the advocate of truth and justice. That is the responsibility of a judge. The law becomes the client. Exactly what we all want in a judge is just what I have stated.

In addition, leaders in the field of law, including Democratic leaders in the West, have written to the committee supporting Bill's qualification to be a circuit judge. Letters of support have been written by the following, and all letters can be found in the committee's hearing record: Congressman HENRY HYDE, Wyoming Supreme Court Justice Marilyn Kite, Idaho Democrat Senator Chuck Cuddy, Chairman Carol Dinkins for the ABA Committee on Federal Judiciary, former Democrat Governor Mike Sullivan of Wyoming, and former Democrat Governor Cecil Andrus of Idaho. In neither of these two Governors' cases can you suggest they were anti-environment. They stood for balanced use, they stood for environment, and they stood for protecting our public lands and providing reasonable and responsible management. Of course, that is why we are supporting Bill Myers, because that is how Bill Myers handled his position as Solicitor at the Department of the Interior.

Democratic State attorney generals of Oklahoma and Colorado are also in support of this nominee.

Is this the message we want to send to hard-working families of farmers and ranchers and miners in South Dakota, North Dakota, Montana, Nevada, Oregon, and other Western States? I hope not. I think just the opposite. I think any one Senator could review the Myers record and could go to those who now oppose him and simply say this: I have reviewed William Myers' record. I find his integrity is beyond reproach. His intellect shows he is a man who has served a variety of capacities and the law extremely well. He has a solid, well-balanced temperament that would serve him well if we put him on the bench. That is what they ought to be saying.

No, today they are winking and nodding and saying to their environmental friends, we gave you one. We gave you a vote. Instead of saying, we have reviewed the record of William Myers, he is the one who deserves the vote, they are saying to the special interest votes, we gave you a vote.

I hope my colleagues hear that. I hope they weigh that in their consideration of this nominee. That is not the way nominations ought to be handled in our committees or in the Senate. Tragically enough, that is exactly what is happening.

Let it be said that the President of the United States has nominated a quality person. That person is William Myers. He is before the Senate now for a seat on the Ninth Circuit. He deserves our full consideration and a vote, not a political pass by. I wholeheartedly recommend we consent to this nomination. The President has treated this post well with the selection and the nomination of William Myers.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Utah.

Mr. HATCH. Mr. President, the distinguished Senator from Idaho has made some very important points. That is, this is now eight judges who the Democrats have indicated they would filibuster in the Senate, including this very excellent candidate for the Federal bench, William G. Myers III. We have never had filibusters of judicial nominees in the history of this country, not one time before. No one in the past has been willing to violate the rules in such a fashion until this President was elected.

It began with Miguel Estrada who, of course, removed his name from consideration. After having sat there for better than 2 years, he decided he better get back to his law practice. It includes another seven, including Mr. Myers, who the Democrats have indicated they will filibuster—in other words, try to talk to death this nomination. Since they have been able to keep control of almost everybody in their caucus, needing only 41 votes against cloture—in other words, against ending the debate so a vote can be taken—they have subverted the rules and have caused what is going to be called a crisis unless we can find a way around it.

It is a crisis now because excellent nominees have been badly mistreated in the Senate by not even getting a vote up or down. Once a nominee is brought to the floor, that nominee deserves, under the advice and consent clause of the Constitution, article II, section 2, a vote up or down.

If my colleagues on the other side do not like people, they can do everything they can within the committee to try and block the nomination there. But once that nominee is brought to the Senate, that nominee, under the advice and consent clause, deserves a vote up or down. Mr. Myers is no exception. He deserves a vote up or down. He is an excellent nominee, one who would have that vote up or down if the Senate were acting responsibly.

I rise today in strong support for the confirmation of William G. Myers III who has been nominated to fulfill the Idaho vacancy on the Ninth Circuit Court of Appeals.

Let me emphasize, when current Circuit Judge Trott takes senior status at the end of this year, and if the Senate refuses to even vote on Mr. Myers' nomination, there would be no Idaho representative on the Ninth Circuit Court of Appeals.

Federal Law 28 United States Code section 44(c) requires each State within a circuit must have at least one active judge serving on that circuit. We have heard a lot of discussion over the past few months about how circuit court seats should not be switched from one State to another out of respect for home-State senators. I hope the Senators who have raised those valid concerns afford Senators CRAIG and CRAPO and the rest of us in the West the same respect they believe they themselves and their States deserve.

Again, this is not about Idaho having two or three or even one or two seats on the Ninth Circuit. It is about whether the Senate will refuse to even vote on filling Idaho's only active seat on the Ninth Circuit.

As I will discuss further, it is also about whether a qualified nominee can be blocked by a minority of Senators because he at one time or another represented ranchers, farmers, and miners in their efforts to make balanced use of public and private uses of public lands in the Western United States of America. These are among the greatest pioneers and greatest leaders of the intermountain West, these farmers, ranchers, and miners. These are good people. These are people who, like everyone else in our society, deserve representation. Many of them came to William G. Myers III for such representation. He represents them well, as he should, as an advocate. The fact that some on the other side of aisle do not agree with his advocacy is no reason to stop him from being the sole active Idaho judge on the Ninth Circuit Court of Appeals.

Bill Myers was nominated by President Bush in May of 2003, over a year ago, and his nomination was carefully examined, debated, and favorably reported out of the Judiciary Committee in early April. Democrats who opposed him in committee voted against him. That is their right. But they should not now delay all Senators the right to vote on this confirmation. Bill Myers deserves and is overdue for an up-or-down vote in the Senate.

I remind my colleagues that the Ninth Circuit is the most notoriously liberal Federal circuit in the United States. It is and has been for at least a decade quintessentially out of the mainstream of American jurisprudence. The infamous case in which this court held our Pledge of Allegiance is unconstitutional because it contains the word "God" is but one of many examples of its all too frequent perversions of Federal jurisprudence.

Fortunately, the Supreme Court unanimously reversed the Ninth Circuit in that case, one of 16 times in the 2003–2004 term alone the Court unanimously reversed or summarily vacated the Ninth Circuit Court of Appeals.

This past Supreme Court term, the Ninth Circuit was reversed or vacated 81 percent of the time. Even my liberal friend from New York, Senator SCHUMER, once noted the Ninth Circuit is "way out of the mainstream on the left."

As Senator FEINSTEIN noted in the 1996–1997 term, the Ninth Circuit was reversed 20 of 21 cases. While some circuits had similar reversal rates, no other circuit came close to the number of cases considered and reversed. The same has been true since then. The Ninth Circuit has been reversed 86.5 percent of the time since 1998. That is a disgrace to the Federal bench. In 58 cases the Court didn't even need to hear argument, they simply vacated the Ninth Circuit summarily. In the 2003–2004 term, Ninth Circuit appeals accounted for about one-third of the Supreme Court's docket, suggesting that the Court feels the need to focus disproportionately intense scrutiny on decisions from that circuit.

As I noted, about two-thirds of the Ninth Circuit reversals this past term, 64 percent, to be exact, were unanimous. This is a court that is desperately in need of good, nonactivist judges who will be faithful to the Constitution.

There is no doubt in my mind or in the mind of anybody who knows him that Bill Myers would be such a judge. One would think the Senate would welcome the confirmation of an expert on public lands and natural resources law to a court that has enormous influence over how disputes over the uses of these resources are resolved. Western Senators know all too well that the Ninth Circuit is the 900-pound gorilla of public lands, natural resources, and environmental law. Its decisions have significant and often adverse impacts well beyond the borders of its jurisdiction.

Yet today, and tomorrow, I suppose, we will hear it is Bill Myers who is out of the mainstream and not fit to join the ranks of the Ninth Circuit judges who routinely ignore law and precedent to rule based on their own personal policy preferences, both on natural resources issues and in many other areas of the law, including, but not limited to, the constitutionality of the Pledge of Allegiance and the death penalty.

The prejudices against Bill Myers reflect today's poisoned confirmation process: Nominees who somehow offend any well-funded liberal interest group are subject to distortions and baseless personal attacks, which the media echo chamber dutifully resound as proof positive of unfitness for the Federal bench. And with Bill Myers and his record, the distortions continue, baseless as ever.

His record as the Interior Department's Solicitor, where he was doing his duty to represent the policy positions of the United States of America, has been attacked because the liberal environmentalists do not like those policies. He has been vilified for daring to represent farmers, ranchers, and miners while in private practice, as if ranchers, farmers, miners, and those who make economic uses of Western lands are less entitled to representation than the elite, liberal environmental groups that attempt to dictate Western land policy from Eastern cities, while they derisively refer to most of our Nation as a flyover country.

So what is at stake is this: Is a judicial nominee disqualified from service on the Federal bench solely because he or she has advocated, successfully and competently, for people or policies that liberal groups of various stripes dislike? If the answer from my Democratic colleagues is yes, then I do not want to hear one more word—not one—from any of them about how it is Republicans who are politicizing the judiciary.

There is no more blatant way for Senators to politicize and degrade the confirmation process than to reflexively disqualify nominees who have represented people and groups or advanced policies they do not like. Ask yourselves, is this vote on Bill Myers really about Bill Myers? If it is, you know and I know there is no reason on the merits to deny him an up-or-down vote. Or will this vote be a reflection of liberal disdain for policies favored by farmers, ranchers, miners, the Bush Interior Department, or anyone else who advocates balanced uses of Western lands?

If the latter is true, let me emphasize again for those who still do not get it, the Constitution did not and does not establish Federal courts as the policymaking branch of the Government. Federal judges should not make policy, though too often, especially on the Ninth Circuit, they do.

Policy debates ought to have no place in our consideration of a nominee's qualifications to serve as a Federal judge—unless we think he or she does not understand the proper role of Federal judges under our constitutional system.

Absent absurd and unfair distortions of his record, there is zero evidence that Bill Myers does not understand that proper role.

I would also like to remind my colleagues of some facts about Bill Myers that the liberal interest groups and the media have willfully ignored or deliberately misrepresented.

He has an exemplary record that includes service as a successful, committed advocate and public servant. As Solicitor for the Department of Interior, a position to which he was confirmed in 2001 without opposition, Mr. Myers supervised over 300 attorneys and 100 support staff in 19 different offices throughout the United States, and managed a $47 million annual budget. He has served as counsel here in the Senate to our former colleague Senator Al Simpson, and, as well, in the Department of Justice and the Department of Energy.

His confirmation is supported by Democrats, including former Wyoming Governor Mike Sullivan and former Idaho Governor Cecil Andrus, who also served President Carter as Secretary of the Interior, plus the Democratic attorneys general in both Colorado and Oklahoma, and Republicans alike. Five Western Governors, including the Governors of Hawaii, Montana, and Nevada, have written to the committee expressing their support and emphasizing "the need for quality judges who will provide a balanced perspective to the Ninth Circuit's extraordinary caseload."

I also want to respond to a blatant misrepresentation about Mr. Myers' record that was made by one of my colleagues who suggested, falsely, that Bill Myers "thinks the Clean Air Act and the Endangered Species Act have harmed the environment."

Well, as anyone who has bothered to read Mr. Myers' hearing testimony and written questions or even conducted a cursory review of his record would know, he thinks no such thing. In fact, I do not think he has ever said anything about the Clean Air Act at all.

Now in his responses to Senator FEINSTEIN's written questions, Mr. Myers affirmed that congressional intent in passing the Clean Water Act was to "restore and maintain the chemical, physical and biological integrity of our Nation's waters," and that "the health of our Nation's waters is often inextricably connected to the health of adjacent wetlands." This is an extreme conservative position? Only in the sense that Bill Myers failed to endorse the full policy platform of Greenpeace.

Similarly, regarding the Endangered Species Act, we all know there have been cases in which Government authorities have abused their power under this law to confiscate private property without compensation. Let me give you one example, the 2001 Ninth Circuit decision in the Arizona Cattle Growers case. Here, a unanimous appellate panel, composed of two judges appointed by President Clinton and one judge appointed by President Reagan, wrote the following:

> [T]he Fish and Wildlife Service acted in an arbitrary and capricious manner by issuing Incidental Take Statements imposing terms and conditions on land use permits, where there either was no evidence that the endangered species existed on the land or no evidence that a take would occur if the permit were issued. We also find that it was arbitrary and capricious for the Fish and Wildlife Service to issue terms and conditions so vague as to preclude compliance therewith.

So Bill Myers has been an advocate for farmers and ranchers who have challenged such abuses of this law, because their families' lives and fortunes depend on their ability to responsibly use land they own or lease. For such efforts, he is unfit for Federal judicial service? Give me a break.

Here is what Bill Myers has actually said about the Endangered Species Act. Contrast what he has said with what his opponents believe he thinks. He has said Federal agencies should not use it as a zoning tool on public lands.

Now, is that unreasonable? He argued in a brief on behalf of the American Farm Bureau and others that the Babbitt Interior Department regulations that defined the term "harm" in the Endangered Species Act in a way that essentially precluded any private landowners' use of property on which an endangered species might find habitat should be invalidated.

That sounds like a reasonable position to me. And I think it would be to anybody under similar circumstances. Why, it might even be a reasonable position for some of my more liberal legal colleagues on the other side, if they bother to think about it.

Importantly, the Government had no intention of compensating affected landowners if these regulations rendered their land valueless, despite the Fifth Amendment's takings clause, and despite provisions in the Endangered Species Act itself that authorize the Government to compensate landowners in such situations.

So, again, are the positions taken by the American Farm Bureau and other farmers and ranchers extreme and unreasonable, disqualifying their lawyer from Federal judicial service? I think the obvious answer is no—unless every nominee to the Ninth Circuit must share the policy positions of the elitist and more radical environmental groups.

Let me make one related point. I will refer to a news report dated March 17, 2004, headlined: "Grad Student Charged in SUV Arson."

According to the article, a student with connections to the radical environmentalist group Earth Liberation Front firebombed and vandalized 125 vehicles at Los Angeles area car dealerships and private homes in August 2002. The words "ELF" and "Fat Lazy Americans" were spray-painted onto some of the vehicles.

ELF also took responsibility for a 2002 fire in San Diego that destroyed an apartment building and caused $50 million worth of damage. Just 2 weeks ago ELF is suspected of carrying out an attack in my home State of Utah at Brigham Young University.

When ELF extremists are arrested, they are represented by attorneys. Without in any way suggesting that anything Bill Myers has ever done or advocated approaches such actual extremism, are these attorneys presumptively disqualified from service on the Federal bench because of the criminal actions of their clients? Can we assume that they sympathize with the criminals' actions? In light of some Senate Democrats' apparently closed minds against a growing number of President Bush's nominees, perhaps we all need to think more carefully about how we answer such questions.

Some Senators apparently believe that nominees who do not think like they do, and will not advocate their pet causes while on the bench, deserve nothing more than to be filibustered—denied an up-or-down vote because they—a minority—know that a Senate majority stands ready to confirm these nominees.

Unlike those who are supporting such filibusters for purely ideological reasons, I do not believe that a nominee must share all of my favorite interest groups' policy views in order to deserve an up-or -down vote. And let me read what Bill Myers had to say on this at his hearing.

> I would stand on my personal record that I cited a moment ago that I have spent my free time in serving national parks, such as picking cigarette butts out of fire pits. I have a great love for the national parks. That is where we recreate and that is where we go for sustenance, for spiritual refreshment, and that is a personally-held view. The larger view, though, and the one that is really important for this Committee is whether I would carry into a judicial position, if I were so lucky as to be confirmed, an ideology that would result in a bias against or for any litigant.
>
> And I think it should be noted that every nominee, I suspect, that comes before you has both proponents and opponents, and some of those people may hope that once that person becomes a judge that they can either count on them to do the right thing or cower in fear that they will do the wrong thing.
>
> I hope that both of those groups, the proponents and the opponents, are disappointed; that when a person takes on those robes, takes the oath of office, swears to uphold the Constitution, that that means that they will follow the law and the facts, wherever the law and the facts take them, without regard to personal opinion, public opinion, friends, or foes.

Ask yourselves, is this an ideological nominee? Out of the mainstream? As I said before, only in the eyes of the well-funded environmental extremist groups who cannot stand the idea of a Ninth Circuit judge who might not buy into all of their propaganda.

Finally, Bill Myers would fill an Idaho seat recently vacated by an Idaho judge. While no Federal judge should represent anyone or anything but Federal law, to the extent the Ninth Circuit currently represents anything other than embarrassment and summary reversals, it represents President Clinton, who appointed 14 of its active 26 judges four during election year 2000 alone. And let me note, for the benefit of those who now say it is too late in an election year to confirm judges, that Clinton nominee and current Ninth Circuit Judge Rawlinson was confirmed to his position on July 21, 2000, in the last year of the Clinton administration.

Bill Myers was a successful advocate for people and causes that deserve representation just as much as any environmental activist group, or any liberal's pet causes. As the Interior Department's solicitor, Mr. Myers defended balanced policy solutions to difficult questions of how our public lands and natural resources in the west should be managed. His confirmation will help balance a very out-of-balance Ninth Circuit, as well as ensuring that Idaho maintains its only seat on that court. I hope my colleagues will join me in voting to confirm this good man to the Ninth Circuit.

We have heard from the other side about the mythical "Thurmond rule" and all kinds of other suggestions that judges should not be confirmed from here on, this late in a Presidential election year. I remember way back when, cases where we confirmed judges, Democratic nominees, Carter nominees, even after President Reagan had won the election. In fact, one of them is sitting on the Supreme Court of the United States of America.

I remember when my colleagues came to me back in the year 1980 and asked if I would be willing to support then-Harvard law professor Stephen Breyer for the First Circuit Court of Appeals. I have to say there were some Republicans who didn't want that to happen. But he had been a wonderful chief of staff for Senator KENNEDY on the Judiciary Committee. He was honest, decent, honorable, kind, worked well with both sides. He had all of the qualifications. There was no question about intelligence and ability. I led the fight to make sure he was confirmed. That was later in that year. There have been other cases as well.

It is wrong to set any arbitrary limits on when during the year the Senate can confirm judges. If a person is not qualified, that is one thing. But everybody we have brought to the floor has not only been qualified, they have been among the best nominees of my 28 years in the Senate. Mr. Myers is one of them. He is knowledgeable. He has held high-level positions in our Government. He has served with distinction. He has served well. He is one of the brightest people. He would represent Idaho in the only active seat Idaho would have. He certainly understands all of the problems in the intermountain West, an area where the Ninth Circuit Court of Appeals could use his knowledge. He is one of the top public lands and natural resource lawyers in the country.

He is a person of inestimable ability, great charm, decency, honorable ways, and capacity. He is a person who would have great temperament on the court. In other words, he is a person we ought to confirm. We should not get into these Mickey Mouse filibusters that fly in the face of the advise and consent clause itself, and which basically have cost the dignity of the Senate to a large degree.

Mr. President, I suggest the absence of a quorum and I ask unanimous consent that the time be equally divided.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. REID. What is the matter now before the Senate?

The ACTING PRESIDENT pro tempore. We are in executive session for Calendar No. 603.

Mr. REID. Mr. President, I ask unanimous consent that I be allowed to speak as in morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(The remarks of Mr. REID are printed in today's RECORD under "Morning Business.")

Mr. REID. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SESSIONS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. SESSIONS. Mr. President, I wish to speak on the William Myers' nomination to the Ninth Circuit Court of Appeals. He is a man of skill, a man with a proven record of public service, a man with a broad background in legal matters, a man perfectly suited to help improve the Ninth Circuit Court of Appeals, which has had an extraordinary number of problems in recent years.

William Myers has bipartisan support. He has had a distinguished legal career. Ranging from his service as a solicitor for the Department of Interior, the chief legal officer at the Department of Interior, to his extensive private practice at Holland & Hart, one of Idaho's most prestigious law firms, where he specialized in Federal litigation involving public lands and natural resource issues.

He served for close to 4 years on the staff of former Senator Alan Simpson as legislative counsel. Senator Simpson served for many years in the Senate. William Myers has also served as an assistant to the Attorney General in the U.S. Department of Justice and as Deputy General Counsel for Programs in the United States Department of Energy.

These are broad experiences, the kinds of experiences that will be most valuable to him as a Federal judge because many Federal cases involve relations and litigation affecting Federal agencies in matters of land, conservation, and energy. This is particularly true of the West.

He is qualified to serve. The American Bar Association, certainly not a conservative organization, has rated him qualified to serve, and he has won many plaudits from across party lines.

Cecil Andrus, former Idaho Democratic Governor, had this to say about Mr. Myers:

> He possesses the necessary personal integrity, judicial temperament, and legal experience, as well as the ability to act fairly on matters of law that will come before him on the court.

Mike Sullivan, former Democratic Governor of Wyoming and U.S. Ambassador under the Clinton administration, calls Mr. Myers a thoughtful, well-grounded attorney who has reflected by his career achievements a commitment to excellence. He would provide serious, responsible, and intellectual consideration to each matter before him as an appellate judge and would not be prone to extreme or ideological positions unattached to the legal precedence or the merits of a given matter.

That is a high compliment. I think it goes to the heart of what a judge is; that, yes, one can be active politically; yes, one can be a person who has public policy views about what America should do to make this a better country. But when the question is, when one comes on the bench, what is their philosophy about judging? How do they think about judging? What do they think the role of a judge should be? Do they think the role of a judge is to try to use the power of the robe, the power of the bench, to implement their political views?

Frankly, if people come up for a judgeship and have never been active in any way in public policy issues, I wonder if they are qualified. Surely, they ought to have some views about issues that come before this country and care about America and have spoken out on them. The question simply is, do they understand when they put on that robe they are not a politician. They are judicial officers required to interpret the laws of this country as best they can, to give plain meaning to the words of the statute and the Constitution and not to utilize that bench as a mechanism to impose their personal views on the people in their district or their circuit? Because, of course, Federal judges have lifetime appointments.

Some would think our Founding Fathers, if they made an error, it was when they gave one group of people, the third branch of our Government, unreviewable power. So we need judges who show personal restraint, and that is Judge Myers' judicial philosophy. Frankly, it could be utilized on the Ninth Circuit to a great degree.

Some have questioned his commitment to environmental issues, even called him anti-environment. His record indicates otherwise. In fact, he is most knowledgeable and skilled in these areas. He has been a leader in the American Bar Association's Section on Environmental Energy and Resources and has served as vice chairman of the ABA's Public Lands Committee.

Now, as my colleagues know, the ABA is certainly not a right-wing organization, but they have rated him qualified. They know him. He has been active in their issues in a professional and legal manner, not in a partisan way but on the American Bar Association committees.

He has done a number of things such as settling a big case on behalf of the Government against the Shell Oil Company for flaring and venting natural gas in the Gulf of Mexico. They had to pay $49 million as a result of that settlement. An environmental group sought Mr. Myers' aid to protect Atlantic salmon and 10 other species of native fish in a dispute over removing two dams on the Penobscot River.

At the end of the day, the Myers' settlement allowed a dramatic increase in raising the population of these fish and the environmental groups called the agreement "the biggest restoration project north of the Everglades."

He understands environmental issues. He understands legitimate concerns about the American environment, the need for us to make sure that the environment is protected and that the law is followed. I hope, however, he is not one who believes the environmental laws the Congress has passed, some of them somewhat complex, can be twisted around and utilized as a weapon to further a personal political environmental agenda. I do not believe that is his idea.

From what we have seen from some of our Federal judges, too often in the Ninth Circuit, that is how they have acted.

Some have expressed concern about this nominee being one who is from the West. He understands the Government lands issue. He has served on ABA committees and served in areas of the Government that have dealt with those issues. He is knowledgeable on environmental issues and other issues that are important to that region of the country in which he is called on to serve. Now, what is wrong with that?

I am sure we have Members of this body from Massachusetts out on Martha's Vineyard, and they would like to tell everyone that if someone is a member of the Cattleman's Association and a lawyer for them, that person cannot be trusted, they do not understand what life is about, they are not committed to the environment; you know, the cows eat grass, and it is not helpful, that kind of thing.

Mr. Meyers is a nominee who has a record of adhering to the law. I have no doubt he will be a fine judge, and he deserves to be confirmed.

I think it is important that we take a minute to say this: If we get a judge who is committed to the rule of law, committed to showing restraint, committed to the judicial philosophy that a judge ought to follow the law and not make it, where better should they be sent than the Ninth Circuit Court of Appeals?

I will share some thoughts about that circuit. Politically, let's just say that party affiliation should not affect a judge's ruling, but to those who say this man is conservative, he is a Republican, and he ought not be confirmed, let me point this out about the Ninth Circuit: Of the 26 active judges, 17 were appointed by Democratic Presidents. Only 9 are Republican appointees. A remarkable 14 of the 26 judges, 54 percent, over half were appointed by President Clinton alone. In the year 2000, a Presidential year, President Clinton appointed four judges to this court. The last year in office, he appointed and we confirmed four judges to this court.

Of course, it is the biggest circuit in America and having quite a bit of difficulty, frankly. It needs some help, and we need to see in what kind of bipartisan way we can work to improve this Ninth Circuit. We need some rule of law balance on this court. I believe that Mr. Meyers will provide that.

I will go on. The Ninth Circuit has established a pattern of issuing the most activist decisions in the country. On one day earlier this year, the U.S. Supreme Court reversed three decisions from the Ninth Circuit. The Supreme Court ended its 2003–2004 term having reversed the Ninth Circuit in 81 percent of the cases appealed from it.

As the Presiding Officer knows—and I see Senator CORNYN from Texas, who is a former attorney general and a member of the Texas Supreme Court, who would also know—the Supreme Court of the United States can only hear a small fraction of the cases that come from the entire United States. They can hear only a small fraction of the cases that are appealed from the Ninth Circuit, and they reversed them 81 percent of the time. That means hundreds and perhaps thousands of other litigants in California and the West did not have their cases heard by the Supreme Court. Perhaps they, too, would have been reversed had they been heard, but they are stuck with the Ninth Circuit as the final court that ever heard their case.

The Ninth Circuit has established a pattern of issuing the most activist decisions in the country. I will give some more examples.

During the last decade, in the last 10 years, the Ninth Circuit has reversed death sentences at an increasingly high rate.

The Supreme Court has affirmed the legality of the death penalty in America, and Congress and States like California and other States in the West have it, as does my home State. But they are being reversed at an increasingly high rate which moves it out of step with the other circuits in America. While all the other circuits uphold approximately 80 percent of death penalty convictions, the Ninth Circuit has gone the other way, reversing a majority of convictions in most years, and approximately 80 percent of the convictions over the last 3 years.

I served as a prosecutor for most of my professional career—almost 17 years. An 80-percent reversal by the Federal court, which is simply to review the State court's decisions to see if fundamental Federal principles have been violated, is a stunning statistic. So I say, if Myers has a little different view of these things, we need him in a hurry on the Ninth Circuit.

Most recently, in September of 2003, an 11-judge en banc Ninth Circuit panel ruled 8 to 3 that the U.S. Supreme Court's decision in Ring v. Arizona, which held that capital defendants have a constitutional right to a jury determination of the facts supporting their death sentences, applies retroactively to over 100 death row inmates who were sentenced by judges. Of the 11 panel judges—I want to point this out, how this circuit is made up—of the 11 judges on this panel, one was appointed by a Republican President.

Fortunately, the U.S. Supreme Court reversed the Ninth Circuit's decision, but such lack of balance on that court has produced the almost tiresomely predictable set of results. The balance I speak of is rule of law balance, not conservative versus liberal balance.

In 2001, the Ninth Circuit acted to invalidate an application of California's three-strikes law as a violation of the eighth amendment's protection against cruel and unusual punishment, a decision fortunately overturned by the U.S. Supreme Court.

It would be funny, if it were not so serious.

There is no doubt that the rather significant decline in criminal activity in America today is driven by tough sentences and things like California's "three strikes and you are out" laws which have sent repeat offenders off to jail for longer periods of time. It has saved the lives of hundreds, thousands of Californians who would have been murdered by some of these people, much less raped, assaulted, had their homes vandalized and burglarized, their automobiles stolen, and drugs sold in their neighborhoods. This law was struck down by the Ninth Circuit.

Fortunately, it was reversed by the Supreme Court. The Ninth Circuit opinion, of course, was authored by Clinton nominee Richard Paez, who came through here and was confirmed in this Senate several years ago. I opposed his confirmation.

The Ninth Circuit, then, after the Supreme Court reversed the decision, only implemented the reversal of through a divided panel. After the Supreme Court told them what to do, the panel still divided, with Judge Reinhardt, the epitome of judicial activism in America, upholding the defendant's sentence only under the Supreme Court "compulsion," he said. And Judge Pregerson stated that "in good conscience" he could not follow the Supreme Court's decision.

This kind of contempt and disrespect for the U.S. Supreme Court is a matter of concern, of real concern. What is not a matter of concern is that Mr. Myers represented the Cattlemen's Association and understands land issues in the West. That is what we need on this court, some respect for law.

The Ninth Circuit reinstated in another case a claim by a prisoner who had been convicted of making terrorist threats and sentenced to 100 years to life. They ruled he had a constitutional right to artificially inseminate his wife from prison via overnight mail. The en banc Ninth Circuit reversed the decision over the dissents of four Clinton appointees, including Marsha Berzon and Richard Paez, who I voted against, but I voted not to filibuster, to bring them out so they could get an up-or-down vote in this body. My suspicions about their activist nature have been confirmed in case after case, unfortunately.

In 2002, the Ninth Circuit struck down Alaska's Megan's Law, a sex offender notification law. Both plaintiffs in the case had been convicted of sexual abuse of a minor. Judge Reinhardt's opinion was joined by Clinton nominee Sidney Thomas and Carter nominee Dorothy Nelson. The Supreme Court reversed their decision 6 to 3. Many of those cases have been reversed by the Supreme Court 9 to nothing.

The Ninth Circuit infamously declared the Pledge of Allegiance unconstitutional. The Ninth Circuit panel, including Stephen Reinhardt, ruled the Pledge of Allegiance unconstitutional because it contained the word "God." The en banc court later refused to reconsider the ruling and the case thankfully was reversed earlier this summer on summary grounds by a unanimous Supreme Court.

The Ninth Circuit ruled that California State courts erred as a matter of State law when they found that a defendant, convicted of selling cocaine, had failed to present sufficient evidence to warrant a jury instruction on entrapment.

This is a Federal court sitting in review of an oversight of a State court ruling. They are State judges, by the way, who are sworn to uphold the Constitution and sworn to uphold the laws of the State of California. Judge Susan Graber, writing in dissent, faulted the majority for failing to adhere to the proper standard of review of State court decisions. She noted that:

> [t]he Supreme Court of the United States has just chastised this court, in the strongest possible terms, for substituting our judgment for that of a state court on matters of federal law. . . . We have even less justification for substituting our judgment for that of a state court on matters of its own state law.

I am pleased that one justice spoke up there.

There are quite a number of other cases I could mention. I will not go into them. Actually, there are quite a number of others.

I will say this. This judge has the "qualified" rating by the American Bar Association. He has had broad public experience. He has had private litigation experience with a good law firm in Idaho and in the West and back here in Washington. He knows what he is doing. He has bipartisan support, Democrats and Republicans. He is a person who is qualified and should take this position. But we have a small group who thinks these people in the South, they put judges up who want to turn back the clock. They believe we have nominees, if they come from the West and represent the Cattlemen's Association, that they do not believe in the Constitution, they don't believe in the environmental laws. It is a conceit of the elites. It is not correct. This judge is committed to following the law. He would be a wonderful addition to a circuit that is in serious trouble today and needs some reform and needs some judges with good skills, a commitment to the law, common sense, personal integrity, and a willingness to follow the Supreme Court rulings whether they agree with them.

I yield the floor.

The PRESIDING OFFICER (Mr. SUNUNU). The Senator from Texas.

Mr. CORNYN. I will ask unanimous consent I be permitted to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The remarks of Mr. CORNYN are printed in today's RECORD under "Morning Business.")

Mr. DEWINE. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. ENZI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ENZI. Mr. President, I rise in support of the nomination of my good friend, William G. Myers III. I recommend him highly, and I believe the United States Senate should approve his nomination to serve as a judge on the Ninth Circuit Court of Appeals. He has earned that position by his dedication and a remarkable record of service to the country and to our legal system.

I am concerned we won't hear about his impressive record, however, I am afraid we are going to hear a lot of needlessly harsh rhetoric about Bill being a radical who has only represented extreme conservative interests during the course of his outstanding legal career. That isn't the truth, of course, but it does make for good soundbites and unfortunately, that is often what is promoted as the truth.

The truth is that Bill is not a radical extremist, nor does he have a political agenda that he is trying to pursue in agreeing to be nominated for the Ninth Circuit. A radical judge would be one who is intent on making extreme, sweeping changes in the political and social make up of the west. A radical judge is someone who stands out as being significantly different from the community he represents, who pursues his ideology regardless of its impact on those affected by his actions, and who doesn't care if his actions do not represent the interests of the people he serves.

No, Bill is not a radical for he is none of those things. In fact, he is quite the opposite. He is someone who has lived and worked with the people of the West. He knows them, respects them, and he understands the demands they face every day as they try to make a living. He knows their dreams and he shares their values. He is looking to serve on the bench to make life better for them and for all those in the West who will be affected by his decisions.

It is unfortunate that this is an election year. Any other year and we would see Bill for who and what he is. We would see him, not as a radical, but a typical Westerner who has a well established and outstanding reputation for his work representing the West.

Who else shall we appoint to the Ninth Circuit to truly represent the typical West? I believe it would be very safe to say that the Ninth Circuit Court is made up predominantly of judges who are sympathetic to radical agendas with very few if any of them representing the hardworking miners and ranchers who have for generations made up the backbone of the Western economy.

Of the 26 active judges on the Ninth Circuit Court, 17 were appointed by Democrat presidents. Only 9 judges are Republican appointees. A remarkable 14 of the 26 judges—54 percent of the court—were appointed by President Clinton. In 2000 alone—a presidential election year—President Clinton appointed four judges to the court.

The Ninth Circuit has established a pattern of issuing the most activist decisions in the country. In one day earlier this year, the U.S. Supreme Court reversed three decisions from the Ninth Circuit, and the Supreme Court ended its 2003–2004 term having reversed the Ninth Circuit in 81 percent of the cases appealed from it. Needless to say, that's not a good record. That means, in every five cases that were appealed, the Supreme Court ruled that these judges got it wrong 4 out of every 5 cases. Worse still, this was an improvement over their embarrassingly high reversal rate over the past several years—86.5 percent since 1998. This trend is likely to continue unless we help correct the situation by confirming good, honest judges who respect the Constitution and Federal law. Judges who will bring some balance to the Ninth Circuit equation.

Why do they call Bill a radical? If you examine his record, you will see that he represents and understands those under the jurisdiction of the Ninth Circuit Court—the average person in the West who relies more on common sense than complicated legal arguments to determine right from wrong. That ought to erase that label. But, for some reason, it doesn't. Could the placing of this label on this good, fair, honest, and decent individual be another ploy at politicizing this nomination for the sake of obstruction?

Most of the Judges on the Ninth Circuit Court come from the Circuit's most populated States, such as California. The other States that make up the Ninth Circuit, such as the State of Idaho, are allowed only one judge. Right now Idaho's seat is vacant. Will Idaho only be allowed representation on the court when it has a nominee from California?

We begin every session here in the Senate with the Pledge of Allegiance. We join together to say those special words. As we do, I know that my colleagues, on both sides of the aisle, say those words with a firm heartfelt commitment to this country and that they mean every word of pledging their allegiance to the flag and to this Nation. But I have to wonder if they haven't forgotten the meaning of all the words in the pledge when they take a hardline stance like this against a fully qualified nominee.

The last six words of the Pledge of Allegiance, "with liberty and justice for all," mean that we do not preserve justice or liberty for a few people, or for most of the people, and leave a few, or even an individual, behind. It means we have justice for all, for everyone, and that we don't make exceptions because they come from a State that doesn't have as many people as California, or may not be as liberal as California.

In fact, this is one of the situations that the courts were created to protect—the rights of each individual. I think it is a little ironic that there are those here in the Senate that would be willing to withhold justice and rights from some people, in this case the average, hardworking people who make up the population within the Ninth Circuit just because those individuals don't share their political philosophy.

I hope we will do the right thing by Bill Myers.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. ENZI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will now return to legislative session.

MORNING BUSINESS

Mr. ENZI. Mr. President, I ask unanimous consent that there now be a period of morning business for debate only, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

ENERGY POLICY

Mr. REID. Mr. President, this is a time when American families take their vacations. I can remember as a young man working in a service station in Las Vegas and Henderson. This was a busy time of the year. It was always interesting to see the cars loaded with kids going every place. Even today, these many years later, families still drive. This summer, although the price of gas is not quite as high as it was a few months ago, it is still near record levels in many parts of the country, including the State of Nevada. Every time a family stops for gasoline, it is a reminder that our country needs reliable sources of energy that are not subject to wild price swings.

Every time we see a scene from the Middle East on TV news—and that is often—it is a reminder that our Nation depends too heavily on oil from that volatile region. Every time a parent tells a child with asthma that he cannot play outside because the air is unsafe, we are reminded that fossil fuels do tremendous harm to our environment and to ourselves.

Our Nation desperately needs a new energy policy, one that protects consumers, safeguards our environment, and makes us stronger by reducing our dependence on Mideastern oil. We cannot create an energy policy for the future by simply repeating the past. We need new ideas. We need some new approaches.

We use about 25 percent of the oil that is produced worldwide, but we only have less than 3 percent of the proven oil reserves in the world, including ANWR. So it is a cinch we cannot drill our way out of the problems we have dealing with the production of fossil fuel. We need to remember the words of Benjamin Franklin who said a penny saved is a penny earned. In the case of oil, a barrel saved is better than a barrel drilled and consumed. Why? Because it does not pollute the air or contribute to global warming.

After the Arab oil embargo of 1973, our Nation got serious about conserving oil. By 1990, less than 20 years later, our vehicles were using about 40 percent as much fuel as they did in 1973. We can do this again.

America's talented engineers and scientists can still design vehicles that save fuel without sacrificing safety if we make conserving oil a national priority. We have to do a better job of conserving oil and we have to develop new sources of energy that are clean and reliable.

Again, we in America are fortunate because this great land of ours is blessed with an abundance of clean, renewable energy sources. We can harness the warmth of the Sun, the power of the wind, and the heat within the Earth. All it takes is good old American ingenuity, and a little bit of incentive but we should be clear. For decades we have provided subsidies and tax breaks for the big oil companies. Today we need some incentives to help spur production of renewable energy.

I have been in Congress a long time, and I know how things work. It takes time to get things done. I try to be very patient, but when we not only fail to make progress on an important issue but actually move backward instead of forward, then I think an alarm must be sounded, and that is what has happened on renewable energy. Instead of making progress, we seem to be taking steps backward.

Over the last 15 years, wind power has been the fastest growing source of renewable energy, thanks to the section 45 production tax credit. This incentive spurred billions of dollars of investment in new technology. As a result, wind energy has become increasingly cost effective and it provides jobs and electricity. In parts of the Midwest, some farmers make more money producing electricity from wind turbines than they do selling their crops.

I worked for years to expand this incentive to other forms of renewable energy, especially solar and geothermal power. But instead of expanding the tax credit that has been so successful in promoting wind power, we have allowed it to expire. It is hard to believe but it is true. This seems crazy. It is like allowing insurance on one's home to lapse for failing to properly maintain a vital piece of equipment, equipment that is used every day.

The tax incentive for wind energy expired 31 December 2003. We need to restore it as soon as possible, and we need to extend it to solar, geothermal, and biomass energy.

I was encouraged that the FSC bill passed by the Senate last month contains these section 45 production tax credits. That is great work by Senators GRASSLEY and BAUCUS, and I have told them personally how much I think they have the right idea of what it is going to take to help this country from an energy perspective.

Unfortunately, the companion House bill would only extend the production tax credit for wind. We are beginning to see again, as we always do, the powerful interests of the oil companies who want all the subsidies, but we now have another chance to get it right because this bill is going to conference. That was agreed last week. We must not squander this opportunity. We must get back on the path to renewable energy and energy independence.

America, our Nation, is blessed with abundant renewable energy resources, especially in the western part of the United States. Last month, the Governors of nine Western States, including Nevada, formally signed a plan that commits the region to developing 30,000 megawatts of electricity. That is about 15 percent of current demand from renewable sources by the year 2015, which is going to be soon.

I applaud their determination. I applaud their vision. They know that developing renewable energy is not only good for consumers and the environment but also for creating jobs.

Because renewable energy is "Made in the USA," it can reduce our dependence on oil from the Middle East. Many Western States have already adopted renewable portfolio standards requiring a fixed percentage of energy sold in-State come from renewable energy resources. As we speak, 13 States have set these goals, and the number will increase.

I am happy that Nevada has adopted one of the most aggressive renewable portfolio standards of any place in the country. It commits the State of Nevada to produce 15 percent of our electricity from renewable sources by the year 2013. A goal had been set of 5 percent by the end of 2003. We didn't do that. We could have. We didn't. There were a number of reasons. One was there was uncertainty about whether the tax incentive for wind power would be extended or expanded to solar and geothermal power. The other reason is utilities in Nevada and other Western States are still reeling, they are in bad shape, from the western energy crisis of 2000–2001, when Enron and other traders manipulated the energy market to jack up prices for no reason other than to generate obscene profits. Because of the exorbitant contracts with Enron, the State of Nevada's utilities are near bankruptcy. As a result, companies that want to develop renewable energy and sell it to these utilities have not been able to attract the investment they need. The investment community evaluates renewable energy projects based on the strength of long-term purchase agreements between the proposed facilities and the local utility, but if the utility is in trouble, investors shy away.

To address this problem, Kenny Guinn, the Governor of Nevada, will ask the legislature which meets next year to create a temporary renewable energy development trust that will provide some protection to renewable energy power plants if our utilities file for bankruptcy.

We need action at the Federal level also. The Federal Energy Regulatory Commission, referred to as FERC, must provide relief to utilities and ratepayers in Nevada and other Western States. FERC needs to act, and now, to vacate the exorbitant contracts of the energy crisis. We know that two of the FERC Commissioners were recommended by Kenny Lay, the Enron CEO, who was a major contributor of the President's campaign, and the President referred to him as "Kenny Boy." These Commissioners should either step down or clean up this mess. I am happy to report that Kenny Boy is now under indictment.

Our Nation must have energy markets that function properly. We must have incentives to develop our clean, renewable energy resources, and we must apply American ingenuity to do a better job conserving energy. These are critical steps toward the kind of farsighted energy policy this country needs. These steps will protect consumers, they will safeguard the environment, and they will make our Nation stronger by moving us closer to energy independence.

SUPPORTING U.S. EFFORTS IN IRAQ

Mr. CORNYN. Mr. President, on July 7, 2004, the Senate Select Committee on Intelligence issued an important report regarding flaws in our prewar intelligence on Iraq. Last week, Lord Butler issued a similar report on British intelligence. In a related vein, the 9/11 Commission will issue its report this Thursday.

Each of these reports either already has, or no doubt will, shed light on how we can improve our ability to protect this country and our allies from future terrorist attacks.

Coming almost 3 years after 9/11, it is important to note that many reforms have already been implemented by Congress and the administration without waiting on a committee or a commission report. Still, the recommendations of each of these reports ought to be carefully considered and debated by Congress.

If this were not a Presidential election year, we might be able to even undertake this important work without playing the blame game in order to score political points. My hope is that we will, to the extent humanly possible, strive to do so. If not, we risk politicizing the process to the detriment of long-term solutions to our intelligence problems.

Some have used the occasion to criticize our Nation's policies in Iraq and the broader war on terror. Some say, on the one hand, that our leaders did too little before 9/11 to stop the horrible events of that day. Some say, on the other hand, that our leaders did too much in removing Saddam based in part on the remarkable clarity that comes with 20/20 hindsight.

I did not say, and consciously so, President Bush's policies but, rather, our Nation's policies because our policies in Iraq and in the broader war on terror have generally been a consensus policy authorized by the Congress and ultimately implemented by President Bush. In fact, the policy of regime change in Iraq was shared by the Clinton and Bush administrations and is now being criticized for political gain by some who voted for those very policies.

It is important that we set the record straight. The Senate Intelligence Committee report in particular directly rebuts some of the more outrageous claims that administration officials, including the President himself, intentionally misled the American people. Indeed, due to systemic flaws in our intelligence apparatus, it appears that it was the administration itself that was misled to some extent. But that does not mean we were wrong to remove Saddam Hussein from power. There were many good reasons for the regime change in Iraq in addition to those which have at least so far turned out to be mistaken.

There is no question that the world is better off with Saddam Hussein in a prison cell instead of remaining in his royal palaces. There is every reason to believe he is precisely where he belongs.

When the Senate voted overwhelmingly on a bipartisan basis in October 2002 to authorize military force to defend the national security of the United States and enforce all relevant United Nations security council resolutions, the resolution this body passed noted that Iraq, in 1991, entered into a United Nations-sponsored cease-fire agreement pursuant to which Iraq unequivocally agreed among other things to eliminate its nuclear, biological, and chemical weapons programs and the means to deliver and develop them and to end its support for international terrorism.

That resolution also noted that the efforts of international weapons inspectors, U.S. intelligence agencies, and Iraqi defectors led to the discovery in 1991 that Iraq had large stockpiles of chemical weapons and a large scale biological weapons program and that Iraq had an advanced nuclear weapons development program that was much closer to producing a nuclear weapon than intelligence reporting had previously indicated.

That resolution also said that Iraq in direct and flagrant violation of the cease-fire attempted to thwart the efforts of weapons inspectors to identify and destroy Iraq's weapons of mass destruction and development capabilities which finally resulted in the withdrawal of inspectors from Iraq on October 31, 1998.

That resolution went on to note that the current Iraqi regime at that time under Saddam Hussein has demonstrated its capability and willingness to use weapons of mass destruction against other nations and against its own people.

Iraq continues to aid and harbor other international terrorist organizations, including organizations that threaten the lives and safety of U.S. citizens.

It was on this last point that Acting Director of Central Intelligence John McLaughlin said just yesterday in an interview:

> We could, through intelligence reporting, say with some credibility that there had been meetings between senior Iraqi officials and Al Qaida officials. We could also say that there had been some training that had flown back and forth between the two sides. And we could say that there was some degree of safe haven that Al Qaida-related people had obtained in Iraq for a variety of reasons. We could also say with some assurance that operating from Iraq, someone like Abu Musab Zarqawi had arranged the assassination of an American diplomat in Jordan.

Saddam dared the United Nations Security Council and the free nations of the world to act and act we, the coalition, did. Congress expressly recognized in the authorization it gave President Bush that "the attacks on the United States of September 11, 2001, underscored the gravity of the threat posed by the acquisition of weapons of mass destruction by international terrorist organizations."

We knew that Saddam had them but we did not yet know what he did with them. Why he kicked out United Nations weapons inspectors in 1998 and never accounted for them, all the while defying resolution after resolution of the United Nations Security Council we may never know for sure.

I once thought that no one would question whether America was safer and that the Iraqi people are better off without Saddam but some, during this political season, have come awfully close. Put another way: Does any reasonable person truly believe that America and Iraq were better off with Saddam Hussein in power? Surely not. Surely not. But you simply can't have it both ways. You must choose, and choose we did.

I believe the Senate made the right decision in supporting our efforts in Iraq to remove Saddam Hussein from power. Nothing we learned since then has changed my mind. It has been our official consensus policy since 1998 under both Presidents Clinton and Bush, under both Democrat and Republican leadership in the Senate. For example, in the Iraq Liberation Act of 1998, we said:

> It should be the policy of the United States to support efforts to remove the regime headed by Saddam Hussein from power in Iraq and to promote the emergence of a democratic government to replace that regime.

Everyone, Republican and Democrat, knew that the dictatorship of Saddam raised the prospect of a dangerous and irrational government in the Middle East. Everyone knew that the Iraqi people were living under a brutal and murderous tyrant. And at that time everyone knew that Saddam was armed with weapons of mass destruction.

It was in a speech to the Joint Chiefs of Staff and the Pentagon staff generally that President Clinton eloquently described the consequences of inaction. He said:

> What if [he] fails to comply, and we fail to act, or we take some ambiguous third route which gives him yet more opportunities to develop this program of weapons of mass destruction. . . . He will then conclude that he can go right on and do more to rebuild an arsenal of devastating destruction. And some day, some way, I guarantee you, he'll use the arsenal.

That was President Clinton in 1998.

Our intelligence community told us before the Iraq war that Saddam Hussein had weapons of mass destruction programs—chemical, biological, and possibly nuclear. Now in the past, in 1991, our intelligence had sometimes underestimated Saddam's capabilities; so there was no question that there was reasonable cause for concern for an armed Saddam, ready to lash out, without warning, against Israel, Kuwait, or other countries in the region. We also feared that because of his hatred for America, Saddam might give the weapons he was developing to terrorists for whom he provided sanctuary. These concerns were nearly universally shared, as articulated in the quote I read from President Clinton.

At the outset of our military operations against Iraq in December of 1998, President Clinton described the risks of leaving Saddam in power. He said:

> The hard fact is that so long as Saddam remains in power, he threatens the well-being of his people, the peace of his region, the security of the world. The best way to end that threat once and for all is with the new Iraqi government, a government ready to live in peace with its neighbors, a government that respects the rights of its people.

Again, a statement by President Clinton in 1998.

We should all be glad Saddam Hussein is out of power. Iraq's fledgling government is taking the first steps toward freedom and democracy. Neither we nor they have to fear Saddam's regime cooperating at any level with al-Qaida or other terrorists who wish to do violence against the American people or our allies. But it is also true that the weapons programs we found in Iraq were not what our intelligence information predicted before hostilities broke out in 2003. Saddam Hussein had the capability and the raw resources to do many things, but he did not at that time have the fully operational weapons systems we believed he possessed.

So why, it is logical to ask, did we have this problem with our intelligence? We know, as the unanimous, bipartisan report of the Select Committee on Intelligence said, that despite the insinuations of administration critics, the intelligence we had was not rigged or interfered with in any way. The same conclusion was echoed by Lord Butler's report in Great Britain which found no evidence of deliberate distortion of the intelligence material or of culpable negligence. It is clear that any such allegations to the contrary are baseless, partisan, and have no foundation in the truth.

The Select Committee on Intelligence of the Senate found in conclusion 83:

> The Committee did not find any evidence that Administration officials attempted to coerce, influence or pressure analysts to change their judgments related to Iraq's weapons of mass destruction capabilities."

In conclusion 84, the Senate Select Committee on Intelligence said:

> The Committee found no evidence that the Vice President's visits to the Central Intelligence Agency were attempts to pressure analysts, were perceived as intended to pressure analysts by those who participated . . . Or did pressure analysts to change their assessments.

And in conclusion 102:

> The Committee found that none of the analysts or other people interviewed by the Committee said that they were pressured to change their conclusions related to Iraq's links to terrorism.

How did we get here? How did we know that Saddam had these weapons of mass destruction, defied resolution after resolution of the U.N. Security Council, defied every request that he open his country to U.N. weapons inspectors and reveal what he had or, we might say, what he no longer had?

Consider in 1993 we saw the first successful terrorist strike by radical Islamists on U.S. soil—a car bomb that exploded in the basement garage of the World Trade Center, killing 6 and wounding 1,000. Then in 1996, there was another attack on the Khobar Towers barracks in Saudi Arabia, killing 19 Americans and wounding 515 Americans and Saudis. In 1998, the United States embassies in Kenya and Tanzania were attacked by al-Qaida suicide bombers who killed 234 people and wounded more than 5,000. And in 2000, al-Qaida attacked the USS Cole, killing 17 American sailors and wounding 39.

It was during these same years that Congress made dramatic cuts in funding for the Government agencies most involved in the fight against terror, particularly the Central Intelligence Agency. These cuts were significant, including letting go nearly 40 percent of those recruited to spy for America's interests. The number of officers in the clandestine service was downsized by roughly 25 percent and nearly one-third of our overseas offices were shut down. All of these cuts seriously hampered the intelligence community's ability to monitor and analyze the rising threat posed by terrorism. Again, Acting Director of the Central Intelligence Agency, John McLaughlin, said yesterday, because of these cuts, we were almost in Chapter 11 in terms of our human intelligence collection. This much seems clear: Our early warning system was blinded by a self-inflicted wound.

There is simply no way that President Bush's administration could have filled all the holes of an underfunded and demoralized intelligence community in a mere 8 months after it had been dismantled systematically and deliberately during the preceding years. So when President Bush came to office, he inherited an intelligence community that was ill prepared to meet the challenges of the war on terrorism.

We should not make this merely a game of election year "gotcha." We must debate the causes of our intelligence flaws in a way that commands the confidence of the American people and in a way that makes them safer and freer. We must also remain committed to our task in Iraq, to finishing that task and not allow election-year politics to create a climate that undermines the morale of our brave troops in the field.

Let us finish the task we have undertaken in good faith and with the noblest of aspirations on behalf of free people around the world. Let us not let partisan politics lead us into the trap identified by Winston Churchill when he said:

> Nothing is more dangerous in wartime than to live in the temperamental atmosphere of the Gallup Poll, always feeling one's pulse and taking one's temperature.

September 11 forced the civilized world to realize that the terrorist foe we had been fighting for years sought a more deadly goal than we ever suspected. Once Congress and the administration came to grips with the horrible truth of this new breed of terrorism, we knew what had to be done. We knew we had to take action. Under President Bush's leadership, we resolved that our aim was to defeat terrorism as a threat to our very freedom and our very lives.

Nor could we achieve our aim merely by maintaining a defensive posture. Fighting terrorism on American soil is not enough. That is merely a holding pattern and a capitulation of our responsibility. When it comes to confrontation with terrorists, we must either change the way we live or we must change the way they live. We chose the latter, and I believe we chose wisely. It is a policy of action rather than inaction, and one clearly warranted by the new reality of our post-9/11 world.

Mr. President, I yield the floor.

HONORING OUR ARMED FORCES

ARMY PRIVATE FIRST CLASS GAVIN NEIGHBOR

Mr. DEWINE. Mr. President, I rise this afternoon to honor and remember a young man from Somerset, OH. I rise to honor Gavin Neighbor, a soldier who gave the last full measure of devotion to our Nation on June 10, 2003. On that date, Gavin was killed by a rocket-propelled grenade while serving in Iraq as part of Company C, 3rd Battalion, 325th Infantry Regiment, of the 82nd Airborne Division. At the time of his death, Gavin Neighbor was 20 years old.

When Gavin Neighbor was killed, Marisa Porto, who at the time was a journalist with the Zanesville Times Recorder, had a very difficult time writing about Gavin. She struggled to write about his life and his death because she said she knew she had to balance the reporting of the news with the personal connection she felt knowing that someone so young from her own community had just been killed. She managed, though, to find the right words and wrote the following:

> My thoughts [are] simple. Gavin Neighbor's family won't get the chance to see his wedding announcement in his newspaper. They won't ever have the opportunity to see his son's birth announced in this newspaper. These next few days may be the last time his name is ever published in this newspaper. . . . So, let's give him the homecoming he deserves.

Mr. President, Members of the Senate, since his death, I have learned that Gavin Neighbor, in his all-too-brief 20 years on this Earth, did, in fact, live life fully. He was an outgoing, determined young man, who felt great love and affection for his family, for his fiancee, his friends, and his country.

Gavin was born in Newark, OH, on November 25, 1982. He graduated from New Lexington High School in 2001, where high school friends described him as dependable and fun loving. Gavin was a gifted artist. He had a signature piece: a drawing of a dragon. His friends say he would draw that dragon anywhere, anytime.

He loved to draw, and he was good at it. According to his high school art teacher, Jody Bowen:

> Gavin would work on projects on the side, after his classwork was done. I saw something more in him. . . . He certainly impacted my life. I feel fortunate I met him and got to know him.

Equal in his devotion to art, Gavin was committed to serving his country and making his family proud. Gavin had a strong sense of duty and a strong sense of family. He was always trying to take care of others and protect others. That is part of what compelled him to join the military. He wanted to follow in the footsteps of several relatives. Like them, he wanted to protect his family and his friends and his country. So after his high school graduation in 2001, Gavin enlisted in the U.S. Army.

According to Gavin's grandmother, Gladys Hykes:

> He was wonderful. He loved the service. That was his goal.

Gavin planned to make a career for himself in the military, aspiring to join an elite Ranger battalion. He was well on his way toward achieving that dream. Gavin earned his paratrooper wings and was known for performing, with ease, some of the most difficult airplane jumps. Known as a "Javelin Jumper," he would jump from planes while carrying part of an antitank missile system strapped to his leg. Upon receiving an award of recognition for this accomplishment, Gavin dedicated it to his parents and had his thanks to them engraved on the plaque.

Gavin loved his family very much. He had an especially strong bond with his mother Cathy. Oh, he loved her cooking. He loved to spend time with her. He wrote and called home often, and when he did he had simple requests. According to his mom, Cathy:

> I kept sending him letters and boxes. He wanted Kool-Aid and chips. And Copenhagen. He wanted Copenhagen. I didn't want to send it, but I did.

Gavin called home on February 13, 2003, to say his unit was leaving on Valentine's Day for Iraq. Soldiers only had an hour for family visits. Cathy and her husband Willie drove more than nine hours to visit one last time with Gavin. As Cathy said:

> All I knew was that I had to get there. I had to be there to hug him.

Many of his fellow comrades have said that Gavin Neighbor was the kind of soldier you wanted by your side—any time, any place. He was dependable. He was tough. He was a real leader.

Gavin was also known for his ability to make light of serious situations—an admirable quality in the face of war. While training in California, to humor his comrades, he would walk around flapping his arms like a chicken and then claim to be a dinosaur. During a punishing mountain hike, Gavin lightheartedly asked his leader, "Are we there yet? Are we there yet?" The other members of the platoon could not help but smile. As Sergeant Arthur Swartz said at Gavin's memorial service:

> When we were at our lowest, Gavin could turn the whole platoon around just by making a joke or saying something funny. . . . He was definitely the best, youngest soldier in my platoon.

Gavin's unique sense of humor did not cloak the fact that he was also a very hard worker and a very independent young man. Captain Todd Hollins, a chaplain with the 82nd Airborne Division, said that when he thinks of Gavin:

> I see a young man who chose to walk the road less traveled—a man who gave 100 percent, all the way, all the time. . . . I see a young man, one who cared about others more than himself, a man with a zest for life, who was willing to face his fears. . . . I see a volunteer, a bold spirit. I see a young man who was genuine in all regards.

Gavin Neighbor's dependability, commitment, and fun-loving attitude will never be forgotten. His life is an example for us all. Left to cherish his memory are his parents; his sisters, Roxanne Lewis and Tracy Neighbor; brother Willie Neighbor, Jr.; and Gavin's special friend—his fiancé, his soulmate—Rachel Sanderson.

Gavin Neighbor was just a good kid, who died too young. I think that Brigadier General Abe Turner, assistant division commander of operations with the 82nd Airborne, said it best:

> He quickly became a very important part of our band of brothers. We asked him if he'd be willing to pay the ultimate sacrifice, and he did. . . . He was our hero.

PATIENT SAFETY AND QUALITY IMPROVEMENT ACT

Mr. ENZI. Mr. President, I rise today to talk about patient safety. There is bipartisan legislation pending in the Senate that is absolutely critical to reducing health care errors and increasing health care quality. It is S. 720, the Patient Safety and Quality Improvement Act.

The HELP Committee reported this bill to the Senate in November of last year. It was approved in committee by a unanimous vote. It is past time for the Senate to vote on and pass this important legislation.

This patient safety legislation is an important step toward building a culture of safety and quality in health care. The Patient Safety and Quality Improvement Act would create a framework through which hospitals, doctors, and other health care providers can work to improve the health care quality in a protected legal environment.

The bill grants privilege and confidentiality protections to health care providers to allow them to report health care errors and near-misses to patient safety organizations.

The bill also allows these patient safety organizations to collect and analyze the data confidentially. After analyzing the data, patient safety organizations would report on trends in health care errors and offer guidance to providers on how to eliminate or minimize these errors.

Some of this takes place today, but much more information could be collected and analyzed if providers felt confident that reporting these errors did not increase the likelihood that they or their colleagues would be sued for honest mistakes.

This legislation would not permit anyone to hide information about a medical mistake. Under the bill, the lawyers still can access medical records or other information that would normally be recoverable in legal proceedings. However, the bill would ensure that the analysis of that information by patient safety organizations would take place on a separate track than in a protected legal environment.

Health care providers would be much more likely to share information about honest mistakes and how to prevent them if they have some assurance the analysis of their information will not result in a tidy package of information a personal injury lawyer could use against them in court.

Errors in medical treatment take place far too often today. Unfortunately, providers live in fear of our unpredictable and unfair medical litigation system, and this legal fear inhibits efforts to address the root causes of health care errors. Without appropriate protections for the collection and analysis of patient safety data, providers are unwilling to report mistakes and errors, which is one of the reasons health care quality today is not what it could be.

Litigation does nothing to improve quality or safety. The constant threat of litigation indeed stifles honest analysis of why health errors happen. This is one more reason why we need wholesale reform of our medical litigation system. We need to foster alternatives that restore trust between patients and providers and result in fair and reliable outcomes for both parties. We need to scrap the present system, not just cap it. Until we do so, we should take whatever steps we can to create an environment that protects the collection and analysis of patient safety data so providers can learn from their mistakes and the mistakes of others and prevent them from happening in the future.

The Patient Safety and Quality Improvement Act is one of these steps. Last week, our committee chairman, Senator GREGG, asked for unanimous consent that we move to consideration of this legislation in the Senate. This is the third time since November he has done so. Each time he has been blocked by our colleagues in the minority, even though the committee of jurisdiction was unanimous—you cannot get more bipartisan than that—in support for the bill.

My colleagues in the minority keep talking about problems with health care quality, as they keep on talking about the loss of American jobs. However, talk is cheap when their actions don't match their words.

If they are really so concerned about improving health care in our Nation, why would they object to a bill that would reduce errors and improve patient safety, particularly a bipartisan bill with unanimous committee support? If they are really so concerned about American workers and jobs, why won't they let a bill improving the Nation's job training system go to conference?

Another example of what is happening or not happening in the Senate: We have a bill, a bipartisan bill, that will help workers get back to work or find better jobs. This bill will equip our workforce with skills necessary for America to compete and succeed in the global economy. It reauthorizes and improves the Nation's job training that was created under the Workforce Investment Act. The Workforce Investment Act provides job training and employment services to more than 900,000 unemployed workers each year. Just like the patient safety legislation, this bipartisan bill passed out of the Health, Education, Labor, and Pensions Committee unanimously. We passed it on the Senate floor by unanimous consent last November. Remember, that is as bipartisan as you can get.

Where is the bill now? Well, it passed in the House, too. The House has a somewhat different version. When there is a different version between the House and the Senate, you normally would have a conference committee, and the conference committee would work out the differences so that both Houses could pass it again as a unified bill that would then go to the President to be signed. It has to be one bill that goes to the President, not two bills that go to the President. You have a conference committee to work those bills out.

Now, the House appointed a conference committee. It is a very simple task. You just figure out how many Members are going to be in the conference committee, and Members are chosen from both sides of the aisle in both Chambers to meet together to talk about the differences, to propose alternatives, to vote on those alternatives, and to come up with a compromise bill. Sometimes the compromise is taking all of one Chamber's bill and eliminating the other one. Usually it is somewhere in between.

The first excuse I heard on this Workforce Investment Act, which will train 900,000 people to do jobs they do not have now or definitely to have better jobs than what they might have now, with a particular emphasis on moving women into higher paying jobs was how bad the outsourcing is in this country. Yes, because we do not have trained workers to take those jobs at the present time. We hear about the wages in this country. Yes, because the people do not have the higher skills for which you get paid higher wages.

This bill would provide training for jobs we are having to send overseas right now or better paying jobs for American workers. We passed it unanimously. The House passed it. The House appointed a conference committee. We are not even allowed to appoint a conference committee, to get together and talk about it with the House. That is nothing final. It would have to be voted on again before it could be passed. There is an opportunity for a filibuster at that final point. Instead what we are getting is a filibuster at this point, a very subtle filibuster but nevertheless a filibuster.

If jobs are important, why aren't we doing this JOBS bill that was unanimously passed out of committee and unanimously passed on the floor of the Senate? A lot of opportunity, and it is passing by. I guess because there is a Presidential election, and it might help President Bush if there were more jobs. Actually, the only ones it would help, if there are more jobs, is the people getting those jobs. None of us ought to be stopping people from getting jobs or getting better jobs. We recognize that. That is why we passed it unanimously.

So where is that bill now? We can't get a conference committee appointed to resolve the differences with the House. There was enough trust in what I did in committee that it passed unanimously. There was enough trust when it came to the Senate floor that we passed the bill unanimously. The only thing I can see that has happened in the meantime is that we have gotten closer to an election. That should not happen in America. We teach people bad things about elections when we hold up important things such as workforce investment for jobs. If we really want to take care of jobs and workers in this country, we should appoint conferees for the Workforce Investment Act legislation.

I could run through a few more excuses that I have heard on this bill. One of the excuses was that we might put something in that would allow faith-based groups to participate in job training and, under that scenario, put in something that would allow them to not hire people who are averse to their religion.

Members may be surprised to find out that we already have statutes that do provide that churches, when they are involved in government work, can't discriminate, except they don't have to hire people who are averse to their religion. That would be a very small change if it made it in there at all, but we are not even allowed to get together and discuss whether that would make it in there for fear that maybe it would. Again, that is just an excuse for not passing the bill, an excuse to keep jobs from being created which would make the economy better and which would improve the President's chances of getting reelected. That is not how politics is supposed to work.

I have to say there is a difference between Republicans and Democrats on most of the big issues facing our Nation. If my colleagues in the minority want to bottle up legislation with which they disagree, that is their prerogative. But that is not what I am talking about. I am not talking about bottling up issues with which they disagree. We have members of the minority party holding up bipartisan bills that received unanimous approval in committee—that is where the patients safety bill is—and holding up conferences on a bill that received unanimous support on the Senate floor. That is where the workforce bill is.

The only logical conclusion I could draw to these roadblocks is based on politics, not policy, and that is a shame.

Right now, the Senate floor reminds me of the airspace above a busy airport. We have a number of bipartisan bills lined up for final approach, but our colleagues in the minority are holding those bills up and won't allow them to land. The tactics of my colleagues in the minority give new meaning to the term "holding pattern." That should not happen. There is going to be a crash.

It is time for our Democratic colleagues to break this holding pattern so we can pass bipartisan bills such as the Patient Safety Act and the reauthorization of the Workforce Investment Act. These are not only bipartisan bills, they received unanimous committee support. Let's set election politics aside for a moment. These are bipartisan bills, so no one party can claim credit for their passage.

The Patient Safety Act was introduced by the distinguished Senator from Vermont, Mr. JEFFORDS, who is the lone independent in the Senate. This bill is more than bipartisan. My distinguished Senator from Nevada, Mr. REID, suggested last week that we should approve the House-passed patient safety bill. He suggested we should take up the House bill rather than pass the Senate bill because Members of the House are the true experts on such complex legislation.

I wonder if my colleague's opinion would be the same on medical liability reform. After all, the expert legislators in the House have sent us some excellent legislation to reform our medical litigation system. Perhaps we should stop working on this in the Senate and approve the House bill, as he is suggesting we should do with patient safety.

I mentioned the Workforce Investment Act. The House passed that one. Their version is considerably more difficult, perhaps more conservative than the version I worked through with unanimous consent on this side, but if we are going to consider them the experts on patient safety, why don't we consider them the experts on workforce investment and take their version of the bill? We didn't do that on that bill.

No, the right way to do it is to pass the patient safety bill, hopefully, by unanimous consent over here because there is no dissension on it. The dissension is with what they are doing over on the House side. So we would go ahead and pass it, and then we have a conference committee, a conference committee in the old-fashioned style. Not this "let's preconference and give somebody on the minority side a veto right over anything that is done." That is a brandnew twist around here. What we have always done is appointed the conference committee, recognizing that there are majorities and minorities even on the conference committee, but that the point is to get the agreement between the House and the Senate. We will get that agreement between the House and the Senate, and will have better patient safety.

I hope our colleagues in the minority will agree to take 2 hours of their time to debate and vote on the bipartisan safety act. Two hours is not a lot of time. It is the least we can do on such an important piece of legislation. We have spent hour upon hour working on this bill in committee and crafting a bill that received unanimous bipartisan support. Let's spend 2 more hours on the Patient Safety Act so that we can improve the quality and safety of health care in America. I don't think that is too much to ask.

DEPARTURE OF REPRESENTATIVE C.J. (CHIEN-JEN) CHEN

Mr. ALLEN. Mr. President, a good friend of the Senate Taiwan caucus, Ambassador C.J. (Chien-Jen) Chen, will soon be leaving Washington, D.C., after having served for nearly 4 years here as Taiwan's principle representative. We are going to miss him very much. As chairman of the Taiwan caucus, I would like to bring special attention to his accomplishments for his country and his commitment to the advancement of freedom.

Ambassador Chen brought a wealth of experience to his job. He was first assigned to Washington, D.C. in 1971, and he spent most of his distinguished 37-year career promoting good relations between Taiwan and the United States. Over the years, he won many friends for himself and for his country. An eloquent speaker and polished diplomat, Ambassador Chen also has a reputation for being a "straight shooter." He was always prepared to provide an informed, balanced, and fair opinion on the complex relationship between Taiwan and the United States as well as the broad range of political, economic, cultural and other issues of common interest to our two countries.

Ambassador Chen's skill and determination as a representative of Taiwan have been made plain in many ways, but I want to mention one in particular. He has persistently pushed for Taiwan to have a role in international organizations. That is a real challenge, because Beijing opposes it at every turn, but Mr. Chen has pressed on. Owing in large part to his efforts, much progress has been made on these issues. During his most recent assignment in Washington, with U.S. support, Taiwan has acceded to the World Trade Organization and become our eighth largest trading partner. At the same time, Taiwan has also contributed greatly to U.S.-led international humanitarian efforts in places such as Afghanistan and Iraq, and it has cooperated with the United States in fighting proliferation, terrorism, and money laundering in Asia.

All these matters required intensive communication and coordination, and we were lucky to have someone like C.J. Chen in place to lead the way. He understands that the people of Taiwan are as entitled to the blessings of liberty such as shared knowledge and the free exchange of information. Fighting for this freedom, he has had a special determination to secure Taiwan's entrance into the World Health Organization, an issue on which he and I have worked together. As the SARS virus swept Asia and frightened the entire globe, he seized the moral initiative to say the Taiwanese people are also vulnerable to this disease and that Taiwanese doctors also may heal. He clearly stated that they have a right to seek help and to give it, and that no petty, technical political agenda should stand in the way of that simple affirmation of humanity. When the doors to the WHO are thrown open for Taiwan, and they will be, people will remember with gratitude how C.J. Chen moved us toward that day.

One of the most notable and likable things about C.J. is his inexhaustible optimism. While the United States-Taiwan relationship has certainly experienced its fair share of twists and turns, ups and downs—as Mr. Chen will surely attest—he has always remained consistently upbeat. His confidence is contagious, and I agree wholeheartedly with his observation, that Taiwan and the United States—united by shared values and common interests—will continue to work closely together, not only for their mutual benefit but also for the sake of lasting peace and prosperity in the Asia-Pacific.

Now, after having served as his chief representative in the United States, as his country's foreign minister, as member of Taiwan's Legislative Yuan, and as a university professor, this man of extraordinary talent and vision is leaving Washington, DC. While he will be sorely missed, I am certain that he has established an admirable legacy of friendship, trust, and cooperation that will long endure.

WOMEN IN TECHNOLOGY

Mr. INOUYE. Mr. President. Today I would like to recognize women in technology. While gender equity is not found on the agenda when discussing homeland security, it certainly is a key strategy for maintaining our Nation's preeminent status in science and technical innovation. The last 30 years have seen women make great strides in education and employment. Women are receiving more than 50 percent of the bachelor degrees conferred and are close to reaching parity in the once male-dominated fields, such as law. Unfortunately, these gains have not been uniform in all fields. Women continue to be persistently underrepresented in high-demand, high-wage science, technology, engineering and math, STEM, education and employment. While women make up 46 percent of the American labor force, they are less than 25 percent of the total science and engineering workforce, and have not been able to break through a 10 percent ceiling in engineering.

At a time when we face a shortage of skilled STEM workers who are U.S. citizens, women provide an untapped national resource to fill the workforce pipeline. Recent studies from the National Science Foundation and the Department of Commerce confirm these conclusions, including the September 2000 Report of the Congressional Commission on the Advancement of Women and Minorities in Science, Engineering and Technology, which concludes that, "Unless the STEM labor market becomes more representative of the general U.S. workforce, the nation may likely face severe shortages in [STEM] workers and thus risks undermining its global competitiveness."

We are at a serendipitous time, when our Nation's economic and security imperatives are aligned with social justice. We must leverage this opportunity to build the requisite partnerships with stakeholders in government, academia, and industry to recruit, train, and retain women and underrepresented minorities in STEM fields. Not only is it a strategy that will ensure our global competitiveness and national security, but it is the right thing to do to ensure that all our citizens have equal access to the education and training needed to succeed.

In 1999, when I recognized that the jobs at the Maui High Performance Computer Center and other related research and development contract activities were being filled by males recruited from the mainland, I secured Department of Labor funding to launch the Women in Technology project designed to bring Hawaii's women into these emerging STEM fields. The island of Maui reflects the characteristics of many rural American communities: professional isolationism, limited access to higher education, overdependence on a single economic engine, and perceived limited career opportunities for its young people. These conditions uniquely position Maui to pilot workforce development programming that can be exported to other rural communities.

The Women in Technology, WIT, project is administered by the Maui Economic Development Board, a private nonprofit organization well respected for its leadership in helping to diversify the economy through high technology industry development. The board of directors, comprised of community leaders in industry, academia, business, and government gave the project access to key partners. Interviews, focus groups, and roundtable discussions helped establish the workforce challenges and skill sets needed to sustain industry growth projections. Workshops were designed to provide tools to educators and industry on how to overcome the barriers that had created the chilly climate for women. Buy-in was established that even though teachers and employers had no intent to track girls and women into different fields than boys and men, long-established cultural stereotypes of gender roles were imbedded throughout society and insidious messages of what were appropriate female jobs versus male jobs were very strong. The WIT project provides ongoing technical assistance to educators, guidance counselors, and industry partners on recruitment and retention skills to overcome these societal barriers.

We must start young. By middle school our girls lose interest in math and science, unless proactive efforts are exerted. In a survey of Maui students, boys were five times more likely than girls to express interest in careers in computer science and engineering. Despite the fact that girls outperformed boys academically in math and science, their personal esteem in these areas was significantly lower and they did not self-select into the physical sciences. After compiling a database of female industry role models, WIT has developed a multitrack program to keep girls engaged in the STEM pipeline. Job shadowing programs, career days, science camps, and mentoring are anchor events in the program designed to influence career intent.

Attrition has been another factor in keeping the number of women in STEM low. Mentoring has been identified as the most successful intervention strategy. WIT successfully negotiated with MentorNet, a Presidential award winning program that has been deployed at elite engineering research universities. Maui Community College was accepted into MentorNet's first community college cohort and the program has significantly reduced the female attrition from its STEM courses.

The Women in Technology project continues to work with local industry to develop internship and apprenticeship programs. Four years later, the number of women in technical employment at the Maui Research & Technical Park has gone from 0 percent in November 1999 to 23 percent in June 2004. This is the direct result of a local industry and education commitment to build a qualified resident workforce that reflects the diverse demographics of its community, including gender balance.

We must use this time when both our Nation's security and its economic strength are dependent on producing more citizens trained in STEM fields, to assure that we do not perpetuate the climate which has precluded women and minorities from entering these fields. Gender equity in science, technology, engineering, math, education, and employment equals homeland security.

VOTE EXPLANATION

Mr. NELSON of Florida. Mr. President, I would like the record to reflect that I was necessarily absent for the vote on the DeWine-Kennedy Amendment offered to the FSC/ETI bill on Thursday, July 15, 2004. Had I been present, I would have voted in favor of the amendment.

ADDITIONAL STATEMENTS

RETIREMENT OF NEWMAN A. FLANAGAN

• Mr. KENNEDY. Mr. President, it is a privilege to pay tribute to Newman Flanagan, a dedicated public servant from Massachusetts who is retiring after a distinguished career in law enforcement. Mr. Flanagan served as a Boston prosecutor for 32 years, with the last 14 of those years as Boston District Attorney. For the last 12 years, he has served as the Executive Director of the National District Attorneys Association, a position from which he is now retiring. I commend him on his many years of outstanding work and dedication.

Newman is a son of Boston who graduated from Boston College and the New England School of Law. I had the privilege of serving under him and learning from him when I was an assistant district attorney in the office in the early 1960s, before I came to the Senate. He was elected district attorney in 1978, and was re-elected for four additional terms. During his long and impressive career, he represented the state in more than 2,500 criminal prosecutions, including 75 murder cases. Scott Harshbarger, former Attorney General of Massachusetts, described him as "Mister District Attorney of the United States."

Newman also deserves great credit, in his years at NDAA, for his leadership in creating the National Advocacy Center, which trains local and Federal prosecutors, and is one of the finest training centers of its kind in the country. As James C. Backstrom, Dakota County Attorney in Minnesota and a past vice president at NDAA said, "He will be deeply missed by all members of NDAA's Board of Directors and prosecutors throughout America. Newman Flagagan has been a timeless leader of America's prosecutors for more than three decades. We all owe him our thanks and gratitude for his efforts on our behalf."

I know that his wife, Eileen, and his children and grandchildren are proud of all he has accomplished. Newman Flanagan has served the people of Massachusetts and our country well, and I wish him a long and happy retirement.•

LOCAL LAW ENFORCEMENT ACT OF 2003

• Mr. SMITH. Mr. President, I rise today to speak about the need for hate crimes legislation. On May 1, 2003, Senator KENNEDY and I introduced the Local Law Enforcement Enhancement Act, a bill that would add new categories to current hate crimes law, sending a signal that violence of any kind is unacceptable in our society.

On October 14, 2003, a gay man named Ricardo Lorenzana, 47, was struck in the head with a baseball bat and needed 14 stitches to close the wound. He said the attack makes him constantly worry about his safety. Soon after Lorenzana was attacked, a 19-year-old gay man was assaulted, warding off blows from the bat but getting cut by a knife. Authorities said the assailants used antigay slurs during that attack.

I believe that Government's first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act is a symbol that can become substance. I believe that by passing this legislation and changing current law, we can change hearts and minds as well.●

TRIBUTE TO LAURANCE SPELMAN ROCKEFELLER

● Mr. JEFFORDS. Mr. President, I wish to recognize a great American, a true Vermonter and a good friend who passed away on July 11th. That friend is Laurance Spelman Rockefeller.

Thirty-five years ago, Mr. Rockefeller received the highest honor that our country can bestow upon a civilian when President Johnson awarded him the Presidential Medal of Freedom for his philanthropic and conservation efforts. That award did not culminate a lifetime of accomplishment, but rather served as a milestone for the beginning of another three-and-a-half decades of benevolent contributions by Mr. Rockefeller. In 1991, Laurance Rockefeller was again honored with the Congressional Gold Medal awarded by President George H.W. Bush.

Laurance Rockefeller was instrumental in establishing the Virgin Islands National Park and donated land for, or helped with the acquisition of 11 other national parks, national battlefields and national monuments.

In 1958 Mr. Rockefeller chaired the Outdoor Recreation Resources Review Commission. The Commission's landmark report led to creation of our national system of wilderness areas, wild and scenic rivers, and Federally protected trails.

I knew Laurance Rockefeller and his wife, Mary French Rockefeller, as residents of and benefactors to the town of Woodstock, VT. Laurance and Mary Rockefeller preserved the character of Woodstock, as an historic village surrounded by rolling hills and farms, while also building its economic vitality. The Rockefellers built the Woodstock Inn and Suicide Six ski area into successful economic engines for the area, and established the Billings Farm and Museum. Conservation easements were also secured on surrounding lands to help protect the village from sprawl.

These projects were all undertaken with a careful eye towards sustainability. The businesses are viable enterprises and the nonprofit entities are generously endowed and tended to by the Woodstock Foundation, also created by the Rockefellers.

Mr. Rockefeller was a quiet and unassuming man who sought no personal recognition for his work in Woodstock and truly loved the small villages and agricultural landscape of rural Vermont.

The crown jewel of the Rockefellers' contributions to Woodstock and to the Nation is the Marsh-Billings-Rockefeller National Historical Park, encompassing the buildings and grounds of their family estate, which they donated to the United States. As the only national park dedicated to the history and future of conservation thought and practice, the park is a fitting legacy for a man known as America's leading conservationist.

Laurance will be sorely missed by all those who knew him and by those who have been able to enjoy the fruits of his conservation efforts.●

LEWIS AND CLARK EXPEDITION: PRESERVING HISTORY AND PERPETUATING TRADITION

● Mr. NELSON of Nebraska. Mr. President, today I would like to share with you and my colleagues my appreciation for Neal Corey of McCook, NE. Neal is my cousin and a role model to Americans, a preserver of history, and a perpetuator of tradition.

Neal Corey, who is now a retired conductor for Burlington Northern Railroad, is the third generation of his family to maintain a farm in Red Willow County, a homestead that is still on its original site in Nebraska. A pioneer of subsurface irrigation in his county, Neal has helped others in his area to set up similar irrigation systems during his retirement to improve farming efficiency.

As you can see, Neal has been perpetuating tradition and preserving history through a lifetime of service to his family at the farm, to the railroad, and to his neighbors. History has always interested him, but it literally took a greater vessel to move him to become an active part in preserving it. Neal's curiosities were piqued when he read a small article in the hometown newspaper we share, the McCook Gazette, about the recreation of the Lewis and Clark Expedition.

After Neal sent in his $50 membership fee to the Discovery Expedition of Saint Charles, MO, he decided that wasn't enough. No, Neal decided he wanted to contribute something more than $50. So he looked into what it would take to be a part of this expedition.

He thought it might be fun to get out and do some "camping" during his retirement. It was only during his training for the expedition, when he found himself wearing historical fashions that include long-sleeved cotton shirts, canvas pants, and a wool army coat during the summertime, that he realized just which kind of camping he would do.

To this day, Neal selflessly contributes his time, his enthusiasm, and his energy to the Discovery Expedition of Saint Charles, MO. Through this expedition, Neal's goal is to preserve the history made by Meriwether Lewis and William Clark when they first set out to explore the unknown of a new Nation.

Each year, the Discovery Expedition reenacts a different part of the original river journey—a journey that began in 1803 in Elizabeth, PA, and extends to Great Falls, MT.

This year, Neal will be participating in the Nebraska portion of the river journey of the Lewis and Clark Expedition. This portion is scheduled to reach the Missouri River around July 16, and will include week-long activities at Fort Calhoun, NE, beginning July 30.

I have been so inspired by Neal's energy and enthusiasm that I, too, will take part in a portion of this great commemoration. Through his example and his service, Neal Corey has been a force in both the preservation of American history, and the perpetuation of American traditions.●

HONORING THE CITY OF FREEMAN

● Mr. JOHNSON. Mr. President, today I wish to publicly recognize and acknowledge the 125th anniversary of the founding of the city of Freeman, SD.

Freeman was settled throughout the 1870s by German and Russian immigrants. By 1879, like many cities throughout South Dakota, a railroad stop had been established in Freeman and was a center for immigrants arriving at that period of time. In 1893, the town was officially incorporated.

By 1893, Freeman had established numerous businesses, schools, and many residences. The town of Freeman combines a rich heritage with strong hopes for the future. The Freeman Area Veterans Memorial and the Heritage Hall Museum are two examples of the town's appreciation for its rich history. Two strong schools give the town an appeal to families raising children and comprehensive medical services attract people to retire in Freeman. A strong, diverse economy including retail businesses, professional services, and manufacturing components keeps Freeman strong.

Freeman is the type of town that forms the backbone of rural life in South Dakota. Hometown values, respect for neighbors, and a commitment to its past all point to a prosperous future for Freeman. It is with great honor that I advise my colleagues of the achievements made by this great community.●

TRIBUTE TO FRANCIS MATTHEW McFAUN

• Mr. JEFFORDS. Mr. President, I wish to congratulate and thank Francis Matthew McFaun, an outstanding citizen and a Vermont leader in the fight against poverty. As he prepares to retire from his position as manager of the Central Vermont and White River district offices of the Vermont Department of Employment and Training, it is significant to recognize how much one person can achieve in serving others.

"Topper," as he is known to his colleagues, family, and friends, has had a distinguished 37-year career with the State of Vermont. He moved to Vermont in 1966 to start a pilot of the Neighborhood Youth Corps Program with the Central Vermont Community Action Agency. He moved up through the organization, quickly becoming director of the Vermont Office of Economic Opportunity. From there he began working for the Vermont Department of Employment and Training, where he has become an institution. Topper is deeply committed to improving the quality of life of Vermonters through strengthening communities and improving our workforce. He has also served with great distinction and exhibited leadership at both the State and local level and is involved with numerous community activities. From his current role as chairperson of the Barre Town Select Board to his veteran position as the Spaulding High School Varsity Ice Hockey coach, Topper is tireless in his devotion to his State.

I also have the pleasure of having his daughter, Molly McFaun, on my State staff. Molly exhibits the work ethic and compassion that has driven her father throughout his career. Topper established himself through his efforts to help others, and the legacy of his work lives on in his daughter. We are truly fortunate to have Topper and Molly working in a field where the benefits of their kindness and support are reaped by people all around the State. I thank Topper not only for his many years of exemplary service, but also for teaching his children the value that is public service.

It is people like Topper, who give so greatly of themselves without expectation of recognition or personal gain, that make our communities stronger, better places to live. I want Topper McFaun to know that his years of dedicated service have not gone unnoticed. I am proud to stand here and tell you about such a great Vermonter. I wish him and his wife, Mary Ann, best wishes as they venture into the next chapter of their lives.•

HONORING THE CITY OF BROOKINGS

• Mr. JOHNSON. Mr. President, today I would like to honor and publicly recognize the 125th anniversary of the founding of the city of Brookings, SD.

The city and the county were both named for Wilmot W. Brookings, one of the first settlers in the Dakota Territory. Arriving in June of 1857, Brookings was a highly respected explorer with great amounts of courage, energy, ability, and perseverance. He settled in Sioux Falls on August 27, 1857. Beginning the trip in January of 1858, he was soon set upon by a heavy blizzard, the result of which required the amputation of both feet. Not to be deterred, Brookings continued settle the area, eventually becoming a leader in a number of government entities. The town and county were named for him in his honor and out of respect for all he did in the settlement of Dakota Territory.

Before Brookings' arrival, the area was populated by American Indians. Large mounds that were used as burial grounds have been found in the area, as well as stone hammers and other stone tools. Fur traders entered the area as early as 1750.

Originally, settlers founded the town of Medary in 1857 in what would become Brookings County. Oakwood and Fountain, two other small settlements, were also founded at this time and all were hopeful that railroad tracks would be laid through the city. On October 18, 1879, the railroad passed through Main Street in Brookings, which greatly helped the town to grow and prosper. Many of the residents and businessmen in Medary and Fountain would eventually move to Brookings.

Currently, over 18,000 people live in Brookings. The town boasts numerous businesses, as well as South Dakota State University. The city has already started celebrations for its 125th anniversary and will continue them throughout the year. These include a "Crazy Days" celebration, a large art exhibit, and a tour of historic homes throughout the city. It is with great honor that I advise my colleagues of the achievements made by this great community.•

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. GRAHAM of Florida:

S. 2685. A bill to amend titles XIX and XXI of the Social Security Act to provide States with the option to cover certain legal immigrants under the Medicaid and State children's health insurance programs; to the Committee on Finance.

Mr. GRAHAM of Florida. Mr. President, I am introducing the Immigrant Children's Health Improvement Act today.

This legislation would allow States the option to once again provide Medicaid and State Children's Health Insurance Program (SCHIP) coverage to legal immigrant children and pregnant women.

Traditionally, Medicaid and SCHIP have served as vital components of our nation's health care safety net. These programs have provided coverage to over 50 million non-elderly, low-income Americans, most of them children, and have helped to dramatically reduce infant mortality and provide health care for millions of poor children whose families cannot afford the high cost of private health insurance.

However, for many low-income families that are income eligible for Medicaid and SCHIP, these safety programs are today little more than a mirage—an illusion to those who need them most. The 1996 welfare reform law arbitrarily barred states from using Federal funds to provide health coverage to low-income legal immigrants during their first 5 years in the United States.

While the goal of welfare reform was to encourage self-sufficiency in adults, the legislation unfortunately has punished children. Today, half of all legal immigrant children from families making less than 200 percent of the Federal Poverty Level are uninsured. That's over two and a half times the uninsured rate for children who are United States citizens.

In the long term, ignoring the health care needs of legal immigrant children and pregnant women will prove more costly than providing care today. Children and pregnant women who do not have access to preventive care often use the emergency room as a first resort—an expensive treatment for conditions that could have been treated at a fraction of the cost or possibly even prevented.

The American Journal of Obstetrics and Gynecology in 2000 estimated that $1 spent on prenatal care for immigrant women saved $3 in short-term postnatal costs and $5 in longer-term costs. By spending on prevention today, we can reduce health care costs in the future.

Another result of the 1996 legislation was to push the costs of care to the States. The 20 states with the highest number of legal immigrants all used to have state-financed health care programs for legal immigrant children or pregnant women. States put these programs in place because they recognized the enormous toll the 1996 rules have taken on state budgets, when states have to provide preventable emergency-room care to thousands of uninsured legal immigrants.

But due to the recent State budget crisis, some of these states cannot now afford programs that are exclusively state-financed. In my home state of Florida, for example, new enrollment in the program has been frozen.

This amendment allows states the option to use Medicaid and SCHIP funding to cover legal immigrant children and pregnant women. Over the last 6 years, Senator CHAFEE and I, along with our colleagues in the House and Senate, have worked to restore this option and we've come very close to achieving our goal.

Last year, a 3-year restoration provision was included in the Senate-passed Medicare prescription drug bill, with 65 Members supporting it. Over 400 national, state, and local organizations have supported this legislation, including the National Governors Association, the National Conference of State Legislatures, the American Academy of Pediatrics, and numerous immigrant, ethnic, labor, health and faith-based organizations.

Despite this support, Congress has yet to enact legislation that restores health benefits to legal immigrant families.

Why?

Some Members argued it didn't belong on a Medicare bill but instead on a welfare reauthorization bill. That was one of the reasons it was dropped from the Medicare bill. But the same argument has been made when it was discussed in the context of welfare—that it is not a welfare issue, it's a health care issue.

Well, while this volleyball match continues, legal immigrant families in this country continue to work hard and pay taxes, while being denied the benefits of the system they are paying into. Meanwhile, States continue to provide as much care as they can from strapped state budgets. We need to send a clear message about our concern for uninsured children and we need to stop pretending that our federal penny-pinching is cost free to the states or to taxpayers.

Mr. President, legal immigrants pay taxes, serve in the military, and have the same social obligations as United States citizens. Legal immigrant children are, as much as citizen children, the next generation of Americans. It is important that all children start off on the right foot towards good health. This provision can help them do just that.

This legislation is offset by a custom user fee extension included in the President's budget.

I hope that we will begin consideration of this important measure before the August recess. The health and lives of many children is at stake, and there is simply no reason to delay any further.

By Mr. ENZI (for himself, Mr. GREGG, Mr. KENNEDY, Mr. DODD, Mr. ALEXANDER, Mr. JEFFORDS, Mr. SESSIONS, Mr. BINGAMAN, Mrs. MURRAY, Mr. REED, and Mrs. CLINTON):

S. 2686. A bill to amend the Carl D. Perkins Vocational and Technical Education Act of 1998 to improve the Act; to the Committee on Health, Education, Labor, and Pensions.

Mr. ENZI. Mr. President, I rise today to introduce the Carl D. Perkins Vocational and Technical Education Improvement Act of 2004. The Perkins Act is a central part of a combination of federal education and training programs that provide opportunities for lifelong learning to our workforce. The Perkins Act, together with the Workforce Investment Act, the Higher Education Act, and other federal education programs, provides the resources that are needed to help adequately prepare students of all ages for jobs in high-wage and high-skilled occupations. In this technology driven, global economy, everyone is a student who must adapt to the changing needs of their jobs and the workforce by continuing to pursue an education in their chosen field. In turn, Congress must ensure that education and training are connected to the needs of business, including small businesses, now and into the future as well.

It is my hope that this body will take the necessary action to reauthorize the Carl D. Perkins Vocational and Technical Education Act. The Act is an essential part of a combination of federal education and training programs that will strengthen our workforce and enable America to compete—and succeed—in the global economy.

At a hearing held on June 24, 2004, before the Health, Education, Labor and Pensions Committee, members heard testimonies from leaders in career and technical training emphasizing the importance of constant training, retraining and upgrading of the skills today's jobs require. Many students leaving high school or college and entering the workforce find that they are unprepared for life because they lack the skills they need to succeed in the workforce. This country created over 1 million new jobs since January. That's great news. Unfortunately, the complaint heard from employers is that there are too few skilled workers to meet their needs. We have a strong interest in making sure this is corrected. The Perkins Act, along with the Higher Education and Workforce Investment Act would provide both strong academic and relevant job skill training to promote and sustain the long-term competitiveness of this country.

A unique aspect of the Perkins program that addresses the needs of the changing workforce is that it targets funds to both secondary and postsecondary schools. This unique aspect also provides a good platform from which we can better coordinate workforce preparation policy and training with an emphasis on lifelong learning. It is essential to facilitate a sequence of career or technical education courses that a student can complete before they even get to college, and that they can continue at the postsecondary level, whenever they decide to go on. Dr. Michael Rush, the Idaho Division of Professional-Technical Education, Boise, ID, Administrator, used the example of student Chelsie Lea Marier in his testimony to stress this point. He said Chelsie took professional-technical classes in welding, auto technology, mechanics and power technology at her home high school, Meridian High. As a high school senior, she enrolled in an automotive collision repair program at the Dehryl Dennis Technology Center. During this time, Chelsie took advanced placement academic classes and was President of her Skills-USA chapter. She is now enrolled in the auto body program at the College of Southern Idaho, and she intends to continue her education and become an auto collision forensics investigator. She is an excellent example of how linking academic and technical skills attainment can lead to success in the workforce.

In order to strengthen schools programs at both the secondary and postsecondary level that meet local workforce needs, provisions in the Perkins Act must include the participation of business, including small business. In my home state of Wyoming, a career and technical education instructor by the name of Ted Schroeder is doing a lot of what I've just described. He has met with the local Chamber of Commerce in Rock Springs, WY, to identify workforce needs and matched his programs with industry standards to meet those needs. When the local business community suggested they needed students with computerized accounting skills, he took on the task of designing curriculum to help his students acquire the skills the businesses had requested. His efforts are a good example of what Perkins funds are intended to accomplish. It is my hope that we can increase the successes of the Perkins program, just like Ted has done in the community of Rock Springs.

I'm pleased to have worked with the Members of the Committee and stakeholders on a bipartisan bill that will improve the Perkins Act to better meet the needs of students, workers, and business. The legislation I am introducing today, with my colleagues Senators GREGG, KENNEDY, ALEXANDER, DODD, JEFFORDS, BINGAMAN, MURRAY, SESSIONS, REED and CLINTON, will help strengthen the Perkins program by improving accountability, involving businesses in career and technical education programs, emphasizing challenging academic instruction, and advancing the field of career and technical education by linking those programs to advances in industry.

This legislation would also encourage greater collaboration between state agencies responsible for education and workforce activities. This legislation requires state agencies to work together on identifying the needs of the workforce and designing curriculum to match those needs. It also emphasizes the needs of nontraditional students and other lifelong learners, who are returning to school for the first time, or those who are seeking additional skill training.

This legislation also continues to emphasize the need to introduce women and girls to high skill, high wage jobs. It is important that we help expand the vision of our students to ensure they consider all the options that are available to them, not just the ones that fit general, and sometimes erroneous, conceptions.

I hope our bipartisan efforts will continue to produce results as we move the bill through the Senate and into Conference. I do not wish to see another piece of bipartisan legislation lost in the legislative limbo of election year politics. An important step that the Senate must take is to appoint conferees to finish the reauthorization of the Workforce Investment Act. That program offers the resources that are needed to help adequately prepare more than 900,000 unemployed workers find work each year. It passed the Senate unanimously, both in Committee and the floor. Conferees must now be appointed before the August recess. It we are going to help workers in this country, we must send this important legislation to Conference so that it will ultimately reach the President and be signed into law.

I cannot stress enough the importance of federal initiatives like the Carl D. Perkins Vocational and Technical Education Act and the Workforce Investment Act to keep American workers and businesses competitive. The Perkins Act can help close the gap that threatens America's long-term competitiveness. It is essential that we take advantage of the opportunity we have during this reauthorization process to improve the link between education and relevant academic and skills preparation. By so doing, we will create a pathway to prosperity for American workers and businesses alike, that both will make good use of for years to come.

Mr. KENNEDY. Mr. President, it is a privilege to join my colleagues, Senators GREGG, ENZI, DODD, JEFFORDS, BINGAMAN, MURRAY, REED and CLINTON in introducing the bipartisan reauthorization of the Carl Perkins Vocational Education Act. We have worked closely with leaders of the secondary and postsecondary vocational education community to make important improvements in this important program in current law. Among the key issues we addressed are the more effective integration of academic and technical education, the use of funds for secondary and post-secondary programs, the Tech Prep Programs that form the bridge between the high school and college training programs, and the need for students to have access to good information about emerging and existing job opportunities in high-wage, high-skill and high-demand careers.

Since passage of the original Smith-Hughes Act in 1917, the Federal Government has recognized the importance of good preparation for technical occupations. Over the years, we have made a series of revisions in the law to reflect the growing importance of combining academic learning with technical skill learning in order to meet the changing needs of American business and industry.

This bill is an example of how we can work well together when we focus on good policy. I look forward to action on this bill in our Labor Committee before the recess, and to its enactment into law this year.

By Mr. HARKIN:

S. 2687. A bill to provide coverage under the Railway Labor Act to employees of certain air and surface transportation entities; to the Committee on Health, Education, Labor, and Pensions.

Mr. HARKIN. Mr. President, today I am introducing a bill that will help ensure that employees of "express carrier" delivery companies are treated like employees who perform the same duties for other delivery, companies when it comes to Federal labor law jurisdiction.

Over the years, there have been many advances made in the way citizens and businesses ship goods from city to city. Numerous air-carrier and cargo services make the delivery of goods speedy, reliable and affordable. Truck, air and rail delivery networks are in place across the country. These operations employ large workforces that perform various types of work in a range of conditions.

Some of the leading delivery companies appear to have similar organizational structure and clientele. But there is a disparity in the terms and conditions of their workers' employment. Some of the companies provide full- and part-time workers with good wages and benefits, including medical plans, dental coverage and paid vacation time. Others take a lower road, in part by using independent contractors and anti-union campaigns.

Unfortunately, Federal law facilitates this difference. It ensures that all of the workers at one of the largest companies which delivers by air are covered by the Railway Labor Act (RLA), even when those workers do the same jobs as employees at other delivery companies who are covered by the National Labor Relations Act (NLRA). What is the difference? Under the NLRA, workers can act locally in seeking to organize and bargain collectively. Under the RLA, workers must organize nationally, an enormous challenge in today's labor environment.

Congress created the concept of an "express carrier" in 1996, putting all the employees of one large company under RLA jurisdiction, regardless of individual employees' relation to air transportation. That means those workers cannot organize a union chapter locally, weakening their opportunity to bargain for better wages, benefits and workplace conditions.

This bill provides that employees of an express carrier will be governed under the RLA only if they are licensed airmen, aircraft maintenance technicians or aircraft dispatchers. That is consistent with the treatment of other delivery companies' workers.

The bill delivers fairness to responsible employers trying to do the right thing for workers while remaining competitive. It seeks to raise living standards, not encourage a race to the bottom. Workers can decide for themselves whether or not to collectively bargain, but in all businesses similarly situated, workers should be regulated the same.

Let's deliver fairness to those who deliver for us.

WITHDRAWAL

Executive message transmitted by the President to the Senate on July 19, 2004, withdrawing from further Senate consideration the following nomination:

ALBERT CASEY, OF TEXAS, TO BE A GOVERNOR OF THE UNITED STATES POSTAL SERVICE FOR A TERM EXPIRING DECEMBER 8, 2009, WHICH WAS SENT TO THE SENATE ON JANUARY 21, 2004.

HOUSE OF REPRESENTATIVES—*Monday, July 19, 2004*

The House met at 12:30 p.m. and was called to order by the Speaker pro tempore (Mr. NUNES).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

HOUSE OF REPRESENTATIVES,
Washington, DC, July 19, 2004.

I hereby appoint the Honorable DEVIN NUNES to act as Speaker pro tempore on this day.

J. DENNIS HASTERT,
Speaker of the House of Representatives.

MORNING HOUR DEBATES

The SPEAKER pro tempore. Pursuant to the order of the House of January 20, 2004, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning hour debates. The Chair will alternate recognition between the parties, with each party limited to not to exceed 30 minutes, and each Member, except the majority leader, the minority leader, or the minority whip, limited to not to exceed 5 minutes.

The Chair recognizes the gentleman from Florida (Mr. STEARNS) for 5 minutes.

IRAQI HANDOVER: GIFT OF INDEPENDENCE

Mr. STEARNS. Mr. Speaker, while we were in our districts late June and early July, celebrating the anniversary of our independence day, we handed over to the citizens of Iraq the gift of their independence, 2 days early no less.

Barely on anyone's radar screen, sovereignty passed from the Coalition Provisional Authority to the new Iraqi provisional government. By most barometers, except for the naysayers of this administration, this was a big success. In the United States, we kept our word of giving the Iraqi people back their country. On Wall Street, in Asia and in Europe, the stock markets rallied. Gas prices continued their slide down: Average gasoline prices tumbled 7 cents a gallon from mid June to mid July, according to the new report from AAA. But to whom was this triumph most important? The free Iraqi people.

As I say, there are naysayers who likely did not celebrate this good news: The radical Islamist world, terrorists, al Qaeda, and a few political partisans. To them, it is not about Iraq, the people, it is about the President they want to see fail.

On what grounds do I say this? Well, on Monday, June 28, CNN heard Wendy Sherman, a former State Department counselor in the Clinton administration, say "I hope we have turned a corner, but obviously I think we need a change in presidents to really change the corner."

The President overthrew a brutal dictatorship, he arrested Saddam Hussein, he has since handed him over to Iraqi courts, restored or built new infrastructure, and set up a provisional government within 1 year following the attacks, and we need a change in the Presidency? Mr. Speaker, if you had to pick a team, would you rather play with those who see victory or those who see defeat?

Now, back to the Iraqi people. A recent poll of 2,200 Iraqi households by an Iraqi firm shows that half of Iraqis interviewed believe Iraq is headed in the right direction; 65 percent think they will be better off; 73 percent believe the handover of authority to the interim government will improve the current situation.

The Iraqi people now enjoy an administrative law system with sovereignty, justice, and rights of free expression, justice, thought, and conscience. That such optimism abounds following decades of tyranny, war, and terror reminds me of a speech by a citizen of a former colony of the British empire at its waning days, spoken at their handover, a citizen who made an impassioned plea for his countrymen to march into the destiny before them and create a land of democracy and freedom. That was August 14, 1947, by the eventual prime minister, Mr. Nehru, when he gave his speech on the granting of Indian independence.

Of course, there are spectacular differences, Mr. Speaker, between the two countries and the situation. India was a colony of another nation, not a sovereign country; whereas, Iraq has been hostage to an internal tyrant of their own blood and nationality. However, the mood of a nation and a people on the cusp of a new day, standing in the sun on their own, with the blessings of the free world, is somewhat transferable.

Mr. Nehru's entire speech is inspiring and lyrical, but there are two particular passages I find applicable to the handover the world is watching now. Nehru begins, "A moment comes, which comes but rarely in history, when we step out from the old to the new, when an age ends, and when the soul of a nation, long suppressed, finds utterance. It is fitting that at this solemn moment we take the pledge of dedication to the service of India and her people and to the still larger cause of humanity."

Mr. Speaker, the Iraqis too are the soul of a nation, long suppressed, finding utterance, and I wish them the joys and the blessings of liberty. And I close with this uplifting benediction of Mr. Nehru's. "To the nations and peoples of the world we send greetings and pledge ourselves to cooperate with them in furthering peace, freedom, and democracy."

Nehru admonished his fellow Indians that it would not be enough to work for peace within India's border, or the border with Pakistan, but that to be truly peaceful citizens of the world, Indians must cooperate with their international neighbors in "furthering peace, freedom, and democracy."

I wish and I hope that citizens of Iraq will think this, and think not only of civil rest within their great nation, but the opportunity for the dawning of a new day across the troubled swath of their neighborhood of the world.

LACK OF RULE OF LAW IN RUSSIA

The SPEAKER pro tempore. Pursuant to the order of the House of January 20, 2004, the gentleman from California (Mr. LANTOS) is recognized during morning hour debates for 5 minutes.

GENERAL LEAVE

Mr. LANTOS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the topic of my 5-minute speech, and that I may include extraneous material on the same.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. LANTOS. Mr. Speaker, I rise today to call the attention of my colleagues to my serious concern with the lack of the rule of law in Russia.

Fifteen years ago, all of us watched with great excitement and great optimism as the Communist system came to a resounding close while the Russian people and the government went through an historic transformation. We saw President Boris Yeltsin stand up against tanks in the streets of Moscow, and we watched as Russia moved to embrace Democratic change.

☐ This symbol represents the time of day during the House proceedings, e.g., ☐ 1407 is 2:07 p.m.

Mr. Speaker, unfortunately, in the last few years, we have watched as the government of Mr. Putin has slowly but surely pulled back from Democratic change. Freedom of the press has increasingly declined, particularly in the realm of television. Elections have been less open and less Democratic. The rule of law has been proscribed by government regulation. Increasingly, government control has restricted the freedoms that had just begun to blossom in post-Soviet Russia.

Mr. Speaker, the most recent, and in many ways the most dramatic, example of this decline of the rule of law in Russia has been the Russian government's political prosecution and persecution of Mikhail Khodorkovsky, the former chairman of Yuko Oil, one of Russia's largest companies, and the one that had gone the farthest in moving towards transparent western market-oriented business practices. It was the Russian company which had made the greatest progress in corporate transparency. The company was on the verge of an unprecedented business deal with Western oil companies.

The Russian prosecutors, clearly at the demand of the political leadership, initiated a political prosecution of Mr. Khodorkovsky. He was arrested last summer by a mob of armed security forces as his plane landed at a Siberian airfield. Since that time, he has been held in a Russian jail. He has been limited in his contact with his own attorneys, he is not permitted to communicate with the outside world, and he appears in court in a steel cage.

This treatment of an individual who at this point has a tax dispute with the Putin regime violates all principles of due process and the rule of law.

Mr. Speaker, I am calling attention today of our colleagues in the Congress to this decline of civil and human rights in Russia. Together with my distinguished colleague, the gentleman from California (Mr. COX), we have established the Russia Democracy Caucus to work for the development of the rule of law and the consolidation of civil and human rights in Russia.

Mr. Speaker, a number of my colleagues will be submitting their statements joining me in deploring the rollback of freedom and civil rights in Russia during recent years.

Mr. Speaker, last month, on a visit to Moscow, I met with Ambassador Alexander Vershbow and other embassy officials to get an update on the political situation in that country. I also met with legal experts and human rights groups who provided a grim account of the recurring threats to individual and political freedoms that regrettably harkens back to the old Soviet days.

Respect for human rights is the cornerstone of a civilized society. Even the Russian constitution recognizes this fact, as provided in Article 2:

> The individual and the individual's rights and freedoms represent the highest value. It is the duty of the state to recognize, respect, and protect the rights and freedoms of the individual and the citizen.

Our own commitment to human rights as it relates to Russia and other former Communist countries is manifest in the Helsinki Final Act in 1975, in which we effectively utilized the so-called "Basket Three" of that document to publicly hold the Soviet Union accountable for its violations of human rights and civil liberties.

For a brief moment, during President Yeltsin's presidency, we thought indeed there would be freedom and liberty in Russia. It was during this time, the G–8 member nations allowed Russia to participate as an ad-hoc member, so long as it adhered to the principles of Constitutional democracy, rule of law and human rights. My colleague CHRIS COX and Senator JOE BIDEN have spoken out recently about whether Russia, under President Vladimir Putin, deserves a place at the G–8 table and indeed if that country should host the next session in 2006.

I would also remind my colleagues that Resolution H. Con. Res. 336, which enumerates these shortfalls and recommends that Russia be denied participation in G–8 sessions until it demonstrates its worthiness as a Democratic state, recently passed the House International Relations Committee. A similar measure is cosponsored by Senators MCCAIN and LIEBERMAN.

Mr. Speaker, our own State Department has documented what we have learned from a variety of sources concerning the deteriorating situation as it relates to rule of law, freedom of expression, and human rights in Russia. Over the past year, reports from human rights groups, NGOs, the European Union, legal scholars, and wide spread media reporting of conditions in Russia bear out what our own government has reported. On Secretary of State's last trip to Russia, he made it a point to voice his concerns directly to President Putin and publicly expressed them through the limited media outlets that exist in Moscow.

There is much that concerns me about Russia today. In view of the time limitation I cannot address all of them, but I would like to mention a few that I believe deserve urgent attention.

First is the case against Mr. Mikhail Khodorkovsky, chairman of YUKOS Oil Company. This week Mr. Khodorkovsky goes to trail in a court that is hardly known for its integrity or independence. Virtually all of the legal entities and courts outside Russia have ruled against the Russian government, generally finding the cases lack in legal merit and being political in nature. Little wonder Mr. Khodorkovsky is already a condemned man. Hardly anyone inside or outside Russia seriously believes he will receive a fair and just trial.

Since his arbitrary arrest last fall by masked gunmen and detention, Mr. Khodorkovsky has been subjected to numerous violations of his due process rights. The Kremlin has directed the case against him for purposes that are widely seen as political, not criminal. Indeed the case is being held in the notoriously corrupt Basmanny Court, which is controlled by Kremlin and Russia security forces. His corporate and lawyers' offices, foundations, daughter's school have been repeatedly searched without warrant or warning.

The relentless attacks on the YUKOS Company and efforts to cripple the once prominent and Western-oriented company raises questions about the true motives by the authorities involved. It is one thing to bring a case against Mr. Khodorkovsky and other officers in the company, depending on the charges brought against them. But clearly the Kremlin has other motives as well, not the least of which is to bring about a stake takeover or ownership of the once thriving private company.

Mr. Speaker, I draw the attention of my colleagues to Senate Res. 258, which expresses concern about the circumstances surrounding Mr. Khodorkovsky's case, and which has passed the full Senate.

My second concern has to do with state ownership and control of the media in Russia. Under President Boris Yeltsin, privately owned and independently operated media began to take root and for the first time citizens of that country could read and view objectively reported news and even criticism of government officials, even the president himself.

The vanguard of this new era was Mr. Vladimir Gusinky, an entrepreneur who had the genius of a William Randolph Hearst and the resources to build a media empire worthy of any in the West. However, Boris Yeltsin's successor had no tolerance and certainly not the temperament to allow any criticism of him or his politics.

The result, as we have seen in subsequent events, was predictable. An angry Vladimir Putin, utilizing extralegal means, forced a shutdown of Mr. Gusinsky's media outlets, save one—the prominent and popular NTV television station, which was taken over by the state-owned Gazprom and has been under Kremlin influence ever since. Just a few weeks ago, the one newscaster on NTV who dared to lightly criticize government officials was sacked on orders from intelligence agencies inside the Kremlin. Mr. Leonid Parfyonov, a popular host of a Sunday-night political news program and one of the most independent voices in Russia, apparently crossed over the line on the Kremlin-directed censorship.

I was personally well acquainted with Mr. Gusinsky, who today operates a media conglomerate in Israel. Not only did he lose his media businesses in Russia, but he suffered personal hardship and humiliation. President Putin ordered raids by masked gunmen on his business headquarters and the arrest and detention in Moscow's infamous Butyrskaya prison, and eventually forced him into exile. Since then Russian authorities have sought his extradition by way of requests to Interpol, and the courts of Spain and Greece. In every single case, the requests were denied for lacking in legal merit and being political in nature.

Finally, I would like to address the issue of expropriation of property. There is little secret that many of Russia's crown jewels, its natural resources, were acquired by individuals during the privatization that occurred in the early 1990s. Whatever the circumstances and the controversial amounts that were paid for these acquisitions, they were conducted within the laws that existed at the time. Yet there are recurring threats, some outright as in the case of YUKOS and others implied, that the government may renationalize these assets.

This poses several disturbing questions. One, of course, is the overall affect on direct foreign investment in the country. At the moment, Russia's economy is performing well only because of the sizable revenue that is pouring in from the exportation of energy, primarily oil and gas. Foreign investment and Western business cooperation, which is necessary if Russia is to truly develop its industrial and exporting sectors, will be jeopardized if the Kremlin-directed assaults on these enterprises is allowed to continue.

Other questions concern the Russian government's official position with regard to these privatized businesses, most of which are in the resource-based sectors. At the moment, the government policy is, if anything, arbitrary and unpredictable, if not outright threatening to the privatized companies involved. At best, President Putin has sent conflicting messages by making reassuring statements, on the one hand, while authorizing contrary actions on the other.

A case in point is the SPI Group, which acquired production and distribution rights to Russia's most famous vodka trademarks (including Stolichnaya). In 1997, a group of investors, headed by Mr. Yuri Shefler, bought the rights to 43 Russian vodka brands from the original investors who acquired the production and trademark rights during the privatization of this and other resource-based sectors. They assumed a $50 million debt and promptly invested another $20 million, and today it is a well managed and successful business.

SPI Group has registered the trademarks for its vodka brands in more than 150 countries. It has a 10 year distribution deal with Allied Domecq in the United States and equally well established distributors throughout Europe. Yet the Russian authorities, principally Rospatent and the Ministry of Agriculture, have aggressively challenged the SPI Groups rights inside Russia and elsewhere, and while court rulings have been mixed in Russia they have been uniformly in favor, of the SPI Group outside the country. Among the more prominent cases, ruling in favor of the SPI Group, occurred in Germany, a Rotterdam decision affecting the Benelux countries, France, and more recently in Kazakhstan.

Mr. Speaker, what I have recounted here is limited simply because there is no time to go on further. But it underscores the disturbing trends in Russia today.

I have always counted myself as a friend of Russia and have expressed on many occasions my gratitude for the huge sacrifices made by the people of the country to halt the march of Nazism in Europe. It greatly saddens me, therefore, to witness the unraveling of democratic freedoms in that country today. The Russia democracy Caucus, cochaired by CHRISTOPHER COX and myself, is fully committed to helping guide Russia through this period so that it can be counted among the truly great democracies of the world.

Mr. Speaker, in conclusion to this discussion of concerns about the rule of law and related problems, there is an urgent humanitarian issue that I want to bring to your attention. That is the grave medical condition of Mr. Platon Lebedev, a prominent businessman who, along with his partner, Mr. Mikhail Khodorovosky, is in detention under rather inhuman conditions in Moscow. The gravity of Mr. Lebedev's deteriorating health and the absolute neglect of his condition by the Russian authorities demands international outrage and it underscores why I, along with many of our colleagues, have asked for this time on the floor today.

Last week, a dozen of the leading human rights activists in Russia representing major human rights groups issued a statement critical of the treatment by Russian authorities of Platon Lebedev, the head of Group Menatep, the parent company of YUKOS Oil.

Mr. Lebedev has been detained and jailed for nearly a year and has not been allowed to have an independent medical examination or treatment, despite the fact that credible Russian and foreign experts have confirmed that he has severe and life-threatening ailments. In fact Mr. Lebedev was originally taken into custody from a hospital bed and in December 2003 had to have an ambulance take him from a court hearing.

Russian human rights activists point out that the denial of appropriate medical attention violates several articles of Russian law that indicate that detainees may receive medical treatment at medical establishments should this be required by the detainees condition. It is clear that Russia is not only violating universal human rights and the rule of law but their own laws.

Let me read a quote from the recent statement:

> It is out conviction that in order to protect the sacred human rights—the right to live and the right to a fair trial—the court must change the custodial restraint for Platon Lebedev to a format that does not involve prison detention so that an independent medical examination and full-fledged treatment can be provided immediately.

Mr. Speaker, the treatment of Platon Lebedev is clear evidence that the Russian legal system is broken.

Mr. Speaker, I am submitting for the RECORD a series of articles and extraneous material on the lack of the rule of law in Russia. These articles are from the Washington Post, the Wall Street Journal, and the International Herald Tribune.

SAME OLD RUTHLESS RUSSIA

(By Michael R. Caputo)

American journalist Paul Klebnikov was shot to death outside my office building on Friday. At least it used to be my office. I worked with Klebnikov, Forbes magazine's maverick correspondent, several times in the past 10 years, sometimes in Moscow, sometimes in New York. Our paths crossed often through one of Russia's wildest decades.

Eight years after we first met as he covered Boris Yeltsin's 1996 presidential election, his murder brings clarity: Nothing has changed. Brutal criminals still run amok in Russia, operating with impunity and no fear of prosecution.

Klebnikov had high hopes for Russia and was determined to urge democracy along. He grew up in the United Sates, cradled in the close-knot Russian American community; his Russian skills were perfect and his devotion to the culture ran deep. He blossomed in journalism just as the communist bloc crumbled, and his unique understanding of "the story" in the region propelled his career.

As we toured the Russian countryside eight years ago, he talked to peasants waiting in line to vote and grilled me with questions, too. Had I run across billionaire Boris Berezovsky in my work with the Yeltsin administration? I hadn't. Klebnikov had recently been scratching the surface of Berezovsky's brazen get-rich-quick schemes. He was convinced there was much more to the oligarch. He was in town to investigate him as well as to cover the elections.

Berezovsky was one of several superwealthy men who had back doors to Yeltsin's Kremlin. His popularity waxed and waned, but as he amassed wealth he gained unparalleled power. Experienced expatriates in Russia shared an essential rule: Don't cross these brutal billionaires, ever, or you're likely to go home in a box.

Klebnikov knew this well. In Russia the mafia kills every day. He knew Paul Tatum, the Oklahoma entrepreneur who ran afoul of Moscow's mafia and was shot dead just a few hundred yards from a hotel he had founded and had fought against Mayor Yuri Luzhkov to control. After Tatum's murder. Hizzoner promised swift justice. We're still waiting.

Tatum had led a loud life in Moscow. Klebnikov told me he knew Tatum's battle with city "authorities" was never a sound strategy for survival. The Tatum murder shook him, but he was determined to go forward with what grew into a series of articles exposing Russian corruption. After all, he was a reporter, not a businessman.

As a journalist, Klebnikov was the real deal. He was based in New York through the 1990s but had more contacts in Moscow than most reporters on the ground full time.

During his frequent trips to the region he accomplished more meetings before lunch than many of us could pull off in a week.

Klebnikov listened as intently to the griping of a pensioner as he did to the drone of politicians. He was quick to the point, wasted no time, and drove to the center of his story like a tank. Some thought he was bold, others thought him brash, but everyone was reading.

"Godfather of the Kremlin," his December 1996 Forbes cover story on Berezovsky, threw new light on the doings of Russia's oligarchs. The story grew into Klebnikov's first book, with the same title, published in 2001. The exiled industrialist took the magazine to court in London, and eventually Forbes recanted accusations of violence. Those of us who lived in Moscow during Berezovsky's heyday still believe.

His follow-up stories on Russian industrialists were always fair and thorough, but he didn't make many friends in the country. Soon after Vladimir Putin stepped into the presidency, Klebnikov and I met in New York. I told him he needed to watch his back with so much change afoot. He shrugged and said he was uniquely positioned to get to the heart of corruption in Russia. "Who else is going to do it?" he asked. I had no answer.

When Forbes announced Klebnikov would lead its new Russian publications and relocate to Moscow, I immediately feared for his safety. A few months later he was dead. I think about him, sprawled bleeding on the sidewalk, coughing his final words to a reporter colleague who found him dying.

Russia hasn't changed in the past decade and at this trajectory it won't be truly civilized for generations. Those who killed Klebnikov are killing today, plan to kill tomorrow, and know they'll roam free to kill for years to come. Hellbent on getting rich, they have no boundaries. Raised in a communist world devoid of morals, they have no soul.

There is no valid reason why a nation so tolerant—even complicit—in organized crime should stand on par with world leaders in groups such as the World Trade Organization. Putin must stand as the guarantor of media freedom. And the Bush administration must demand results in this murder investigation and require the assassins and their bosses be detected, arrested, tried and punished to the fullest extent of the law.

Or will it let Paul Klebnikov, like Paul Tatum, be just another footnote in Russia's disingenuous flirtation with world-class rule of law? We're waiting.

Lawless Russia

The murder of Forbes Russia Editor-in-Chief Paul Klebnikov on a Moscow street Friday night was the most dramatic display yet of the lawlessness that has Russia in its grip. Prosecutor General Vladimir Ustinov says he has taken "personal control" of the case, a suggestion that the Russian state is finally conscious of its bad image in the world. But under its present leadership, the state is itself an important part of the problem.

The 41-year-old Mr. Klebnikov was a brilliant journalist and student of Russian history. He had written for our pages several times, most recently last November when he argued that the arrest of Russia's richest businessman, Mikhail Khodokovsky, was a blow against the "kleptocracy" that had enriched itself with state assets under Boris Yeltsin's privatization program.

He knew a lot about the subject, having written a controversial 2000 book, "Godfather of the Kremlin," about one of the leading Russian oligarchs, Boris Berezovsky, In the May issue of Forbes Russia, Mr. Kelbnikov broke the news that Moscow has more dollar billionaires than New York City.

The magazine, licensed by Forbes of the U.S. and published by the German Axel Springer organization, published the names of Russia's 100 richest business leaders, giving them the sort of attention many don't welcome. Mr. Klebnikov was not afraid to make powerful enemies in the interest of honest journalism.

In a recent book, "Darkness at Dawn," David Satter, a former Journal Moscow correspondent, wrote that Russia has been taken over by a criminal elite in which gangsters, business and corrupt officials work together. The result is a climate of fear and public cynicism. The collapse of communism, with its history of state-sponsored violence, left a moral vacuum that persists in a different form. Some of the modern thugs got their training with the Soviet secret police.

The Committee to Protect Journalists, which records attacks on journalists throughout the world, cites Russia as a special problem. Attempts to shut up the press have been made by the Federal Security Bureau, formerly the KGB. Russian President Vladimir Putin, who has systematically seized control of Russian TV, retains some of the habits he developed when he himself was a KGB functionary.

Yet Mr. Putin is welcomed to international parleys, such as G–8 meetings, as if he were the leader of a normal country. The murder of Paul Klebnikov demonstrates that Russia is not a normal country. Perhaps it's time for the leaders of free democracies to ask Mr. Putin whether the rule of law exists in Russia.

Russian Government Begins Seizing Yukos Assets

(By Peter Baker and Susan B. Glasser)

Moscow, July 7.—The Russian government moved Wednesday to begin seizing assets of Yukos Oil Co. in the culmination of a politically charged tax battle that could either bankrupt or break up the country's largest oil producer.

Court marshals accompanied by special police forces raided the company's registry office in Moscow at the end of the business day to search for ownership documents for various Yukos properties. The marshals were enforcing last week's court judgment giving Yukos a Wednesday deadline to pay a $3.4 billion back tax bill.

Yukos said this week that it had no more than $1.4 billion in cash and could not pay the full charge in time without an installment plan. Yukos reportedly offered to turn over some or all of the controlling stake owned by the company's imprisoned chief shareholder, Mikhail Khodorkovsky, and his partners, but all attempts at negotiations appeared to have failed so far.

"The debtor was given a five-day deadline for voluntary execution, after which the court bailiffs service of the city of Moscow began to enforce the court decision," the Russian Justice Ministry said in a statement carried by the Interfax news service after the raid began.

The ministry statement immediately threatened a new criminal investigation and obstruction charges against officials at Yukos' registry for allegedly trying to avoid cooperating with the marshals who arrived at their building.

Authorities can seize the company's assets and either keep them to satisfy the tax debt or sell them off. But it is possible they were not able to find the right documents at the office of the registry, a firm called Reyester-M. Yukos said registry documents of its subsidiaries in Siberia and along the Volga River were transferred last week after the court ruling, apparently to those regions.

The confrontation stems from a year-long power struggle between Khodorkovsky and President Vladimir Putin. Khodorkovsky is a brash former communist youth league leader who bought Yukos at bargain-basement price during the privatization auctions of state property during the 1990s. He built the company into a major international player and himself into Russia's richest man.

But he angered some in the Kremlin with his outspoken political activities and soon found himself and his company under legal threat. Khodorkovsky was arrested at gunpoint last October and remains in prison awaiting trial on fraud and tax evasion charges, while the federal tax service has hit Yukos with two tax bills from 2000 and 2001 adding up to nearly $7 billion. The country's chief prosecutor said Tuesday that more bills from 2002 and 2003 were still to come.

The situation endangers a company that pumps more oil than Libya and accounts for one-fifth of foreign petroleum sales by Russia, the world's second-largest oil exporter. The latest figures published by brokerage houses Monday showed that Yukos produces 1.7 million barrels a day, surpassing its own records and every other Russian oil company.

Bruce Misamore, the company's chief financial officer, said Tuesday that production had not been disrupted yet and that the company has prepaid transport and other fees to keep shipping oil until at least the third week in July. The bank accounts frozen so far have just $20 million in them, he said. Misamore met Tuesday with representatives of Western banks that declared Yukos in default on a $1 billion loan and they have not demanded payment yet.

Misamore said the government abruptly halted secret settlement discussions last week and has not been willing to compromise. "We're just trying to make our best efforts to reach a resolution to the situation," Misamore told a conference call with investors. "But first they've got to talk to us."

The Financial Times reported that Yukos sent a fresh proposal to the government Tuesday, offering some or all of Khodorkovsky's shares in exchange for a three-year payment plan. Prime Minister Mikhail Fradkov's office denied receiving any written proposal, and a Yukos spokesman said it sent no letter, however, he would not say whether the idea was floated in some other form.

Prosecutor General Vladimir Ustinov, who imprisoned Khodorkovsky, expressed little sympathy for what he sarcastically called "poor Yukos" and doused hopes for a deal. "This is like a snowball," he said on Echo Moskvy radio Tuesday. "This case has a beginning, but it's very difficult to see its end."

He asserted that the company should have no trouble paying the tax bills even though the government obtained a court order freezing its assets. "The profits that Yukos made could easily pay the company's debts," he said.

The case drew international criticism this week for the politicization of Russian business and courts. "The so-called 'Yukos case' reflects these problems," the Paris-based Organization for Economic Cooperation and Development, said in its annual report on Russia, released Wednesday. "Whether the charges against the company and its core shareholders are true or not, it is clearly a case of highly selective law enforcement."

A senior U.S. diplomat said Tuesday that the case is "raising fundamental questions in the minds of many investors." There are "increasing signs that destruction of the company is the intended endpoint," he said. "At a minimum," he added, it's "an extraordinary game of brinkmanship" akin to a game of chicken with two cars racing toward a cliff and "they're getting very close."

In his analysis, the diplomat said, it appears likely that a "sizable percentage of the company's assets [will] move into the hands of the state."

Russia on Trial

The Russian government's fraud and tax evasion case against two billionaires, Mikhail Khodorkovsky and Platon Lebedev, opens Wednesday in a Moscow court. The trial has already attracted enormous attention; the extraordinary fortunes of the two defendants, and the parallel struggle for survival of the oil company that made them rich, Yukos, has turned this case into a microcosm of the struggles that are shaping the new Russia. Much depends on the outcome, not least how investors will look at Russia in the future. In effect, it is Russia and the rule of law that go on trial.

Khodorkovsky, to be sure, is not the model, philanthropic businessman his supporters make of him. Like all the other so-called oligarchs, he made his billions in the dirty plunder of Russia's riches in the chaotic aftermath of the Soviet Union's disintegration. But neither is President Vladimir

Putin the champion of civic virtue he would have us see. If tax evasion were the real issue, every oligarch, and most every Russian, would be in the dock. And even if Putin needed to pillory a couple of oligarchs to set an example, there are far more unsavory examples to go after. Khodorkovsky at least turned Yukos into a globally admired, relatively transparent business.

To all appearances, Putin is leaning on the judiciary to settle scores with tycoons who dared show an interest in politics. In this regard, Khodorkovsky, who has contributed generously to reform-minded parties, is only Putin's latest target, following in the footsteps of Boris Berezovsky and Vladimir Gusinsky, two Russian tycoons now residing in exile.

Equally ominous, in pushing Yukos to the brink in a parallel tax-avoidance case, Moscow has raised fears that it is trying to bring Russia's natural resources back under direct state control. Last Friday, the government was able to remove a judge from the case who seemed open-minded in considering an appeal by Yukos.

We do not argue that all oligarchs should go scot-free. No state can tolerate enterprises operating above the law. But at play here is a different danger, of a state capriciously and selectively applying laws to suit its political interests.

Russia's judiciary faces an unenviable challenge in tempering excess prosecutorial zeal, without endorsing blanket immunity for past misdeeds. In the end, the critical question is not whether the court finds the two men guilty or not, but whether it succeeds in demonstrating that it has delivered justice. Russia's courts have shown themselves sadly subservient to the government so far. Most Russians expect that they will continue down this familiar road, rubber-stamping the government's charges until Khodorkovsky and Lebedev are found guilty.

For the sake of Russian democracy, the judiciary needs to declare its independence. Courts in such high-profile cases can do so in the way they handle the objections and arguments of the defense, in the way they rule on the crude methods of the investigators and in the way they separate the political demands of the Kremlin from the legal facts of the case. Given Russia's past, few things could be more corrosive to democracy than a show trial.

We do not argue that all oligarchs should go scot-free. No state can tolerate enterprises operating above the law. But at play here is a different danger, of a state capriciously and selectively applying laws to suit its political interests.

Mr. CHANDLER. Mr. Speaker, last March, I had the opportunity to meet with human rights groups, legal experts, media representatives, and others concerning the situation on the ground in Russia. I learned firsthand that Russia is enduring a difficult transition to what hopefully will become a modern, fully democratic nation. While there have been many positive developments in Russian society over the past decade, particularly with regard to the freedoms that average Russian citizens now enjoy, there are disturbing signs that Russia under President Vladimir Putin may be slipping back to its old authoritarian ways.

My primary concern is with the rule of law. Prior to coming to Congress, I served for eight years as the Attorney General of Kentucky. I understand that there are inherent principles in any constitutional democracy, chief among them the rule of law. Recent events have called into question Russia's unequivocal commitment to a transparent judicial system, defendants' rights, and the presumption of innocence within the Russian legal system.

As we speak, there is a major trial taking place in Moscow. It concerns the controversial arrest and detention of prominent Russian businessman Mikhail Khodorkovsky. The case of Mr. Khodorkovsky has raised concerns from legal experts, human rights groups, and the media that his trial may have more to do with his opposition to President Putin's policies rather than the crimes for which he is accused.

The most disturbing element of Mr. Khodorkovsky's trial is that it may signify a reassertion of state influence over Russia's private sector economy. Such a move by the Russian government, I fear, would raise questions about the state of property rights in Russia, discourage foreign investment, and slow progress towards Russia's full integration into the global economy.

Mr. Speaker, the U.S. must continue to deliver the message that adherence to the rule of law and support for political and economic freedom is essential to developing successful free-market economies and prosperity. As I mentioned earlier, Russia is truly at a crossroads in its history. I urge my colleagues to work with me to convince Russia to choose the path of transparency, adherence to the rule of law, and a commitment to the security of private investment.

Mr. SMITH of New Jersey. Mr. Speaker, I thank the distinguished gentleman from California for requesting this time to discuss rule of law in Russia. Not only is this an issue of great importance to the citizens of Russia but

U.S.-Russia relations are affected by the regard given to this critical component of democratic and civil society.

I have the privilege of serving as chairman of the Commission on Security and Cooperation in Europe, commonly known as the "Helsinki Commission," an independent agency of the United States Government charged with monitoring and encouraging compliance with the Helsinki Final Act of 1975 and subsequent documents of the Organization on Security and Cooperation in Europe. The fate of rule of law in Russia, an OSCE member, will determine to a great degree the future of the Russian state and its role in the world community.

With the collapse of the Soviet Union in 1991, Russia moved from an authoritarian police state under communist rule to a sovereign nation with democratically elected leadership and many of the civil liberties that we in this country take for granted. We were encouraged by those positive and historic steps. On paper at least, there have been significant reforms designed to bring the Russian political and legal system into conformity with the accepted norms and practices of the United Nations, the OSCE, the Council of Europe, etc.

In recent years, though, the Putin government has undermined these reforms. In its Nations in Transit 2004 report, Freedom House sums it up: "Russia is backsliding in key areas of democratic governance and rule of law."

Two months ago, on May 20th, the Hensinki Commission held hearings on the issue of human rights in President Putin's Russia. One of our distinguished witnesses, Mr. Gary Kasparov, chairman of the Free Choice 2008 Committee in Russia and world-famous chess champion, spoke with passion about restrictions on freedom of speech in the electronic media, a process that we see continuing today.

In the area of rule of law per se, we are also seeing some disturbing moves against individuals who have apparently offended the powers-that-be in the Kremlin or the intelligence apparat.

The first case is that of industrialist Mikhail Khodorkovsky, former head of the Yukos Oil Company. Mr. Khodorkovsky's arrest on charges of fraud and tax evasion has received a lot of publicity. I don't claim to know whether Khodorkovsky is guilty or innocent, but this appears to be very much a case of selective justice. His real crime seems to have been, as David Satter wrote in the Wall Street Journal last week, that he "had demonstrated independence, and, by financing opposition political parties, had contributed to political pluralism."

Will Khodorkovsky get a fair trial? Let me jut quote from a report by the Organisation for Economic Cooperation and Development: "The courts are often subservient to the executive, while the security services, the prosecutors and the police remain highly politicized . . . the so-called 'Yukos case' reflects these problems." As if to confirm the OECD assessment, officials at the Matrosskaya Tishina prison confiscated documents from one of his lawyers after she met with her client.

Another case is that of Dr. Igor Sutyagin, a Russian scientist who was sentenced to 15 years of labor camp for espionage, i.e., passing military secrets to British intelligence agents. Sutyagin never denied that he had worked with foreign scholars or that he shared previously published material with them. Indeed, Federal Security Service (FSB) agents never found evidence of any classified documents in his possession, and he had neither security clearance nor access to classified material. However, the FSB and the court came to the conclusion that Sutyagin's research was so accurate that he must have used classified documents to draw his conclusions. Think of it: one may be imprisoned for espionage for being too competent an analyst in military-security issues.

Deputy Assistant Secretary Steven Pifer of the State Department has testified before the Commission that "most observers agree that [Sutyagin] had no access to classified information and consider the severe sentence an effort to discourage information-sharing by Russians with professional colleagues from other countries."

The final case I would mention in this brief presentation is that of Mikhail Trepashkin, an attorney and former FSB officer who was arrested on October 24, 2003, a week before he was scheduled to represent relatives of a victim who perished in an apartment explosion at a trial in Moscow. At the trial, Trepashkin was expected to present the findings of his investigation which implicated the FSB in the 1999 apartment bombing in Moscow and the aborted attempted bombing of Ryazan.

A week before the trial opened, the police just happened to pull Trepashkin over on the highway, and just happened to find a revolver in his car. Trepashkin claims the gun was planted, a venerable KGB tactic. Three weeks later, he was put on trial and sentenced to four years labor camp for allegedly divulging state secrets to a foreign journalist.

I don't know all the details of this case, but it has the whiff of the proverbial mackeral by moonlight. It is very possible that Trepashkin was arrested in order to prevent him from releasing potentially damaging information regarding the activities of the FSB.

These are just few examples of the challenges to rule of law and human rights that Russia is now experiencing under President Putin. Let us hope that he will soon realize that the way to a genuinely stable and prosperous society is paved with rule off law and civil society, not the high price of crude oil.

Mr. DOGGETT. Mr. Speaker, the Khodorkovsky/Lebedev trial resumed on Monday last week before a three judge panel in Moscow. Since the last hearing three weeks ago, the physical appearance of the court was much improved: the courtroom had been air conditioned and the halls outside had been refurbished and painted.

Appearances are important, but substance is critical.

Respect for the rule of law in Russia is essential for the same reason it is essential in every democratic society—citizens, the press, and the business community must have confidence that the legal system affords them protection of their rights and that everyone is treated equally under that law.

In Russia there is a pattern of troubling signs that the rule of law and a free press are threatened. I know a number of my House colleagues share these concerns. Members of the Congressional Human Rights Caucus, the Helsinki Commission, and the Russia Democracy Caucus are just some of those who have expressed their misgivings.

One high profile example of concern is the seizure of the assets of Russia's largest oil company, YUKOS, and the trial of two of YUKOS's largest stockholders, Mikhail Khodorkovsky and Platon Lebedev.

Many Russian and Western observers view the Russian Government seizure of the assets of YUKOS as a result of political motivations.

Here are just a few recent statements on these events:

On July 7, the Washington Post quoted a senior level U.S. diplomat as saying "there are increasing signs that destruction of the company is the intended endpoint," and that it appears likely that a "sizeable percentage of the company's assets will move into the hands of the state."

On July 7, the Organization for Economic Cooperation and Development (OECD) called the YUKOS affair "a case of highly selective law enforcement" and a case that reveals how "the courts are often subservient to the executive, while the security services, prosecutors and police remain highly politicized."

What is now occurring in Russia has significant human, political, and economic consequences. Justice, freedom, and human rights are all directly tied to the rule of law, open and accountable government, and a free press, which are increasingly absent in Russia.

There are several disturbing trends that demonstrate problems with the rule of law in Russia.

The general prosecutor and courts cannot be merely an extension of the political will and agenda of the Kremlin. In his visit to Moscow earlier this year, Secretary of State Colin Powell was unambiguous in his concern over the rule of law in Russia, saying "Russia's democratic system seems not yet to have found the essential balance among the executive, legislative and judicial branches of government. Political power is not yet fully tethered to the law."

Furthermore, the selective and arbitrary use of judiciary power by the Kremlin undermines the rule of law.

Mikhail Khodorkovsky, as many observers have noted, shows how a businessman has been singled out for prosecution because his political activities are not appreciated.

Journalist German Galkin was thrown into jail and prosecuted for revealing the corrupt behavior of local government officials. His appeal was denied and he was only freed under the weight of international pressure.

Aleksandr Nikitin is a former submarine officer and nuclear safety inspector who was pursued relentlessly through the courts by the Russian security service in retaliation for his outspokenness about radioactive contamination by the Russian military. These rulings bear out what prominent legal experts have been saying about the flawed legal system in Russia.

More recent events in Russia threaten a free press, an essential element of any strong democracy.

We do not know who murdered Paul Klebnikov, the editor in chief of Forbes Russia, who was writing the truth about Russia's dark underside, but the government must insist on a thorough, open, and full investigation of his killers. As one observer noted in the New York Times, "Twenty journalists have now been assassinated in Russia for their work; 14 since Mr. Putin became president. Not one of the murders has been solved."

A crackdown of media freedom has resulted in all major TV networks under state control. The last independent TV station disappeared last summer. TV is the number one way Russians get their news.

If Russia continues down this path, she will never fully become the peaceful and democratic nation that the Russian people and the international community desire. It is essential that Russia undertake a sincere effort to reform its judicial system and establish the highest degree of credibility for the rule of law and free press, which are essential for a prosperous and peaceful Russia.

Mr. WOLF. Mr. Speaker, as co-chair of the Congressional Human Rights Caucus I continue to be concerned that Russia has significant problems in honoring the universal human rights standards that are widely accepted in many parts of the world. Russia aspires to be a leading force on the world economic and political scene, but it is failing to respect some of the fundamental and universal principles of the rule of law, human rights and freedom of speech and expression.

I am concerned about freedom of expression in Russia, given the fact that the Russian government's commitment to independent and free media, freedom of assembly, and religious freedom appear to be wavering. In fact, Russia's last major non-state television station was eliminated in 2003 as a result of government pressure. This is a disturbing trend which is in stark contrast to the value placed on freedom of speech by other democracies around the world.

Earlier this year the State Department released its annual Country Reports on Human Rights Practices, which included documentation of many abuses. Serious violations of basic human rights in Chechnya were highlighted including unlawful killings, abuse of civilians and Chechen fighters and politically motivated disappearances. The report also mentioned that the December 7, 2003, Duma elections failed to meet international standards. Factors undermining party competition included criminal charges and threats of arrest or actual arrest against major financial supporters of opposition parties and the seizure of party materials from opposition parties.

I remain concerned that Russia is named in the State Department's annual report on trafficking in persons as a tier two country and this year was placed on the tier two "special watch list." Trafficking in persons is an evil that must be directly confronted and ended. Countries that fall under the special watch list have high numbers of trafficking victims and fail to provide evidence of increasing efforts to combat severe forms of trafficking from the previous year. Russia is named as the largest source country in Europe for trafficking and is a significantly large transit country. It is my hope that the Russian government will acknowledge the extent of its trafficking problem and play a more active role in ending trafficking in the region.

I also am concerned that Russia still does not fully accept or encourage religious freedom. The 2004 annual report on religious freedom by the United States Commission on International Religious Freedom states about Russia:

"A federal law on religious organizations enacted in 1997 contains provisions that have prevented some religious groups from registering and thus practicing freely. Regional governments have often passed ordinances that result in discrimination against minority religious groups, and acts of violence against members of religious minorities are widespread.

"In the past few years, however, trends have emerged that have raised serious questions about Russia's commitment to democratic reform and protection of religious freedom. Russian authorities have denied registration efforts of certain religious communities, based on the allegedly insufficient time they have existed, despite a February 2002 Russian Constitutional Court decision that found that an active religious organization registered before the 1997 law could not be deprived of its legal status for failing to re-register. The government has meddled in the internal affairs of religious communities, including the Jewish and orthodox Old Believer communities."

The U.S. Congress must speak out about human rights abuses around the world. It is my hope that Russia will begin to encourage religious freedom, crack down on trafficking in persons and comply with international standards on human rights.

I would like to submit for the RECORD an article from The Wall Street Journal, highlighting the concern for the lack of rule of law in Russia.

LAWLESS RUSSIA

The murder of Forbes Russian Editor-in-Chief Paul Klebnikov on a Moscow street Friday night was the most dramatic display yet of the lawlessness that has Russia in its grip. Prosecutor General Vladimir Ustinov says he has taken "personal control" of the case, a suggestion that the Russian state is finally conscious of its bad image in the world. But under its present leadership, the state is itself an important part of the problem.

The 41-year-old Mr. Klebnikov was a brilliant journalist and student of Russian history. He had written for our pages several times, most recently last November when he argued that the arrest of Russia's richest businessman, Mikhail Khodorkovsky, was a blow against the "kleptocracy" that had enriched itself with state assets under Boris Yeltsin's privatization program.

He knew a lot about the subject, having written a controversial 2000 book, "Godfather of the Kremlin," about one of the leading Russian oligarchs, Boris Berezovsky. In the May issue of Forbes Russia, Mr. Klebnikov broke the news that Moscow has more dollar billionaires than New York City.

The magazine, licensed by Forbes of the U.S. and published by the German Axel Springer organization, published the names of Russia's 100 richest business leaders, giving them the sort of attention many don't welcome. Mr. Klebnikov was not afraid to make powerful enemies in the interest of honest journalism.

In a recent book, "Darkness at Dawn," David Satter, a former Journal Moscow correspondent, wrote that Russia has been taken over by a criminal elite in which gangsters, businesses and corrupt officials work together. The result is a climate of fear and public cynicism. The collapse of communism, with its history of state-sponsored violence, left a moral vacuum that persists in a different form. Some of the modern thugs got their training with the Soviet secret police.

The Committee to Protect Journalists, which records attacks on journalists throughout the world, cites Russia as a special problem. Attempts to shut up the press have been made by the Federal Security Bureau, formerly the KGB. Russian President Vladimir Putin, who has systematically seized control of Russian TV, retains some of the habits he developed when he himself was a KGB functionary.

Yet Mr. Putin is welcomed to international parleys, such as G–8 meetings, as if he were the leader of a normal country. The murder of Paul Klebnikov demonstrates that Russia is not a normal country. Perhaps it's time for the leaders of free democracies to ask Mr. Putin whether the rule of law exists in Russia.

Mr. INSLEE. Mr. Speaker, I would like to share with my colleagues information that raises serious concerns about the development of a free-market system in Russia. Many of my constituents who develop products such as software and biological drugs rely on the enforcement of strong intellectual property rights laws and copyright protection, and therefore have an interest in ensuring that countries such as Russia maintain fair and enforceable laws in this regard. For this reason, there is cause for concern regarding the Russian government placing significant pressure on SPI, the company that produces the Stolichnaya beverage, in an effort to reclaim the intellectual property rights of its brands. Stolichnaya, nicknamed Stoli to many Americans, is one of many brands of production the Russian government is attempting to reclaim from SPI in the wake of the privatization of other beverage companies in the 1990's.

I am concerned about the implications of such actions on international global property rights, Russia's potential WTO and G–8 membership, and the direction of Russian Democracy and rule of law. This case is emblematic of a general situation and is part of a pattern of disrespect for the rule of law that has unnerved foreign investors who are concerned about long-term economic, legal and political stability of Russia. If we are to hope to crack down on the copyright infringements on software produced in the Puget Sound, I believe that proper enforcement of this issue is an important step.

I would like to offer my colleagues some background on SPI and its issues.

SPI is a Dutch-based company that owns the trademark rights to a large number of beverage brands including Russia's most famous brands, Stolichnaya and Moscovskaya as well as Russkaya and Limonnaya. It is my understanding that the SPI Group acquired the rights for these trademarks by means of buying out the minority shareholders of a Russian company, which owned the above-mentioned trademarks worldwide and was privatized between 1990–1992. It also assumed a $50 million debt that was inherited by the previous owner from its state-owned predecessor. SPI has since invested another $100 million to develop into a successful international competitor.

The SPI Group has registered the trademarks for the 43 brands in more than 150 countries. It has a 10-year distribution deal with Allied Domecq in the U.S. as well as a distribution deal with First Drinks in the UK and Bacardi in Greece. Last year, SPI recorded sales of $680 million. This success, however, has merely brought the company to the forefront of the debate over who owns these trademarks.

It is also my understanding that from 2000 onwards, certain entities within the Russian State have started various actions against SPI to obtain its trademark registrations.

In late 2001, in a case brought by the Russian State Trademark Organization, the Russian courts ruled that the original privatization of the company that owned the brand before SPI was invalid (on a technicality) and returned the rights for 17 brands controlled (now) by the SPI Group to the Russian Ministry of Agriculture.

Since then, SPI, while producing the product in Russia, has been forced to move its bottling plant to Riga in Latvia, after the Russian authorities seized and blocked its exports from the Russian port of Kaliningrad. Various heated legal battles have been fought in a number of Russian and foreign courts as SPI continues to sell Stolichnaya internationally. In Russia, a company resurrected by the Government markets its own Stolichnaya brand after confiscating back the trademark there.

On 4 March 2002, the Leninsk-Kuznetskiy City Court seemingly resolved the dispute by ruling that the Ministry of Agriculture had illegally registered 17 trademarks belonging to SPI, including the Stolichnaya trademark, and ordered that SPI be reinstated as the registered trademark owner.

However, Russian authorities ignored the Leninsk-Kuznetskiy City Court's ruling and employed intimidation and police-state tactics to grab the company's assets and trademark rights for its own purposes. Some examples of these tactics include:

The Government's Federal Security Service, in a letter dated March 5, 2002, ordering Kaliningrad Customs to prohibit bulk export of Stolichnaya produced by SPI in Kaliningrad.

The confiscation of more than 150,000 cases of SPI products seized in Kaliningrad along with related packaging material.

The filing of criminal charges levied against Audrey Skurikhin, president of SPI Spirits-Russia, and its Kaliningrad facility.

As a result of these events, it is my understanding that the Ministry of Agriculture currently produces these products in Russia with virtually identical labeling and uses libel and intimidation to force distributors and customers to stop doing business with SPI. In addition, the Russian Patent Agency gave the rights for the re-nationalized trademarks to the newly incorporated company of the Russian Ministry for Agriculture.

International courts have ruled in favor of SPI. Court rulings in October 2002 in Hamburg, Germany and May 2003 in Rotterdam, Netherlands, rejected the lawsuits brought against SPI, substantiating SPI's claims.

Mr. Speaker, in conclusion, the SPI case is about something larger and more fundamental for Russia and its relationship with the United States and other nations of the world—adherence to the rule of law and political, social and economic freedom. SPI is an example of the need to uphold the rule of law and ensure a better business environment for Russian business. A stable and democratic Russia, based on a rule of law, is critical to U.S. interests; not only for U.S. firms interested in doing business there, but also for the overall, long-term U.S.-Russia relationship. Many of my constituents depend on adherence to the rule of law and copyright protections to ensure that their products, particularly software and biotechnology, are not stolen. We should not let this SPI case set precedence or be a harbinger for software and other U.S. industries.

THE WORLD MUST ACT

The SPEAKER pro tempore. Pursuant to the order of the House of January 20, 2004, the gentleman from Virginia (Mr. WOLF) is recognized during morning hour debates for 5 minutes.

Mr. WOLF. Mr. Speaker, after visiting Darfur, Sudan, and seeing firsthand the horrific conditions and oppression, and I have here a picture of a camp that was burned down by the Janjaweed, but having seen the horrific conditions and oppression, and having talked to eyewitnesses, I believe genocide is taking place in Darfur.

The United States and others around the world said never again after the genocide in Rwanda. So now I call on the United States, the United Nations, and world leaders to call it what it is, genocide, and to take action before more die. We have the ability to prevent further deaths and to stop genocide in its tracks. Our actions should follow our words.

Amnesty International just released a new report. It documents hundreds of cases of women who have been raped in Darfur. To highlight one story, I quote:

"I was sleeping when the attack on Disa started. I was taken away by the attackers, they were all in uniform. They took dozens of other girls and made us walk for 3 hours. During the day, we were beaten. And they kept telling us, 'You, the black women, we will exterminate you, you have no God.' At night, we were raped several times. We were not given food for 3 days."

This story echoes the stories of rape that I heard when I was in Darfur. We were given a letter by 44 women who were raped. The translation is heartbreaking.

It said, and this was to Senator BROWNBACK and myself, "We are 44 raped women. As a result of that savagery, some of us became pregnant, some have aborted, some took out their wombs and some are still receiving medical treatment. Hereunder, we list the names of the raped women and state that we have high hopes in you and the international community to stand by us and not forsake us to this tyrannical, brutal, and racist regime, which wants to eliminate us racially, bearing in mind that 90 percent of our sisters at this village are widows."

Women are systematically raped on a massive scale. These are crimes against humanity. The overall situation constitutes genocide.

Despite promises to rein in the militia, the violence continues to escalate. Over the weekend, U.N. humanitarian agencies reported that local authorities and militia continued to loot convoys and gang rape women.

The United Nations Convention on the Prevention and Punishment on the Crime of Genocide describes genocide as acts committed with the intent to destroy, in whole or in part, national, ethnic, racial or religious groups. Specifically cited is:

Number one. Killing members of the group.

Thousands of black Africans have been killed. There are reports of mass graves.

Number two. Causing serious bodily or mental harm to members of the group.

One woman told us that the Janjaweed told her that she was being raped to create "lighter-skinned babies."

Number three. Deliberately inflicting on the group conditions of life calculated to bring about physical destruction in whole or in part.

It is clear that the eradication of the Darfurian African population will occur if people do not return to their homes.

Number four. Forcefully transferring children of the group to another group.

There are constant stories of the abduction of children.

No matter what we call it, Mr. Speaker, genocide, ethnic cleansing, crimes against humanity, people are dying on a massive scale, and that is not acceptable. What matters now is action.

The international community has a moral and a legal obligation to stop what is occurring, and those responsible must be brought to justice. The United Nations Security Council needs to take immediate action to end this crisis.

In closing, Mr. Speaker, a large peacekeeping force made up of troops in the African union is now needed to allow the Darfurians to return to their homes and to verify that the government of Sudan is disarming the rebels. We must remember that the government of Sudan armed the rebels. We need independent monitors to ensure that they are disarmed. We need monitors and forensic experts on the ground to preserve the evidence for a future war crimes trial.

Mr. Speaker, in closing, two points: Every day that we delay and hesitate, more people die. The United States must speak out loudly. We must not shy from calling it what it is: Genocide.

THE G-8 NATIONS MUST END HUNGER AND SUPPORT EDUCATION FOR ALL

The SPEAKER pro tempore. Pursuant to the order of the House of January 20, 2004, the gentleman from Massachusetts (Mr. McGOVERN) is recognized during morning hour debates for 5 minutes.

Mr. McGOVERN. Mr. Speaker, on June 7, I had the pleasure of participating in a press conference in Savannah, Georgia, to call upon the leaders of the G-8 nations to get serious and to work to end child hunger and support education for all.
